TAX DEFERRED SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 1 - Plan description:

The following brief description of the Global Risk Consultants Corporation Tax Deferred Savings Plan (the "Plan") is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of Global Risk Consultants Corp. and its subsidiaries Arise, Inc., International Risk Management (Americas), Inc. and ARISE Boiler Inspection and Insurance Company Risk Retention Group, (collectively the "Company"), who are age 20-1/2 years or older except labor union workers, citizens of Puerto Rico, leased employees or nonresident aliens with no source of income in the United States. The Plan provides participants with a salary reduction and deferral option pursuant to Section 401(k) of the Internal Revenue Code (the "Code") whereby they can save for their retirement through contributions to the Plan that, subject to certain limitations, are tax deferred. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

A participant may contribute up to 100% of his or her annual compensation to the Plan on a tax-deferred basis, subject to an annual limitation set forth in the Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. In addition, the Company may make discretionary contributions to the Plan. For the year ended December 31, 2009, the Company's contribution equaled 50% of the eligible employees' contribution up to 6% of their salary. Eligible employees are those employees who are not accruing additional benefits under the Company's defined benefit pension plan.

A participant may, with the consent of the Plan, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from other qualified savings plans in which employees participated prior to their employment with the Company.

Participant accounts:

Each participant's account is credited or charged with the participant's contributions, the Company's discretionary contributions and allocations of the Plan's earnings or losses. Allocations are based on participant earnings or account balances, as defined.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

TAX DEFERRED SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 1 - Plan description (concluded):

Vesting:

Participants are 100% vested in their voluntary contributions plus the earnings thereon at all times. Vesting in the Company's discretionary contributions plus actual earnings thereon is based on years of credited service. A participant is 100% vested after six years of credited service, or immediately upon retirement.

Forfeited accounts:

At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$13,607 and \$9,311, respectively.

Forfeitures of nonvested benefits will be used to reduce Plan expenses and contributions by the Company. During 2009, there were no forfeitures used to reduce Company contributions.

Distributions:

Participants are entitled to distributions of their vested benefits upon retirement, death, disability, termination of employment or termination of the Plan. Distributions on account of death may be taken in whole or in part at the election of the beneficiary, as defined by the Plan. Upon separation from service other than death, the entire vested account balance is distributed to the participant when requested by the participant in one lump sum payment.

Note 2 - Summary of significant accounting policies:

Basis of presentation:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment in the common/collective trust and guaranteed investment contract as well as the adjustment of the investment in the common/collective trust and guaranteed investment contract from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. At December 31, 2009, fair value approximates contract value.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of significant accounting policies (concluded):

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant's withdrawals:

Payments of benefits to participants are recorded upon distribution.

Subsequent events:

The Plan has evaluated subsequent events through September 10, 2010, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements:

The Plan values its financial assets and liabilities based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, a fair value hierarchy that prioritizes observable and unobservable inputs is used to measure fair value into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

TAX DEFERRED SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 3 - Fair value measurements (continued):

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

Financial assets carried at fair value at December 31, 2009 and 2008 are classified in the tables below in the three categories described above:

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

**GLOBAL RISK CONSULTANTS CORPORATION
TAX DEFERRED SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 3 - Fair value measurements (concluded):

Mutual and money market funds are valued using market prices on active markets (Level 1). Level 1 instrument valuations are obtained from real-time quotes for transactions in active exchange markets involving identical assets.

Common/collective trust is designated as Level 2 instruments and is valued based on information reported by the investment advisor using the audited financial statements of the common/collective trust at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

The guaranteed investment contract is designated as Level 3 instruments and valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Participant loans are valued at amortized cost, which approximates fair value and are classified as Level 3 instruments.

The following provides details of the fair value measurement activities for Level 3 activities for the year ended December 31, 2009:

	<u>Participant Loans</u>	<u>Guaranteed Investment Contract</u>	<u>Total</u>
Balance, beginning of year	\$233,979	\$2,815,935	\$3,049,914
Purchases, sales, issuances and settlements (net)	<u>80,822</u>	<u>599,974</u>	<u>680,796</u>
Balance, end of year	<u>\$314,801</u>	<u>\$3,415,909</u>	<u>\$3,730,710</u>

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Investment contract with insurance company:

In 2008, the Plan entered into a benefit-responsive investment contract with ING Life Insurance and Annuity Company ("ING"). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

**GLOBAL RISK CONSULTANTS CORPORATION
TAX DEFERRED SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 4 - Investment contract with insurance company (concluded):

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributed to the guaranteed investment contract. Contract value, as report to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The guaranteed investment contract is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a stable value fund. As a result, the average yield earned by the Plan is the yield earned (i.e., interest credited) on the group annuity contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less at 3%. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields based on actual earnings and on interest rate credited to participants was 3% for the year ended December 31, 2009.

NOTES TO FINANCIAL STATEMENTS

Note 5 - Investments:

Contributions to the Plan are invested by the trustees at the election of the participant in specified mutual funds, money market funds, common/collective trust or guaranteed investment contract.

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	<u>2009</u>		<u>2008</u>	
	<u>Number of Units</u>	<u>Fair Value</u>	<u>Number of Units</u>	<u>Fair Value</u>

ING Fixed Account		3,415,909		2,815,935
ING FMR Div MidCap Port Svc	69,576	787,837		

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$2,720,407.

Note 6 - Participant loans:

Participants may obtain loans from the Plan, subject to approval by the Plan administrator. The maximum amount that may be borrowed is the lesser of 50% of the participant's vested account balance or \$50,000 (subject to certain limitations set forth in the Plan agreement). The minimum amount that may be borrowed is \$1,000 and the maximum number of loans outstanding at one time is two. The interest rate is fixed for the term of the loan based on prevailing market rates at the inception of the loan as determined by the Plan administrator (the applicable interest rates at December 31, 2009 ranged from 4.25% to 9.25%). Loan repayments are made through payroll deductions over a period that may not exceed five years, except for loans used to purchase a principal residence as to which the repayment period may not exceed ten years.

Note 7 - Related party transactions:

Certain Plan investments are shares or units of mutual funds, guaranteed investment contract and money market funds managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$1,125 for the year ended December 31, 2009.

**GLOBAL RISK CONSULTANTS CORPORATION
TAX DEFERRED SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

Note 8 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination participants would become 100% vested in their employer contributions.

Note 9 - Tax status:

The Internal Revenue Service has determined and informed the Company by a letter dated December 17, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Note 10- Administrative expenses:

The Plan pays for certain administrative expenses relating to participant accounts. The Company pays all other expenses.

Note 11- Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 12- Certification by the trustee:

The following account balances and transactions were obtained from statements certified by the trustee:

Statements of net assets available for benefits:

Investments, including participant loans

Statement of changes in net assets available for benefits:

Investment income

Schedule of assets (held at end of year)
