Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Estwing Manufacturing Company (the Company) Employees 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company who have at least six months of service prior to the next entry date (January 1 and July 1). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year participants may contribute 1 to 60 percent of eligible pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. The amounts contributed by the employee are fully vested. The amount contributed by the Company on behalf of the employee is vested over a six-year period. The interest of an employee shall vest and become non-forfeitable with the following vesting schedule:

Years of service,	*Percent Vested*
1	-
2	20
3	40
4	60
5	80
6	100

Participant Loans. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50 percent of their vested portion of their account balance or $50,000, reduced by the highest outstanding loan balance in their account during the prior 12-month period. Loan terms range from 1 to 5 years or over a reasonable period of time that may exceed 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and will bear a reasonable rate of interest. Principal and interest is paid through payroll deductions.

Payment of Benefits. Upon termination of service, due to death, disability, retirement or separation, a participant may elect to receive either a lump-sum distribution or installment payments under various options.

Administrative Expenses. Certain administrative expenses of the Plan are paid directly by the Company.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's policy is to prepare its financial statements on the cash receipts and disbursement basis of accounting; consequently, certain revenues are recognized when received rather than when earned, and certain expenses and purchases of assets are recognized when cash is disbursed rather than when the obligation is incurred. Financial statements prepared on this basis of accounting are not intended to present financial position and results of operations in accordance with generally accepted accounting principles.

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments held in shares of registered investment companies are reported at fair value based on the quoted market prices of the fund which represents the fair value of the shares held by the Plan at year-end. Shares held in the Stable Value Fund are reported at fair value based on the unit price quoted by the fund, representing the fair value of the underlying investments. Participant loans are valued at face value, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statement of net assets available for Plan benefits.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events have been evaluated through the date of this report, which is the date the financial statements were available to be issued.

Note 5. Fair Value Disclosure

FASB ASC 820, Fair Value Measurements, establishes a framework for measuring the fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan's level 1 assets include shares of registered investment companies.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The Plan's level 2 assets include a stable value fund.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The Plan's level 3 assets include participant loans, which are valued at amortized cost.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

December 31, 2009	*Level 1*	*Level 2*	*Level 3*	*Total*
Shares of registered investment companies	$ 3,462,528	$ -	$ -	$ 3,462,528

Participant loans	-	-	675,423	675,423
Total	$ 3,462,528	$ 4,099,762	$ 675,423	$ 8,237,713

December 31, 2008	*Level 1*	*Level 2*	*Level 3*	*Total*
Shares of registered investment companies	$ 2,955,235	$ -	$ -	$ 2,955,235
Stable value fund	-	4,360,770	-	4,360,770
Participant loans	-	-	842,430	842,430
Total	$ 2,955,235	$ 4,360,770	$ 842,430	$ 8,158,435

Note 6. Investment Contract with Insurance Company

During 2009 and 2008, the Plan participated in a benefit-responsive investment contract with Fidelity Management Trust Company (Fidelity) called the Fidelity Managed Income Portfolio. Fidelity maintains the contributions in a general account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for Plan benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The fair market values of the specific contracts inside the Fidelity Managed Income Portfolio were $.98 and $.95 of contract value for the years ended December 31, 2009 and 2008, respectively.

The average yield rate based on actual earnings was 3.16 percent and 4.2 percent for the years ended December 31, 2009 and 2008. The average yield rate based on interest rate credited to participants was 1.2 percent for the year ended December 31, 2009. The average yield rate based on interest rate credited to participants was not available for the year ended December 31, 2008.

Note 7. Related Party Transactions

Certain Plan investments are shares of registered investment companies managed by Fidelity Management Trust Company (Fidelity). Fidelity is the Trustee of the Plan, and therefore, these transactions qualify as party-in-interest. The Plan sponsor paid administrative expenses to the Trustee on behalf of the Plan for the years ended December 31, 2009 and 2008.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Notes to Financial Statements

Note 8. Plan Amendment and Income Tax Status

The Plan has received a favorable determination letter dated March 31, 2008, from the Internal Revenue Service verifying that the Plan qualifies under Section 401 of the Internal Revenue Code and therefore is tax-exempt. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan termination, participants' accounts will become fully vested and non-forfeitable.
