IDN-H. HOFFMAN/HARDWARE SALES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2009

NOTE A - DESCRIPTION OF PLAN

The following description of the IDN-H. Hoffman/Hardware Sales ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company (whether full-time or part-time) who have six months of service and are age nineteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of their pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company has the option of making matching and profit-sharing contributions on behalf of participants. The Company currently matches 25% of a participant's contribution, limited to 5% of base compensation. In order for a participant to be eligible for profit-sharing contributions, the participant must have completed at least 1,000 hours of service during the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers approximately 30 investment options for participants.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, substantially equal installments, or an annuity.

NOTE A - DESCRIPTION OF PLAN - continued

Forfeited Accounts

At December 31, 2009 and 2008, there were no forfeited non-vested accounts. Forfeited accounts are used to reduce future employer contributions. Employer contributions were reduced by $1,437 from forfeited non-vested accounts during the year ended December 31, 2009.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note J for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through August 20, 2010, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

The following are investments at December 31, 2009 and 2008 that represent 5% or more of the Plan's net assets:

	12/31/09	12/31/08
AUL Fixed Account	$1,748,916	$1,426,892
American Century Income & Growth	*	286,606

OneAmerica Money Market	418,377	395,498
Vanguard Short-Term Federal	358,886	473,512

*Less than 5%

NOTE C - INVESTMENTS - continued

During 2009, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $936,780.

NOTE D - INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee and custodian have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

	12/31/2009	12/31/2008
Investments, at fair value:		
Mutual funds	$5,035,725	$4,063,068
Group annuity contract	1,748,916	1,426,892
Participant loans	85,200	67,870
Interest income on group annuity contract	66,605	
Net appreciation in fair value of investments	936,780	

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE F - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Schedule H of Form 5500:

	12/31/09	12/31/08
Net assets available for benefits per the financial statements	$7,001,810	$5,702,192
Amounts allocated to withdrawing participants	-	-
Net assets available for benefits per Schedule H of the Form 5500	$7,001,810	$5,702,192

NOTE F - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500 - continued

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2009 to Schedule H of Form 5500:

	2009
Benefits paid to participants per the financial statements	$233,377
Less: Amounts allocated to withdrawing participants at December 31, 2007	-
Add: Amounts allocated to withdrawing participants at December 31, 2009	-
Benefits paid to participants per Schedule H of Form 5500	$233,377

Amounts allocated to withdrawing participants are recorded on the Schedule H of Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not yet paid as of that date.

NOTE G - TAX STATUS

The Plan is based on the Prototype Non-Standardized 401(k) Profit Sharing Plan and Trust document of the American United Life Insurance Company which received a determination letter from the Internal Revenue Service (IRS) stating that the prototype plan was designed in accordance with the provisions of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated in compliance with, the applicable requirements of the IRC.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by American United Life Insurance (AUL), a OneAmerica company. AUL is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to AUL amounted to $198 for the year ended December 31, 2009.

NOTE J - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- --quoted prices for similar assets or liabilities in active markets
- --quoted prices for identical or similar assets or liabilities in inactive markets
- --inputs other than quoted prices that are observable for the asset or liability
- --inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

Group annuity contract: Valued at contract value (principal invested plus interest earned), which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE J - FAIR VALUE MEASUREMENTS - continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

IDN-H Hoffman/Hardware Sales 401(k) Plan
001
36-2413371
December 31, 2009

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
