Report of Independent Auditors

To the Plan Administrator of the ABB Inc. Pension Plan (UE 625 and 626):

We were engaged to audit the accompanying statements of net assets available for benefits and statements of accumulated plan benefits of the ABB Inc. Pension Plan (UE 625 and 626) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years then ended, and the supplemental schedule of nonexempt transactions for the year ended December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform any auditing procedures with respect to the investment information summarized in Note 5, which was certified by BNY Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Change in Method

The following changes were made to the Funding Method for 2009:

- The asset method for determining the actuarial value of assets was changed from an “average value” method with a one-year period and quarterly intervals to the average value of assets under §430(g)(3)(B) reflecting the amendments provided in the Worker, Retiree, and Employee Recovery Act of 2008 (WRERA) and the guidance in IRS notice 2009-22.
- Plan related expenses were included in the target normal cost for 2009.

Effective Date and Most Recent Amendment

September 15, 1984 as amended through January 1, 2009.

Plan Year

The twelve-month period ending December 31, 2009.

Coverage and Participation

Any person hired by a participating Company who is covered by a collective bargaining agreement between the Company and the Union and who is employed at the Company's plant at Greensburg, Pennsylvania and who is assigned to the Office and Technical Unit or the SF6 Unit. Any Employee who is hired or rehired by the Company, or who is assigned by the Company to a unit otherwise covered by the Plan, on or after January 1, 2006, will not be eligible to participate in the Plan.

Credited Service

Service used to determine eligibility for early retirement, disability, and minimum normal retirement income.

Vesting Service

Service used to determine eligibility for a benefit upon termination if ineligible for normal or early retirement.

SCHEDULE SB ATTACHMENTS

Final Average Compensation/Salary

Compensation as reported on the Federal W-2 form plus elective deferrals.

Normal Retirement Benefit

A monthly benefit payable upon retirement at age 65 and equal to 2.6% of Earnings for each year of participation service on and after the Original Effective Date (September 15, 1984 for Local 625, January 1, 1985 for Local 626). However, if Local 626 and more than 10 but less than 25 years of credited service, benefits are based on the highest 5 year average of Earnings within the last 10 years prior to retirement. If more than 25 years of credited service, the benefit is based on the larger of career average earnings in the first sentence above and final average earnings in the second sentence above. For all participants, the benefit is subject to a minimum of \$180 per year for each year of Credited Service.

Early Retirement Benefit

A monthly benefit payable upon retirement at age 55 with 5 years of Credited Service, calculated as for normal retirement but based on service to early retirement date. The benefit is payable unreduced as early as age 62 or is payable in a reduced amount before age 62, based on the following reduction factors:

Age at Retirement	Local 625 and 626 Reduction Factor
61	94.0%
60	87.4%
59	81.3%
58	75.5%
57	69.9%
56	63.5%
55	57.9%

Disability Benefit

A monthly benefit equal to the employee's accrued benefit based on years of Credited Service at the date of disablement, payable without reduction after 6 months of total and permanent disability following 5 years of Credited Service. Participants represented by Local 626 must also have age plus Credited Service to 50 or more at the time of disability to be eligible.

Vested Benefits upon Termination of Service

Upon termination after 5 years of Vesting Service, an employee will be entitled to a benefit as described above for service to termination. The benefit is payable at age 65, or payable after age 55 in a reduced amount, provided the employee had completed at least 5 years of Credited Service at the

SCHEDULE SB ATTACHMENTS

time of termination. The reduction for early retirement is the same as described under Early Retirement Benefits, above.

Death Benefits for Participants in Active Service

In the event of the death of an active employee after the completion of 5 years of Vesting Service, his surviving spouse will be entitled to 50% of the accrued benefit, reduced for the 50% joint and survivor option and early retirement, as of the date of death, payable upon the later of (1) the date of employee's death and (2) the 55th anniversary of the employee's birth (a 55% joint and survivor benefit and commencement at date of death if death occurred after attaining age 50 for Local 626).

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Compensation assumed paid in the plan year beginning on the valuation date is the actual pensionable pay earned during the prior plan year, adjusted by one full year of salary scale or the base pay rate adjusted by one-half year of salary scale, if greater.

SCHEDULE SB ATTACHMENTS

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.38%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.50%, and the applicable limitation for the plan year, equal to 6.38%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.09%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.50%, and the applicable limitation for the plan year, equal to 6.09%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Employee data was supplied electronically as of the valuation date by Fidelity on behalf of ABB Inc.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2009 is used to determine the maximum deductible contribution for the tax year ending December 31, 2009.

Benefits not Included in Valuation

Generally, benefit changes which are adopted after the first day of the plan year are not recognized for such plan year.

To the best of our knowledge, all benefits were included in this valuation.

PBGC Premium Funding Target

For purposes of determining the PBGC Premium Funding Target in Section 2.2.D, the Standard Premium Funding Target was determined using the assumptions described above, except the non-averaged three-segment interest rates for December 2008 were used instead of the above interest assumption.

SCHEDULE SB ATTACHMENTS

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are truncated to be consistent with the instructions for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Changes in Assumptions and Methods Since Last Actuarial Valuation

Due to changes in the corporate bond market, the discount rate increased from 6.13% to 6.33%. Effective January 1, 2009 ABB Inc. elected to change their asset valuation method from an "average value" method with a one-year period and quarterly intervals to a "smoothed" method as allowed by WRERA. This change had no impact on the actuarial value of assets due to the 110% asset corridor applying to both methods. ABB Inc. elected no other method changes that impacted the valuation of the Target Liability or the Actuarial Value of Assets for this valuation.

Report of Independent Auditors

To the Plan Administrator of the ABB Inc. Pension Plan (UE 625 and 626):

We were engaged to audit the accompanying statements of net assets available for benefits and statements of accumulated plan benefits of the ABB Inc. Pension Plan (UE 625 and 626) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits and statements of changes in accumulated plan benefits for the years then ended, and the supplemental schedule of nonexempt transactions for the year ended December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform any auditing procedures with respect to the investment information summarized in Note 5, which was certified by BNY Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ABB Inc. Pension Plan (UE 625 and 626)

Notes to Financial Statements

December 31, 2009

1. Description of Plan

General

The following brief description of the ABB Inc. Pension Plan (UE 625 and 626) (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan is a non-contributory defined benefit pension plan covering certain employees of ABB Inc. (the "Company" or "Employer") who are members of a collective bargaining unit represented by Locals 625 and 626 of the Union Employees (UE) ("Covered Employees"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Pension Benefits

Covered Employees having completed five or more years of vesting service as defined in the Plan are entitled to annual pension benefits beginning at the normal retirement age (65) in an amount equal to the sum of all annual accruals of retirement income determined under the Plan for each year of participation.

Funding Policy

The Company shall make contributions to the Plan as shall be necessary under accepted actuarial principles to meet the minimum funding requirements of ERISA. Employer contributions are based on an actuarial determination which provides for funding (a) the annual normal cost for the current year, and (b) an amount necessary to amortize the unfunded accrued liability. It is the Company's intention to only make contributions that are deductible under Section 404 of the Internal Revenue Code. For each of the years ended December 31, 2009 and 2008, the Plan has satisfied the minimum funding requirements of ERISA.

2. Summary of Significant Accounting Policies

Payment of Benefits

Benefit payments are recorded when paid to participants. Active participants may elect to defer annuity payments after age 70 ½.

ABB Inc. Pension Plan (UE 625 and 626)

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

The assets of the Plan are held in the ABB Inc. Master Trust ("Master Trust") along with the assets of other plans of the Company. BNY Mellon (the "Trustee") is the trustee of the Master Trust.

Income, including realized and unrealized gains/losses of the Master Trust, is allocated monthly among participating plans based on the relationship of the fair value of the assets of each plan to the total fair value of the assets of the Master Trust as of the end of the preceding month. Employer contributions and benefit payments are applied on a specific basis to each plan.

Assets of the Master Trust are stated at fair value which, as used for financial statement purposes, represents market or current value as reported by the Master Trust's Trustee. The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income/loss less actual distributions and allocated administrative expenses.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Derivatives

The Master Trust invests in S&P 500 futures and foreign exchange contracts to hedge future market risks. The Master Trust holds some securities valued in currencies other than the U.S. dollar. To reduce the impact of currency fluctuations on the value of these securities, the Master Trust employs a currency overlay manager who utilizes foreign exchange contracts to hedge the Master Trust's exposure to these foreign currencies. The Master Trust employs managers who utilize S&P 500 futures contracts to mitigate the Master Trust's U.S. equity exposure. Contracts are marked to market daily with the prime broker. The fair value of these instruments is determined by the Trustee at year end. The Master Trust's exposure related to derivatives was \$47,371,355 and \$36,454,050 as of December 31, 2009 and 2008, respectively. The fair value of derivative contracts approximates 5% of the Master Trust's exposure. The values of such derivative contracts are included within the respective investment category in Note 4.

Reclassification

Certain prior year amounts were reclassified to conform to the current year presentation.

ABB Inc. Pension Plan (UE 625 and 626)

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncement

In April 2009, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ("FSP 157-4"). FSP 157-4 amended FASB Statement No. 157 to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provides additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of SFAS No. 157. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events*, which was codified into ASC 855-10, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the statement of net assets date, but before financial statements are issued or are available to be issued. Under ASC 855-10, the effects of events that occur subsequent to the financial statement date are to be evaluated through the date the financial statements are either issued or available to be issued. Reporting entities are to disclose the date through which subsequent events have been evaluated and whether that date is the date the financial statements were issued or the date the financial statements were available to be issued. In addition, reporting entities are required to reflect in the financial statements the effects of subsequent events that provide additional evidence about conditions at the financial statement date (recognized subsequent events). Reporting entities are prohibited from reflecting in their financial statements the effects of subsequent events that provide evidence about conditions that arose after the statement of net assets date (non-recognized subsequent events), but information about those events is required to be disclosed if the financial statements would otherwise be misleading. The guidance was effective for financial statement periods ending after June 15, 2009 with prospective application. Adoption of this guidance in 2009 had no material effect on the Plan's financial statements. The subsequent events have been updated through October 6, 2010, which is the date the financial statements were available to be issued.

2. Summary of Significant Accounting Policies (continued)

In June 2009, the FASB issued Accounting Standards Update 2009-01, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162" ("ASU 2009-01"). The FASB Accounting Standards Codification (the "Codification") is intended to be the source of authoritative U.S. generally accepted accounting principles ("GAAP") and reporting standards as issued by the FASB. Its primary purpose is to improve clarity and use the existing standards by grouping authoritative literature under common topics. This authoritative guide is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Codification does not change or alter existing GAAP for companies and its adoption by the Plan had no effect on the Plan's financial statements. The Plan has conformed its financial statement footnote disclosures to the Codification, where applicable.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2009-12"). ASU 2009-12 amended ASC 820 to allow entities to use net asset value ("NAV") per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009 and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investments' NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Refer to Note 5 for these disclosures. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, ("ASU 2010-06"). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements.

ABB Inc. Pension Plan (UE 625 and 626)

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. The Company is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

Securities Lending

As of December 31, 2009 and 2008, the Master Trust participated in the Trustee's securities lending program for securities held in custody at the Trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral reinvestment fund that is managed by BNY Mellon, and the fund consists of high quality short-term investments. The value of loaned securities amounted to \$47,154,894 and \$34,388,724 at December 31, 2009 and 2008, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements. Income from securities lending is included in other investment income in Note 4.

Investment Risk

The Master Trust provides for investments that are exposed to risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near term and that changes could materially affect the amounts reported in the statements of net assets available for benefits.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2009 and 2008 were determined by the Plan's actuary, Towers Watson & Company (formerly known as Watson Wyatt & Company), using employee data supplied by the Company as of January 1, 2009 and 2008, respectively, projected to the valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the projected unit credit cost method. A summary of the significant actuarial assumptions underlying the actuarial valuations as of December 31, 2009 and 2008 are as follows:

Mortality – 2009: Based on the Retirement Plans – PPA 2010 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Mortality – 2008: Based on the Retirement Plans – PPA 2009 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Interest – The assumed interest rates utilized to calculate accumulated plan benefits at December 31, 2009 and 2008 were 5.60% and 6.30%, respectively. The change in interest rate is reflected in the "Change in actuarial assumptions" in the accompanying Statements of Changes in Accumulated Plan Benefits.

Retirement – Age 62 for terminated vested employees and the following chart of rates applies for active employees:

ABB Inc. Pension Plan (UE 625 and 626)

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

Age	Percentage of Employees Expected to Retire Within One Year
55	10
56-61	5
62	20
63-64	5
65-69	50
70	100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. ABB Inc. Master Trust

The Plan's investments are held in the Master Trust, which is a master trust which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At December 31, 2009 and 2008, the Plan had a 1.61% and 1.63% interest in the net assets of the Master Trust, respectively.

The following tables present the net assets for the Master Trust and the net investment gain/(loss) for the Master Trust:

5. Investments Certified by Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Company has obtained a certification from the Trustee as to the completeness and accuracy of the investments and investment activity (except for investments classified as alternative investments and related investment activity at December 31, 2009 and the year then ended) recorded by the Master Trust as of and for the years ended December 31, 2009 and 2008 (the "Master Trust certification"). Additionally, the Company has obtained a certification from the Trustee related to the Plan's interest in the Master Trust and Master Trust investment activity as of and for the years ended December 31, 2009 and 2008 (the "Plan certification"). Investment information certified by the Trustee at the Master Trust and Plan levels has not been audited by independent auditors.

At the Master Trust level, the alternative investments and related investment activity as of December 31, 2009 and for the year then ended are detailed below:

	December 31, 2009
Private equity investments	\$ 77,990,935
Distressed debt	27,178,130
Fund of funds	38,585,613
Total alternative investments	<u>\$143,754,678</u>

At the Master Trust level, net realized and unrealized appreciation for these alternative investments is as follows:

	<u>Year Ended December 31, 2009</u>
Net realized and unrealized appreciation in fair value of alternative investments	<u>\$ 20,548,728</u>

At the Plan level, the Plan's "Interest in the ABB, Inc. Master Trust" as reflected in the accompanying statement of net assets available for benefits and the Plan's "Interest in net investment gain/(loss) of the ABB Inc. Master Trust" has also been certified by the Trustee. While the plan holds an undivided interest in the Master Trust, the certified amounts for the Plans have been adjusted to reflect the Master Trust alternative investments' fair values and net realized and unrealized (depreciation) appreciation of alternative investment noted above. These amounts represent 15.1% and 14.3% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net realized and unrealized appreciation of the ABB Inc. Master Trust" at December 31, 2009 and for the year then ended.

6. Fair Value Measurements

Investments held by the Plan are stated at fair value. ASC 820, Fair Value Measurements and Disclosures, ("ASC 820") requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust's investments, are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 - Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3 - Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

U.S. equities consisting primarily of corporate stocks, corporate bonds, U.S. government securities, short term investments, and S&P 500 futures are valued at the closing price reported on the active market on which the individual securities are traded.

6. Fair Value Measurements (continued)

International equities and foreign exchange contracts are valued at the net asset value, based on quoted market prices in international markets.

Mutual funds and registered investment companies are valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year end.

Common/collective trusts are valued at net asset value as determined by the Trustee.

Alternative investments are valued at net asset value as reported by the respective fund manager.

Other investments consists of investments in exchange traded funds which are valued at the closing price reported on the active market.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's financial instruments at fair value as of December 31, 2009 and December 31, 2008:

7. Plan Termination

The Company expects to continue the Plan, but reserves the right to terminate the Plan or discontinue contributions, subject to the provisions of ERISA.

In the event of future Plan termination, the net assets of the Plan available after payment of any administrative expenses which are not paid by the Company are to be allocated as prescribed by ERISA, generally to provide benefits in the following order to the extent of the sufficiency of such assets, or portions thereof:

First, equally among benefits of participants in the following two subcategories:

- In the case of benefits in any pay status three years prior to termination, at the lowest benefit level under the Plan during the five years prior to termination, and
- In the case of benefits which would have been in pay status three years prior to termination had the participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Second, among all other benefits, if any, under the Plan guaranteed under the termination insurance provisions of ERISA;

Third, among all other nonforfeitable (i.e., uninsured and vested) benefits under the Plan; and

Fourth, among all other benefits under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2009 and 2008, that ceiling, which is adjusted annually, was \$4,500 and \$4,313 per month, respectively.

Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 3, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was restated. In 2009, the Plan applied for, but has not yet received, a new determination letter from the Internal Revenue Service. However, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as restated, is qualified and the related trust is tax exempt.
