Note 1 - Plan Description:

The following description of the KEEN, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution profit sharing plan that was established in 1985 and restated effective January 1, 2009. The Plan is sponsored by Fuerst Corporation and includes KEEN, Inc. as a participating employer (collectively, the Company) to provide benefits to eligible employees, as defined in the Plan document. The Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

b. Eligibility

Employees become eligible to enter the Plan on the first day of the month coinciding with or next following the date of employment with the Company. In order to be eligible to receive the employer discretionary profit sharing contribution, the employee must be employed on the last day of the year.

c. Contribution

Participants may rollover amounts representing distributions from other qualified plans, subject to approval by the Plan Administrator. The Plan allows for discretionary profit sharing contributions by the Company. For 2009, the Company contributed 3% of eligible compensation.

d. Payment of Benefits

Prior to termination of employment, a participant may withdraw all or any portion of their rollover balance. A participant may also receive a distribution while employed for financial hardship, as defined in the Plan document. Upon retirement or other termination of employment, participants or their beneficiaries are entitled to receive their vested balances in a lump sum distribution or installment payments. Involuntary cash-out distributions of amounts greater than $1,000 are distributed in the form of a direct rollover to an individual retirement plan designated by the Plan Administrator. None of the terminated participants at December 31, 2009 have requested to withdraw from the Plan as of that date.

e. Participant Accounts

Each participant's account is credited with participant’s qualified rollover contributions, if any, and the Employer’s discretionary profit sharing contribution, and Plan earnings or losses.

f. Participant Investment Options

Upon enrollment in the Plan, a participant must direct the employer discretionary profit sharing contributions in any of the selected investments offered by the Plan. Participants may change their investment options any time throughout the year (subject to specific limitations placed by certain investment funds) via the John Hancock Internet website, except for those investments in the frozen asset account.

g. Vesting

Participants are vested in their rollovers of funds from other qualified retirement plans and earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 100% vested after three years of credited service as defined in the Plan.

h. Forfeitures

Amounts of participants' forfeited nonvested accounts may be used to pay any administrative expenses of the Plan or be used to satisfy employer contributions that may be required.

i. Loans to Participant

Participants are eligible to borrow the lesser of $50,000 or 50% of their vested account balance subject to certain limitations outlined in the Plan. The loans are secured by the participant's balance. Such loans bear a reasonable interest at the available market financing rates and must be repaid to the Plan within a reasonable period of time. The Plan Administrator establishes the specific terms and conditions of such loans. There were no outstanding loans at December 31, 2009 and 2008.

j. Administration

The Company appointed Rory Fuerst and Lisa Fuerst (the Trustees) as the Trustees of the Plan, and contracted John Hancock Life Insurance Company (U.S.A.) (the Custodian) as the custodian and Improved Funding Techniques, Inc. as the third party administrator.

Note 2 - Summary of Significant Accounting Policies:

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

b. Investment Valuation and Income Recognition

Certain investments of the Plan are held by the Custodian, and those investments are invested based upon instructions received from participants. Investments in interest-bearing cash and common stock are deemed non-participant directed investments. The Plan's investment in pooled separate accounts and common stock are valued at fair value as of the last day of the Plan year. The Plan investments in an investment contract through the John Hancock group annuity contract is deemed not fully benefit responsive for the contract holders investing in guaranteed income account. The guaranteed income account is reported at fair value. Interest bearing cash is valued at cost, which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments of securities are recorded on a trade-date basis. Interest income is recorded on the accrued basis. Dividend income is accrued on the ex-dividend date.

The market volatility of equity-based investments may substantially impact the value of such investments at any given time.

It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2009.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as an adjustment to net appreciation (depreciation) in fair value of investments.

c. Interest Bearing Cash

Interest bearing cash consists primarily of cash and money market funds. The Plan considers investments with maturity of three months or less at the time of purchase which are not held for long-term investment. Amounts held exceed federally insured limits.

d. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

e. Benefits to Participants

Benefits to participants are recorded when paid.

f. New Accounting Pronouncements

In June 2009, the Financial Accounting Standard Board (FASB) issued the FASB Accounting Standards Codification (ASC) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities effective for financial statements issued for periods ending after September 15, 2009. The ASC does not change accounting principles generally accepted in the United States of America and had no impact on the Plan's net assets or changes in net assets available for plan benefits.

The FASB has published FASB ASU No. 2009-12, *Fair Value Measurements and Disclosures (Topic 820)—Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* This Update amends Subtopic 820-10, *Fair Value Measurements and Disclosures—Overall,* to permit a reporting entity to measure the fair value of certain investments on the basis of the net asset value per share of the investment (or its equivalent). This Update to ASC 820 also requires new disclosures, by major category of investments, about the attributes of investments within the scope of this amendment, such as the nature of any restrictions on the investor's ability to redeem its investments at the measurement date. The adoption of this pronouncement did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This update provided amendments that require new disclosures of (a) transfers in and out of Levels 1 and 2 to include reasons for the transfers as well and (b) reconciliation for fair value measurements using significant unobservable inputs (Level 3) should be presented separately on a gross basis, rather than as one net number. This update also provided amendments that clarify existing disclosures such as the level of disaggregation for each class of assets and liabilities as well as disclosures about inputs and valuation techniques. The Plan Administrator does not believe that the adoption of this update will have a material impact on its financial statements.

g. Subsequent Events

The Plan Administrator has reviewed the results of activities for the period of time from December 31, 2009 through October 14, 2010, the date the financial statements were available to be issued, and has determined that no adjustments are necessary to the amounts reported in the accompanying financial statements and no subsequent events have occurred which would require disclosure.

Note 3 - Information Certified by John Hancock Life Insurance Company (U.S.A.):

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by John Hancock Life Insurance Company (U.S.A.) (the Custodian) and furnished to the Plan Administrator. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments.

During 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Pooled Separate Accounts	$	65,204
Common Stock		4,440
Net Change in Fair Value	$	69,644

Note 4 - Fair Value Measurements:

The Plan has adopted Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, which provides a framework for measuring fair value. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also established a fair value hierarchy with three levels of inputs that may be used to measure fair value. The valuation levels are not necessarily an indication of the risk or liquidity associated with the underlying investments.

Level 1 - Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Inputs that are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - Inputs that are unobservable for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statement of net assets available for plan benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Pooled Separate Account: Valued daily on the market value of the underlying assets in each separate account.

Guaranteed Income Fund: Valued at fair value based on the expected receipt of interest at credit rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract.

Interest Bearing Cash: Short-term money market instruments are valued at cost, which approximates fair value based on quoted market prices available on an active market.

Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 Assets for the year ended December 31, 2009:

	Guaranteed Income Fund
Balance, beginning of year	$ 33
Purchases, sales, issuances and settlement (net)	348
Balance, end of year	$ 381

Note 5 - Frozen Asset Account:

Certain participants of the Profit Sharing Plan were allocated certain investments in common stock and money market funds. To obtain full realization on these investments, the Trustees elected not to liquidate these funds when this profit sharing plan merged with another qualified plan on January 1, 2005. These assets are maintained in the Frozen Assets Account with participants restricted from making any additional investment or making withdrawals from these funds. These assets are non-participant directed.

Note 6 - Administrative Expenses:

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company.

Note 7 - Plan Termination:

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, all participants immediately become 100% vested in their entire account.

Note 8 - Income Tax Status:

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated January 27, 2004 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has also been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

The Financial Accounting Standards Board issued new guidance, ASC Topic 740, *Income Taxes*, on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009; management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 9 - Risks and Uncertainties:

The Plan provides for various investment options in any combination of the pooled separate accounts and other investments offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the nature of risk associated with investment securities, it is at least reasonably possible that changes in the level of risk in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Note 10 - Party-in-Interest Transactions:

The Plan investments in pooled separate account and guaranteed income fund are managed by John Hancock Life Insurance Company (U.S.A.). Any purchase and sales of these funds are open market transactions at fair market value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 11 - Reconciliation to Form 5500:

The following is a reconciliation of net assets available for plan benefits per the financial statements at December 31, 2009 to Form 5500:

Net assets available for plan benefits per the financial statements at December 31, 2009	$ 1,684,442
Less: Accumulated investment earnings	(4,311)
Net assets available for plan benefits per the Form 5500	$ 1,685,131

The following is a reconciliation of net increase in net assets available for plan benefits for the year ended December 31, 2009 to the Form 5500:

Net increase per the financial statements for the year ended December 31, 2009	$ 227,029
Less: Accumulated investment earnings	(4,311)
Net income per the Form 5500	$ 22,718
