We were engaged to audit the accompanying statements of net assets available for benefits of Oncology & Radiation Associates 401(k) Retirement Plan as of December 17, 2009 and December 31, 2008, and the related statement of changes in net assets available for benefits for the period ended December 17, 2009, and the supplemental schedule of schedule H, line 4a- schedule of delinquent participant contributions for the period ended December 17, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Orchard Trust Company, LLC and by Great-West Life & Annuity Insurance Company, custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the custodians, as of December 17, 2009 and December 31, 2008 and for the period ended December 17, 2009, that the information provided to the Plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – DESCRIPTION OF THE PLAN

The following description of the Oncology & Radiation Associates 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution and profit sharing Plan covering all full-time employees of the Oncology & Radiation Associates division of Oncology Hematology Radiation Care, LLC, formerly Oncology & Radiation Associates, P.A., (the "Company" and "Administrator") who have completed a minimum of 1,000 hours of service in the previous twelve months. All qualifying employees are deemed participants in the Plan whether or not they contribute to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan merger:

On May 1, 2008, the Plan's sponsor adopted a resolution to merge the Plan's investments into two qualified retirement plans. The resolution calls for a majority of the assets to be transferred as of December 31, 2008. The balance of the assets were transferred on December 17, 2009. Please see Note F for additional information regarding this transaction.

Contributions:

Participants may elect to have their employer make salary reduction contributions, including regular salary and wages, overtime pay, bonuses and commissions. In addition, the Company may make "safe harbor" contributions equal to 3% of all participant's gross compensations as well as qualified non-elective contributions and discretionary profit sharing contributions. All contributions are subject to certain limitations. Contributions cannot exceed the limitation contained in Section 402(g) of the Internal Revenue Code.

The Company's safe harbor, qualified non-elective and profit sharing contributions are invested in the same manner as the participant's contributions.

A participant may also transfer contributions (rollovers) from one or more tax qualified retirement plans.

Participants who have attained age 50 or are projected to attain age 50 before the close of the calendar year, may make pre-tax contributions up to an additional limit of $5,500 in 2009 and 2008, and thereafter adjusted by the Secretary of the Treasury.

Participant accounts:

Each participant's account is credited with the participant's contribution, the Company's safe harbor contribution, qualified non-elective contributions, profit sharing contributions and Plan earnings and losses. Additionally all participants are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions, safe harbor contributions and qualified non-elective contributions plus actual earnings thereon. Participants become incrementally vested in the Company's profit sharing contribution portion of their account attaining 100% vesting after 6 years of continuous service. A participant is 100% vested if he or she is employed on or after the normal retirement age as defined by the Plan.

NOTE A – DESCRIPTION OF THE PLAN (CONTINUED)

Participant loans:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's vested account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

Each participant may elect a distribution in the form of an annuity, a single sum cash payment or a combination of the above at normal retirement age (attainment of age 65).

On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts:

Forfeitures of the non-vested account balances of participants are used by the Plan Administrator to pay Plan expenses and/or reduce future employer contributions into the Plan. During 2009, there were no forfeitures.

Investment option:

Upon enrollment in the Plan, a participant may direct investments of their account balances into any of the various investment funds offered by the Plan. Participants may change their investment options on a daily basis.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions in net assets available during the reporting period. Actual results may differ from those estimates.

Contributions and distributions:

Contributions are reflected on the accrual basis of accounting.

Benefits paid are presented using the cash basis of accounting in conformity with the American Institute of Certified Public Accountants' *Audit and Accounting Guide for Audits of Employee Benefit Plans.* As of December 17, 2009, there were no unpaid vested benefits attributable to employees.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment valuation and income recognition:

The Plan's investments in pooled separate accounts are stated at fair value, as certified by the Custodians (see Note C). Fair value of mutual funds is based upon quoted redemption values on the last business day of the Plan year. Participant loans are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Investments in group annuity contracts are investments in insurance contracts. The insurance contracts are valued at fair value as reported by the Custodians. The Custodians credit the Plan's deposits that are intended to provide future benefits to present employees, to accounts that are commingled with other assets of the Custodians. The account is credited with an interest rate on a quarterly basis, and charged with the purchase price of annuities when participants retire and with incidental benefits (e.g. death, disability and withdrawal) disbursed directly from the account. The Custodians do not guarantee that the monies invested in the accounts will provide sufficient funds to pay the cost of annuities to be purchased and other costs incurred under the contract. For the period ended December 17, 2009, these contracts had interest rates ranging from 0.8% to 3.4% and an average yield of approximately 3.16%.

Administrative expenses:

Certain administrative expenses of the Plan are paid directly by the Company and other expenses are allocated ratably to each participant's account balance.

Subsequent events:

We have adopted Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 855-10, Subsequent Events – Overall ("ASC 855-10"). ASC 855-10 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date – that is, whether that date represents the date the financial statements were issued or were available to be issued. This disclosure should alert users of financial statements that an entity has not evaluated subsequent events after that date in the set of financial statements being presented. The adoption of ASC 855-10 did not have a material impact on our financial statements. We have evaluated subsequent events through September 17, 2010, the date the financial statements were available for issuance.

NOTE C – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Orchard Trust Company, LLC and Great-West Life & Annuity Insurance Company, the Custodians of the Plan, have certified completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 17, 2009 and December 31, 2008, and the related net appreciation in fair value of investments and interest and dividend income reflected in the accompanying Statement of Changes in Net Assets Available for Benefits for the period ended December 17, 2009.

NOTE D – INVESTMENTS

The Plan's investments are held by the custodians of the Plan. The following table lists those investments that represent 5% or more of the Plan's net assets at:

	DECEMBER 17, 2009	DECEMBER 31, 2008
Guaranteed Portfolio Fund	$ -	$ 928,783

NOTE E – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures ("ASC 820") establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 17, 2009 and December 31, 2008.

Mutual funds: Valued at the net assets value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

NOTE E – FAIR VALUE MEASUREMENTS (CONTINUED)

Guaranteed investment contract: Valued at contract value. The Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and the prevailing market conditions. Interest crediting rate is reset quarterly. The average yield earned by the Plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The average for 2009 was 2.84% and for 2008 was 3.33%. An event that limits the ability of the Plan to transact at contract value with the issuer (for example, premature termination of the contracts by the Plan, facility closing, layoffs, Plan termination, bankruptcy, mergers, and early retirement incentives) an that also limits the ability of the Plan to transact at contract value with the participants in the Plan must be probable of not occurring.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 17, 2009 and December 31, 2008:

Assets at Fair Value as of December 17, 2009

	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ -	$ -	$ -
Total assets at fair value	$ -	$ -	$ -	$ -

Assets at Fair Value as of December 31, 2008

	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ -	$ 1,248,463	$ 1,248,463
Total assets at fair value	$ -	$ -	$ 1,248,463	$ 1,248,463

NOTE E – FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the period ended December 17, 2009.

Level 3 Assets
Period Ended December 17, 2009

	Guaranteed Investment Contract
Balance, beginning of year	$ 1,248,463
Purchases, sales, issuances, and settlements (net)	(1,248,463)
Balance, end of year	$ -

NOTE F – PLAN MERGER AND TERMINATION

The Company has the right under the terms of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

During 2008, the Plan merged its assets into two existing plans depending on the employment classification of the participants. Physicians and clinical staff with balances in the Plan were spun into the Advanced Medical Specialties, LLC 401(k) Plan. Administrative and all other employees with balances in the Plan were merged into the U.S. Oncology, Inc. 401(k) Plan. All assets except the guaranteed investment contract were transferred to the two qualified plans by December 31, 2008. Fidelity Management Trust Company assumed the trustee responsibilities effective January 1, 2009. Assets transferred to the two qualified plans amounted to $3,796,238, during the year ended December 31, 2008 and $1,277,910 during the period ended December 17, 2009.

NOTE G – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Custodians and, therefore, the transactions qualify as party-in-interest transactions. For the period ended December 17, 2009, the Plan did not pay any fees for investment management services.

NOTE H – INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service dated May 19, 2000, stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax exempt.

NOTE I – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of mutual funds holding stocks, bonds, fixed-income securities and other investment securities. These investments are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J – NONEXEMPT PROHIBITED TRANSACTIONS

The Plan Administrator did not timely remit a total of $183,067 of participant contributions withheld from the participants' wages during 2008, in accordance with the Department of Labor's Regulation 29 CFR § 2510.3-102, which states that contributions by participants are to be remitted to the Custodian on the earliest date that the funds can be reasonably segregated from the employer's general assets, but in no event later than fifteen day of the month following the month when the contributions were either withheld or received from the participant. These transactions are considered nonexempt prohibited transactions with a party in interest and are disclosed as a supplemental schedule in the attached financial statements.

The delinquent contributions were remitted to the Plan in 2008. The administrator has not yet remitted the restorative interest due to the Plan caused by the late contributions during 2008. These delinquent contributions are reported in these financial statements until such time as the Plan Administrator makes the restorative interest payment due to the Plan.
