Independent Auditors' Report

To the Plan Administrator Clearwire Corporation 401(k) Plan Kirkland, Washington

Certified Public
Accountants

and Consultants

We were engaged to audit the accompanying statements of net assets available for plan benefits of Clearwire Corporation 401(k) Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for plan benefits and supplemental schedule as of and for the year ended December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The plan administrator has informed us that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

## Note 1 - Description of the Plan

The following description of the Clearwire Corporation 401(k) Plan (the Plan) provides general information only. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

**General -** The Plan is a defined contribution plan that was established effective October 1, 1998 for the benefit of employees of Clearwire Corporation (the Sponsor). All employees are eligible to participate in the Plan on their date of hire. The Plan adopted an automatic enrollment provision, under which new participants are set up with a 3% pre-tax deferral unless they formally waive participation or elect a different participation level. Effective November 1, 2009, the Plan was amended to remove the automatic enrollment feature of the plan. Employees may enter the Plan on the first day of each month.

**Contributions -** Participants may contribute to the Plan through voluntary deferrals of eligible compensation. The Plan excludes bonuses, commissions, severance pay and stock compensation from eligible compensation. Participants may contribute 1% to 60% of their eligible compensation to the Plan, not to exceed annual limitations prescribed by the Internal Revenue Service (IRS). Participants that have attained the age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are also allowed to rollover contributions from other qualified employer-sponsored retirement plans. The Plan was amended subsequent to December 31, 2009 to allow for participants to make after-tax contributions (Roth).

The Sponsor makes a fixed non-discretionary matching contribution on a per pay period basis. The match is 50% of employee contributions not to exceed 6% of eligible compensation.

**Participant Accounts -** Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account, increases or decreases in the market value of investments, and any loans and loan repayments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Allocation Provisions -** Dividend income, interest income and net realized and unrealized investment gain or loss of each fund shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investment funds held in their investment account.

**Vesting -** Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Plan sponsor's fixed non-discretionary matching contributions is based on years of continuous service as follows:

	Vested
<u>Years of Service</u>	<u>Percentage</u>
1	33%
2	66%
3	100%

#### Notes to Financial Statements

#### Note 1 - Continued

**Forfeitures -** Forfeitures of terminated participants' non-vested accounts are retained in the Plan and will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions. The Sponsor utilized forfeited accounts to pay administrative expenses of \$9,200 and \$110,000 to reduce the fixed non-discretionary matching contributions during the plan year ended December 31, 2009. At December 31, 2009 and 2008, there were \$195,942 and \$145,815 in unallocated forfeitures, respectively.

**Benefit Payments -** Upon termination of service, retirement, death, disability, a participant or beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Participants may also elect to receive a distribution of all or any portion of their vested account balance prior to termination of employment (in-service withdrawals) upon attainment of age 59 ½. The Plan also allows for hardship withdrawals.

Participant Loans - The Plan allows participants to borrow from their accounts using their vested balance as collateral for the loans. A participant may have only one loan outstanding at any given time. The maximum amount that a participant may borrow is equal to the lesser of 50% of their entire vested account balance or \$50,000, reduced by the highest outstanding loan balance in the participants prior twelve month period. The minimum amount required to be borrowed is \$1,000. Loan terms range from one to five years unless it is used to acquire a principal residence which may not extend beyond ten years from the date of the loan. The loans bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator and shall remain fixed throughout the duration of the loan. Principal and interest are paid through payroll deductions.

**Administrative Expenses -** Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. Participant loan accounts are assessed a separate fee for the administration of loans and repayments thereof. All other administrative expenses related to the Plan are paid by either the Plan or Sponsor.

**Subsequent Events -** The Plan's management has evaluated subsequent events through September 29, 2010, the date on which the Plan's financial statements were available to be issued.

#### Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting. In accordance with generally accepted accounting principles (GAAP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's statements of net assets available for plan benefits present the fair value of the collective trust fund as well as an adjustment of the fully benefit-responsive collective trust fund from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on the contract basis.

## Notes to Financial Statements

#### Note 2 - Continued

**Use of Estimates -** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

**Benefits Paid to Benefits -** Benefits paid to participants are recorded when paid. As of December 31, 2009 and 2008, there were no benefit payments that had been requested but not paid.

**Investment Valuation and Income Recognition -** The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments represents the change in fair value of assets from one period to the next and includes realized gains and losses on investments.

**Risks and Uncertainties -** The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

#### Note 3 - Fair Value Measurements

The Financial Accounting Standards Board (FASB) issued guidance for fair value measurements. This guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Unadjusted quoted prices available in active markets for identical assets or liabilities;

<u>Level 2</u>: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

<u>Level 3</u>: Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

## Notes to Financial Statements

#### Note 3 - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

**Mutual Funds -** Valued at quoted market prices in active markets, which represent the net asset value (NAV) of shares held by the Plan at year-end.

**Collective Trust Fund -** Valued using the NAV provided by the fund's trustee. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding at the valuation date. The fund is traded on a private market that is not active; however, the unit price is based primarily on observable market data of the fund's underlying assets.

Participant Loans - Valued at their outstanding balance, which approximates fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008 (Levels 1, 2, and 3 are defined above):

## Note 5 - Information Certified by the Trustee

The Sponsor has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a qualifying institution need not be subjected to independent audits. The Plan's management has obtained certification from the trustee, Fidelity Management Trust Company, that the following information provided by the trustee and included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Fair value and, if applicable, contract value of investments as of December 31, 2009 and 2008;
- Investment income earned for the year ended December 31, 2009; and
- Investment transactions for the year ended December 31, 2009.

## Notes to Financial Statements

#### Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

#### Note 7 - Federal Income Taxes

The Sponsor adopted a plan under the IRS volume submitter program which received a favorable opinion letter dated March 31, 2008. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

## Note 8 - Party-In-Interest

The Plan invests in shares of mutual funds managed by an affiliate of the trustee. Transactions in such investments and fees charged by the affiliate directly to the funds for managing the investments qualify as party-in-interest transactions.

#### Note 9 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31:

Independent Auditors' Report

To the Plan Administrator Clearwire Corporation 401(k) Plan Kirkland, Washington

Accountants and Consultants

**Certified Public** 

We were engaged to audit the accompanying statements of net assets available for plan benefits of Clearwire Corporation 401(k) Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for plan benefits and supplemental schedule as of and for the year ended December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The plan administrator has informed us that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

# Note 1 - Description of the Plan

The following description of the Clearwire Corporation 401(k) Plan (the Plan) provides general information only. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

**General -** The Plan is a defined contribution plan that was established effective October 1, 1998 for the benefit of employees of Clearwire Corporation (the Sponsor). All employees are eligible to participate in the Plan on their date of hire. The Plan adopted an automatic enrollment provision, under which new participants are set up with a 3% pre-tax deferral unless they formally waive participation or elect a different participation level. Effective November 1, 2009, the Plan was amended to remove the automatic enrollment feature of the plan. Employees may enter the Plan on the first day of each month.

**Contributions -** Participants may contribute to the Plan through voluntary deferrals of eligible compensation. The Plan excludes bonuses, commissions, severance pay and stock compensation from eligible compensation. Participants may contribute 1% to 60% of their eligible compensation to the Plan, not to exceed annual limitations prescribed by the Internal Revenue Service (IRS). Participants that have attained the age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are also allowed to rollover contributions from other qualified employer-sponsored retirement plans. The Plan was amended subsequent to December 31, 2009 to allow for participants to make after-tax contributions (Roth).

The Sponsor makes a fixed non-discretionary matching contribution on a per pay period basis. The match is 50% of employee contributions not to exceed 6% of eligible compensation.

**Participant Accounts -** Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account, increases or decreases in the market value of investments, and any loans and loan repayments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Allocation Provisions -** Dividend income, interest income and net realized and unrealized investment gain or loss of each fund shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investment funds held in their investment account.

**Vesting -** Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Plan sponsor's fixed non-discretionary matching contributions is based on years of continuous service as follows:

	Vested
<u>Years of Service</u>	<u>Percentage</u>
1	33%
2	66%
3	100%

### Notes to Financial Statements

# Note 1 - Continued

**Forfeitures -** Forfeitures of terminated participants' non-vested accounts are retained in the Plan and will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions. The Sponsor utilized forfeited accounts to pay administrative expenses of \$9,200 and \$110,000 to reduce the fixed non-discretionary matching contributions during the plan year ended December 31, 2009. At December 31, 2009 and 2008, there were \$195,942 and \$145,815 in unallocated forfeitures, respectively.

**Benefit Payments -** Upon termination of service, retirement, death, disability, a participant or beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Participants may also elect to receive a distribution of all or any portion of their vested account balance prior to termination of employment (in-service withdrawals) upon attainment of age 59 ½. The Plan also allows for hardship withdrawals.

Participant Loans - The Plan allows participants to borrow from their accounts using their vested balance as collateral for the loans. A participant may have only one loan outstanding at any given time. The maximum amount that a participant may borrow is equal to the lesser of 50% of their entire vested account balance or \$50,000, reduced by the highest outstanding loan balance in the participants prior twelve month period. The minimum amount required to be borrowed is \$1,000. Loan terms range from one to five years unless it is used to acquire a principal residence which may not extend beyond ten years from the date of the loan. The loans bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator and shall remain fixed throughout the duration of the loan. Principal and interest are paid through payroll deductions.

**Administrative Expenses -** Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. Participant loan accounts are assessed a separate fee for the administration of loans and repayments thereof. All other administrative expenses related to the Plan are paid by either the Plan or Sponsor.

**Subsequent Events -** The Plan's management has evaluated subsequent events through September 29, 2010, the date on which the Plan's financial statements were available to be issued.

### Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting. In accordance with generally accepted accounting principles (GAAP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's statements of net assets available for plan benefits present the fair value of the collective trust fund as well as an adjustment of the fully benefit-responsive collective trust fund from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on the contract basis.

# Notes to Financial Statements

### Note 2 - Continued

**Use of Estimates -** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

**Benefits Paid to Benefits -** Benefits paid to participants are recorded when paid. As of December 31, 2009 and 2008, there were no benefit payments that had been requested but not paid.

**Investment Valuation and Income Recognition -** The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments represents the change in fair value of assets from one period to the next and includes realized gains and losses on investments.

**Risks and Uncertainties -** The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

### Note 3 - Fair Value Measurements

The Financial Accounting Standards Board (FASB) issued guidance for fair value measurements. This guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Unadjusted quoted prices available in active markets for identical assets or liabilities;

<u>Level 2</u>: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

<u>Level 3</u>: Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

### Note 3 - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

**Mutual Funds -** Valued at quoted market prices in active markets, which represent the net asset value (NAV) of shares held by the Plan at year-end.

**Collective Trust Fund -** Valued using the NAV provided by the fund's trustee. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding at the valuation date. The fund is traded on a private market that is not active; however, the unit price is based primarily on observable market data of the fund's underlying assets.

Participant Loans - Valued at their outstanding balance, which approximates fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008 (Levels 1, 2, and 3 are defined above):

# Note 5 - Information Certified by the Trustee

The Sponsor has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a qualifying institution need not be subjected to independent audits. The Plan's management has obtained certification from the trustee, Fidelity Management Trust Company, that the following information provided by the trustee and included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Fair value and, if applicable, contract value of investments as of December 31, 2009 and 2008;
- Investment income earned for the year ended December 31, 2009; and
- Investment transactions for the year ended December 31, 2009.

# Notes to Financial Statements

### Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

### Note 7 - Federal Income Taxes

The Sponsor adopted a plan under the IRS volume submitter program which received a favorable opinion letter dated March 31, 2008. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

# Note 8 - Party-In-Interest

The Plan invests in shares of mutual funds managed by an affiliate of the trustee. Transactions in such investments and fees charged by the affiliate directly to the funds for managing the investments qualify as party-in-interest transactions.

## Note 9 - Reconciliation to Form 5500

Independent Auditors' Report

To the Plan Administrator Clearwire Corporation 401(k) Plan Kirkland, Washington

Certified Public
Accountants

and Consultants

We were engaged to audit the accompanying statements of net assets available for plan benefits of Clearwire Corporation 401(k) Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for plan benefits and supplemental schedule as of and for the year ended December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. The plan administrator has informed us that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

# Note 1 - Description of the Plan

The following description of the Clearwire Corporation 401(k) Plan (the Plan) provides general information only. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

**General -** The Plan is a defined contribution plan that was established effective October 1, 1998 for the benefit of employees of Clearwire Corporation (the Sponsor). All employees are eligible to participate in the Plan on their date of hire. The Plan adopted an automatic enrollment provision, under which new participants are set up with a 3% pre-tax deferral unless they formally waive participation or elect a different participation level. Effective November 1, 2009, the Plan was amended to remove the automatic enrollment feature of the plan. Employees may enter the Plan on the first day of each month.

**Contributions -** Participants may contribute to the Plan through voluntary deferrals of eligible compensation. The Plan excludes bonuses, commissions, severance pay and stock compensation from eligible compensation. Participants may contribute 1% to 60% of their eligible compensation to the Plan, not to exceed annual limitations prescribed by the Internal Revenue Service (IRS). Participants that have attained the age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are also allowed to rollover contributions from other qualified employer-sponsored retirement plans. The Plan was amended subsequent to December 31, 2009 to allow for participants to make after-tax contributions (Roth).

The Sponsor makes a fixed non-discretionary matching contribution on a per pay period basis. The match is 50% of employee contributions not to exceed 6% of eligible compensation.

**Participant Accounts -** Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account, increases or decreases in the market value of investments, and any loans and loan repayments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Allocation Provisions -** Dividend income, interest income and net realized and unrealized investment gain or loss of each fund shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investment funds held in their investment account.

**Vesting -** Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Plan sponsor's fixed non-discretionary matching contributions is based on years of continuous service as follows:

	Vested
<u>Years of Service</u>	<u>Percentage</u>
1	33%
2	66%
3	100%

### Notes to Financial Statements

#### Note 1 - Continued

**Forfeitures -** Forfeitures of terminated participants' non-vested accounts are retained in the Plan and will first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions. The Sponsor utilized forfeited accounts to pay administrative expenses of \$9,200 and \$110,000 to reduce the fixed non-discretionary matching contributions during the plan year ended December 31, 2009. At December 31, 2009 and 2008, there were \$195,942 and \$145,815 in unallocated forfeitures, respectively.

**Benefit Payments -** Upon termination of service, retirement, death, disability, a participant or beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Participants may also elect to receive a distribution of all or any portion of their vested account balance prior to termination of employment (in-service withdrawals) upon attainment of age 59 ½. The Plan also allows for hardship withdrawals.

Participant Loans - The Plan allows participants to borrow from their accounts using their vested balance as collateral for the loans. A participant may have only one loan outstanding at any given time. The maximum amount that a participant may borrow is equal to the lesser of 50% of their entire vested account balance or \$50,000, reduced by the highest outstanding loan balance in the participants prior twelve month period. The minimum amount required to be borrowed is \$1,000. Loan terms range from one to five years unless it is used to acquire a principal residence which may not extend beyond ten years from the date of the loan. The loans bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator and shall remain fixed throughout the duration of the loan. Principal and interest are paid through payroll deductions.

**Administrative Expenses -** Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. Participant loan accounts are assessed a separate fee for the administration of loans and repayments thereof. All other administrative expenses related to the Plan are paid by either the Plan or Sponsor.

**Subsequent Events -** The Plan's management has evaluated subsequent events through September 29, 2010, the date on which the Plan's financial statements were available to be issued.

### Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting. In accordance with generally accepted accounting principles (GAAP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's statements of net assets available for plan benefits present the fair value of the collective trust fund as well as an adjustment of the fully benefit-responsive collective trust fund from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on the contract basis.

# Notes to Financial Statements

### Note 2 - Continued

**Use of Estimates -** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

**Benefits Paid to Benefits -** Benefits paid to participants are recorded when paid. As of December 31, 2009 and 2008, there were no benefit payments that had been requested but not paid.

**Investment Valuation and Income Recognition -** The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments represents the change in fair value of assets from one period to the next and includes realized gains and losses on investments.

**Risks and Uncertainties -** The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

### Note 3 - Fair Value Measurements

The Financial Accounting Standards Board (FASB) issued guidance for fair value measurements. This guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Unadjusted quoted prices available in active markets for identical assets or liabilities;

<u>Level 2</u>: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

<u>Level 3</u>: Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

### Note 3 - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

**Mutual Funds -** Valued at quoted market prices in active markets, which represent the net asset value (NAV) of shares held by the Plan at year-end.

**Collective Trust Fund -** Valued using the NAV provided by the fund's trustee. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding at the valuation date. The fund is traded on a private market that is not active; however, the unit price is based primarily on observable market data of the fund's underlying assets.

Participant Loans - Valued at their outstanding balance, which approximates fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008 (Levels 1, 2, and 3 are defined above):

# Note 5 - Information Certified by the Trustee

The Sponsor has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a qualifying institution need not be subjected to independent audits. The Plan's management has obtained certification from the trustee, Fidelity Management Trust Company, that the following information provided by the trustee and included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Fair value and, if applicable, contract value of investments as of December 31, 2009 and 2008;
- Investment income earned for the year ended December 31, 2009; and
- Investment transactions for the year ended December 31, 2009.

# Notes to Financial Statements

### Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

### Note 7 - Federal Income Taxes

The Sponsor adopted a plan under the IRS volume submitter program which received a favorable opinion letter dated March 31, 2008. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

# Note 8 - Party-In-Interest

The Plan invests in shares of mutual funds managed by an affiliate of the trustee. Transactions in such investments and fees charged by the affiliate directly to the funds for managing the investments qualify as party-in-interest transactions.
