NOTE A - DESCRIPTION OF PLAN

The following description of Cone Distributing, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of the Company who are age twenty-one and complete 1,000 hours of eligible service hours during the year. Employees may enroll on January 1st, April 1st, July 1st or October 1st after reaching age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Inception of the plan was January 1, 2000.

Contributions - Participants may contribute from 1% to 15% of their annual wages. Contributions are subject to certain limitations. The Company may make annual matching and/or basic contributions to the Plan at the option of the Company's board of directors. The Company elected to match $.25 of each dollar contributed by an employee during 2009, up to 6% of annual wages.

Excess Contributions - Contributions received from participants are net of payments made to active participants representing excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. Excess contributions were $3,543 and $2,080 for December 31, 2009 and 2008, respectively.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings/(losses), and (c) forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances with certain limitations. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant becomes 100% vested after six years of credited service.

Payment of Benefits - On termination of services due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount, or in partial payments or systematic installments as elected by the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE A - DESCRIPTION OF PLAN (continued)

Forfeited Accounts - If participants end employment before they are 100% vested in the Company's contribution portion of their accounts, the non-vested portion of the account is forfeited. Forfeitures are reallocated as additional Company contributions to the participants remaining in the Plan. At December 31, 2009 and 2008, forfeited non-vested accounts totaled $0 and $316, respectively. Employer contributions were reduced by $2,657 from forfeited non-vested accounts in 2009.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review - Subsequent events were evaluated through September 14, 2010, which is the date the financial statements were available to be issued.

Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the settlement date. Dividends are recorded on the settlement date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - All expenses of maintaining the Plan are paid by the Company.

NOTE C - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

December 31, 2009	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)
Mutual Funds	$ 2,358,688	$ 2,358,688
Common Collective Trust	199	199
Total	$ 2,358,887	$ 2,358,887

December 31, 2008	Fair Value	(Level 1)
Mutual Funds	$ 1,937,137	$ 1,937,137
Common Collective Trust	199	199
Total	$ 1,937,336	$ 1,937,336

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or 3 inputs were available to the Plan.

Level 1 Fair Value Measurements - The fair value of the mutual funds and common collective trust is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE D - INVESTMENTS

The Plan assets are held in trust. The current value of individual participant directed investments that represent 5% or more of the Net Assets Available for Benefits follows:

NOTE D - INVESTMENTS (continued)

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
