DreamWorks Animation SKG, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009

1. Description of Plan

The following description of the DreamWorks Animation SKG, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of DreamWorks Animation SKG, Inc. and its affiliates (collectively, the Company) who meet the eligibility requirements of the Plan. Contributions to the Plan are authorized under Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established effective October 27, 2004, to encourage long-term savings by participants and to provide additional funds for retirement.

Upon retirement or termination, the fair value of the funds resulting from participant contributions and Company contributions will be available to participants. The fair value of such contributions includes appreciation or depreciation, depending on the participant's choice of mutual funds, in the investments held by these mutual funds and the interest and dividends received. Accordingly, the fair value may be greater or less than the amounts which were actually contributed under the Plan.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Eligibility

All full-time and part-time employees of the Company become eligible as of the first day of the month following the employee's hire date, unless the employee is covered by a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations. However, employees who are covered by a collective bargaining agreement and are employed by the Company as non-union employees are also considered employees with respect to their employment as non-union employees.

DreamWorks Animation SKG, Inc. 401(k) Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Contributions

Employees of the Company who elect to participate in the Plan may contribute not more than 60% of their eligible compensation, as defined, on a pre-tax basis each payroll period, subject to IRC limitations. Employees may also contribute up to an annual maximum of 100% of eligible compensation on an after-tax basis. The Company makes a matching contribution of 50% of the participant's pre-tax contributions up to a maximum of 4% of eligible compensation.

Rollover contributions from other qualified plans are accepted by the Plan. The Company does not match contributions of this type.

Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$89,695 and \$40,264, respectively. Employer contributions for the year ended December 31, 2009 were reduced by \$251,037 from forfeited nonvested accounts.

Vesting

Participants are immediately vested in their contributions and rollover balances, plus actual earnings thereon. Vesting in the employer contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant vests over a three-year period of service, ratably each year.

If an active participant dies, the vesting percentage shall be 100%.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum of the lesser of \$50,000 (reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period) or 50% of their vested account balance. Loan terms range from one to five years or up to 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at rates that are commensurate with the applicable federal rates at the time the loan is funded. Principal and interest are paid in equal payments on a bi-weekly basis.

DreamWorks Animation SKG, Inc. 401(k) Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Payment of Benefits

Upon termination of service, prior to retirement, participants are entitled to receive the fair value of their vested account balance. If the value of the participant's account available for distribution is \$1,000 or less, the distribution shall be in a lump-sum payment as soon as practicable following termination of employment. If the value of the participant's account is greater than \$1,000, distribution shall not commence prior to the normal retirement date (as defined in the Plan document), without the participant's written consent. Such consent may provide for distribution as a lump sum, a rollover into a subsequent employer's qualified plan, or a combination of both.

At death, benefits shall be paid to the surviving beneficiary.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting from information supplied by the Plan's trustee, Fidelity Management Trust Company (FMTC).

Investments

Investments consist of shares in mutual funds and a money market fund, which are presented at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*. The Plan's investments, with the exception of participant loans, are valued based on unadjusted quoted prices in active markets for identical assets and liabilities. The fair values of the shares are valued at the net asset value of the shares held by the Plan at year-end. As there is no market

DreamWorks Animation SKG, Inc. 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

activity for participant loans, participant loans are valued at their outstanding principal loan amounts, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses of the Plan

Generally, expenses incurred in the administration of the Plan are paid by DreamWorks Animation SKG, Inc. (Plan Administrator and Plan Sponsor).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Payment of Benefits

Benefits are recorded when paid.

DreamWorks Animation SKG, Inc. 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

New Accounting Pronouncements

In April 2009, the FASB issued FASB Staff Position (FSP) 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. FSP 157-4 amended ASC 820 to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted ASC 855, as amended.

In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. The adoption of ASU 2010-06 is not expected to have a material impact on the Plan's financial statements.

DreamWorks Animation SKG, Inc. 401(k) Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which is effective for plan years ending after December 15, 2010. The new standard will require that participant loans be classified as notes receivable and measured at unpaid principal balance plus accrued but unpaid interest. Currently these participant loans are classified as plan investments, and are subject to the fair value measurement and disclosure requirements of ASC 820. Adopting the new standard will eliminate the need to calculate fair values and present disclosures for these loans in accordance with ASC 820.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2009 and 2008, and net appreciation/depreciation in fair value of investments, interest, dividends and investment management fees for the year ended December 31, 2009, were obtained or derived from information supplied to the Plan Sponsor and certified as complete and accurate by FMTC, the trustee.

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits is as follows:

	December 31	
	2009	2008
Spartan U.S. Equity Index	\$ 10,623,376	\$ 7,858,966
American Funds Growth Fund of America	7,955,179	5,688,139
Fidelity Diversified International Fund	7,726,183	4,993,312
Fidelity Retirement Money Market Fund	5,760,648	5,689,955
Artisan Mid Cap Investment Fund	5,401,021	3,310,565
Vanguard Total Bond Market Index Fund	4,634,579	(a)
Fidelity Low-Priced Stock Fund	3,471,398	2,202,668
Fidelity Investment Grade Bond Fund	(a)	3,990,543

(a) Effective July 1, 2009, the Fidelity Investment Grade Bond Fund was removed as an investment option and the Vanguard Total Bond Market Index Fund was added as an investment option under the Plan.

DreamWorks Animation SKG, Inc. 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets.
- Quotes prices for identical or similar assets or liabilities in markets are not active.
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based upon the lowest level input that is significant to the fair value measure in its entirety. With the exception of participant loans, all the Plan's investments are valued using Level 1 inputs.
