Report of Independent Certified Public Accountants

Board of Trustees
Vision Care Holdings, L.L.C. 401(k) Plan
West Palm Beach, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of Vision Care Holdings, L.L.C. 401(k) Plan (the "Plan") as of December 31, 2009 and 2008 and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by JP Morgan Chase Bank, National Association, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and accompanying information. We have been informed by the Plan administrator that JP Morgan Chase Bank, National Association holds the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and accompanying information taken as a whole. The form and content of the information included in the financial statements and accompanying information, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Plan Description

General - The Plan is a prototype defined contribution plan covering all full time employees of Vision Care Holdings, L.L.C. of which subsequent to year end declared bankruptcy and currently is operated under the LASIK Vision Institute, LLC and its participating affiliates (the "Company). The original effective date of the Plan was October 1, 1998 but was restated by a new prototype plan with Automatic Data Processing ("ADP") that was effective October 1, 2000. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On March 1, 2009, the Plan was amended and restated to remove Eyeglass World LLC as a participating affiliate. This division was sold during the year and resulted in a partial plan termination in 2008.

The following is a summary of the major plan provisions. Participants should refer to the Plan agreement for a more complete description.

Participation - All employees of the Company who have completed at least three months of service and have attained the age of twenty-one are auto-enrolled to participate at a 2% deferral rate.

Contributions - Participants may contribute up to 20% of pretax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions based upon various investment options offered by the Plan. The Plan currently offers a variety of mutual funds and one common/collective trust as investment options for its participants. At its discretion, the Company may make matching contributions of the employee elective contributions. In addition, the Company may make discretionary non-elective contributions to the Plan, as determined by the Company's board of directors. Matching and non-elective Company contributions are allocated to employed participants at the end of the Plan year. Contributions are subject to certain limitations. The Company elected not to match or make non-elective employer contributions for the year ended December 31, 2009 and 2008.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which each participant is entitled is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings therein. Participants vest in their employer matching contribution based on years of service as defined by the Plan. A participant is 100% vested after three years of credited service. Upon death, normal retirement, or disability, employees will be 100% vested in employer contributions.

Participant Loans - Participants may borrow from their accounts a minimum of $500 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the current prime rate plus two percent. Principal and interest are paid ratably through payroll deductions.

Note 1 – Plan Description (continued)

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a determined period.

Forfeited Accounts - Non-vested forfeited accounts may be used to reduce future employer contributions. At December 31, 2009 and 2008, there were no non-vested forfeited account balances.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of *Fair Value Measurements*.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Fair Value Measurements – Accounting principles generally accepted in the United States provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Note 2 – Summary of Significant Accounting Policies (continued)

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methods used for instruments measured at fair value, including the general classification of such instruments, pursuant to the valuation hierarchy.

Mutual Funds – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/Collective Trust – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments most of which are traded on an active market and the balance of which are traded on secondary markets. (See Note 4)

Participant Loans – Loans to Plan participants are valued at cost plus accrued interest, which approximates fair value and are classified within level 3 of the valuation hierarchy.

The methods described above produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 2 – Summary of Significant Accounting Policies (continued)

The following tables represent the fair value hierarchy described above:

2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Assets:				
Mutual funds	$ 961,991	$ -	$ -	$ 961,991

The table below sets forth a summary of changes in the fair value of the Plan's level 3 investment assets for the year ended December 31, 2009:

2009	Beginning Fair Value	Interest and Dividends	Purchases, Issuances, (Repayments) (Settlements), Net	Ending Fair Value
Participant loans	$ 86,119	$ 5,844	$ (33,805)	$ 58,158

Benefits Paid to Participants – Benefits are recorded when processed and paid.

Note 2 – Summary of Significant Accounting Policies (continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated subsequent events through October 12, 2010 in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Note 3 – Information Prepared and Certified by Trustee (Unaudited)

The following information included in the financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by JP Morgan Chase Bank, National Association, the trustee of the Plan, as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

However, the contract value of the common/collective trust was included in the above referenced certifications.

Note 3 – Information Prepared and Certified by Trustee (Unaudited) (continued)

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common/collective trust	$ 3,704
Mutual funds	159,426
	$ 163,130

The following presents the Plan's investments at December 31, 2009 and 2008 that individually represent 5% or more of the Plan's net assets:

** Asset does not represent 5% or more of the net assets available for benefits as December 31, 2008.

Note 4 – Fully-Benefit Responsive Trusts

The Plan holds an interest in a common/collective trust (Merrill Retirement Preservation Trust) with JP Morgan Chase Bank, National Association, to maintain a portion of the Plan contributions in guaranteed investment contracts and synthetic guaranteed investment contracts. The account is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses charged by the Trustee. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the common/collective trust contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the common/collective trust. Contract value, as reported to the Plan by JP Morgan Chase Bank, National Association, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 4 – Fully-Benefit Responsive Trusts (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $273,493 and $279,995, respectively. The crediting interest rate is based on a formula agreed upon with the issuer.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Average yields during 2009 and 2008 are as follows:

	2009	2008
Based on actual earnings	2.35%	4.28%
Based on interest rate credited to participants	2.57%	4.07%

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 – Administrative Expense

Investment manager fees and administrative expenses relating to the Plan are paid by the Plan and are reflected in the Plan's financial statements. However, expenses related to the Plan paid directly by the Company were approximately $21,300 for the year ended December 31, 2009 and are not included in the accompanying financial statements.

Note 7 – Tax Status

The Plan adopted an ADP Prototype defined contribution plan effective October 1, 2000. The Prototype Plan obtained its latest determination letter on November 6, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Prototype Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Prototype Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Prototype Plan was qualified and the related trust was tax-exempt as of the financial statement date and therefore no provision for income taxes has been included in the Plan’s financial statements.

Note 8 – Party-In-Interest Transactions

Certain Plan investments are shares in mutual funds and a common/collective trust fund managed by JP Morgan Chase Bank, National Association. JP Morgan Chase Bank, National Association is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Participant loans transactions are also considered to be party-in-interest because they are transacted with Plan participants. Fees paid during the year for accounting and other services rendered by the parties-in-interest were based on customary and reasonable rates for such services.

Note 9 – Risk and Uncertainties

The Plan provides for investment options in various funds. Investment securities are exposed to certain risks, such as interest rate, market and credit and overall market volatility. Due to the level of risk associated with investment securities and the level of uncertainty related to the changes in their value, it is at least reasonably possible that changes in risks in the near future could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in net Assets Available for Benefits.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits included in the December 31, 2009 financial statements to those included in Form 5500:

Net assets available for benefits per the financial statements	$ 1,309,166
Add: Excess-contributions payable	4,315
Net assets available for benefits per the Form 5500	$ 1,313,481

The following is a reconciliation of net increase in net assets available for benefits included in the financial statements for the year ended December 31, 2009 to Form 5500:

Net decrease in net assets available for benefits per the financial statements	$ (113,971)
Add: Excess-contribution payable, end of year	4,315
Less: Prior year excess-contributions payable	(5,473)
Net decrease in net assets available for benefits per Form 5500	$ (115,129)
