DRYCO CONSTRUCTION, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008 (See Independent Auditors' Report)

NOTE 1 – DESCRIPTION OF PLAN

The following description of the DRYCO Construction, Inc. Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan that was established in 2000 covering all eligible employees of DRYCO Construction, Inc. ("the Company" or Plan Administrator"), as defined in the Plan agreement. In 2009, the Plan was amended and restated for regulatory and legislative changes. Participants should refer to Plan documents for specific changes made to the Plan. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – An Administrative Committee ("the Committee") manages the operation and administration of the Plan. The Company has appointed John Hancock Life Insurance Company (U.S.A.) ("John Hancock") to act as custodian. The Company has contracted with a third party administrator to act as record-keeper and process and maintain the records of participant data.

Contributions – Each year, participants may contribute up to 100% of eligible pretax annual compensation, as defined in the Plan, not to exceed the maximum statutory amount. Participants who are 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may elect to make a safe-harbor contribution, a discretionary matching contribution and a discretionary profit-sharing contribution to the Plan as determined by the Board of Directors and subject to certain eligibility requirements. No such Company contributions were made for 2009.

For work performed under prevailing wage contracts, the amount contributed to the Plan by the Company on behalf of an eligible employee is based on the wage rate and job classification of the employee subject to the Davis-Bacon Act or any federal, state, and municipal "Prevailing Wage Law". The Company's contribution for prevailing wage contracts was $265,279 for 2009.

Participant Accounts – Each participant's account is credited or charged with the participant's contribution, a safe-harbor contribution (if any), the Company's discretionary matching contributions (if any), an allocation of the Company's discretionary profit-sharing contribution (if any), an allocation of the prevailing wage contribution to eligible employees, Plan expenses as applicable to the

Plan, and Plan earnings or losses. Allocations of the discretionary profit-sharing contribution are based on participant compensation. Plan earnings and losses are based on individual participant investment choices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. All contributions/investments are participant directed.

Certain investment and fund fees are charged by the custodian to the funds and are included in Plan investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting – Participants are 100% vested in their accounts at all times.

Participant Loans – Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates of prime plus 1%. Outstanding loans at December 31, 2009 carry interest rates from 5% to 8.75%. Outstanding loans at December 31, 2008 carry interest rates from 5% to 8.25%. Principal and interest is paid ratably through payroll deductions. Loans must be repaid within a five-year period, unless it is used for the purchase of a principal residence in which case the maximum repayment period could be longer. The Plan Administrator establishes the specific terms and conditions of such loans.

Payment of Benefits – Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, or disability and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments of the Plan are reported at fair value as determined by John Hancock. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The JH Guaranteed Interest Account – 3 year is reported at fair value, which approximates contract value, as reported by John Hancock. Guaranteed interest accounts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The JH Guaranteed Interest Account - 3 year is considered not fully benefit-responsive. The average crediting rate for years 2009 and 2008 was approximately 2.0% and 2.40% respectively. The average yield for the guaranteed interest account and the average yield paid to participants for years 2009 and 2008 were approximately 2.2% and 2.75%, respectively. The crediting interest rate is reset on a regular basis and is based on the Plan's contract with John Hancock.

Operating Expenses – Certain contract administration expenses are paid by the Plan; the remaining expenses are paid by the Company.

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events – The Plan has evaluated subsequent events through October 12, 2010, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by John Hancock regarding the current value of assets held at December 31, 2009 and 2008, and transactions entered into during the year ended December 31, 2009, was used in the preparation of the accompanying financial statements and supplemental schedule. NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in

active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled Separate Accounts: Valued at a unitized share basis based on the value of the underlying investments in the pooled account.

Guaranteed Interest Account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Cash: Valued on a cash equivalency basis.

Participant Loans: Fair value of participant loans is equal to their outstanding balances, less amounts deemed uncollectible as determined by the Plan Administrator.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
