NOTES TO FINANCIAL STATEMENTS

SVH GROUP 401(K) PROFIT SHARING RETIREMENT PLAN

December 15, 2009

Note A – Description of Plan

The following description of SVH Group 401(k) Profit Sharing Retirement Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing and 401(k) plan covering all eligible employees of Steketee Van Huis, Inc. and The Printery (collectively, the Company). Eligible employees can become participants in the 401(k) portion of the Plan on the first day of the month following the date of employment. Employees become eligible to receive discretionary contributions from the Company on January 1 or July 1 following completion of six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 15, 2009, all participants in the Plan were allowed to participate in the Multi Packaging Solutions Retirement Plan (successor plan) and all assets of the Plan were merged into the successor plan.

Contributions

Participants may elect to make contributions to the Plan through payroll deductions from each participant's eligible compensation, as defined, subject to statutory limitations. The Plan also allows participants to transfer funds from other employer qualified plans into the Plan.

The Company may make discretionary profit sharing contributions based on a participant's deferral or eligible compensation, respectively. A participant must be employed on the last day of the plan year and complete at least 1,000 hours of service during the plan year in order to share in Company contributions.

Plan Operations

The Company has appointed Mercer Trust Company (Trustee) to serve as Trustee and the Company to act as plan administrator. The Trustee is responsible for holding the investment assets of the Plan, executing investment transactions and making distributions to participants. The plan administrator interprets and communicates the provisions of the Plan and ensures that all government and participant reporting requirements are fulfilled.

SVH GROUP 401(K) PROFIT SHARING RETIREMENT PLAN

December 15, 2009

Note A – Description of Plan (Continued)

Participant Accounts

Individual accounts are maintained for each participant, with benefits limited to the amount contributed to the participant's account plus or minus any allocation of income, expenses, gains, or losses. Allocations to participant accounts are based on compensation or account balances, as specified by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan allows a participant to self-direct investment transactions associated with separate investment fund options made available by the employer for this purpose.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer contribution accounts is based on years of continuous service, as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

A participant also becomes fully vested at the time of the participant's death, if the participant becomes disabled while employed or upon attainment of normal retirement age.

Loans to Participants

The Plan does not permit loans.

Payment of Benefits

On termination of service a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service withdrawals are permitted upon attaining age 59½ and in cases of financial hardship.

Note A – Description of Plan (Continued)

Costs and Expenses

Certain investment expenses are paid by the Plan and are based on reasonable and customary rates. Certain other costs and expenses incurred in connection with the operation of the Plan are borne by the Company.

Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts are used to pay administrative expenses or reallocated to participant accounts. The balance in the forfeiture account at December 31, 2008 was \$964. There was no balance at December 15, 2009. Forfeitures of \$913 were reallocated to participant accounts during the period ended December 15, 2009, and the remainder of the account was transferred to the successor plan.

Note B – Summary of Accounting Policies

Date of Management's Review

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date of the accompanying independent auditor's report, which is the date the financial statements were available to be issued.

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared using the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Contracts

As described in Financial Accounting Standards Board Accounting Standards Codification 962, *Defined Contribution Pension Plans* (ASC 962), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by ASC 962, the Statements of Assets Available for Benefits present the fair value of the Stable Value Fund, which participates in such investment contracts, as well as the adjustment of the Stable Value Fund from fair value to contract value. The Statement of Changes in Assets Available for Benefits is prepared on a contract value basis.

Investments

Investments are reported in the Plan's financial statements at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Income Recognition

Income from interest and dividends is recorded as it is earned. Purchases and sales of securities are recorded on a trade date basis. Net appreciation or depreciation of investments is determined using the value at the beginning of the year or purchase price if acquired since that date. Management fees and operating expenses charged to the Plan for investments in mutual funds and common/collective trust funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Benefits

Benefits are recorded when paid.

Note C – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels which are described below.

Level 1 – inputs are unadjusted quoted prices in active markets for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets and liabilities in markets that are not active
- other inputs that are observable or can be corroborated by observable market data
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs are generally unobservable and significant to the fair value measurement. Such inputs typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability, including certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 15, 2009 and December 31, 2008.

Mutual funds: Valued based on quoted net asset values of the shares held by the Plan on the last business day of the Plan period.

NOTES TO FINANCIAL STATEMENTS

SVH GROUP 401(K) PROFIT SHARING RETIREMENT PLAN December 15, 2009

Note D – Investments (Continued)

During the period ended December 15, 2009, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the period) appreciated in value by \$1,326,054.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of assets available for benefits.

Note E – Information Certified by Trustee

All investment information disclosed in the accompanying financial statements, including investments held at December 15, 2009 and December 31, 2008, and net appreciation in fair value of investments and interest and dividends for the period January 1, 2009 through December 15, 2009, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

Note F – Plan Termination

Effective December 15, 2009, the assets of the plan were merged into the Multi Packaging Solutions Retirement Plan, and therefore, the plan was effectively terminated.

Note G – Tax Status

The prototype plan used by the Plan obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not requested or received an individual determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.
