NetShape Technologies, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

Note 1: Description of the Plan

The following description of the NetShape Technologies, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator, NetShape Technologies, Inc. (Company).

General

The Plan is a defined contribution plan sponsored by the Company for the benefit of eligible employees following the completion of three months of service. Related employers who also participate in the Plan include Sinterloy Corporation, Allegheny Clearfield Incorporated, Helsel, Inc., Hawk MIM, Inc. and NetShape Technologies, LLC. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company is the trustee of the Plan and serves as Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 75% of eligible compensation. Employee rollover contributions are also permitted. Through May 31, 2009, the Company made safe-harbor matching contributions of 100% of employees' salary deferral amounts on the first 3% of employees' compensation and 50% of employees' salary deferral amounts on the next 2% of employees' compensation. Effective May 31, 2009, the Plan was amended to discontinue employer matching contributions. Company profit-sharing contributions are discretionary as determined by the Company's board of directors. No discretionary profit-sharing contributions were made to the Plan in 2009 or 2008. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Administrative expenses are charged to specific participants' accounts as applicable. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NetShape Technologies, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

Vesting

Participants are immediately vested in their voluntary and safe-harbor Company matching contributions plus earnings thereon. Participants are fully vested in any other contributions after three years of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of his account.

Participant Loans

The Plan Document initially included provisions authorizing loans from the Plan to active eligible participants. Loans were made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan was \$1,000. The maximum amount of a participant's loans was determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans were covered by demand notes and were repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant paid the loan in full. Interest on the loans was based on local prevailing rates as determined by the Plan administrator. The Plan was amended during 2007 so that no new loans are allowed under the Plan subsequent to that amendment, and during the year ended December 31, 2009, the last remaining loan balance was fully settled.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NetShape Technologies, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2009 and 2008

Valuation of Investments and Income Recognition

Quoted market prices are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. Participant loans were valued at amortized cost, which approximated fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan document sponsored by Fidelity Management Trust Company. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax exempt as of the financial statement date. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2006.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Notes to Financial Statements

December 31, 2009 and 2008

Note 5: Plan Amendments

Effective May 31, 2009, the Plan was amended to remove the safe-harbor employer matching provision from the Plan and to discontinue future employer matching contributions.

Note 6: Fair Value of Plan Assets and Liabilities

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds. If quoted market prices are not available, then fair values are estimated by a third-party pricing service using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. The Plan holds no securities classified within Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include participant loans.

Note 7: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges which, in some cases, have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through October 11, 2010, which is the date the financials statements were available to be issued.
