Texas Steel Conversion, Inc.
Employees' 401(k) Plan
Houston, Texas

We were engaged to audit the accompanying Statements of Net Assets Available for Plan Benefits of the Texas Steel Conversion, Inc. Employees' 401(k) Plan as of December 31, 2009 and 2008, the related Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2009, the supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2009, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company and Massachusetts Mutual Life Insurance Company, the asset custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that American United Life Insurance Company held the Plan's investment assets and executed investment transactions from October 16, 2009 through December 31, 2009, and that Massachusetts Mutual Life Insurance Company held the Plan's investment assets and executed investment transactions as of December 31, 2008 and for the period from January 1, 2009 through October 15, 2009. The plan administrator has obtained certifications from the asset custodians as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the plan administrator by the asset custodians is complete and accurate.

Because of the significance of the information in the financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the applicable asset custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Plan Description

The following brief description of the Texas Steel Conversion, Inc. Employees' 401(k) Plan (the Plan) is provided for general information only. Participants should refer to the Plan document for more detailed information.

General

The Plan is a defined contribution plan covering employees of Texas Steel Conversion, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was adopted by the Company on October 1, 1990 and has been amended from time to time. Two officers of the Company serve as trustees for the Plan. American United Life Insurance Company (AUL) replaced Massachusetts Mutual Life Insurance Company (Mass Mutual) as the asset custodian of the Plan effective October 16, 2009.

During 2009, the Company significantly reduced its workforce, which resulted in a partial Plan termination. All affected employees who are participants in the Plan became fully vested in their employer contributions and earnings thereon.

Eligibility

The Plan is provided for all employees with the exception of leased employees and those covered by a collective bargaining agreement. Participation is available for eligible employees who have completed one year of service and are age twenty one (21) or older. The Plan includes a savings feature designed to permit the employee and the Company to contribute to the Plan, allowable under Section 401(k) of the Internal Revenue Code (IRC).

Contributions

Employees may contribute to the Plan by electing to defer a portion of their compensation, as defined, and are fully vested at all times. Participants' deferrals in any taxable year may not exceed the dollar limits set by law. The Company may elect to make matching contributions based on the participant's eligible contributions. Eligible contributions equal the amount of the participant's elective deferrals for the plan year which do not exceed 12.5% of annual compensation. The Company matched 15% of the participant's eligible contributions for 2009. Only employees actively employed on the last day of the Plan year will receive an allocation of the employer match.

The Plan was required to return 2009 excess contributions of $139,764, including earnings thereon, to certain participants to satisfy the relevant non-discrimination provisions of the Plan. Those refunds have been accrued in the financial statements of the Plan.

Participant Accounts

Upon enrollment in the Plan, a participant may direct the custodian with regard to the investment of his or her account balances. Each participant's account is credited with the participant's contribution, an allocation of the Company's matching contribution, and Plan investment earnings or losses.

Vesting

A participant's interest in the contributions made by the Company begins vesting at 20% after two years of service, increasing 20% each year thereafter, with the participant being 100% vested after six years. Participants become 100% vested upon death or disability.

Forfeitures

Forfeitures attributable to employer matching contributions may be used to pay administrative expenses of the Plan or to reduce future employer matching contributions. As of December 31, 2009 and 2008, nonvested forfeited accounts totaled $52,652 and $24,185, respectively. During 2009, forfeitures were used to reduce employer contributions.

Payment of Benefits

Distributions may be made to participants upon termination of employment due to death, disability or retirement, or withdrawals by active participants due to hardship, or attainment of age 59½ or normal retirement age, as defined. Upon withdrawal from the Plan or termination of employment, participants may be subject to federal income tax on contributions and income earned.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum of $50,000, limited to 50% of their vested account balances. The loans are secured by their vested account balance and bear interest at a rate commensurate with local prevailing rates at commercial lending institutions. Principal and interest is repaid ratably through payroll deductions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded as earned. Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year as well as appreciation of the investments held at the end of the year.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for fully benefit-responsive investment contracts because it is the amount participants would receive if they were to initiate permitted transactions under the terms of the contract. Prior to October 16, 2009, the Plan invested in a fully benefit-responsive group annuity contract through its investment in the Mass Mutual Separate Account Guaranteed Interest Contract (SAGIC). On October 15, 2009, the SAGIC was liquidated and replaced by a similar benefit-responsive group annuity contract, the AUL Fixed Account (Fixed Fund), on October 16, 2009. The Statements of Net Assets Available for Plan Benefits present the fair value of the investment contracts as well as the adjustment to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Unless paid by the Company, administrative costs are paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for investment in various investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term.

Subsequent Events

The plan administrator evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 12, 2010, which is the date the financial statements were available to be issued.

New Accounting Standard

The Financial Accounting Standards Board (FASB) has issued new accounting guidance which requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The new guidance is to be applied retrospectively to all prior periods presented, and is effective for the Plan's 2010 financial statements. The Form 5500 will continue to present notes receivable from participants as an investment.

Note 3 - Information Certified by the Asset Custodians

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from each of the asset custodians that all of the information provided is complete and accurate. Information included in the accompanying financial statements, notes to financial statements, and supplemental schedule of assets (held at end of year) as to investments and the related investment income is presented solely upon these certifications, as applicable.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 - Fair Value Measurements

The FASB *Accounting Standards Codification* (ASC) Section 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts: These funds are reflected at fair value as determined by the issuer based upon the market values of the underlying investments, when available.

Group Annuity Contract: The fair value of this investment represents liquidation basis, as defined in the contract.

Participant Loans: These investments are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

	December 31, 2009

OneAmerica Value Fund		194,327
OneAmerica Asset Director Fund		244,860
Participant Loans		233,321
2008:		
SAGIC (contract value $2,272,457)	$	2,286,609
Equity and Income (Oakmark) Fund		192,796
Participant Loans		216,484

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	Year Ended December 31, 2009
Pooled separate accounts	$ 295,219
Group annuity contract	135,587
	$ 430,806

Note 6 - Group Annuity Contracts With Insurance Companies

Prior to October 16, 2009, the Plan offered a fully benefit-responsive guaranteed investment contract through Mass Mutual. Mass Mutual maintained the contributions in unallocated contract accounts. The accounts were credited with actual earnings on the underlying investments and charged for plan withdrawals. As described in Note 2, because the group annuity contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issue or otherwise. The crediting interest rate was based on a formula agreed upon with Mass Mutual.

Certain events could limit the ability of the Plan to transact at contract value with Mass Mutual. One particular event included termination of the contract. On October 15, 2009, the Plan terminated the contract, which resulted in a realized market gain of $135,587.

In conjunction with the change in asset custodian on October 16, 2009, the Plan entered into a fully benefit-responsive group annuity contract with AUL on October 12, 2009. This was done in order to fund the Plan's Fixed Fund. AUL maintains the contributions in an unallocated contract account.

The fully benefit-responsive Fixed Fund is included in the financial statements at fair value which, as determined by AUL, equaled contract value as of December 31, 2009. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. AUL is contractually obligated to repay the principal and interest at a specified interest rate to the Plan.

Amounts allocated to the Fixed Fund earn interest at the higher of the rate guaranteed under the contract or the current rates established and declared by AUL prior to each calendar quarter. The interest rate is reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value under the contract. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The average yields for the group annuity contracts are as follows:

	2009	2008
Based on actual earnings	**4.55%**	4.40%
Based on interest rate credited to participants	**4.55%**	4.40%

Note 7 - Federal Income Tax

The Plan has adopted a prototype agreement which received a favorable determination letter on March 31, 2008 from the Internal Revenue Service, exempting it from federal income tax. The Plan has been amended since receiving the determination letter. Additionally, the Plan has not requested a favorable determination letter from the Internal Revenue Service exempting it from federal income tax. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 8 - Parties-in-Interest Transactions

Certain Plan investments are units of pooled separate accounts and group annuity contracts issued by the respective asset custodians, which are parties-in-interest with respect to the Plan. These transactions are covered by an exemption from "prohibited transaction" provisions of ERISA and the IRC.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 10 - Nonexempt Transactions

As reported on Schedule H, Line 4a, Schedule of Delinquent Participant Contributions for the year ended December 31, 2009, $7,699 of participant contributions and $3,343 of participant loan repayments relating to the 2008 plan year were not remitted to the trust within the time frame specified by the Department of Labor, thus constituting nonexempt transactions between the Plan and the Company. The principal and lost earnings of $635 relating to the untimely remittances were remitted to the Plan during 2009.

Note 11 - Subsequent Events

Employees who become eligible participants on or after January 1, 2010 will be automatically enrolled in the Plan with an elective deferral of 3% unless otherwise elected by the participant.
