As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 which was certified by Minnesota Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2009 and 2008 and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

As described in Note 2, these financial statements and the supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 – Plan Description

The following brief description of the Berry Plastics (Company) Employees 401(k) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Transfer from the Captive Plastics, Inc. Savings and Retirement Plan and the Berry Plastics Bargaining Unit 401(k) Plan

The Plan is a defined contribution plan which covers substantially all full-time employees of the Company, with the exception of employees of foreign corporations, union employees, and leased employees, who have completed one year of service, 1,000 hours, and are age 18 or older. The Plan is subject to the provisions of ERISA. Effective January 1, 2009, all assets of the Captive Plastics, Inc. Savings and Retirement Plan were transferred to the Plan, due to the Captive Plastics, Inc. Savings and Retirement Plan terminating. During 2009, the assets of several individual participants were transferred from the Berry Plastics Bargaining Unit 401(k) Plan to the Berry Plastics Employees 401(k) Retirement Plan due to a change in employment status.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and one common/collective trust as investment options for participants.

The Company makes matching contributions equal to a percentage of the participant's elective deferrals. The Company matching contribution was equal to the following:

- 100 percent of salary deferrals, which do not exceed $300, plus ten percent of the salary deferrals that exceed $300.
- An additional matching amount equal to $200 if the employee contributed at least $1.
- An additional matching amount equal to $150 if the employee contributed at least $1,000 in the last Plan year.

Effective April 14, 2009, the Company's matching contributions were temporarily suspended. The Company's matching contribution was reinstated January 1, 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Plan Description (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, employer matching contributions, and actual earnings thereon.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from four percent to 10.5 percent, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or partial payments. Participants may request a hardship withdrawal of a portion of their account balance attributable to participant deferrals. Any hardship withdrawal is limited to the amount needed to meet the financial need.

Forfeited Accounts

Participants are immediately 100 percent vested. At December 31, 2009 and 2008, there were no forfeited non-vested accounts. Also, in 2009, employer contributions were reduced by $238,371 from the forfeited non-vested accounts.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the modified cash basis of accounting. This differs from accounting principles generally accepted in the United States of America in that contributions, interest and dividend income, and other receipts are recognized when received rather than when due, and expenses are recognized when paid rather than when incurred.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investments in common or collective investment trusts are valued at the purchase or redemption price of the shares of participation as determined by Minnesota Life Insurance Company and are based on the quoted market value of the underlying investments in the trust. The value is determined by using the information reported by the investment advisor using audited financial statements of the collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion.

Subsequent Events

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.

Recently Issued Accounting Standards

Uncertain Tax Positions

The Financial Accounting Standards Board (FASB) issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 2 – Summary of Significant Accounting Policies (Continued)

Recently Issued Accounting Standards (Continued)

Net Asset Value Per Share

In September 2009, FASB issued an amendment "Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)" which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical expedient when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosures of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. This amendment was effective for periods ending after December 15, 2009, with early adoption permitted. The adoption of this guidance had no significant impact in the financial statements.

Improving Disclosures about Fair Value Measurements

In April 2009, FASB issued an amendment "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly". This amendment clarifies how fair value should be determined when volume and level of activity have significantly declined. It also requires disclosure of inputs and valuation techniques used to measure fair value and discussion of changes in valuation techniques and related inputs, if any, and includes guidance on determining major security type for debt and equity securities required to be disclosed on the basis of "nature and risks" of the investments. This amendment was effective for periods ended after June 16, 2009.

In January 2010, FASB issued an amendment "Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements", which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes.

With respect to matters other than Level 3 measurements, the amendment was effective and not yet adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 31, 2010 and has not yet been adopted. We are currently evaluating the impact of the guidance related to Level 3 measurements on our disclosures.

Note 3 – Summary of Financial Data Certified by the Custodian

The following is a summary of the Plan's financial information that was certified by Minnesota Life Insurance Company.

* Amounts represent less than five percent of the Plan's net assets.

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Pooled separate accounts	38,252,717

Note 5 – Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the accumulated unit value (AUV) of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Common Collective Trust: Valued at the purchase or redemption price of the shares of participation and based on quoted market value of the underlying investments in the trust.

Note 5 – Fair Value Measurements (Continued)

The methods described on the previous page may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Note 5 – Fair Value Measurements (Continued)

Level 3 – Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009.

	Participant loans
Balance at beginning of year	12,489,712
Purchases, sales, issuances, and settlements (net)	(436,334)
Balance at end of year	12,053,378

Note 6 – Related Party Transactions

The Plan invests in pooled separate accounts and a common/collective trust account managed by Minnesota Life Insurance Company. Minnesota Life Insurance Company is the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amount to $22,480 for the year ended December 31, 2009.

The Company provides certain administrative services at no cost to the Plan.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA.

Note 8 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 28, 2005, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Amendments

Effective April 14, 2009, the Plan was amended to remove the fixed matching contributions equal to a uniform percentage of each tier of each participant's elective deferral.

Note 11 – Subsequent Events

Effective January 1, 2010, the Plan was amended to reinstate the fixed matching contributions equal to a uniform percentage of each tier of each participant's elective deferral.

Effective October 1, 2010, the Plan will be amended to allow for the merger of the Pliant Corporation Salary Deferral Plan.

Effective December 31, 2010, the Plan will be amended to allow for the merger of the Superfos Packaging, Inc. 401(k) Profit Sharing Plan.
