Independent Auditor's Report

September 8, 2010

To the Trustee, Plan Administrator, and Participants of
The Burdick Companies 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of The Burdick Companies 401(k) Plan as of December 31, 2009 and 2008, the related statements of changes in net assets available for benefits for the years then ended, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of plan

The following description of The Burdick Companies 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code and has a Section 401(k) salary deferral arrangement. The Plan covers all employees of Driver's Village, Inc. and RLB Development, LLC (collectively the "Company") who have one year of service and are age twenty-one or older. All assets acquired under the Plan are the result of employee and employer contributions thereto and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code. Participants are allowed to make rollover contributions to the Plan.

The Company may contribute for each participant, a discretionary matching contribution equal to 50% of the participant's elective contributions. The Company has the option of increasing or decreasing the employer matching contribution percentage at any time up to a maximum of 6% of each participant's compensation. Discretionary matching contributions amounted to approximately $152,000 and $92,000 for the years ended December 31, 2009 and 2008, respectively. The Company may also elect to make discretionary profit sharing contributions, the amount and timing of such payments is at the option of the Company. There were no discretionary profit sharing contributions made for the years ended December 31, 2009 and 2008.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, the Company's discretionary matching contributions and plan earnings. Allocations are based on participant compensation or account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their elective salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. A participant is 100% vested after six years of credited service. Forfeitures of terminated non-vested account balances to remaining participants were approximately $3,500 and $500 as of December 31, 2009 and 2008, respectively.

Investment options - Participants may direct contributions to the Plan in any of the investment options offered by the Plan. Participants may change their investment options daily through online media with the Plan's investment custodian.

Payment of benefits - On termination of service due to retirement, disability or death, a participant and/or beneficiary will be entitled to 100% of the account balance to be paid out as soon as practicable following their termination of service. On termination of employment for reasons other than those listed above, the participant will be entitled to receive only the vested value of their account balance.

Participant loans - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans will bear a reasonable fixed rate of interest to be determined by the loan administrator, similar to that which a bank or other professional lender would charge for making a similar loan. Interest rates range from 4.25% to 9.50%. The loan will be repaid through weekly payroll deductions; however, in no instance may the term of the repayment be greater than five years, except if the loan is used to acquire a residence, then the repayment period may be extended beyond five years. Only one loan per participant can be outstanding at a time. The loans are secured by the vested balance in the participant's account. According to requirements of the participant loan program, the plan administrator will treat a loan in default if any scheduled payment remains unpaid beyond ninety days.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on participant loans for participants who are actively participating in the Plan and have not continued to make payments on the outstanding loans as required under the participant loan program. There were no deemed distributions for the years ended December 31, 2009 and 2008.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

Method of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment options in any combination of mutual funds or other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Furthermore, the Plan holds investment securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account

balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Economic dependency and concentration of credit risk - All of the Plan's investments are held and administered by Principal Life Insurance Company. Accordingly, the Plan is dependent upon the financial condition of Principal Life Insurance Company.

Investment valuation and income recognition - Investments in pooled separate accounts are stated at fair market value (see Note 7). The Plan's guaranteed investment contracts are not benefit responsive and are therefore valued at fair value. The average yield and crediting interest rate was approximately 3.43% and 3.23% for the years ended December 31, 2009 and 2008, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. All fair market values have been determined and certified by Principal Life Insurance Company, the Trustee of the Plan (see Note 4). Investments in participants' loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits - Benefits are recorded as paid.

Administrative costs - Administrative costs, including maintaining participant accounts, legal and accounting costs, are the obligation of the Plan; however, the plan sponsor has paid or reimbursed the Plan for such expenses. Costs of managing the investments are paid directly out of plan assets.

Subsequent events - Management has evaluated subsequent events through September 8, 2010, the date that the financial statements were available for issue. There have been no subsequent events that would require disclosure or adjustment to the financial statements.

Note 3 - Plan amendments

Effective August 17, 2009, the Plan was amended and restated to comply with applicable law and regulations.

Note 4 - Investments

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the Plan's Trustee, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate. The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule. Investments that represent 5% or more of the Plan's net assets ($220,585 for 2009 and $173,383 for 2008) are separately identified below.

Interest received on guaranteed investment contracts	18,227	17,231
Total investment income	$ 748,646	$ (1,507,095)

Note 5 - Tax status

The Company has adopted Principal Financial Group's Prototype for Savings Plans Standardized Profit Sharing Plan. The Internal Revenue Service has ruled that the standardized prototype plan of the Principal Financial Group is acceptable under Section 401(a) of the Internal Revenue Code. The management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as a tax-exempt plan.

In June 2006, the Financial Accounting Standards Board (FASB) issued authoritative guidance regarding accounting for uncertainty in income taxes, which became effective for fiscal years beginning after December 15, 2008. The Plan is a tax-exempt plan. The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the year ended December 31, 2009. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2006.

Note 6 - Excess contributions payable

Excess contributions payable represent excess 401(k) contributions received from certain participants during 2008, which were returned to them in 2009, as corrective distributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Note 7 - Fair value measurements

FASB has published authoritative guidance on Fair Value Measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Guaranteed Investment Contracts (GIC) - Investment contracts issued by Principal are backed by their general account. These investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Level 3).

Pooled Separate Accounts (PSA) - Pooled separate accounts are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The Net Asset Value (NAV) of a pooled separate account is based on the market value of its underlying investments. The NAV is not a publicly quoted price in the active market. A majority of the pooled separate accounts are made up of underlying investments when the individual prices of the investments can be obtained from the market price (Level 2).

Participant loans - Valued at amortized cost, which approximates fair value (Level 3).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 530,066	$ 530,066
Pooled separate accounts	-	3,724,057	-	3,724,057
Participant loans	-	-	157,582	157,582
Total assets at fair value	$ -	$ 3,724,057	$ 687,648	$ 4,411,705

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 523,189	$ 523,189
Pooled separate accounts	-	2,849,217	-	2,849,217

Total assets at fair value	$ -	$ 2,849,217	$ 619,681	$ 3,468,898

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets:

	Guaranteed Investment Contracts	Participant Loans
Balance at December 31, 2007	$ 435,899	$ 94,628
Realized gains/(losses)	17,232	-
Purchases, sales, issuances and settlements, net	70,058	1,864
Balance at December 31, 2008	523,189	96,492
Realized gains/(losses)	18,266	-
Purchases, sales, issuances and settlements, net	(11,389)	61,090
Balance at December 31, 2009	$ 530,066	$ 157,582

Note 8 - Related party transactions

Certain plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as exempt party in interest transactions. Investment fees paid by the Plan for investment management services were included in the net appreciation (depreciation) in fair value of investments on the accompanying statements of changes in net assets available for benefits. In addition, Principal Life Insurance Company provides third party administrative fees, most of which are paid by the plan sponsor as discussed in Note 2; however, the Plan paid administrative expenses of $6,828 and $2,526 for the years ended December 31, 2009 and 2008, respectively.

Independent Auditor's Report

September 8, 2010

To the Trustee, Plan Administrator, and Participants of
The Burdick Companies 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of The Burdick Companies 401(k) Plan as of December 31, 2009 and 2008, the related statements of changes in net assets available for benefits for the years then ended, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of plan

The following description of The Burdick Companies 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code and has a Section 401(k) salary deferral arrangement. The Plan covers all employees of Driver's Village, Inc. and RLB Development, LLC (collectively the "Company") who have one year of service and are age twenty-one or older. All assets acquired under the Plan are the result of employee and employer contributions thereto and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code. Participants are allowed to make rollover contributions to the Plan.

The Company may contribute for each participant, a discretionary matching contribution equal to 50% of the participant's elective contributions. The Company has the option of increasing or decreasing the employer matching contribution percentage at any time up to a maximum of 6% of each participant's compensation. Discretionary matching contributions amounted to approximately $152,000 and $92,000 for the years ended December 31, 2009 and 2008, respectively. The Company may also elect to make discretionary profit sharing contributions, the amount and timing of such payments is at the option of the Company. There were no discretionary profit sharing contributions made for the years ended December 31, 2009 and 2008.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, the Company's discretionary matching contributions and plan earnings. Allocations are based on participant compensation or account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their elective salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. A participant is 100% vested after six years of credited service. Forfeitures of terminated non-vested account balances to remaining participants were approximately $3,500 and $500 as of December 31, 2009 and 2008, respectively.

Investment options - Participants may direct contributions to the Plan in any of the investment options offered by the Plan. Participants may change their investment options daily through online media with the Plan's investment custodian.

Payment of benefits - On termination of service due to retirement, disability or death, a participant and/or beneficiary will be entitled to 100% of the account balance to be paid out as soon as practicable following their termination of service. On termination of employment for reasons other than those listed above, the participant will be entitled to receive only the vested value of their account balance.

Participant loans - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans will bear a reasonable fixed rate of interest to be determined by the loan administrator, similar to that which a bank or other professional lender would charge for making a similar loan. Interest rates range from 4.25% to 9.50%. The loan will be repaid through weekly payroll deductions; however, in no instance may the term of the repayment be greater than five years, except if the loan is used to acquire a residence, then the repayment period may be extended beyond five years. Only one loan per participant can be outstanding at a time. The loans are secured by the vested balance in the participant's account. According to requirements of the participant loan program, the plan administrator will treat a loan in default if any scheduled payment remains unpaid beyond ninety days.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on participant loans for participants who are actively participating in the Plan and have not continued to make payments on the outstanding loans as required under the participant loan program. There were no deemed distributions for the years ended December 31, 2009 and 2008.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

Method of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment options in any combination of mutual funds or other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Furthermore, the Plan holds investment securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account

balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Economic dependency and concentration of credit risk - All of the Plan's investments are held and administered by Principal Life Insurance Company. Accordingly, the Plan is dependent upon the financial condition of Principal Life Insurance Company.

Investment valuation and income recognition - Investments in pooled separate accounts are stated at fair market value (see Note 7). The Plan's guaranteed investment contracts are not benefit responsive and are therefore valued at fair value. The average yield and crediting interest rate was approximately 3.43% and 3.23% for the years ended December 31, 2009 and 2008, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. All fair market values have been determined and certified by Principal Life Insurance Company, the Trustee of the Plan (see Note 4). Investments in participants' loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits - Benefits are recorded as paid.

Administrative costs - Administrative costs, including maintaining participant accounts, legal and accounting costs, are the obligation of the Plan; however, the plan sponsor has paid or reimbursed the Plan for such expenses. Costs of managing the investments are paid directly out of plan assets.

Subsequent events - Management has evaluated subsequent events through September 8, 2010, the date that the financial statements were available for issue. There have been no subsequent events that would require disclosure or adjustment to the financial statements.

Note 3 - Plan amendments

Effective August 17, 2009, the Plan was amended and restated to comply with applicable law and regulations.

Note 4 - Investments

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the Plan's Trustee, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate. The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule. Investments that represent 5% or more of the Plan's net assets ($220,585 for 2009 and $173,383 for 2008) are separately identified below.

Interest received on guaranteed investment contracts	18,227	17,231
Total investment income	$ 748,646	$ (1,507,095)

Note 5 - Tax status

The Company has adopted Principal Financial Group's Prototype for Savings Plans Standardized Profit Sharing Plan. The Internal Revenue Service has ruled that the standardized prototype plan of the Principal Financial Group is acceptable under Section 401(a) of the Internal Revenue Code. The management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as a tax-exempt plan.

In June 2006, the Financial Accounting Standards Board (FASB) issued authoritative guidance regarding accounting for uncertainty in income taxes, which became effective for fiscal years beginning after December 15, 2008. The Plan is a tax-exempt plan. The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the year ended December 31, 2009. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2006.

Note 6 - Excess contributions payable

Excess contributions payable represent excess 401(k) contributions received from certain participants during 2008, which were returned to them in 2009, as corrective distributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Note 7 - Fair value measurements

FASB has published authoritative guidance on Fair Value Measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Guaranteed Investment Contracts (GIC) - Investment contracts issued by Principal are backed by their general account. These investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Level 3).

Pooled Separate Accounts (PSA) - Pooled separate accounts are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The Net Asset Value (NAV) of a pooled separate account is based on the market value of its underlying investments. The NAV is not a publicly quoted price in the active market. A majority of the pooled separate accounts are made up of underlying investments when the individual prices of the investments can be obtained from the market price (Level 2).

Participant loans - Valued at amortized cost, which approximates fair value (Level 3).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 530,066	$ 530,066
Pooled separate accounts	-	3,724,057	-	3,724,057
Participant loans	-	-	157,582	157,582
Total assets at fair value	$ -	$ 3,724,057	$ 687,648	$ 4,411,705

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 523,189	$ 523,189

Total assets at fair value	$ -	$ 2,849,217	$ 619,681	$ 3,468,898

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets:

	Guaranteed Investment Contracts	Participant Loans
Balance at December 31, 2007	$ 435,899	$ 94,628
Realized gains/(losses)	17,232	-
Purchases, sales, issuances and settlements, net	70,058	1,864
Balance at December 31, 2008	523,189	96,492
Realized gains/(losses)	18,266	-
Purchases, sales, issuances and settlements, net	(11,389)	61,090
Balance at December 31, 2009	$ 530,066	$ 157,582

Note 8 - Related party transactions

Certain plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as exempt party in interest transactions. Investment fees paid by the Plan for investment management services were included in the net appreciation (depreciation) in fair value of investments on the accompanying statements of changes in net assets available for benefits. In addition, Principal Life Insurance Company provides third party administrative fees, most of which are paid by the plan sponsor as discussed in Note 2; however, the Plan paid administrative expenses of $6,828 and $2,526 for the years ended December 31, 2009 and 2008, respectively.

Independent Auditor's Report

September 8, 2010

To the Trustee, Plan Administrator, and Participants of
The Burdick Companies 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of The Burdick Companies 401(k) Plan as of December 31, 2009 and 2008, the related statements of changes in net assets available for benefits for the years then ended, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2009 and 2008, and for the years then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of plan

The following description of The Burdick Companies 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution profit sharing plan under Section 401(a) of the Internal Revenue Code and has a Section 401(k) salary deferral arrangement. The Plan covers all employees of Driver's Village, Inc. and RLB Development, LLC (collectively the "Company") who have one year of service and are age twenty-one or older. All assets acquired under the Plan are the result of employee and employer contributions thereto and all income and other additions thereto are administered, distributed, forfeited or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code. Participants are allowed to make rollover contributions to the Plan.

The Company may contribute for each participant, a discretionary matching contribution equal to 50% of the participant's elective contributions. The Company has the option of increasing or decreasing the employer matching contribution percentage at any time up to a maximum of 6% of each participant's compensation. Discretionary matching contributions amounted to approximately $152,000 and $92,000 for the years ended December 31, 2009 and 2008, respectively. The Company may also elect to make discretionary profit sharing contributions, the amount and timing of such payments is at the option of the Company. There were no discretionary profit sharing contributions made for the years ended December 31, 2009 and 2008.

Participant accounts - Each participant's account is credited with the participant's elective deferral contribution, the Company's discretionary matching contributions and plan earnings. Allocations are based on participant compensation or account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their elective salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. A participant is 100% vested after six years of credited service. Forfeitures of terminated non-vested account balances to remaining participants were approximately $3,500 and $500 as of December 31, 2009 and 2008, respectively.

Investment options - Participants may direct contributions to the Plan in any of the investment options offered by the Plan. Participants may change their investment options daily through online media with the Plan's investment custodian.

Payment of benefits - On termination of service due to retirement, disability or death, a participant and/or beneficiary will be entitled to 100% of the account balance to be paid out as soon as practicable following their termination of service. On termination of employment for reasons other than those listed above, the participant will be entitled to receive only the vested value of their account balance.

Participant loans - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans will bear a reasonable fixed rate of interest to be determined by the loan administrator, similar to that which a bank or other professional lender would charge for making a similar loan. Interest rates range from 4.25% to 9.50%. The loan will be repaid through weekly payroll deductions; however, in no instance may the term of the repayment be greater than five years, except if the loan is used to acquire a residence, then the repayment period may be extended beyond five years. Only one loan per participant can be outstanding at a time. The loans are secured by the vested balance in the participant's account. According to requirements of the participant loan program, the plan administrator will treat a loan in default if any scheduled payment remains unpaid beyond ninety days.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on participant loans for participants who are actively participating in the Plan and have not continued to make payments on the outstanding loans as required under the participant loan program. There were no deemed distributions for the years ended December 31, 2009 and 2008.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

Method of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan provides for various investment options in any combination of mutual funds or other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Furthermore, the Plan holds investment securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account

balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Economic dependency and concentration of credit risk - All of the Plan's investments are held and administered by Principal Life Insurance Company. Accordingly, the Plan is dependent upon the financial condition of Principal Life Insurance Company.

Investment valuation and income recognition - Investments in pooled separate accounts are stated at fair market value (see Note 7). The Plan's guaranteed investment contracts are not benefit responsive and are therefore valued at fair value. The average yield and crediting interest rate was approximately 3.43% and 3.23% for the years ended December 31, 2009 and 2008, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than zero. All fair market values have been determined and certified by Principal Life Insurance Company, the Trustee of the Plan (see Note 4). Investments in participants' loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits - Benefits are recorded as paid.

Administrative costs - Administrative costs, including maintaining participant accounts, legal and accounting costs, are the obligation of the Plan; however, the plan sponsor has paid or reimbursed the Plan for such expenses. Costs of managing the investments are paid directly out of plan assets.

Subsequent events - Management has evaluated subsequent events through September 8, 2010, the date that the financial statements were available for issue. There have been no subsequent events that would require disclosure or adjustment to the financial statements.

Note 3 - Plan amendments

Effective August 17, 2009, the Plan was amended and restated to comply with applicable law and regulations.

Note 4 - Investments

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the Plan's Trustee, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate. The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule. Investments that represent 5% or more of the Plan's net assets ($220,585 for 2009 and $173,383 for 2008) are separately identified below.

Interest received on guaranteed investment contracts	18,227	17,231
Total investment income	$ 748,646	$ (1,507,095)

Note 5 - Tax status

The Company has adopted Principal Financial Group's Prototype for Savings Plans Standardized Profit Sharing Plan. The Internal Revenue Service has ruled that the standardized prototype plan of the Principal Financial Group is acceptable under Section 401(a) of the Internal Revenue Code. The management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as a tax-exempt plan.

In June 2006, the Financial Accounting Standards Board (FASB) issued authoritative guidance regarding accounting for uncertainty in income taxes, which became effective for fiscal years beginning after December 15, 2008. The Plan is a tax-exempt plan. The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the year ended December 31, 2009. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2006.

Note 6 - Excess contributions payable

Excess contributions payable represent excess 401(k) contributions received from certain participants during 2008, which were returned to them in 2009, as corrective distributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Note 7 - Fair value measurements

FASB has published authoritative guidance on Fair Value Measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Guaranteed Investment Contracts (GIC) - Investment contracts issued by Principal are backed by their general account. These investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Level 3).

Pooled Separate Accounts (PSA) - Pooled separate accounts are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The Net Asset Value (NAV) of a pooled separate account is based on the market value of its underlying investments. The NAV is not a publicly quoted price in the active market. A majority of the pooled separate accounts are made up of underlying investments when the individual prices of the investments can be obtained from the market price (Level 2).

Participant loans - Valued at amortized cost, which approximates fair value (Level 3).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 530,066	$ 530,066
Pooled separate accounts	-	3,724,057	-	3,724,057
Participant loans	-	-	157,582	157,582
Total assets at fair value	$ -	$ 3,724,057	$ 687,648	$ 4,411,705

	Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total

Total assets at fair value	$ -	$ 2,849,217	$ 619,681	$ 3,468,898

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets:

	Guaranteed Investment Contracts	Participant Loans
Balance at December 31, 2007	$ 435,899	$ 94,628
Realized gains/(losses)	17,232	-
Purchases, sales, issuances and settlements, net	70,058	1,864
Balance at December 31, 2008	523,189	96,492
Realized gains/(losses)	18,266	-
Purchases, sales, issuances and settlements, net	(11,389)	61,090
Balance at December 31, 2009	$ 530,066	$ 157,582

Note 8 - Related party transactions

Certain plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as exempt party in interest transactions. Investment fees paid by the Plan for investment management services were included in the net appreciation (depreciation) in fair value of investments on the accompanying statements of changes in net assets available for benefits. In addition, Principal Life Insurance Company provides third party administrative fees, most of which are paid by the plan sponsor as discussed in Note 2; however, the Plan paid administrative expenses of $6,828 and $2,526 for the years ended December 31, 2009 and 2008, respectively.
