Independent Accountants' Report

Board of Trustees
Drake Container 401(k) Plan
Houston, Texas

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of Drake Container 401(k) Plan as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Drake Container 401(k) Plan as of December 31, 2009 and 2008, and the changes in its net assets available for benefits for the years then ended, on the basis of accounting described in Note 2.

The accompanying supplemental schedule is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Drake Container 401(k) Plan

Notes to Financial Statements (Modified Cash Basis)

December 31, 2009 and 2008

Note 1: Description of the Plan

The following description of Drake Container 401(k) Plan (the Plan) provides only general information. Participants should refer to the *Plan Document* and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by Drake Container Corporation (the Company) for the benefit of its full-time employees who have at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's Chief Executive Officer is the trustee of the Plan. Merrill Lynch Retirement Group (Merrill Lynch) serves as Plan custodian.

Contributions

The Plan allows eligible employees to defer up to 20 percent of their annual compensation as contributions to the Plan. Employee rollover contributions are also permitted. The Company makes matching contributions of 100 percent of the first 1 percent and 50 percent of the next 4 percent of employees' salary deferral amounts up to 3 percent of employees' compensation up to a limit of \$230,000 and \$225,000 for 2009 and 2008, respectively. Company profit sharing contributions are discretionary, as determined by the Company's Board of Directors. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution and Plan earnings, and forfeitures of terminated participants' non-vested accounts and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, plus earnings thereon. Vesting in the Company's contribution portion of their accounts, plus earnings thereon, is based on years of credited service. A participant is fully vested after five years of credited service. The non-vested balance is forfeited upon termination of service. Forfeitures are allocated among active participants based upon compensation.

Notes to Financial Statements (Modified Cash Basis)
December 31, 2009 and 2008

Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount or a direct rollover equal to the value of his or her account or a joint and survivor annuity.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited non-vested accounts totaled \$17,270 and \$11,460, respectively. These accounts will be reallocated among active participants based on compensation.

Participant Loans

The *Plan Document* includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50 percent of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years, except for loans for the purchase of a principal residence, through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on prime plus 2 percent.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Modified Cash Basis of Accounting

The financial statements of the Plan have been prepared on the modified cash basis of accounting. The statements of changes in net assets available for benefits reflects only cash received and cash disbursed and changes in the fair value of investments. Therefore, receivables and payables and accrued income and expenses, which may be material, are not reflected in the accompanying financial statements. The financial statements are not intended to present net assets available for benefits or changes in net assets available for benefits in conformity with accounting principles generally accepted in the United States of America.

Drake Container 401(k) Plan

Notes to Financial Statements (Modified Cash Basis)

December 31, 2009 and 2008

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices are used to value investments, as provided by Merrill Lynch. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. Participant loans are valued at amortized cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the modified cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit sharing plan and trust sponsored by Merrill Lynch. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code and that the related trust was tax-exempt as of the financial statement date. The Plan has been amended since the issuance of the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. Federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2006.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Reclassifications

Certain reclassifications have been made to the 2008 financial statements to conform to the 2009 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Interest and dividends realized on the Plan's investments for the years ended December 31, 2009 and 2008, were \$47,634 and \$89,947, respectively.

Note 4: Party-in-interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee organization, or relatives of such persons. The Company provides certain administrative services at no cost to the Plan.

Note 5: Fair Value of Plan Assets

Accounting Standards Codification Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy, which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets.
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

Drake Container 401(k) Plan

Notes to Financial Statements (Modified Cash Basis)

December 31, 2009 and 2008

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds and a money market fund. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. No Level 2 securities are included. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include participant loans. Participant loans are valued at amortized cost, which approximates fair value.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2009 and 2008:

2009				
Fair Value Measurements Using				
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Participant Loans
Balance, January 1, 2008	\$ 175,124
Purchases, issuances and settlements (net)	<u>(2,336)</u>

Purchases, issuances and settlements (net)	<u>(17,224)</u>
Balance, December 31, 2009	<u>\$ 155,564</u>

As the participant loans are valued at amortized cost, which approximates fair value, there are no realized and unrealized gains and losses for this investment included in net assets available for benefits.

Note 6: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which, in some cases, have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8: Subsequent Events

Subsequent events have been evaluated through September 28, 2010, which is the date the financial statements were available to be issued.
