NOTES TO FINANCIAL STATEMENTS

NOTE A - DESCRIPTION OF THE PLAN

The following description of Portage Health Employees' Pension Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Portage Health. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2008 the plan only includes those employees whose terms of employment are governed by a collective bargaining agreement between either Employer or the Michigan Nurses Association.

Eligibility

All employees governed by a collective bargaining agreement between the Employer and the Michigan Nurses Association become participants in the Plan upon completion of one year of service during which they completed 1,000 hours of service and has attained the age of 21.

Contributions

Portage Health makes contributions to the plan equal to four (4) percent of the first \$24,000 of a participant's compensation and eight (8) percent of compensation in excess of \$24,000.

Employer contributions are not made for any year in which the participant has fewer than 1,000 hours of service. However, participants receive credit for 1,000 hours of service in the year they retire, die, or become disabled regardless of the number of hours worked. All employer contributions will stop in the event of retirement, death, disability, termination, or attainment of age 70. In the event of a participant's total disability, the Group Long Term Disability Contract will make payments to the Plan on behalf of the participant. Such contributions will cease upon the earliest of the participant's recovery, death, or attainment of age 65. During 2009 and 2008 respectively, \$5,720 and \$4,218 of Group Disability payments were received and applied to participant's accounts. No contributions to the Plan are required from participating employees.

Forfeitures

No forfeitures are incurred under the Plan provisions.

Vesting

Participants are immediately vested 100% in the contributions which Portage Health has made for each year, provided they are credited with at least 1,000 hours of service for each year of service.

Participant Accounts

Each participant's account is credited with Portage Health's contribution and an allocation of investment earnings. Allocations are based on the participant's account balances.

EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008**

NOTE A - DESCRIPTION OF THE PLAN (Continued)

The pension benefit will be determined by the accumulation value of the participant's account (accumulated contributions plus earnings less any withdrawals) and the annuity rates in effect at the time. An annuity rate is a dollar and cent amount that is determined actuarially and applied to each \$1,000 of accumulation value in the participant's account based on the retirement option selected.

Payment of Benefits

Upon retirement, married participants will automatically receive a qualified joint and survivor annuity and an unmarried participant will be paid in the form of a life annuity, unless an alternative retirement option is selected consisting of various annuity options or a fixed period option. Upon termination, participants are entitled to an annuity payable upon retirement or a single sum benefit. The Plan also contains disability and death benefits.

Participant Loans

The Plan was amended in 2004 to allow loans to Plan participants and beneficiaries who are parties-in-interest as defined in ERISA 3(14). All loans must be adequately secured and may use up to 50% of a participant's vested interest under the Plan as adequate security. The Plan allows no more than two loans to be outstanding at any one time with at least twelve months between their issuance. For years 2009 and 2008, respectively, new loans of \$17,975 (\$150 of loan processing fees) and \$16,466 (\$225 of loan processing fees) were paid to participants and \$21,233 and \$26,046 of loans were repaid by participants to the Plan. Total loans, as of December 31, 2009 and 2008, respectively are \$39,129 and \$48,282.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared using the accrual method of accounting. As such, investment earnings are credited to participants' accounts when earned and expenses are deducted when they are incurred. Contributions are credited to the participant's accounts when received by the trustee. Prior to the current year, the financial statements were previously prepared on a cash basis which is a comprehensive basis of accounting other than generally accepted accounting principles. As such, contributions and earnings were credited to participant's accounts when received by the Plan trustee rather than when earned by the participant and payments are deducted from the account when they are made. Prior year balances have been adjusted to accrual basis in these audited financial statements.

Investment Valuation

Net assets available for plan benefits are stated at the amount as certified by the insurance company. The insurance company holds the Plan's investment assets and executes transactions therein.

NOTE C - ASSETS HELD FOR INVESTMENT

From the inception of the Plan through February 28, 1994, the Plan had a deposit contract with the American United Life Insurance Company (American). American maintained the contributions in a pooled account. The account was credited with employer contributions and actual earnings on the underlying investments and charged for Plan withdrawals and administration expenses.

NOTE C - ASSETS HELD FOR INVESTMENT (Continued)

Effective March 1, 1994, the contract was terminated and replaced with a contract that permits participant directed investments in addition to the pooled account with American.

The following table represents participant directed investments at fair value and the pooled insurance company general account value. Investments that represent five percent or more of the Plan's net assets are separately identified. The value of the Plan's net assets have been certified by the funding agent.

During 2009 and 2008 the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$225,902 and depreciated in value by \$500,466 respectively as follows:

NOTE D - FAIR VALUE MEASUREMENTS

FASB Statement NO. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

PORTAGE HEALTH
EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets
 - quoted prices for identical or similar assets or liabilities in active markets
 - inputs other than quoted prices that are observable for the asset or liability
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Guaranteed investment contract: OR Common trust funds: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - PLAN TAX STATUS

The Internal Revenue Service has determined and informed Portage Health by a letter dated June 13, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE F - PLAN TERMINATION

It is Portage Health's intent to continue the Plan indefinitely. However, if changes in business conditions require it, Portage Health has reserved the right to terminate the Plan upon written notice to the Plan administrator. These conditions include, but are not limited to, bankruptcy, general assignment of Portage Health's assets, or dissolution of business. However, if the Plan should be discontinued, all funds will be used for the sole benefit of the participants.

NOTE H - ADMINISTRATIVE EXPENSES

The trustee deducts fees from total plan earnings prior to allocating earnings to individual participant's accounts. Currently, 1.25% of the unit values for all variable funds is charged to each participant. On a monthly basis the plan returns a portion of the fee based on the Plan's total asset value at the end of the month. The portion returned to each participant is based on the initial 1.25% less a graduated percent based on the net asset value. The graduated percent, (1.25% -.35%), declines as the Plan's net asset value increases. The provider did not provide us with actual administration fees for 2009 and 2008.
