Part I Asset and Liability Statement

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Clearwater Cardiovascular and Interventional Consultants, M.D., P.A.
Restated 401(k) Profit Sharing Plan and Trust
Clearwater, Florida

We have audited the accompanying statements of net assets available for benefits of Clearwater Cardiovascular and Interventional Consultants, M.D., P.A. Restated 401(k) Profit Sharing Plan and Trust as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, the evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Clearwater Cardiovascular and Interventional Consultants, M.D., P.A. Restated 401(k) Profit Sharing Plan and Trust as of December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year as of December 31, 2009 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CLEARWATER CARDIOVASCULAR AND INTERVENTIONAL CONSULTANTS, M.D., P.A. RESTATED 401(k) PROFIT SHARING PLAN AND TRUST NOTES TO FINANCIAL STATEMENTS

(1) DESCRIPTION OF PLAN

The following description of the Clearwater Cardiovascular and Interventional Consultants, M.D., P.A. (the Company) Restated 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a Volume Submitter defined contribution prototype plan covering all non-excluded employees of the Company who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2002 the Plan was amended and restated to comply with various changes in the law and regulations ("EGTRRA" and "GUST"). The Plan was also amended to comply with new regulations that require automatic rollovers of certain mandatory distributions to comply with new regulations under IRS Code Sections 401(k) and 401(m) that prohibit pre-funding of elective deferrals, limit qualified nonelective contributions to pass discrimination testing, and require excess contributions to include earnings through the date of distribution. The Plan was most recently amended on August 12, 2009 to allow hardship withdrawals.

Contributions – Participants' contributions to the Plan may not exceed a maximum dollar amount determined annually by the Internal Revenue Code and Regulations.

The Company may make discretionary matching and profit sharing contributions to the Plan. The Company's matching contribution is a discretionary percentage of participants' contributions. The discretionary profit sharing contribution is allocated to eligible employees based on eligible compensation. The discretionary matching and profit sharing contributions are determined annually by the Board of Directors. For the year ended December 31, 2008, the Company matched 50% of participants' contributions up to a maximum of 6% of eligible compensation. The matching contribution totaled $268,205 for 2008. There was no match for the year ended December 31, 2009. In addition to the matching contribution, the Company made a profit sharing contribution totaling $428,177 and $892,356 for 2009 and 2008, respectively.

Participant accounts – Participants have the ability to direct the investment of their account balance between various John Hancock pooled account funds, John Hancock guaranteed account funds, or other investments as self-directed by the participant. Investment earnings and expenses are allocated to each participant's account based on the earnings and expenses relating to their individual investments. Forfeitures of terminated participants non vested account balances are applied to reduce the Company's profit sharing contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and Company matching contributions plus earnings thereon. A participant is 100% vested in their allocation of Company profit sharing contributions after six years of credited service.

Loans – The Plan allows participants to borrow from the Plan for any purpose. Participants may borrow up to 50% of their vested account balance provided the loan does not exceed $50,000. Loans must be for a minimum of $1,000 and are collateralized by the participant's account.

Payment of benefits – Participants are eligible to receive benefits upon termination of service, retirement, disability or death. Distributions will be made in one lump sum payment in cash or, in certain circumstances, in property. At December 31, 2009 and 2008, there were no amounts allocated to accounts of persons who have elected to withdraw from the plan but have not been paid. The Plan also allows in-service distributions of participant contributions for participants age 59½ or older, profit sharing and matching contributions for participants age 55 or older and hardship withdrawals. In-service distributions of rollover contributions may be made at any time as elected by the participant.

(1) DESCRIPTION OF PLAN, CONTINUED

Forfeited accounts – Forfeitures totaling $12,194 reduced the Company's profit sharing contributions for 2009 which was funded in 2010. As of December 31, 2009 and 2008 forfeited non-vested accounts totaled $12,194 and $9,757, respectively.

Plan administration expenses – Some Plan administration expenses are paid by the Company. Investment expenses are charged to participants' accounts as explained above. Company personnel provided administrative services to the Plan at no charge in 2009 and 2008.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accounts of the Plan are maintained on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment contracts – Generally accepted accounting principles require that fully benefit-responsive investment contracts be valued and reported at fair value; and the difference between fair value and contract value be reported as an adjustment to fair value on the Statement of Net Assets Available for Benefits. Contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan. Fair value approximates the contract value as of December 31, 2009 and 2008; therefore, the Statements of Net Assets Available for Benefits do not reflect an adjustment of contract value to fair value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Valuation of investments – The Plan's investments are stated at fair value (see Note 4). The pooled and guaranteed accounts totaling $5,295,183 and $329,231, respectively, were certified by John Hancock Life Insurance Company at December 31, 2008. The pooled and guaranteed accounts totaling $7,138,672 and $304,510, respectively, were certified by John Hancock Life Insurance Company at December 31, 2009.

Payment of benefits – Benefits are recorded when paid.

Risks and uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(3) INVESTMENTS

As of December 31, 2009 and 2008, respectively, the John Hancock Money Market Fund was the only asset that represented more than 5% of the Plan assets.

	December 31	
	2009	2008
Investments at fair value as determined by quoted market price:		
John Hancock Money Market Fund	$ 1,818,483	$ 1,363,782

Participant loans	233,775	231,445
	$ 17,601,739	$ 13,876,293

The participant directed John Hancock pooled account funds, including investments bought, sold and held during the year, appreciated (depreciated) in value by $1,086,233 and $(1,984,044) as certified by John Hancock Life Insurance Company for the years ended December 31, 2009 and 2008, respectively.

Interest income relating to the John Hancock investments totaled $23,043 and $25,348 for the years ended December 31, 2009 and 2008, respectively, as certified by John Hancock Life Insurance Company.

The Plan's self-directed investments (including investments bought, sold, and held during the year) appreciated (depreciated) in value as follows:

	For the years ended December 31	
	2009	2008
Increase (decrease) in fair value of investments:		
Mutual funds	$ 396,762	$ (1,945,331)
Corporate debt and equities	338,423	(762,011)
Annuity	156,332	(252,073)
Other	106,248	(91,904)
Net appreciation (depreciation) in fair value	$ 997,765	$ (3,051,319)

(4) FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of other than quoted prices included in Level 1 that are observable, either directly or indirectly, and Level 3 inputs consist of unobservable inputs and has the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for investments measured at fair value.

Level 1 – The fair value of mutual funds, money market funds, certificate of deposit, U.S. Government securities, corporate bonds, publicly traded common and preferred stocks and options are based on quoted market prices of the investments held by the Plan at year-end. The pooled account funds are valued using net asset values certified by John Hancock.

Level 2 – The net asset value of the annuity investing in mutual funds is based on the market price of the mutual fund shares. The net asset value of other investments in funds and limited partnerships is based on the value of the underlying assets of the funds in markets that are not active.

Level 3 – The non-publicly traded stock, real estate investment trust, limited partnerships, limited liability company, guaranteed account funds, participant loans and hedge funds are not actively traded or significant other observable inputs are not available. The fair value of the guaranteed account funds is determined by discounting the related cash flows based on interest rates that would be credited on accounts of similar duration. The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The fair values of the other investments are based on book values, recent sales activity, the estimated values of the underlying assets, independent appraisals or other unobservable inputs.

(4) FAIR VALUE MEASUREMENTS, CONTINUED

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 as follows:

Ending balance	$ 342,995	$ 309,239	$ 231,445	$ 329,231	$ 292,740

The total gain for the guaranteed account funds contract included in changes in net assets available for benefits is included with interest in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2009 and 2008, respectively.

(5) INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated October 30, 2003, that the Volume Submitter Cross-Tested Defined Contribution Prototype Plan adopted by the Company as of January 1, 2002, and the related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(6) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(7) DERIVATIVE FINANCIAL INSTRUMENTS

Self-directed investments include hedge funds and options, investments that meet the criteria of derivative financial instruments and hedging activities in accordance with generally accepted accounting principles. The Plan's risk management policy provides for diversification by self-directed participants within their accounts by including investments that historically have a low correlation to more traditional markets. Having a low correlation provides the potential to better manage portfolio risk. Lower correlation assets have the potential to outperform in markets where more traditional asset classes may under perform.

The hedge funds are reported, in the Statements of Net Assets Available for Benefits, at fair value which was $5,940 and $292,740 as of December 31, 2009 and 2008, respectively. The net loss of $4,180 and $57,058 is included in net appreciation (depreciation) in fair value of investments in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2009 and 2008, respectively.

The options are reported, in the Statement of Net Assets Available for Benefits, at fair value which was $78,615 as of December 31, 2009. The net gain of $72,485 is included in net appreciation of fair value in investments in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009.

(8) INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a group annuity contract with Manufacturers Life Insurance Company (Manulife). Manulife maintains the contributions to the guaranteed account funds in its general funds. The funds are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Manulife is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the investment. Contract value, as reported to the Plan by Manulife, represents contributions made plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(8) INVESTMENT CONTRACT WITH INSURANCE COMPANY, CONTINUED

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Manulife establishes the crediting interest rate on an annual basis based on interest rate forecasts and required margins. An account is established for each participant for each reporting year. Each account has an interest rate guarantee for three, five or ten years.

Certain events, such as discontinuance of contributions or termination of the Plan, would limit the ability of the Plan to transact at contract value with Manulife. Upon termination by Manulife, a market value adjustment may apply. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

	2009	2008
Average yields:		
Based on actual earnings	2.82%	3.43%
Based on interest rate credited to participants	2.82%	3.43%

(9) RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by John Hancock Life Insurance Company and, therefore, these transactions are considered party-in-interest transactions.

(10) SUBSEQUENT EVENTS

Pursuant to the requirements of generally accepted accounting principles, management has evaluated events occurring subsequent to year end through October 11, 2010, the date the financial statements were available to be issued, for financial reporting purposes. Management identified the following subsequent events.

The Plan was amended in 2010 to comply with the requirements of PPA and Treasury Regulations, including 415 Regulations. In addition, there was a change in trustees effective February 1, 2010. A favorable determination letter from the IRS was received on September 8, 2010.
