Jarden Corporation Consolidated Hourly Pension Plan
Boca Raton, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of Jarden Corporation Consolidated Hourly Pension Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 3, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

Note 1: Description of the Plan

The following description of the Jarden Corporation Consolidated Hourly Pension Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan was a non-contributory defined-benefit pension plan sponsored by Jarden Corporation (Company) for the benefit of its employees that were covered by a collective bargaining unit with agreements in its Metal Services, Consumer Products and Zinc Products businesses (collectively, the Divisions). Effective October 15, 2006, new employees hired by the Consumer Products Division were not eligible to participate in the Plan. Effective January 1, 2008, participation in the Plan was frozen for the Jarden Zinc Products Division as well. Prior to the freezing of the Plan, hourly rate employees of the Divisions became participants in the Plan as of the first day of the month after meeting the eligibility requirements specified in the applicable Plan supplement. The Plan was subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was a participating plan under the Sunbeam Americas Holding, Ltd. Master Pension Trust (Master Trust). The Northern Trust Company was the trustee of the Master Trust.

Effective December 31, 2009, the Plan merged with and into Sunbeam Products, Inc. Consolidated Retirement Plan, which was then renamed Jarden Consolidated Pension Plan (Post-Merger Plan). The Post-Merger Plan is the surviving plan.

Contributions

The Company had agreed to voluntarily contribute such additional amounts that were necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's present intention was to make contributions in amounts sufficient to annually fund the Plan's current service cost and the initial past-service costs plus interest on them over a period of 30 years. The Plan met the minimum funding requirements established by the federal government.

Benefits

Benefit formulas, unit benefits, vesting, benefit service and other Plan specifics differ by class of employee as defined in the supplements to the Plan, which are incorporated into the Plan. The Plan permitted early retirement in accordance with each Plan supplement as well as disability retirement pension. Employees could elect to receive their pension benefits in the form of a life-only pension, a joint and 50% survivor pension, a joint and 100% survivor pension or a guaranteed period pension. If employees terminated before rendering five years of service, they forfeited the right to receive a portion of their accumulated plan benefits. If the present value of a participant's vested accrued pension was not greater than \$5,000, it would be paid in a lump-sum amount upon retirement or termination.

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

Vesting

Except as otherwise provided in the appendix applicable to the subplan in which the employee was a participant, each participant with five or more years of vested service shall have a 100% vested right to his accrued benefit.

Plan Termination

If the Plan would have terminated, the net assets of the Plan would have been allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (A) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- (B) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- (C) Vested benefits not insured by the PBGC.
- (D) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Administration

The Company had delegated the day-to-day administration of the Plan to an administrative committee appointed by the Board of Directors.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments were commingled in the Master Trust administered by the Trustee. The financial statements of the Plan report the Plan's interest in the assets and net investment gain (loss) of the Master Trust. Investments are reflected in the financial statements at fair value. Corporate stocks are stated at quoted market prices on the last trading day of the Plan year. The fair value of the units of the common/collective trusts are registered investment companies are determine based on the underlying market value of the investments of the funds. Investments also include receivables and payables valued at cost.

Net investment gain (loss) from the Master Trust is presented in accordance with the Department of Labor's rules for reporting realized and unrealized gains and losses. As such, realized and unrealized gains and losses, interest and dividend income, and administrative fees charged by the Master Trust are netted in the financial statements.

Realized and unrealized gains and losses, interest and dividend income, and administrative fees related to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Purchases and sales of securities are recorded on the trade-date basis with gains and losses on sales of investments recognized when they are realized. Unrealized gains and losses on investments are recognized daily based on fluctuations in market value. Interest on investments is recognized in the period earned and dividends on stock investments are recognized as of the ex-dividend date.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

Administrative Expenses

All administrative fees and other expenses were either charged directly to the Plan or were charged to the Master Trust and then allocated to the Plan.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments that are attributable under the Plan to services rendered by the employees to the valuation date, or in the case of employees of Metal Services and Zinc Products, April 26, 1996 and January 1, 2008, respectively. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits under the Plan are based on employees' hours of employment each Plan year. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

Benefit payments to participants were reported upon distribution.

Plan Tax Status

The Plan obtained its latest determination letter on May 12, 2009, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan and related trust were designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2006.

Subsequent Events

Subsequent events have been evaluated through October 7, 2010, which is the date the financial statements were available to be issued.

Note 3: Investment in Master Trust

Plan assets were composed of a Master Trust. The Trustee of the Plan has certified the unaudited information in the financial statements related to the investment in the Master Trust, as well as the related investment income and the net investment gain (loss) from the Master Trust in the accompanying financial statements, as being complete and accurate.

The net assets, at market value, of the Master Trust at December 31, 2008 are comprised of the following:

	2008
Receivables	\$ 5,245,114
General Investments	
U.S. Government securities	11,445,706

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

The investment in the Master Trust represented the Plan's participating interest. Allocation of the Master Trust's assets among participating plans as of December 31, 2008 is shown below:

	2008	
	Amount	Percent
Allocation of Assets		
Sunbeam Products, Inc. Consolidated Retirement Plan	\$ 108,193,582	77.51%
Jarden Corporation Consolidated Hourly Pension Plan	13,170,845	9.43%

Note 4: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments in Master Trust

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include U.S. Government securities, corporate debt instruments, common/collective trusts and registered investment companies. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include common/collective trusts, corporate stocks, a partnership and other investments held by the Plan. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. Level 3 securities include partnership/joint venture interests and other investments.

The following table presents the fair value measurements of assets recognized in the accompanying statement of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fell at December 31, 2008:

	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
U.S. Government securities	\$ 11,445,706	\$ 11,445,706	\$ -	\$ -
Corporate debt instruments	6,362,507	6,362,507	-	-
Common/collective trusts	62,754,645	27,836,171	34,918,474	-
Registered investment companies	39,828,636	39,828,636	-	-
Corporate stocks	23,997	-	23,997	-
Partnership/joint venture interest	14,526,979	-	7,889,848	6,637,131
Other investments	162	-	-	162
	<u>\$ 134,942,632</u>	<u>\$ 85,473,020</u>	<u>\$ 42,832,319</u>	<u>\$ 6,637,293</u>

Certain adjustments have been made to the classifications to conform to the Company's financial statements.

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Partnership/Joint Venture Interests	Other Investments
Balance, January 1, 2008	\$ 15,297,305	\$ 162
Total realized and unrealized losses included in net decrease in net assets available for benefits	(3,961,043)	-
Sales	(4,699,131)	-
Balance, December 31, 2008	6,637,131	162
Total realized and unrealized gains included in net decrease in net assets available for benefits	49,217	-
Sales	(2,948,479)	-
Transfer to Jarden Consolidated Pension Plan	(3,737,869)	(162)
Balance, December 31, 2009	\$ -	\$ -
Total losses for the period included in net decrease in net assets available for benefits attributable to the change in unrealized gains or losses related to assets and liabilities still held at December 31, 2008	\$ (3,431,317)	\$ -

Realized and unrealized gains and losses included in net decrease in net assets available for benefits for the period from January 1, 2008 through December 31, 2009, are reported in investment income (loss) in fair value of investments in the statements of changes in net assets available for benefits.

Note 5: Accumulated Plan Benefits

An actuary from Mercer Human Resource Consulting determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

All accumulated plan benefits are recorded on the Post-Merger Plan as of January 1, 2010.

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

The accumulated plan benefit information as of January 1, 2009 was as follows:

	2009
Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 8,958,568
Other participants	8,550,841
	<u>17,509,409</u>
Nonvested benefits	<u>556,524</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 18,065,933</u></u>

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2010	2009
Actuarial present value of accumulated plan benefits, beginning balance	<u>\$ 18,065,933</u>	<u>\$ 17,414,261</u>
Increase (decrease) during the year attributable to

Actuarial present value of accumulated plan benefits, ending balance	<u><u>\$ -</u></u>	<u><u>\$ 18,065,933</u></u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 8.25%
- Mortality basis: 2010 PPA Static Separate Annuitant/Nonannuitant Tables for 2010 and 2009 PPA Static Separate Annuitant/Nonannuitant Tables for 2009
- Retirement: 55 to 65
- Asset valuation: Market

Jarden Corporation Consolidated Hourly Pension Plan

Notes to Financial Statements December 31, 2009 and 2008

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. It is at least reasonably possible that the actuarial assumptions used to calculate accumulated plan benefits will change in the near term, and that the effect of such change could be significant.

Note 6: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

Fees charged to the Master Trust and then allocated to the Plan totaled \$76,973 and \$91,762 for 2009 and 2008, respectively. In addition, the following administrative fees to parties-in-interest are charged directly to the Plan:

	2009	2008
Administrative Expenses		
Actuarial services	\$ 87,596	\$ 86,052
Recordkeeping	35,993	34,806
PBGC Premiums	56,828	47,307
Other professional services	35,014	25,382
	<u>\$ 215,431</u>	<u>\$ 193,547</u>

The Company provides certain administrative services at no cost to the Plan.

Note 7: Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an annual average of the adjusted market value over the last 25 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for retired participants.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for active participants.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

- **IRC Section 415(b):** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.

Significant events

To the best of our knowledge, no events occurred during the year that would significantly affect the valuation results.

Plan sponsor elections

- **Mortality**
 - 2009 PPA static separate annuitant and non-annuitant mortality tables
- **Funding interest rate**
 - Full yield curve
 - 2 look-back months
- **Valuation of lump sums based on IRC Section 417(e) assumptions**
 - Not applicable
- **Normal cost:**
 - The target normal cost was increased by assumed plan expenses, as required by the Worker, Retiree and Employer Act of 2008.

Minimum funding method

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **accrued liability** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the accrued liability and the normal cost for an individual are the sum of the component accrued liabilities and normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual normal costs, and the plan's **funding target liability** is the sum of the accrued liabilities for all participants under the plan.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the accrued liability computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected accrued liability** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the accrued liability for an individual is the sum of the component accrued liabilities associated with the various anticipated separation dates.
- The plan's **projected funding target liability** is the sum of the projected accrued liabilities for all participants under the plan. The excess of the plan's projected accrued liability over the plan's funding target is included in the "cushion amount."

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Early retirement	Age 55 and 10 years of vesting service
Late retirement	Subject to continued employment after normal retirement
Disability	10 years of vesting service
Termination	5 years of vesting service
Death	5 years of vesting service

Schedule SB, Part V – Summary of Plan Provisions

Normal retirement benefit	The standard retirement benefit is a monthly pension payable for life equal to \$20.00 multiplied by benefit service. For retirement on or after January 1, 1997, the dollar multiplier increases to \$21.00. For retirement on or after January 1, 1998, the dollar multiplier increases to \$22.00. For retirement on or after January 1, 1999, the dollar multiplier increases to \$23.00. For retirement on or after January 1, 2001, the dollar multiplier increases to \$24.00. For retirement on or after January 1, 2002, the dollar multiplier increases to \$25.00. For retirement on or after January 1, 2003, the dollar multiplier increases to \$26.00. For retirement on or after January 1, 2004, the dollar multiplier increases to \$27.00. For retirement on or after January 1, 2005, the dollar multiplier increases to \$28.00. For retirement on or after January 1, 2006, the dollar multiplier increases to \$29.00. For retirement on or after January 1, 2007, the dollar multiplier increases to \$30.00. For retirement on or after January 1, 2008, the dollar multiplier increases to \$32.00.																						
Early retirement benefit	The accrued retirement benefit as of the early retirement date shall be payable commencing at normal retirement. However, a participant may elect to have his benefit commence prior to normal retirement in a reduced monthly amount determined by applying the following reduction factors:																						
	<table> <tr> <th><u>Age at Retirement</u></th><th><u>Early Retirement Factor</u></th></tr> <tr> <td>55</td><td>39.00%</td></tr> <tr> <td>56</td><td>42.50%</td></tr> <tr> <td>57</td><td>46.30%</td></tr> <tr> <td>58</td><td>50.60%</td></tr> <tr> <td>59</td><td>55.40%</td></tr> <tr> <td>60</td><td>60.80%</td></tr> <tr> <td>61</td><td>66.80%</td></tr> <tr> <td>62</td><td>73.60%</td></tr> <tr> <td>63</td><td>81.30%</td></tr> <tr> <td>64</td><td>90.00%</td></tr> </table> <p>Note: This table only gives the early retirement factors for years of attained age.
