401(k) PROFIT-SHARING PLAN

Notes to Financial Statements

NOTE 1 - Description of the Plan

Seacrest Services, Inc. 401(k) Profit-Sharing plan (the plan) was established on January 1, 2003 for the benefit of Seacrest Services, Inc. employees. The purpose of the plan is to collectively invest and reinvest monies contributed for the benefit of the participants, each of whom shares ratably in the appreciation or depreciation of the funds. The following description of the plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General - The plan is a defined contribution plan covering all full-time employees of the Company who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute a portion of pretax annual compensation subject to a maximum amount as prescribed by the Secretary of the Treasury. The Company contributes $1 for every $1 contributed to the plan by each participant up to 3 percent of each participant's compensation and $.50 for every $1 contributed that exceeds three percent but does not exceed five percent. The match is not mandatory and may be changed at any time.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are reallocated to participants in the same manner as the employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's match and the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100 percent vested after two years of credited service.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account in the same manner described above.

(Continued)

NOTE 1 - Description of Plan (Continued)

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested balance. Loan terms range from 1 - 5 years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participants' account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Interest rates range 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

NOTE 2 - Summary of Accounting Policies

Basis of Accounting - The financial statements of the plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the plan are paid by the plan sponsor.

Subsequent Events - The plan has evaluated subsequent events through October 11, 2010, the date the financial statements were available to be issued.

NOTE 3 – Investments

The following presents investments that represent five percent or more of the plan's net assets:

(Continued)

NOTE 4 - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for the identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of the shares held by the plan at year end.
Participant loans: Valued at amortized cost, which approximates fair value.

(Continued)

NOTE 4 - Fair Value Measurements (Continued)

The preceding methods may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total

NOTE 5 - Information Certified by the Plan's Trustee -(Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. The plan trustee has certified that the investments and related income reflected in the accompanying financial statements and supplemental schedule are complete and accurate.

The plans independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 7 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

NOTE 8 - Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE 9 - Related-Party Transactions

All of the plan's assets are issues of the trustee, John Hancock Life Insurance Company and are therefore party-in-interest transactions.
