Note A - Plan Description

The following description of the Savvis, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan as defined by Section 401 of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees who are at least 21 years of age may enroll in the Plan on the first day of each month.

Contributions

Participants may contribute up to 60% of their before tax compensation to the Plan, not to exceed certain dollar limits established by the IRC. Savvis, Inc. (the "Company" or "Employer") matches such contributions on a 50% basis up to a maximum of 8% of annual compensation.

Eligible employees are enrolled in the Plan automatically. Unless an employee affirmatively elects otherwise, a 3% pre-tax contribution will be deducted from each payroll and the participant will receive the Company matching contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings and charged with an allocation of certain administrative expenses. Allocations are based on a participant earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Plan participants vest in the amount credited to the Company contribution account in accordance with the following schedule:

- after one year of service 25%
- after two years of service 50%

Note A - Plan Description (Continued)

Vesting (Continued)

The entire amount credited to a participant's account becomes fully vested and nonforfeitable, if any of the following occur:

- The participant reaches normal retirement age
- Termination of participant's employment because of total disability
- The participant's death while employed

Participants' voluntary contributions are fully vested and nonforfeitable at all times. Forfeitures of the non-vested account balances of terminated participants are used to reduce future Company contributions to the Plan. For the years ended December 31, 2009 and 2008, forfeited non-vested accounts totaled $127,786 and $8,036, respectively.

Payment of Benefits

Upon attainment of normal retirement age or total disability, the amount credited to a participant's account shall be payable in a lump sum payment or as an annuity, based on each participant's election in accordance with the Plan agreement. The amount credited to the account of the participant at the date of death shall be distributed to the named beneficiary as a lump sum cash payment.

Upon termination of employment for reasons other than death, total disability or retirement, the participant may also elect to receive his or her vested balance in the form of a lump sum payment or annuity.

Participant Loans

Participants may borrow from the Plan the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are repayable in installments through payroll deductions over various repayment periods as defined by the Plan. Interest charged on outstanding loans is at the prime rate plus one-half percent.

Note B - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments are recorded as paid.

Note B - Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Investment contracts or stable value investments, held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to a fully benefit-responsive investment because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the stable value fund as well as the adjustment of that fully benefit-responsive investment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates in Financial Statement Presentation

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may vary from reported amounts.

Subsequent Events

The Plan has evaluated all subsequent events through October 5, 2010, the date the financial statements were available to be issued.

Note C - Investments

The Plan's investments are held by Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan. Financial information relating to investments is included in the accompanying financial statements and supplemental schedule based on information provided by Fidelity. That information, which includes the following, has been prepared and certified to as complete and accurate by Fidelity, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for reporting and disclosures under ERISA.

Note C - Investments (Continued)

The following investments represent five percent or more of the Plan's net assets:

	2009	2008
Fidelity Contrafund	**$24,705,536**	$ 7,017,090
Fidelity Growth Company Fund	**-**	6,703,693
Fidelity Balanced Fund	**7,867,637**	5,928,170
Fidelity Managed Income Portfolio	**21,500,484***	21,908,366*
Spartan U.S. Equity Index Fund	**8,730,026**	6,743,435
Fidelity Diversified International	**11,724,606**	7,544,383

*This amount represents contract value for this investment

The Plan's mutual fund investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated (depreciated) in value by $21,040,515 and $(40,699,006) during the years ended 2009 and 2008, respectively.

Note D - Fair Value Measurements

Financial Accounts Standards Board *Accounting Standards Codification* 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note D - Fair Value Measurements (Continued)

> **Level 3 -** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end. NAV is derived by the quoted prices of underlying investments.

Collective trust: Comprised of fully benefit-responsive investment contracts (see Note B) values based on the NAV of units held by the Plan at year-end. Although the collective trust is not available in an active market, the NAV of the units are approximated based on the quoted prices of the underlying investments that are traded in an active market. The Company has no unfunded commitments related to the investment and there are no Plan initiated redemption restrictions on these investments.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of difference methodologies or assumptions to determine that fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Note E - Tax Status of Plan

The Company adopted a prototype plan provided by the Plan's trustee and recordkeeper. The prototype plan received a favorable opinion letter from the Internal Revenue Service on October 9, 2003, stating that the prototype plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. The Plan administrator believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan, as amended, and the related trust are tax-exempt as of the financial statement date.

Note F - Related-Party Transactions

At December 31, 2009 and 2008, the Plan's investments includes shares of mutual funds managed by Fidelity Investments. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2009 and 2008, the Company paid certain administrative expenses of the Plan.

Note G - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
