INFOLOGIX 401K PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - PLAN DESCRIPTION

The following description of the INFOLOGIX 401K Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) savings plan covering all full-time employees of INFOLOGIX, LLC, (the "Company") who have attained 21 years of age. The Plan was established on March 1, 2002. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). An employee who has attained 21 years of age will become eligible to enter the Plan on the first day of employment.

Contributions

Elective deferral contributions for a participant are equal to a portion of compensation as specified in the written elective deferral agreement. Elective deferral contributions shall be limited as needed to meet nondiscrimination tests and may not exceed the dollar limit set by law for the Plan year. Participants may designate all or a portion of their 401(k) elective deferral as Roth elective deferral contributions. Designation must be made prior to the deferral and cannot be changed except for future contributions. Company contributions to the Plan are discretionary. No Company contributions were made for the year ended December 31, 2009 other than the self-correcting contribution that will be made to the Plan in 2010 (see Note 10).

Participant Accounts

Participants are provided with a selection of investments in which to invest contributions. Earnings are credited to each participant's account based upon the performance of the respective investments selected by the participant. Each participant's account is credited with the Company's contribution if applicable. Each investment account is revalued daily, based, in part, on the net asset value reported by the investment fund, and accounts are adjusted accordingly. Investment elections can be changed on a quarterly basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their elective deferral contributions, rollover contributions and earnings thereon. Participants vest in employer matching contributions in increments of 20% for each year of service, and become fully vested after five years of service, on their normal retirement date, upon death or total disability.

INFOLOGIX 401K PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - PLAN DESCRIPTION (continued)

Forfeitures

In the event a participant's employment with the Company is terminated, the nonvested portion of his or her account at the end of the Plan year will be used to reduce Plan expenses. Any forfeiture left after paying Plan expenses is used to offset employer contributions. Forfeited nonvested accounts totaled approximately \$1,000 as of both December 31, 2009 and 2008. There were no forfeitures utilized to pay Plan expenses or offset employer contributions during the year ended December 31, 2009.

Payment of Benefits

Benefits are recorded when paid.

Upon termination of service due to death, disability or retirement (age 65), a participant may elect to receive either a lump-sum amount or periodic installments equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant with a vested balance less than \$1,000 will receive a lump-sum payment and a participant with a vested balance between \$1,000 and \$5,000 will have the balance rolled into an IRA. Hardship withdrawals are available in accordance with Internal Revenue Service guidelines.

Participant Loans

Participants may borrow from their fund account balances a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. Principal and interest are repaid through payroll deductions. The loans are secured by the participant's vested account balance and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator.

Administrative Expenses

Certain expenses of the Plan are paid by the Plan sponsor; the remaining expenses are paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. ("U.S. GAAP").

INFOLOGIX 401K PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued the Accounting Standards Codification ("ASC") which is the single source of authoritative nongovernmental accounting principles generally accepted in the United States of America. The adoption of the FASB ASC did not impact the Plan's financial position or results of operations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds within pooled separate accounts are reported at fair value based on the quoted market price of the fund which represents the net asset value of the shares held by the pooled separate accounts at year-end. The Plan's investment in the guaranteed interest investment which is not a benefit-responsive investment is stated at fair value. Participant loans are valued at cost which approximates fair value.

Current unrealized appreciation or depreciation in the current value of investments held at year-end is determined using the preceding December 31 value or purchase price, if acquired since that date.

Purchases and sales of securities are recorded on a trade-date basis, with gains and losses included in net appreciation (depreciation) in fair value of pooled separate accounts. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Mutual Fund Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These fees are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.

INFOLOGIX 401K PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value of Financial Instruments

U.S. GAAP requires that fair value is to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such is a market-based measurement, not an entity-specific measurement.

U.S. GAAP establishes a three-level valuation hierarchy based upon observable and nonobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Accounting for Uncertainty of Income Taxes

As of January 1, 2009, the Plan adopted the new accounting guidance concerning provisions for uncertain income tax positions and has determined that the Plan has not taken any uncertain income tax positions.

INFOLOGIX 401K PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 5 - CUSTODIAN CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Principal Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of the pooled separate accounts and the guaranteed interest account and related activity in the accompanying financial statements and supplementary schedule.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined, and informed the custodian, by a letter dated March 31, 2008, that the prototype Plan adopted by INFOLOGIX 401K Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2009 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

All of the Plan's investments are managed by Principal Life Insurance Company, the custodian of the Plan. Accordingly, these transactions qualify as party-in-interest transactions.

INFOLOGIX 401K PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 10 - EMPLOYER CONTRIBUTION RECEIVABLE

During 2009, the Company identified instances where incomplete compensation was used as the base for employee salary deferrals. The Company calculated the effect of this error and intends to self-correct the Plan by contributing \$37,493 plus missed earnings of \$2,770 to the Plan accounts for the affected individuals. The correction has been reflected as an employer contribution receivable as of December 31, 2009. This self-correcting contribution was made in 2010.

NOTE 11 - RECONCILIATION TO FORM 5500

The following reconciles the differences between the amounts reported on an accrual basis for financial reporting purposes and the amounts reported on a cash basis for Form 5500 purposes:
