NOTES TO FINANCIAL STATEMENTS

OPERON 401(k) SAVINGS PLAN

December 31, 2009 and December 31, 2008

NOTE A - DESCRIPTION OF PLAN -

The following description of the Operon (the "Company") 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General - The Plan is a defined contribution plan covering all eligible employees of the Company, as defined in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
2. Contributions - Participants may make salary-deferred contributions to the Plan up to the lesser of Internal Revenue Service limitations or 100% of their annual compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Upon enrollment in the Plan, a participant may direct employee contributions into various mutual funds included in the Standard Separate Account A (pooled separate accounts) or the Guaranteed Interest Fund (see Note C). The Company may contribute a matching contribution in an amount equal to a percentage of compensation declared for the year by the Board of Directors. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.
3. Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) the Plan earnings and (c) charged with an allocation of administrative expenses. Allocations are based on the participant earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. A participant is 100 percent vested after 3 years of credited service.
5. Forfeitures - Amounts of participants' forfeited nonvested accounts shall be applied first to cover costs of administration of the Plan and second to reduce future employer-matching contributions. Any excess forfeitures shall be held in a money market fund pending such application. At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$12,787 and \$2,434, respectively.

OPERON 401(k) SAVINGS PLAN

December 31, 2009 and December 31, 2008

NOTE A - DESCRIPTION OF PLAN - Continued -

6. Participant Loans - Participants may borrow from their fund accounts a minimum of \$500 up to the Participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest rates ranging from 3.25% to 5.00%.
7. Payment of Benefits - On termination of service due to death, disability, retirement of other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period which does not extend beyond the life expectancy of the participant or the joint life expectancies of the participant and beneficiary.

NOTE B - SUMMARY OF ACCOUNTING POLICIES -

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Investments in the pooled separate account are stated at fair value and are based on the net asset value of units held by the Plan at year-end. Unit values are determined by the insurance company sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

As required by current accounting standards, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the standards, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - All reasonable expenses of administration may be paid from the assets of the Plan. Such expenses may be allocated among all Plan participants. The employer may, in its discretion, pay any or all of these expenses.

Net Appreciation (Depreciation) in Fair Value of Investments - Realized gains (losses) and unrealized appreciation (depreciation) are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of investments.

(continued)

NOTES TO FINANCIAL STATEMENTS

OPERON 401(k) SAVINGS PLAN

December 31, 2009 and December 31, 2008

NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued -

Contributions - Employee elective contributions are recorded in the period in which the Employer makes the deductions from the participants' payroll. Employer matching contributions are recorded in the same period.

Related Party Transactions - Certain Plan investments are shares of mutual funds managed by Standard Insurance Company. Standard Insurance Company is the asset custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services totaled \$5,305 and \$4,912 for the years ended December 31, 2009 and 2008, respectively.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Date of Management's Review - Subsequent events were evaluated through October 12, 2010, which is the date the financial statements were available to be issued.

NOTE C - INVESTMENTS CONTRACTS WITH INSURANCE COMPANY -

In 2004, the Plan entered into an investment contract with Standard Life Insurance Company (Standard). Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than three percent. Such rates are changed by The Standard from time to time. The average yield was 3.76% and 3.77% for 2009 and 2008, respectively. The crediting interest rate was 3.00% for 2009 and was 3.00% at December 31, 2008.

NOTES TO FINANCIAL STATEMENTS

OPERON 401(k) SAVINGS PLAN

December 31, 2009 and December 31, 2008

NOTE C - INVESTMENTS CONTRACTS WITH INSURANCE COMPANY - Continued -

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Standard. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

NOTE D - INVESTMENTS -

During the year ended December 31, 2009, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$272,198.

The fair market value of individual assets that represent five percent (5%) or more of the Plan's assets as of December 31, 2009 and December 31, 2008 are as follows:

	<u>2009</u>	<u>2008</u>
Guaranteed Interest Fund	\$ 408,572	\$ 342,549
Vanguard 500 Index Signal	\$ 167,921	\$ 145,315
Vanguard Extended Market Index	\$ 127,962	\$ 98,671
Ranier Small/Mid-Cap Eq I Por	\$ 97,196	N/A
Harbor Capital Appreciation	\$ 101,128	\$ 64,806
Harbor Bond	\$ 85,140	\$ 95,634
JP Morgan Mid Cap Value I	\$ 83,249	N/A
Dodge & Cox International Stock	\$ 125,051	\$ 82,505

Some of the pooled separate accounts held as investments by the Plan invest in derivatives such as futures and options. Derivatives may involve risks different from, and possibly greater than, the risk associated with investing directly in securities and other traditional investments.

NOTE E - FAIR VALUE MEASUREMENTS -

Financial Accounting Standards Board (FASB) Accounting Standards Codification 820, "Fair Value Measurements and Disclosures (ASC 820)" establishes a framework for measuring fair value. The framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 2 inputs. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

NOTE E - FAIR VALUE MEASUREMENTS - Continued -

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Level 2 Fair Value Measurements

The Pooled Separate Account is divided into investment divisions called "Sub-Accounts". Each Sub-Account invests in shares of an underlying mutual fund. Sub-Accounts are measured in terms of "Accumulation Units". The Accumulation Units of a Sub-Account are assigned a unit value on a daily basis. To determine the current Accumulation Unit Value for a Sub-Account the prior Valuation Day's Accumulation Unit Value is multiplied by the Net Investment Factor. The "Net Investment Factor" is used to measure the investment performance of a Sub-Account from one Valuation Day to the next. The Net Investment Factor for each Sub-Account equals the net asset value (NAV) per share of the underlying Fund held in the Sub-Account at the end of the current Valuation Day (plus or minus the per share amount of any dividend or capital gain distribution if the "ex-dividend" date occurs on the Valuation Date), divided by the net asset value (NAV) per share of the underlying Fund held in the Sub-Account at the end of the prior Valuation Day, minus any daily mortality and expense risk and administration charges, if applicable.

Level 3 Fair Value Measurements

The guaranteed interest funds with an insurance company are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest fund is determined by Standard Insurance Company as follows:

On a monthly basis, Standard's asset advisory group provides an interest rate forecast for the coming month based on the investments underlying the contracts. Based on these rates and the margins required for business Standard declares a crediting rate for financial activity in the coming month. Monthly rates are combined quarterly into cells (weighted based on the amount of net transactions in the fund over each month). Each cell has a five-year rate guarantee. No negative cells are established, but rather negative net quarterly transactions are deducted from the oldest established cell. The crediting rate for the guaranteed interest fund for the Plan is the combined returns on all the existing cells, weighted by the size of the cell.

Participant loans are valued at amortized cost which approximates fair value because loans are secured by each respective participant's account balance.

Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

On January 1, 2009, the Plan adopted ASC 740-10, *Accounting for Uncertainty in Income Taxes*. ASC 740-10 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. ASC 740-10 requires evaluation of tax positions taken or expected to be taken to determine whether the tax positions will "more likely than not" be sustained by the applicable tax authority. The adoption did not have an effect on the financial position of the Plan or the changes in net assets.

NOTE K - SUBSEQUENT EVENTS -

Subsequent to year-end December 31, 2009, the Company was purchased by Eurofins Scientific, Inc. As a result all of the participants in the Operon Plan were transferred in the Eurofins Plan effective September 1, 2010.
