St. Lawrence Cement Corporation 401(k) Retirement and Savings Plan for Hourly Employees

Notes to Financial Statements December 31, 2009 and 2008

Note 1 - Plan Description

The following description of St. Lawrence Cement Corporation 401(k) Retirement and Savings Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan which includes a qualified cash or deferred arrangement under Section 401(k) of the Internal Revenue Code. The Plan covers the Catskill and Hagerstown hourly employees of Holcim (US) Inc. (the "Company") who are covered by a collective bargaining agreement between the Company and the Cement, Lime, Gypsum and Allied Division of the International Brotherhood of Boilermakers, Local Lodge D50, and have met certain age and length of service requirements. Employees are eligible to participate in the Plan as soon as administratively practicable after they have commenced employment. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - The Plan permits participants to contribute up to 75 percent of their compensation up to the maximum allowed by the Internal Revenue Code. Pursuant to the collective bargaining agreement, the employer contribution is a fixed 6 percent of straight-time earnings (based on a 40-hour work week), as defined in the Plan. In addition to the fixed contribution, the Catskill hourly employees of the Company will receive an employer match of 25 percent up to the first 6 percent of compensation.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan. Employer contributions are invested on the same basis as that chosen by participants.

Vesting - Participants are immediately vested in their employee and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in matching contributions and discretionary contributions at a rate of 20 percent per year and participants become fully vested after five years of service. In addition, upon retirement, permanent disability, or death before retirement, the participant is fully vested, regardless of the years of service.

St. Lawrence Cement Corporation 401(k) Retirement and Savings Plan for Hourly Employees

Notes to Financial Statements December 31, 2009 and 2008

Note 1 - Plan Description (Continued)

During 2009, the Company had reductions in workforce. The Company is currently working with legal counsel to determine if a partial termination of the Plan has occurred. If a partial termination has occurred, the terminated employees would become fully vested in their account balances.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2009 and 2008, forfeited account balances totaled approximately \$87,000 and \$58,000, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company, the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the trustee shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination. Upon termination, participants become 100 percent vested in their account balances.

Transfers - A participant from the St. Lawrence Cement Corporation 401(k) Retirement and Savings Plan for Salaried Employees who becomes hourly may transfer his or her account balance to the Plan. In addition, beginning in 2009, a participant from the Plan who becomes salaried may transfer his or her participant account balance to the Holcim (US) Inc. Retirement Savings Plan for Salaried Employees. Prior to 2009, participants who became salaried were able to transfer their account balance to the St. Lawrence Cement Corporation 401(k) Retirement and Savings Plan for Salaried Employees. The St. Lawrence Cement Corporation 401(k) Retirement Savings Plan for Salaried Employees was terminated on February 13, 2009.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 14, 2010, which is the date the financial statements were available to be issued.

Notes to Financial Statements December 31, 2009 and 2008

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for a common collective trust fund that primarily invests in benefit-responsive investment contracts (commonly referred to as a stable value fund), which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. The fair value of the remaining common collective trust fund is based on the fair market values of the underlying investments. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurements at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - While the plan document provides that all administrative expenses are paid by the Plan, the Company elected to pay certain administrative expenses of the Plan for the years ended December 31, 2009 and 2008.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Reclassification - Certain prior year amounts have been reclassified to conform to the current year presentation.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service, dated June 4, 2002, indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2009 and 2008, and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
