REPORT OF INDEPENDENT AUDITOR

To the Participants and Plan Administrator of
The McKissack Group, Inc. 401(k) Plan

I was engaged to audit the accompanying statement of net assets available for plan benefits of The McKissack Group, Inc. 401 (k) Plan as of December 31, 2009 and the related statement of changes in net assets available for plan benefits for the year then ended and the schedule of assets held for investment purposes as of December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the Plan investment assets, which were certified by the MG Trust Company, LLC, except for comparing such information with the related information included in the financial statements and supplemental schedule. I have been informed by the Plan administrator that the investment trustee holds the Plans investment assets and execute investment transactions. The Plan administrator has obtained a certification from the investment trustee as of December 31, 2009, that the information provided to the Plan administrator by the investment trustee is complete and accurate.

Because of the significance of the information that I did not audit, I am not able to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the investment trustee, have been audited by me in accordance with auditing standards generally accepted in the United States and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

I have audited the statement of net assets available for benefits of the Plan as of December 31, 2008, and in my report dated March 8, 2010, I expressed my opinion that such financial statements present fairly in all material respects, the financial statements of the Plan as of December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

THE MCKISSACK GROUP, INC. 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE 1 Description of the Plan

The following description of the The McKissack Group, Inc. 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision. The Plan is a defined contribution plan of one participating employer, The McKissack Group, Inc.

General
The Plan is a voluntary defined contribution plan for eligible employees. It is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Eligibility and Participation
All employees over 21 years of age with at least one year of service (defined as a twelve consecutive month period during which an employee is credited with 1,000 hours of service) are eligible to participate in the Plan at the beginning of any quarter.

Contributions
A participant may contribute up to 75% of their pre-tax salary as defined in the Plan and subject to certain limitations. The Company has the discretionary ability to make a matching contribution for eligible participants based on their elective deferrals.

Participant Accounts
Each participant's account is credited with the participant's contributions as well as the matching contributions of the Company and Plan earnings, if any.

Investment Options
Upon enrollment in the Plan, a participant may direct contributions in any of seven investment options. Participants may change their investment options at any time by contacting the trustee.

NOTE 1 Description of the Plan (continued)

Vesting

Participants are immediately vested in all participant contributions. Vesting on the Company contributions, if any, is based on years of service as follows:

Years of Service	% Vested
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Upon retirement, disability or death of a participant, the participant shall be deemed to be 100% vested in their entire account regardless of length of service. Forfeitures of non-vested account balances, if any, can be used to reduce the Company's contributions to the Plan. The Company has made no contributions to the Plan and there are no forfeitures available to the Company to offset any future contributions it may make.

Distributions and Withdrawals

Withdrawals may be made at retirement, attainment of age 59-1/2, disability, hardship, and separation of service or death. In the event of retirement, total and permanent disability or attainment of age 59-1/2, participants may make withdrawals either in a lump sum or in periodic payments over a period not to exceed life expectancy, as defined.

These withdrawals may begin at age 59-1/2. Withdrawals due to hardships are permitted subject to the Plan Administrator's approval. In the event of separation of service, a participant must withdraw from the Plan if their account is less than $5,000. Participant accounts may be "rolled over" by the employee into an IRA or similar plan. In the event of death, remaining balances in the participant's account will be paid to the participant's beneficiary.

NOTE 1 Description of the Plan (continued)

Administrative Expenses
The Company has paid for substantially all of the administrative expenses of the Plan in 2009. The Plans assets have been charged for asset expense fees in connection with management of the invested assets in 2009. These asset expense fees were netted against the investment income of the Plan.

NOTE 2 Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are state at fair value. Common trust funds are valued at the net unit value as reported by the fund administrator at the Plan's year-end. Shares of registered investment companies are valued at quoted market prices, which represent net asset value as of the Plan's year-end. Participant loans and money market funds are valued at cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments which consists of dividends, interest income, realized gains or losses and the unrealized appreciation or loss on those investment.

Subsequent Events
For the year-ended December 31, 2009, The Company has evaluated subsequent events for potential recognition and disclosure thru September 28, 2010, the date of financial statement issue.

NOTE 3 Participant Loans

Participants may borrow up to 50% of their vested account subject to a minimum of $1,000 and a maximum of $50,000. The $50,000 maximum amount will be reduced by the Participant's highest outstanding loan balance in the previous 12 months.

The borrowing rate is set by the Trustee. As of December 31, 2009, loans outstanding are due on various dates over the next 60 months.

Repayment of all plan loans is made through payroll deductions. Loans are secured by the participant's account balance. No more than one loan will be allowed in any 12 consecutive month period, and no more than two loans may be outstanding at any one time.

NOTE 4 Information Certified by the Investment Trustee

All Plan assets and investment transactions, except for the year end participant loan balances and contributions receivable have been certified by the MG Trust Company, LLC as being complete and accurate for the year ended December 31, 2009.

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, no auditing procedures were performed on the above information other than comparison with the information contained in the financial statements and schedule.

NOTE 5 Tax Status

The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statement.

NOTE 6 Related Party Transactions

There are certain Plan investments that represent shares of mutual funds that are managed by MG Trust Company, LLC as the trustee as defined by the Plan. Transactions in these funds qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

NOTE 7 Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2009:

NOTE 8 Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unoberservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 8 Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future value.

Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 Fair Value Measurements (continued)

The following table sets fort by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

NOTE 9 Plan Termination

The Company has not expressed any intent to do so, but the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. There have been no employer contributions to the Plan in 2009.
