INDEPENDENT AUDITOR'S REPORT

To the Standard Utility Construction, Inc. 401(k) Profit Sharing Plan and Participants:

We were engaged to audit the accompanying statements of net assets available for benefits of Standard Utility Construction, Inc. 401(k) Profit Sharing Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedules as of and for the year ended December 31, 2009 as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 to the financial statements, which was certified by John Hancock Life Insurance Company, the trustee/custodian of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee/custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee/custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee/custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee/custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1: DESCRIPTION OF PLAN

The following description of the Standard Utility Construction, Inc. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Effective January 1, 2007, the Plan amended and restated its preexisting Plan, which was originally formed as of January 1, 2000. The amended and restated Plan is a Datair Mass-Submitter Prototype Standardized Cash or Deferred Profit Sharing Plan (the "Plan") and was adopted by Standard Utility Construction, Inc. (the "Company"). The Plan and related Trust as relates to the Company shall be known as Standard Utility Construction, Inc. 401(k) Profit Sharing Plan and is a defined contribution plan covering substantially all full-time employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2008, the Plan was amended changing the eligibility definition to require 1 year of service and scheduled to work a minimum of 1,000 hours per year.

Effective January 1, 2009, the Plan was amended and restated to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001.

Contributions

A participant may elect to defer up to 100% of eligible compensation, not to exceed $15,500 for 2008 and $16,500 for 2009, whichever is lower. Participants age 50 or older, may contribute an additional $5,000 for 2008 and $5,500 for 2009 as catchup contributions in excess of the above mentioned maximums. The Company may make a discretionary profit sharing or matching contribution. For the year ended December 31, 2009, the Company made matching contributions of 2% of eligible compensation of a participant contributing to the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Additional amounts may be contributed at the option of the Company's Board of Directors. Participants direct the investment of their contributions into various investment options offered by the Plan. The matching Company contribution is invested along with participants' contributions each pay cycle.

Investment Options

Upon enrollment in the Plan, a participant may direct employer and employee contributions in 1% increments in a variety of investment options, which vary in degree of risk.

Investments are held by John Hancock Life Insurance Company (USA) in a group annuity contract containing pooled separate sub accounts. Participants may change their investment options daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, earnings on their separate account, and allocations of the Company's contribution. Allocations are based on participant compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1: DESCRIPTION OF PLAN, continued

Vesting

Participants are immediately vested in their contributions plus actual earning thereon. Vesting in the Company's matching portion, plus actual earnings thereon, is based on years of continuous service. Each participant's benefits become 20% vested at the end of their second year, 40% vested at the end of their third year, 60% vested at the end of their fourth year, 80% vested at the end of their fifth year and 100% vested at the end of their sixth year of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount of any loan being the lesser of $50,000 or 50% of the vested interest of the participant's account in the Plan. The loans are secured by no more than 50% of the present value of a participant's vested interest in the Plan. Loan terms range from 1–5 years or up to 30 years for the purchase of a primary residence. Loan proceeds are obtained through the liquidation of the required amount of participant vested account balances. The loans bear interest at Wall Street Journal prime rate plus 1%. The rate will be constant throughout the term of the loan. Principal and interest is paid rateably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $6,720 and $1,064, respectively. The forfeited non-vested accounts will be used to reduce future employer contributions.

Subsequent Events

The Plan Administrator has evaluated subsequent events through the date and time the financial statements were issued.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of pooled separate accounts are valued daily at quoted market prices. The Stable Value Sub-account is valued at $1.00 per unit which approximates fair value. Participant loans are valued at the unamortized principal amount or cost.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Participant loan interest is recorded when received.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Benefit responsive investment contracts

As described in Financial Accounting Standards Board Accounting Standards Codification, 946-210-45, *Fully Benefit-Responsive Investments Contracts* (the ASC), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable value sub-account. As required by the ASC, the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 present the fair value of the investment in the stable value sub-account. No adjustment of the investment in the stable value sub-account has been made since the redemption amount and fair value amount are the same. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

Payment of Benefits

Benefits are recorded when paid. Benefits paid during the year represent interests in accounts and their vested portions for terminated or retired employees, normal and hardship distributions.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4: TAX STATUS

The plan obtained its latest determination letter on September 18, 2001, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan as currently designed is being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 5: FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan offers a fully-benefit responsive investment contract in a Sub-account, the John Hancock Stable Value Fund. This fund seeks to preserve principal and provide book value liquidity on a daily basis for plan-permitted, participant-directed withdrawals while maintaining a competitive rate of interest. The fund invests primarily in diversified fixed income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock Life Insurance Company, and in book value stabilizing agreements offered by high quality financial institutions. Withdrawals from this Sub-account are subject to the same restrictions that apply to the underlying Trust. The Trustee of the underlying Trust has the right to delay any participant-initiated withdrawal for up to 30 days if it determines that immediate withdrawal may have an adverse impact on the Trust. In addition, the Trust has the right to delay for up to 12 months any other withdrawal.

Interest is calculated to approximate an annual effective interest rate determined pursuant to the Gross Crediting Rate formula and is reset quarterly. The calculation of the Gross Crediting Rate will incorporate the book value, market value, duration, and current market yield rates of all of the assets held in the Separate Account as of the last day of the quarter. Any changes in these components will influence future interest credit rates. The minimum interest crediting rate is zero. The average yield earned for 2009 was .3%

NOTE 6: PARTICIPANT DIRECTED INVESTMENTS COMPRISING 5% OR MORE OF NET ASSETS

The following table represents assets that have a value of more than 5% of net assets. These assets are part of the pooled separate accounts with John Hancock.

	2009	2008
Assets that are more than 5% of plan assets:		
J H Lifestyle Moderate	$ 73,225	$ -
J H Lifestyle Balance	330,559	198,801
J H Lifestyle Growth	409,888	238,431
J H Lifestyle Aggressive	127,667	84,678
Stable Value	119,524	134,363
Accounts with balances below 5% of plan assets	204,434	172,379
Total Contract With Insurance Company	$1,265,297	$ 828,652

During the year ended December 31, 2009, the Plan's investments appreciated in fair value in the pooled separate accounts, as determined by quoted market value, $ 278,682.

NOTE 7: TRUSTEE'S CERTIFICATION

John Hancock Life Insurance Company, Trustee, has certified that the investment assets, transactions, and income, the schedule of investments, and uninvested cash as illustrated in the Trust Report is complete and accurate. The following is a summary of that information:

	2009	2008
Investments at fair value	$ 1,377,284	$ 899,108
Contract cash	6,187	4,378
Total investment income (loss)	282,650	(351,757)

NOTE 8: FAIR VALUE MEASUREMENT

ASC 820-10-50, *Fair Value Measurements and Disclosure*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10-50 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual security is traded.

Separate accounts and stable value fund: Valued at the net asset value (NAV) of shares held by the plan at year end for separate accounts and the estimated fair value as determined by the insurance company sponsoring the trust for the stable value fund.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8: FAIR VALUE MEASUREMENT, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Contract with insurance company	$1,265,297	$1,265,297	$	$
Participant's notes receivable	105,800			105,800
Total Investments at Fair Value	$1,371,097	$1,265,297	$	$ 105,800

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Contract with insurance company	$828,652	$828,652	$	$
Participant's notes receivable	66,078			66,078
Total Investments at Fair Value	$894,730	$828,652	$	$ 66,078

Level 3 Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	$ 66,078
Purchases, sales, issuances and settlements (net)	39,722
Balance, end of year	$105,800

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2008:

	Participant Loans
Balance, beginning of year	$75,705
Purchases, sales, issuances and settlements (net)	(9,627)
Balance, end of year	$66,078

NOTE 9: ADMINISTRATIVE COSTS

The Plan and the Company incurred fees relating to asset charges, record keeping, investment assistance and custodial fees. Participants are assessed administrative charges, relating to contributions, loan and annuity set-up charges and withdrawal and transfer charges. Investment advisory commissions were $3,777, third party administration fees were $4,720, and the custodian's administrative fees were $7,301.

NOTE 10: EXCESS CONTRIBUTIONS

Contributions received from participants for 2009 are net of payments of $22,657 made in 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Net income from pooled separate accounts for 2009 is net of the earnings on the excess contributions of $5,077. The total of $27,734 is also included in the Plan's statement of net assets available for benefits as excess contributions payale at December 31, 2009.

NOTE 11: RELATED PARTY TRANSACTIONS

The Plan invests in shares of pooled investment accounts managed by John Hancock. John Hancock acts as a custodian for only those investments defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

INDEPENDENT AUDITOR'S REPORT

To the Standard Utility Construction, Inc. 401(k) Profit Sharing Plan and Participants:

We were engaged to audit the accompanying statements of net assets available for benefits of Standard Utility Construction, Inc. 401(k) Profit Sharing Plan as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedules as of and for the year ended December 31, 2009 as listed in the accompanying table of contents. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 to the financial statements, which was certified by John Hancock Life Insurance Company, the trustee/custodian of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee/custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee/custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee/custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee/custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1: DESCRIPTION OF PLAN

The following description of the Standard Utility Construction, Inc. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Effective January 1, 2007, the Plan amended and restated its preexisting Plan, which was originally formed as of January 1, 2000. The amended and restated Plan is a Datair Mass-Submitter Prototype Standardized Cash or Deferred Profit Sharing Plan (the "Plan") and was adopted by Standard Utility Construction, Inc. (the "Company"). The Plan and related Trust as relates to the Company shall be known as Standard Utility Construction, Inc. 401(k) Profit Sharing Plan and is a defined contribution plan covering substantially all full-time employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2008, the Plan was amended changing the eligibility definition to require 1 year of service and scheduled to work a minimum of 1,000 hours per year.

Effective January 1, 2009, the Plan was amended and restated to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001.

Contributions

A participant may elect to defer up to 100% of eligible compensation, not to exceed $15,500 for 2008 and $16,500 for 2009, whichever is lower. Participants age 50 or older, may contribute an additional $5,000 for 2008 and $5,500 for 2009 as catchup contributions in excess of the above mentioned maximums. The Company may make a discretionary profit sharing or matching contribution. For the year ended December 31, 2009, the Company made matching contributions of 2% of eligible compensation of a participant contributing to the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Additional amounts may be contributed at the option of the Company's Board of Directors. Participants direct the investment of their contributions into various investment options offered by the Plan. The matching Company contribution is invested along with participants' contributions each pay cycle.

Investment Options

Upon enrollment in the Plan, a participant may direct employer and employee contributions in 1% increments in a variety of investment options, which vary in degree of risk.

Investments are held by John Hancock Life Insurance Company (USA) in a group annuity contract containing pooled separate sub accounts. Participants may change their investment options daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, earnings on their separate account, and allocations of the Company's contribution. Allocations are based on participant compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1: DESCRIPTION OF PLAN, continued

Vesting

Participants are immediately vested in their contributions plus actual earning thereon. Vesting in the Company's matching portion, plus actual earnings thereon, is based on years of continuous service. Each participant's benefits become 20% vested at the end of their second year, 40% vested at the end of their third year, 60% vested at the end of their fourth year, 80% vested at the end of their fifth year and 100% vested at the end of their sixth year of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount of any loan being the lesser of $50,000 or 50% of the vested interest of the participant's account in the Plan. The loans are secured by no more than 50% of the present value of a participant's vested interest in the Plan. Loan terms range from 1–5 years or up to 30 years for the purchase of a primary residence. Loan proceeds are obtained through the liquidation of the required amount of participant vested account balances. The loans bear interest at Wall Street Journal prime rate plus 1%. The rate will be constant throughout the term of the loan. Principal and interest is paid rateably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $6,720 and $1,064, respectively. The forfeited non-vested accounts will be used to reduce future employer contributions.

Subsequent Events

The Plan Administrator has evaluated subsequent events through the date and time the financial statements were issued.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of pooled separate accounts are valued daily at quoted market prices. The Stable Value Sub-account is valued at $1.00 per unit which approximates fair value. Participant loans are valued at the unamortized principal amount or cost.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Participant loan interest is recorded when received.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Benefit responsive investment contracts

As described in Financial Accounting Standards Board Accounting Standards Codification, 946-210-45, *Fully Benefit-Responsive Investments Contracts* (the ASC), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable value sub-account. As required by the ASC, the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 present the fair value of the investment in the stable value sub-account. No adjustment of the investment in the stable value sub-account has been made since the redemption amount and fair value amount are the same. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

Payment of Benefits

Benefits are recorded when paid. Benefits paid during the year represent interests in accounts and their vested portions for terminated or retired employees, normal and hardship distributions.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4: TAX STATUS

The plan obtained its latest determination letter on September 18, 2001, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan as currently designed is being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 5: FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan offers a fully-benefit responsive investment contract in a Sub-account, the John Hancock Stable Value Fund. This fund seeks to preserve principal and provide book value liquidity on a daily basis for plan-permitted, participant-directed withdrawals while maintaining a competitive rate of interest. The fund invests primarily in diversified fixed income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock Life Insurance Company, and in book value stabilizing agreements offered by high quality financial institutions. Withdrawals from this Sub-account are subject to the same restrictions that apply to the underlying Trust. The Trustee of the underlying Trust has the right to delay any participant-initiated withdrawal for up to 30 days if it determines that immediate withdrawal may have an adverse impact on the Trust. In addition, the Trust has the right to delay for up to 12 months any other withdrawal.

Interest is calculated to approximate an annual effective interest rate determined pursuant to the Gross Crediting Rate formula and is reset quarterly. The calculation of the Gross Crediting Rate will incorporate the book value, market value, duration, and current market yield rates of all of the assets held in the Separate Account as of the last day of the quarter. Any changes in these components will influence future interest credit rates. The minimum interest crediting rate is zero. The average yield earned for 2009 was .3%

NOTE 6: PARTICIPANT DIRECTED INVESTMENTS COMPRISING 5% OR MORE OF NET ASSETS

The following table represents assets that have a value of more than 5% of net assets. These assets are part of the pooled separate accounts with John Hancock.

	2009	2008
Assets that are more than 5% of plan assets:		
J H Lifestyle Moderate	$ 73,225	$ -
J H Lifestyle Balance	330,559	198,801
J H Lifestyle Growth	409,888	238,431
J H Lifestyle Aggressive	127,667	84,678
Stable Value	119,524	134,363
Accounts with balances below 5% of plan assets	204,434	172,379
Total Contract With Insurance Company	$1,265,297	$ 828,652

During the year ended December 31, 2009, the Plan's investments appreciated in fair value in the pooled separate accounts, as determined by quoted market value, $ 278,682.

NOTE 7: TRUSTEE'S CERTIFICATION

John Hancock Life Insurance Company, Trustee, has certified that the investment assets, transactions, and income, the schedule of investments, and uninvested cash as illustrated in the Trust Report is complete and accurate. The following is a summary of that information:

	2009	2008
Investments at fair value	$ 1,377,284	$ 899,108
Contract cash	6,187	4,378
Total investment income (loss)	282,650	(351,757)

NOTE 8: FAIR VALUE MEASUREMENT

ASC 820-10-50, *Fair Value Measurements and Disclosure*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10-50 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual security is traded.

Separate accounts and stable value fund: Valued at the net asset value (NAV) of shares held by the plan at year end for separate accounts and the estimated fair value as determined by the insurance company sponsoring the trust for the stable value fund.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8: FAIR VALUE MEASUREMENT, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Contract with insurance company	$1,265,297	$1,265,297	$	$
Participant's notes receivable	105,800			105,800
Total Investments at Fair Value	$1,371,097	$1,265,297	$	$ 105,800

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Contract with insurance company	$828,652	$828,652	$	$
Participant's notes receivable	66,078			66,078
Total Investments at Fair Value	$894,730	$828,652	$	$ 66,078

Level 3 Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	$ 66,078
Purchases, sales, issuances and settlements (net)	39,722
Balance, end of year	$105,800

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2008:

	Participant Loans
Balance, beginning of year	$75,705
Purchases, sales, issuances and settlements (net)	(9,627)
Balance, end of year	$66,078

NOTE 9: ADMINISTRATIVE COSTS

The Plan and the Company incurred fees relating to asset charges, record keeping, investment assistance and custodial fees. Participants are assessed administrative charges, relating to contributions, loan and annuity set-up charges and withdrawal and transfer charges. Investment advisory commissions were $3,777, third party administration fees were $4,720, and the custodian's administrative fees were $7,301.

NOTE 10: EXCESS CONTRIBUTIONS

Contributions received from participants for 2009 are net of payments of $22,657 made in 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Net income from pooled separate accounts for 2009 is net of the earnings on the excess contributions of $5,077. The total of $27,734 is also included in the Plan's statement of net assets available for benefits as excess contributions payale at December 31, 2009.

NOTE 11: RELATED PARTY TRANSACTIONS

The Plan invests in shares of pooled investment accounts managed by John Hancock. John Hancock acts as a custodian for only those investments defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Effective January 1, 2009, the Plan was amended and restated to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001.

Contributions

A participant may elect to defer up to 100% of eligible compensation, not to exceed $15,500 for 2008 and $16,500 for 2009, whichever is lower. Participants age 50 or older, may contribute an additional $5,000 for 2008 and $5,500 for 2009 as catchup contributions in excess of the above mentioned maximums. The Company may make a discretionary profit sharing or matching contribution. For the year ended December 31, 2009, the Company made matching contributions of 2% of eligible compensation of a participant contributing to the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Additional amounts may be contributed at the option of the Company's Board of Directors. Participants direct the investment of their contributions into various investment options offered by the Plan. The matching Company contribution is invested along with participants' contributions each pay cycle.

Investment Options

Upon enrollment in the Plan, a participant may direct employer and employee contributions in 1% increments in a variety of investment options, which vary in degree of risk.

Investments are held by John Hancock Life Insurance Company (USA) in a group annuity contract containing pooled separate sub accounts. Participants may change their investment options daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, earnings on their separate account, and allocations of the Company's contribution. Allocations are based on participant compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1: DESCRIPTION OF PLAN, continued

Vesting

Participants are immediately vested in their contributions plus actual earning thereon. Vesting in the Company's matching portion, plus actual earnings thereon, is based on years of continuous service. Each participant's benefits become 20% vested at the end of their second year, 40% vested at the end of their third year, 60% vested at the end of their fourth year, 80% vested at the end of their fifth year and 100% vested at the end of their sixth year of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount of any loan being the lesser of $50,000 or 50% of the vested interest of the participant's account in the Plan. The loans are secured by no more than 50% of the present value of a participant's vested interest in the Plan. Loan terms range from 1–5 years or up to 30 years for the purchase of a primary residence. Loan proceeds are obtained through the liquidation of the required amount of participant vested account balances. The loans bear interest at Wall Street Journal prime rate plus 1%. The rate will be constant throughout the term of the loan. Principal and interest is paid rateably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled $6,720 and $1,064, respectively. The forfeited non-vested accounts will be used to reduce future employer contributions.

Subsequent Events

The Plan Administrator has evaluated subsequent events through the date and time the financial statements were issued.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of pooled separate accounts are valued daily at quoted market prices. The Stable Value Sub-account is valued at $1.00 per unit which approximates fair value. Participant loans are valued at the unamortized principal amount or cost.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Participant loan interest is recorded when received.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Benefit responsive investment contracts

As described in Financial Accounting Standards Board Accounting Standards Codification, 946-210-45, *Fully Benefit-Responsive Investments Contracts* (the ASC), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable value sub-account. As required by the ASC, the Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 present the fair value of the investment in the stable value sub-account. No adjustment of the investment in the stable value sub-account has been made since the redemption amount and fair value amount are the same. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

Payment of Benefits

Benefits are recorded when paid. Benefits paid during the year represent interests in accounts and their vested portions for terminated or retired employees, normal and hardship distributions.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4: TAX STATUS

The plan obtained its latest determination letter on September 18, 2001, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan as currently designed is being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 5: FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan offers a fully-benefit responsive investment contract in a Sub-account, the John Hancock Stable Value Fund. This fund seeks to preserve principal and provide book value liquidity on a daily basis for plan-permitted, participant-directed withdrawals while maintaining a competitive rate of interest. The fund invests primarily in diversified fixed income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock Life Insurance Company, and in book value stabilizing agreements offered by high quality financial institutions. Withdrawals from this Sub-account are subject to the same restrictions that apply to the underlying Trust. The Trustee of the underlying Trust has the right to delay any participant-initiated withdrawal for up to 30 days if it determines that immediate withdrawal may have an adverse impact on the Trust. In addition, the Trust has the right to delay for up to 12 months any other withdrawal.

Interest is calculated to approximate an annual effective interest rate determined pursuant to the Gross Crediting Rate formula and is reset quarterly. The calculation of the Gross Crediting Rate will incorporate the book value, market value, duration, and current market yield rates of all of the assets held in the Separate Account as of the last day of the quarter. Any changes in these components will influence future interest credit rates. The minimum interest crediting rate is zero. The average yield earned for 2009 was .3%

NOTE 6: PARTICIPANT DIRECTED INVESTMENTS COMPRISING 5% OR MORE OF NET ASSETS

The following table represents assets that have a value of more than 5% of net assets. These assets are part of the pooled separate accounts with John Hancock.

	2009	2008
Assets that are more than 5% of plan assets:		
J H Lifestyle Moderate	$ 73,225	$ -
J H Lifestyle Balance	330,559	198,801
J H Lifestyle Growth	409,888	238,431
J H Lifestyle Aggressive	127,667	84,678
Stable Value	119,524	134,363
Accounts with balances below 5% of plan assets	204,434	172,379
Total Contract With Insurance Company	$1,265,297	$ 828,652

During the year ended December 31, 2009, the Plan's investments appreciated in fair value in the pooled separate accounts, as determined by quoted market value, $ 278,682.

NOTE 7: TRUSTEE'S CERTIFICATION

John Hancock Life Insurance Company, Trustee, has certified that the investment assets, transactions, and income, the schedule of investments, and uninvested cash as illustrated in the Trust Report is complete and accurate. The following is a summary of that information:

	2009	2008
Investments at fair value	$ 1,377,284	$ 899,108
Contract cash	6,187	4,378
Total investment income (loss)	282,650	(351,757)

NOTE 8: FAIR VALUE MEASUREMENT

ASC 820-10-50, *Fair Value Measurements and Disclosure*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10-50 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks: Valued at the closing price reported on the active market on which the individual security is traded.

Separate accounts and stable value fund: Valued at the net asset value (NAV) of shares held by the plan at year end for separate accounts and the estimated fair value as determined by the insurance company sponsoring the trust for the stable value fund.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8: FAIR VALUE MEASUREMENT, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/2009	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Contract with insurance company	$1,265,297	$1,265,297	$	$
Participant's notes receivable	105,800			105,800
Total Investments at Fair Value	$1,371,097	$1,265,297	$	$ 105,800

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2008:

		Fair Value Measurements at Reporting Date Using		
Description	12/31/2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Participant's notes receivable	66,078			66,078
Total Investments at Fair Value	$894,730	$828,652	$	$ 66,078

Level 3 Gains and Losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2009:

	Participant Loans
Balance, beginning of year	$ 66,078
Purchases, sales, issuances and settlements (net)	39,722
Balance, end of year	$105,800

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2008:

	Participant Loans
Balance, beginning of year	$75,705
Purchases, sales, issuances and settlements (net)	(9,627)
Balance, end of year	$66,078

NOTE 9: ADMINISTRATIVE COSTS

The Plan and the Company incurred fees relating to asset charges, record keeping, investment assistance and custodial fees. Participants are assessed administrative charges, relating to contributions, loan and annuity set-up charges and withdrawal and transfer charges. Investment advisory commissions were $3,777, third party administration fees were $4,720, and the custodian's administrative fees were $7,301.

NOTE 10: EXCESS CONTRIBUTIONS

Contributions received from participants for 2009 are net of payments of $22,657 made in 2010 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Net income from pooled separate accounts for 2009 is net of the earnings on the excess contributions of $5,077. The total of $27,734 is also included in the Plan's statement of net assets available for benefits as excess contributions payale at December 31, 2009.

NOTE 11: RELATED PARTY TRANSACTIONS

The Plan invests in shares of pooled investment accounts managed by John Hancock. John Hancock acts as a custodian for only those investments defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.
