UNION STATE BANK 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Union State Bank 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) salary reduction profit sharing plan covering all full-time employees of Union State Bank (the Company) who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to defer up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Service limitations. The Company makes discretionary contributions to the Plan in amounts determined annually by the Board of Directors. For the year ended December 31, 2009, the Company discretionary contributions totaled 4.25% of the participant's compensation. The Plan also allows the Company to make discretionary matching contributions. There were no discretionary matching contributions for the year ended December 31, 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, plus a proportionate interest in the investment earnings or losses of the funds in which the contributions are invested. Allocations are based upon the participant's earnings or account balances as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions plus earnings thereon is based upon years of service. A participant is 100% vested after six years of credited service. In the event of death, disability, normal retirement age (65) and five years of participation, or if the Plan is discontinued, participants become 100% vested in all account balances.

Forfeitures

If an employee terminates before his or her matching and discretionary contribution accounts have become fully vested, such portion of the account is forfeited. Participant forfeitures are used to reduce future employer matching contributions. Forfeitures totaled \$ 11,404 in 2009.

Payment of Benefits

Participants receive account distributions in the form of a lump sum payment. Withdrawals by a participant while employed are limited to those requested due to event of financial hardship as defined by the Plan, or upon reaching the age of 59½ and fully vested.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Participant loans are valued at their outstanding balances, which approximate fair value. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Administrative Expenses

The Companies absorb a majority of the Plan administration expenses.

Date of Management's Review

Subsequent events were evaluated through October 12, 2010, which is the date the financial statements were available to be issued.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

	<u>\$ 2,762,136</u>	<u>\$ 2,704,441</u>	<u>\$ 58,605</u>

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

5. Loans to Participants

Participants may borrow the lesser of \$ 50,000 or 50% of their vested account balance and must borrow a minimum of \$ 1,000. Loan repayment periods range from one to five years. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. As of December 31, 2009, interest rates on loans to participants ranged from 4.25% to 8.5%. Principal and interest is repaid ratably through payroll deductions.

UNION STATE BANK 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

6. Related Party Transactions

The Company provides the Plan with certain management and administrative services for which no fees are charged.

Plan investments include interests in certain pooled separate accounts managed by Hartford Life Insurance Company as of December 31, 2009, and 2008. Hartford Life Insurance Company is custodian and, therefore, these investments and related investment transactions qualify as exempt party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement. In the event of termination, the Plan provides that all affected participants' interests will become fully vested and nonforfeitable.

8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service stating that the Plan qualifies under the applicable sections of the Internal Revenue Code (IRC), and is, therefore, not subject to tax under present income tax law. The Plan, which has been amended since receiving the determination letter, is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

10. Information Prepared and Certified by Trustee
