Plan Administrator and Participants
LEP Special Fasteners, Inc. 401(k) Plan
Frankfort, Indiana

We were engaged to audit the financial statements of **LEP Special Fasteners, Inc. 401(k) Plan** as of December 31, 2009 and 2008, and for the year ended December 31, 2009, and the supplemental schedules as of December 31, 2009, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, the trustee of the plan for the period from January 1, 2008 through January 7, 2009, and the custodian of the common collective trust for the years ended December 31, 2009 and 2008, and Nationwide Financial Services, Inc., the trustee of the plan from January 8, 2009 through December 31, 2009, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustees and custodian hold the plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees and custodian as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustees and custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of LEP Special Fasteners, Inc. 401(k) Plan (the plan) provides only general information. Participants should refer to the plan agreement for a complete description of the plan's provisions.

General

The plan is a defined contribution plan maintained on a calendar year basis. The plan was established by LEP Special Fasteners, Inc. (the company), the plan's sponsor, on March 1, 2007, and covers all employees of the company. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Any covered employee of the company who has attained 18 years of age is eligible to participate in the plan. Participants are eligible to participate in the plan on the first day of the subsequent month of hire date.

Participant Contributions

Participants may elect to make 401(k) deferral contributions up to 100% of their total earnings. These contributions are made out of pretax earnings and are subject to certain IRS limitations. Upon eligibility, participants are automatically enrolled to begin contributing 3% of their gross earnings to the plan, until they elect otherwise.

Participants may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer Contributions

The employer makes matching contributions equal to 50% of each participant's deferral contribution up to a maximum of 6% of the participant's pretax compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer's matching contribution and allocations of plan earnings, and charged with an allocation of administrative expenses and plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their participant accounts into various investment options offered by the plan. The participants are able to change their investment options on a daily basis.

Note 1 - Description of Plan (Continued)

Vesting

Participants are always 100% vested in their 401(k) deferral and voluntary after-tax contribution accounts.

Participants vest in their employer-matching and discretionary contribution accounts in accordance with the following table:

Completed Years of Service	Percentage of Account Balance Vested
Less than 1	0%
1	0
2	20
3	40
4	60
5	80
6	100

Participants who are active employees will become fully vested upon their normal retirement dates. Participants who are active employees on the dates they become permanently disabled or die shall also become fully vested.

Forfeitures

As of December 31, 2009 and 2008, the total forfeited nonvested accounts was $1,142 and $1,184, respectively. Forfeited nonvested accounts can be used to reduce future employer contributions. During 2009, $19,228 of administrative expenses was paid from forfeited nonvested accounts.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. Loan terms range from one to five years. The loans are secured by the balance in the participant's vested account and bear interest at a reasonable fixed rate, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Note 1 - Description of Plan (Continued)

Benefits

Upon death, disability or termination of service, a participant may elect to receive the value of the participant's vested interest in his or her account in the form of a lump-sum payment. Active participants may also begin taking tax-free distributions from the plan upon reaching the age of 59½. In addition, hardship distributions are permitted if certain criteria are met.

Administration of the Plan

The company is the plan's sponsor and administrator. For the period from January 1, 2008 through January 7, 2009, the plan's assets were held by the trustee, Principal Life Insurance Company (Principal). All assets, except for the Principal U.S Property Account and the Principal Stable Value Fund were transferred to Nationwide Financial Services, Inc. (Nationwide), the plan's trustee from January 8, 2009 through December 31, 2009. Therefore, the plan's investment transactions and administrative costs qualify as party-in-interest transactions. All administrative costs, charges and expenses are paid by the plan to the extent not paid by the company.

Subsequent Events

The plan administrator has evaluated subsequent events through October 12, 2010, the date the financial statements were available to be issued

Note 2 - Summary of Significant Accounting Policies

Significant accounting policies are described below and have been consistently applied.

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Principal Stable Value Fund

Under accounting principles generally accepted in the United States of America (GAAPUSA), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. GAAPUSA requires investments in fully benefit-responsive investment contracts to be presented at fair value in the statement of net assets available for benefits, and that the amount representing the difference between fair value and contract value of these investments also to be presented as a separate line item in the statement of net assets available for benefits. The Principal Stable Value Fund qualifies as a fully benefit-responsive investment contract under the provisions of GAAPUSA. Therefore, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. See note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

In September 2009, the Financial Accounting Standards Board (FASB) issued new guidance regarding the use of net asset value per share provided by the investee as a practical expedient to estimate the fair value of alternative investments (such as hedge funds, private equity funds, common collective trusts and pooled separate accounts). The plan's adoption of this new guidance had no material effect on its net assets available for benefits, but did result in additional disclosures included in Note 3 of these financial statements.

The plan's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments will occur in the near term and could materially affect the amounts reported in the financial statements.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with GAAPUSA requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Note 3 - Fair Value Measurements

GAAPUSA defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, in the absence of a principal market, the most advantageous market accessible to the reporting entity as of the measurement date. Under GAAPUSA, the principal market is the market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity. The most advantageous market, which may be a hypothetical market, is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received for the asset or minimizes the amount that would be paid to transfer the liability, considering transaction costs in the respective market.

GAAPUSA describes three approaches to measuring fair value: the market approach, the income approach and the cost approach. Each approach includes multiple valuation techniques. GAAPUSA does not prescribe which valuation technique should be used when measuring fair value, but does establish a fair value hierarchy that prioritizes the inputs used in applying the various techniques based on the degree to which such inputs are observable to market participants. Inputs broadly refer to the assumptions that market participants use to make pricing decisions, including assumptions about risk.

The plan's investments are classified in one of the following three categories based on the inputs used to determine their respective fair values.

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

- Level 2 - Observable market-based inputs or unobservable inputs that are corroborated by market data. These inputs may include quoted prices for similar assets or liabilities in active markets as well as quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 - Unobservable inputs that cannot be corroborated by market data. These inputs reflect management's best estimate of fair value using its own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Note 3 - Fair Value Measurements (Continued)

When the inputs used to value an investment fall into more than one level, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgment and is dependent on factors specific to the investment. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

As of December 31, 2009 and 2008, the following valuation methodologies have been used to value the plan's investments:

- Pooled Separate Accounts - Valued at the net asset value (NAV) per unit as determined by the insurance company or contract administrator. Such NAV is based on the value of the underlying assets and liabilities of the account. The investment objectives of the trusts vary and can be differentiated by the nature of their holdings as disclosed below. Participants may transfer in and out of such trusts on a daily basis without any prohibitive restrictions.

- Common collective trusts - Valued at the NAV per unit as determined by the manager or administrator of the trust. Such NAV is based on the value of the underlying assets and liabilities of the trust. Participants may transfer in and out of such trusts on a daily basis without any prohibitive restrictions.

- Participant loans - Valued at amortized cost, which approximates fair value.

The methods described above might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan believes its valuation methods are appropriate and consistent with other market participants, the different methodologies or assumptions used to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 3 - Fair Value Measurements (Continued

The following tables summarize by level within the fair value hierarchy the plan's investments accounted for at fair value on a recurring basis as of December 31, 2009 and 2008:

	Level 1	Level 2	Level 3	Fair Values as of December 31, 2009
Pooled separate accounts				
Lifecycle Target Dates	$ -	$ 1,621,246	$ -	$ 1,621,246

	$ -	**$ 1,641,437**	**$ 112,500**	**$ 1,753,937**

The following table summarizes the changes in investments measured at fair value on a recurring basis using Level 3 inputs for the year ended December 31, 2009:

	Participant Loans
Balance as of December 31, 2008	$ 112,500
Issuances and settlements, net	51,562
Balance as of December 31, 2009	**$ 164,062**

Note 4 - Investments

The plan has entered into an investment contract with Principal. Under the terms of the contract, Principal maintains the plan's assets in a common collective trust and a series of pooled separate accounts. The common collective trust primarily invests in various fully benefit-responsive investment contracts, which guarantee a minimum rate of interest. The assets invested in the various pooled separate accounts are credited with actual earnings on the underlying investments.

The following investments represent 5% or more of the plan's net assets as of December 31, 2009 or 2008:

	2009		2008	
	Number of Units	Fair Value	Number of Units	Fair Value
Common Collective Trust - Principal Stable Value Fund (Contract value - $147,993 and $152,540, respectively)	8,728	$ 148,993	9,159	$ 145,418

Principal Lifetime 2030 Separate Account	-	-	28,739	296,462
Principal Lifetime 2040 Separate Account	-	-	27,066	275,898
Vanguard Target Retirement 2020 Total	31,577	630,285	-	-
Vanguard Target Retirement 2030 Total	17,912	345,881	-	-
Vanguard Target Retirement 2040 Total	25,941	494,177	-	-

For the year ended December 31, 2009, the plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common Collective Trusts	$ 2,760
Pooled Separate Accounts	460,414
	$ 463,174

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees and custodian of the plan, have certified to the completeness and accuracy of the plan's investments reflected in the statements of net assets available for benefits as of December 31, 2009 and 2008, the schedule of assets held at end of year as of December 31, 2009 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2009, as indicated above and in total.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the company has the right to discontinue contributions and to terminate the plan at any time, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in all of their account balances.

Note 6 - Partial Termination

The plan sponsor determined that a partial termination of the plan occurred during 2009, due to employer-initiated turnover. The affected employees became 100% vested in their account balances, in accordance with the Internal Revenue Code.

Note 7 - Tax Status

On January 1, 2009, the plan adopted the McCready and Keene, Inc. Volume Submitter Profit Sharing Plan with CODA. The Internal Revenue Service has determined and informed McCready and Keene, Inc. by a letter, dated March 31, 2008, that the plan qualifies under Section 401(a) of the Internal Revenue Code. The plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the plan's qualified status.

Note 8 - Nonexempt Prohibited Transactions

As of December 31, 2008, the company had uncorrected nonexempt prohibited transactions due to failure to remit participant deferral contributions to the plan within the required time period. The nonexempt transactions totaled $178,076. On June 11, 2009, the company corrected these contributions outside of the Voluntary Fiduciary Correction Program. The company is in the process of correcting these transactions through the Employee Benefits Security Administration Compliance Assistance program.

Note 9 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of nets assets available for benefits per the financial statements to Form 5500 as of December 31, 2009 and 2008:
