Notes to Financial Statements

Years ended December 31, 2009 and 2008

1. Description of Plan

The following description of the StyleMark, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and made effective January 1, 1987 for the benefit of the employees of StyleMark, Inc., formerly Capo, Inc. (the Company). Effective April 1, 2009, the Plan was restated to change the name of the Plan from Capo, Inc. Profit Sharing and Retirement Plan and Trust to the StyleMark, Inc. 401(k) Profit Sharing Plan. The Plan and the Trust of which it is a part of are intended to satisfy all the requirements for a qualified retirement plan under the provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company serves as the Plan's sponsor and administrator. Prior to February 4, 2008, the Plan's Trustee was Fiserv Trust Company. Effective February 4, 2008, Fiserv Trust Company merged with TD Ameritrade Trust Company. Effective April 16, 2009 the Plan changed Trustee's from TD Ameritrade to State Street Bank and Trust. Prior to April 16, 2009, Retirement Horizons, Inc. served as the Plan's third party administrator. Effective April 16, 2009, the Plan changed its third party administrator to Diversified Investment Advisors.

Effective December 31, 2009, the Motive Eyewear, Inc. 401(k) Plan merged with the Plan. Participants under the Motive Eyewear, Inc. 401(k) Plan became 100% vested in their total account balance.

Eligibility

Effective April 1, 2009, the Plan covers all employees of the Company except leased personnel, independent contractors, employees governed under a collective bargaining agreement, and employees of affiliated employers unless such affiliated employer has specifically adopted the Plan in writing. Employees may become a participant on the first day of the plan year, or the first date of the fourth, seventh, or tenth month of the Plan Year coinciding with or next following the date on which an employee meets the eligibility requirement of their twenty-first birthday and six months of service. Prior to April 1, 2009, the service requirement to participate in the Plan was three months of service and nonresident aliens were excluded from participating in the Plan.

1. Description of Plan (continued)

Contributions

Each year, participants may contribute up to 100% pretax annual compensation, as defined in the Plan, limited by the provisions of the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make “catch up” contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers various mutual funds, a money market account and a common collective trust as investment options for participants. Prior to July 1, 2008, the Company contributed a safe harbor contribution of 100% up to 5% of eligible compensation that a participant contributed to the Plan. Effective July 1, 2008, the Company elected to stop being a safe harbor 401(k) plan and the safe harbor contribution ceased. The safe harbor match contribution was replaced with a 50% discretionary match of participant contributions up to 5% of compensation. Effective December 19, 2008, the Company's board of directors decreased the employer match to 0%.

The matching Company contribution is invested directly into the investment options selected by the participant. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested directly into the investment options selected by the participant. Contributions are subject to certain limitations. The Company did not make a profit sharing contribution for the year ended December 31, 2009.

Effective January 1, 2008, the Plan was amended to provide for a Qualified Automatic Contribution Arrangement. During the first year after the effective date of the amendment, 3% of an eligible participant's compensation will automatically be deferred. The automatic deferral will increase at a rate of 1% for each successive year until 6%. Employees may make an affirmative election to not have automatic contributions made on their behalf.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, Plan earnings, and charged with an allocation of investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

StyleMark, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts and earnings thereon is based on years of continuous service. Effective April 1, 2009, participants become 100% vested in employer match contributions after two years of service. For nonelective company contributions, participants become 20% vested after two years of service and increase 20% each year thereafter until they are 100% vested after six years. Prior to April 1, 2009, a participant is 20% vested after two years of service as defined and continues to vest at the rate of 20% for each successive year of service until 100% vested after six years of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of a participant's vested account balance. A participant cannot have more than two loans outstanding at one time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 8.73%, which are commensurate with local prevailing rates. Loan terms range from one to five years or longer for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to retirement, death, disability, or termination of employment, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The participant may also elect to receive partial or monthly, quarterly, semiannual, or annual cash installments. The Plan shall make automatic rollovers of vested balances greater than \$1,000 but less than \$5,000.

Forfeitures

At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$7,741 and \$8,378, respectively. These accounts will be used first to cover the cost of administration of the Plan and second to reduce employer match and discretionary contributions. During 2009, administrative costs of \$44,609 were paid from forfeited nonvested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

StyleMark, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through October 4, 2010, the date the financial statements were available to be issued.

Mutual funds	\$ 1,628,874
Common collective trust	<u>28,373</u>
	<u>\$ 1,657,247</u>

4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability; |

StyleMark, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

4. Fair Value Measurements (continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Cash equivalents: Valued at the closing account balance held by the Plan at year end.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trusts: Valued based on the closing market price reported on the active market on which the underlying investments are traded.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

StyleMark, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their entire account.

6. Administrative Expenses

Administrative expenses are paid by either the Plan sponsor or from the Plan. The Plan document allows qualified administrative expenses to be paid from the Plan. Administrative expenses paid by the Company are not included in the accompanying financial information. Any charges not paid by the employer were applied directly to the accounts of the participants.

StyleMark, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

7. Tax Status

The Plan has not requested a determination letter from the Internal Revenue Service (IRS) regarding the Plan's exemption from federal income tax under Section 501(a) of the IRC. However, effective April 1, 2009, the Plan adopted a nonstandardized prototype plan by Diversified Investment Advisors. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Prior to April 1, 2009, the Plan had received a favorable determination letter dated August 30, 2005, from the Internal Revenue Service. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC, and as such, no provision for income tax has been included in the Plan's financial statements.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by State Street Bank and Trust Company and TD Ameritrade Trust Company, except for comparing such information certified by the Trustees to information included in the Plan's financial statements and supplemental schedules.

The Trustees also certified to the completeness and accuracy of \$1,657,247 of net appreciation in fair value of investments and \$228,527 of interest and dividends related to the investments for the year ended December 31, 2009.

10. Related Party Transactions

Certain Plan investments are managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the Trustee of the Plan and therefore these transactions qualify as party-in-interest transactions.

11. Subsequent Events

On March 1, 2010, Motive Eyewear, Inc. 401(k) Plan assets totaling \$2,823,536 were transferred to the Plan.
