Stronghold Engineering, Inc.
401(k) Employees' Profit Sharing Plan
Notes to the Financial Statements
December 31, 2009 and 2008

Note 1: Description of the Plan:

The following description of Stronghold Engineering, Inc. 401(k) Employees' Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Prevailing Wage Pension Plan was adopted on January 1, 1997, amended and restated January 1, 2003, as a defined contribution plan covering eligible employees of Stronghold Engineering, Inc. (the Company) as defined by the Plan agreement. Effective December 31, 2005, the net assets of Stronghold Engineering, Inc. 401(k) Profit Sharing Plan were merged into the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

Employees are eligible to make elective deferrals immediately upon attaining the age of 21. Employees are eligible for discretionary matching and employer contributions if they are working for the Company on the last day of the Plan year, have completed 1,000 hours of service and attained the age of 21.

Contributions:

Each year, participants may contribute up to the maximum allowed under the Internal Revenue Code, as defined in the Plan. For participants age 50 or older, an additional "catch-up" contribution was allowed up to limits as established by the IRS for the year ended December 31, 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Prevailing wage contributions are made by the employer based on hours worked and job classification of each employee. Profit sharing contributions are determined annually by the Company. The Company's Board of Directors may also elect to make contributions to match each participant's elective contribution. No matching contribution was made during the year ended December 31, 2009.

Participant Accounts:

The custodian maintains a separate account for each participant and each type of contribution. Each participant may select from a series of investment options designated by the Company and Plan administrator. Earnings on each investment selection are credited to the participant's account.

Note 1: Description of the Plan, continued:

Vesting:

Participants are immediately vested in the prevailing wage contributions and employee compensation deferral portion plus actual earnings thereon. Vesting in the discretionary matching and employer contributions are based on covered years of service as defined. A participant is fully vested after five completed covered years of service. A covered year of service is a twelve-month period ending December 31, during which a participant worked for the Company at least 1,000 hours. A participant is also fully vested upon reaching normal retirement age, upon death or upon becoming totally and permanently disabled.

Investment Options:

Contributions on behalf of the participants are invested in accordance with the participants' investment allocation. The participants' investment choices are limited to investments with John Hancock (JH), chosen by the Trustees. The Plan's investments are pooled; however, each participant receives allocation of Plan earnings based on the participant's investment allocation.

Loans to Participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested portion of the account balance. Loan transactions are treated as a transfer to (from) the investment fund(s) from (to) the participant's loan fund. Loan terms range up to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. Interest rates range from 3.25% to 9.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits:

On termination of service, death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship distributions will be distributed as a lump-sum.

Forfeitures:

Forfeitures may be used to pay administrative expenses or to reduce employer contributions.

Plan Expenses:

For the year ended December 31, 2009 Plan expenses include $46,410 of contract administration fees, $32,564 of third party administrator fees, and $58 of redemption fees.

Note 2: Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassifications:

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Note 2: Summary of Significant Accounting Policies, continued:

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits:

Benefits are recorded when paid.

Date of Management Evaluation:

Management has evaluated subsequent events through October 8, 2010, the date on which the financial statements were available to be issued. See Note 11.

Note 3: Investment Contract with Insurance Company:

The investments in the insurance variable interest account contract are presented at contract value as Plan management has determined that the investment contracts are fully benefit-responsive in accordance with Statement of Position 94-4-1, Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans. Contract value represents the accumulated contributions plus accrued net earnings, less distributions and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $8,499,004 and $6,399,723, respectively. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. The average gain was approximately 18% for 2009 and the average loss was approximately 23% for 2008.

*Denotes investments which represent five percent or more of the net assets available for benefits in either year.

Net realized and unrealized appreciation in fair value of investments	$ 1,235,362

Note 5: Fair Value Measurement of Investments:

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Guaranteed accounts: Valued at contract value, which approximates fair value.

Participant loans: Valued at amortized cost, which approximates fair value.

Note 5: Fair Value Measurement of Investments, continued:

The methods described above may produce a fair value calculation that may not be as indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

Note 6: Net Assets Available for Benefits:

Net assets available for benefits as of December 31, 2009 and 2008 includes $710,823 and $631,687, respectively, allocated to the accounts of persons who, as of that date, had withdrawn from participating in the earnings and operations of the Plan. The amount is payable to the former participants as provided under the terms of the Plan. This amount has not been recorded as a liability as of December 31, 2009 and 2008.

Note 7: Tax Status:

The Plan obtained its latest determination letter on July 15, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8: Transactions with Parties-in-Interest:

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

Note 9: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of Plan termination, participants will become fully vested in their account balances.

Note 10: Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11: Subsequent Events:

Effective March 5, 2010, all Plan assets have been transferred from John Hancock Life Insurance Company to Transamerica.
