INDEPENDENT AUDITORS' REPORT

PPG Industries, Inc.
Defined Contribution Retirement Plan:

We have audited the accompanying statements of net assets available for benefits of the PPG Industries, Inc. Defined Contribution Retirement Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, as listed in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

PPG INDUSTRIES, INC. DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2009 AND 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RELATED MATTERS

Basis of Accounting — The financial statements of the PPG Industries, Inc. Defined Contribution Retirement Plan (the “Plan”) are prepared on the accrual basis of accounting, except for amounts due to participants who had requested withdrawals, which are not recorded as a liability of the Plan as of December 31, 2009 and 2008 in accordance with the American Institute of Certified Public Accountants Audit and Accounting Guide, *Audits of Employee Benefit Plans*.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends on the PPG Industries common stock are recorded as investment income on the ex-dividend date.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan invests in various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could be material in relation to the amounts reported in the financial statements.

Master Trust — The PPG Industries Master Trust (the “Master Trust”) was established pursuant to a trust agreement between PPG Industries, Inc. (the “Company” or “PPG”) and Fidelity Management Trust Company (FMTTC) in order to permit the commingling of trust assets in multiple PPG sponsored employee benefit plans for investment and administrative purposes.

Investment Valuation — Investments are generally stated at fair value. Investments in securities traded on security exchanges are valued at the closing sales price on the last business day of the Plan year. Listed securities for which no sale was reported on that date are valued at bid quotations.

The S&P 500 Index Fund is a commingled pool managed by BlackRock Institutional Trust Company (“BlackRock”) following their acquisition of Barclay’s Global Investors on December 1, 2009. The S&P 500 Index Fund primarily invests in the common stocks of the approximately 500 companies that make up the Standard & Poor’s Composite Stock Index (“S&P 500”). The fund’s objective is to provide a total return that closely corresponds to the investment performance of the S&P 500 with dividends reinvested. This commingled pool is not a mutual fund and is only available to qualified institutional investors. The fair value of the commingled pool is determined by BlackRock, and is based upon the fair value of the underlying securities held by the commingled pool.

The International Equity Fund is a pooled separate account consisting of two institutionally managed commingled pools. The commingled pools employ investment managers with distinct but complementary investment styles that invest primarily in foreign securities. Pyramis Global Advisors Trust Company and Mellon Capital Management Company (“Mellon”) were the investment managers at

December 31, 2009 and 2008. This fund is available only to Plan participants. The fair value of the fund is based upon the market value of the underlying securities held by the commingled pools.

The Stable Value Fund is a pooled separate account with FMTC as the investment manager, which invests in a diversified portfolio of fixed income securities, such as U.S. government obligations, mortgage-related and asset-backed securities, and corporate bonds. See Note 5 for additional information regarding the Stable Value Fund.

The investments in Common Collective Trusts is comprised of investments in the Mellon Bond Index Fund and the BlackRock LifePath Portfolio Funds. The objective of the BlackRock LifePath Portfolio Funds is to maximize total return while maintaining an investment mix of stocks and fixed income instruments relative to a participant's retirement timeframe. The asset allocation of each LifePath Fund is designed to reach its most conservative risk level at the end of the fund's stated date, at which time it will be blended into the LifePath Retirement Fund. The LifePath Retirement Fund is designed to provide participants who will be retiring with an appropriate blend of income and inflation protection. The fair value of the LifePath Portfolio Funds is based upon the fair value of the underlying investments held by the LifePath Portfolio Funds. These funds replaced the Vanguard LifeStrategy Mutual Funds on April 1, 2009.

The Mellon Bond Index Fund is a commingled pool managed by Mellon that invests in a stratified sample of the bonds in the Barclay's Capital U.S. Aggregate Index (the "Index"). The Fund's objective is to provide a total return that closely corresponds to the investment performance of the Index. This commingled pool is not a mutual fund and is only available to qualified institutional investors. The fair value of the investment in the Mellon Bond Index Fund is based upon the fair value of the underlying investments held by the Mellon Bond Index Fund.

Accounting Standards Adopted in 2009 — In June 2009, the Financial Accounting Standards Board ("FASB") issued new accounting guidance entitled, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles — a replacement of FASB Statement No. 162," which identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with GAAP. This new guidance was implemented at September 30, 2009, when it became effective. The adoption of this guidance has changed how we reference various elements of GAAP when preparing our financial statement disclosures, but did not have an impact on the Plan's financial statements.

In May 2009, the FASB issued new accounting guidance on subsequent events. The objective of this guidance is to establish general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This new accounting guidance was adopted as of June 30, 2009, when it became effective. Adopting this new guidance did not have a material impact on the accompanying financial statements. Except as described in Note 8, the Plan has determined that there were no subsequent events that would require disclosure or adjustment to the accompanying financial statements through September 20, 2010.

2. DESCRIPTION OF THE PLAN

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document and Summary Plan Description for more information on the Plan. This Plan was implemented for employees hired on or after January 1, 2006, with salaried benefits, and certain non-union employees hired on or after February 1, 2006. Certain union employees covered by a collective bargaining agreement, where the collective bargaining agreement provides for participation in this type of Plan because their respective defined benefit plans were frozen to new entrants, are also part of this Plan until July 2008. At that time, separate Plans were established for such individuals and their account balances were transferred into the respective Plans. This Plan provides a retirement program for such eligible employees that gives them control of their retirement funds by allowing them to direct how the money will be invested and portability should they leave PPG before retirement.

Administration — The named fiduciary for the operation and administration of the Plan (the “Administrator”) is the Director, HR Services and Benefits of PPG.

The named fiduciary with respect to control and management of the assets of the Plan is the Executive Committee and the Benefits Investment Committee (BIC) of PPG. The responsibilities of the BIC include, but are not limited to, approval of trustees, investment options, and investment managers and establishing performance benchmarks.

The Employee Benefits Committee (EBC) of PPG has responsibility for establishing, maintaining, and amending the Plan. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administrative Expenses — The Plan pays all reasonable and necessary costs to manage and operate the Plan as determined by the Plan Administrator. These expenses, including record-keeping fees, administrative charges, professional costs, and trustee fees, are paid from the assets of the Master Trust. The Plan Administrator has adopted uniform and nondiscriminatory procedures to allocate these expenses to participant accounts.

Trustee of the Plan Assets — FMTC is the trustee for all of the Plan assets as of December 31, 2009 and 2008.

Eligibility to Participate in the Plan — Employees eligible to participate in the Plan include: 1) employees designated as eligible for CORE benefits that were hired, rehired, or transferred into the salaried benefits program on or after January 1, 2006, and 2) certain nonunion employees hired on or after February 1, 2006.

Contributions — Contributions under the Plan are made by the Company. The amount of the contribution ranges from 2% to 5% of the participant’s eligible Plan compensation depending on the participant’s points at the end of each month. Points are the quotient obtained by dividing the sum of the participant’s age as of the last day of each month (measured in months) and months of benefit service as of the last of each month by 12. Company contributions are made to the participant’s account on an annual basis and as soon as administratively possible after the end of the Plan year.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the Company’s contribution and allocations of fund earnings and charged with an allocation of fund losses and administrative expenses. Allocations are based on participant account balances, as defined by the Plan.

Vesting — Company contributions and related earnings allocated to participant's account are 100% vested upon the occurrence of one of the following events: a participant completes three years of vesting service; the participant dies or is approved for PPG sponsored long-term disability payments; or the participant retires and/or separates from service and is within 10 years of normal Social Security benefits. Amounts allocated to participants that are not 100% vested shall become forfeitable upon termination of employment by the participant, except as listed above. At December 31, 2009 and 2008, the forfeiture account balance was approximately \$15,550 and \$49,230, respectively.

Payment of Benefits — Upon termination from service for a voluntary or involuntary separation, retirement, or being approved for long-term disability, a participant may elect how to receive payment of his or her account among several options, including a total distribution, a partial lump-sum distribution, or recurring payments. The benefit to which a participant is entitled is the participant's vested account balance. Participants who separate from service with a vested balance between \$1,000 and \$5,000 will have their vested account balance rolled over into an individual retirement account, unless they make a different decision within 90 days of their separation from service. Those participants with vested balances of less than \$1,000 will receive a taxable cash distribution, unless they make a different decision within 90 days of their separation from service.

Payments to designated beneficiaries upon the death of the participant are paid as a lump-sum distribution as soon as administratively possible from the date such payments are requested by the designated beneficiary(ies).

Transfers — In December 2008, following PPG's divestiture of its Automotive Glass and Services business, the net assets of the Plan participants who became employees of Pittsburgh Glass Works were transferred to the Pittsburgh Glass Works LLC Employee Savings Plan. The total net assets transferred in connection with this divestiture were \$58,542. In June 2008, the net assets of the participants in the PPG Industries, Inc. Defined Contribution Retirement Plan for Employees Covered by the Bargaining Agreement between PPG Industries, Inc. and the International Association of Machinists and Aerospace Workers, Local Lodge 704 of District 161 and the PPG Industries, Inc. Defined Contribution Retirement Plan for Eligible Employees Covered By Collective Bargaining Agreements were transferred to the respective Plans established for such eligible employee groups. The total net assets transferred were \$29,240.

In June 2009, the remaining net assets of the Plan participants who became employees of Pittsburgh Glass Works were transferred to the Pittsburgh Glass Works LLC Employee Savings Plan. The total net assets transferred was \$114,666.

Voting Rights — Participants have voting rights for the shares of PPG common stock that are allocated to their accounts.

3. PPG INDUSTRIES MASTER TRUST

The Master Trust assets are held by FMTC. Each participating employee benefit plan has an undivided interest in the net assets and changes therein of each of the Master Trust investment options in which the respective plan participates. The plan assets of the Plan are included in the Master Trust together with other PPG sponsored plans.

The net investment income of the commingled Master Trust investment funds is allocated by the trustee to each participating plan based on that plan's interest in each commingled Master Trust investment fund, as compared with the total interest of all the participating plans, in each commingled Master Trust investment fund at the beginning of the month.

As of December 31, 2009 and 2008, the Plan had approximately a 0.23% and 0.08% interest in the Master Trust, respectively. The net assets available for benefits of the Master Trust are summarized as follows:

4. FAIR VALUE MEASUREMENT

Accounting guidance on fair value measurements establishes a hierarchy of inputs employed to determine fair value measurements, which has three levels. Level 1 inputs are quoted prices in active markets for identical assets and liabilities, are considered to be the most reliable evidence of fair value, and should be used whenever available. Level 2 inputs are observable prices that are not quoted on active exchanges. Level 3 inputs are unobservable inputs employed for measuring the fair value of assets or liabilities.

The financial assets that are reported at fair value on a recurring basis as of December 31, 2009 were as follows:

5. STABLE VALUE FUND

The objective of the Stable Value Fund is to preserve the invested principal and accumulated interest, while earning a competitive level of income over time. The Stable Value Fund is a separate account managed by FMTC.

The Stable Value Fund invests in a diversified portfolio of short-term bonds, fixed income securities, such as U.S. Treasury bonds, government agency securities, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, and asset-backed securities. The Stable Value Fund also invests in money market funds to provide daily liquidity and purchased third-party wrap contracts that are designed to permit the Fund to use contract (book) value accounting to provide for the payment of participant-directed withdrawals and exchanges at contract (book) value under most circumstances. Interest is credited to the Stable Value Fund under the wrap contracts. There is no immediate recognition of gains and losses on the fixed income securities. Instead, gains and losses are recognized over time by adjusting the interest rate credited to the Stable Value Fund.

The wrap contracts have been issued by NATIXIS Financial Products, Inc., AIG Financial Products, State Street Bank and Trust, Rabobank Netherlands and effective June 30, 2009 J. P. Morgan. The Standard & Poor's credit rating of the issuing financial institutions is A+, A-, A+, AAA and A+, respectively. Effective March 1, 2010 Rabobank Netherlands was replaced by J. P. Morgan. The underlying investments of the Stable Value Fund are stated at fair value based on quoted market prices. The fair market value of the wrap contract is estimated by converting the basis points assigned to the wrap fee.

The third-party wrap contracts provide that participant fund transactions are executed at contract value. Contract value represents contributions made to the fund, plus net investment income, less participant withdrawals. The interest crediting rates are reset quarterly based upon market rates of similar investments, the current yield of the underlying investments, and the spread between market value and contract value, but the rate cannot be less than 0%.

Certain events, such as a plan termination or plan merger, initiated by the Plan administrator may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrap contract at less than contract value. The Plan administrator does not believe that any events that may limit the ability of the Plan to transact at contract value are probable.

	2009	2008
Average yields:		
Based on annualized earnings ⁽¹⁾	2.41 %	4.20 %
Based on interest rate credited to participants ⁽²⁾	2.96	4.14

⁽¹⁾ Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the investments on the same date.

⁽²⁾ Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the investments on the same date.

In 2009 and 2008, the Stable Value Fund had 100% of its investments in the Stable Value Pool. The types of securities included in the Stable Value Pool, at fair value, as of December 31, 2009 and 2008, are as follows:

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event the Plan is terminated, Plan participants will receive all amounts credited to their accounts.

7. FEDERAL INCOME TAX STATUS

The Plan has not been submitted yet for a favorable letter of determination from the Internal Revenue Service. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Participants in the Plan are not liable for federal income tax on amounts allocated to their accounts resulting from employer contributions and/or investment income until such time as a withdrawal is made.

8. SUBSEQUENT EVENT

In March 2010, the 2009 plan year contributions of approximately \$3,000,000 were deposited into the eligible Plan participant accounts.
