During 2008, the Company suspended all matching contributions to the Plan.

1. **Plan Description** (cont'd)

Participant's Accounts – Each participant's account is credited with the participant's contributions, the Company's matching contributions, and investment earnings (including unrealized gains and losses). There were eight participants at year end who separated from the Plan who had not been paid their nonforfeitable accrued benefit.

Vesting – Participants are immediately and fully vested in their contributions to the Plan. Effective January 1, 2001, employer safe harbor contributions are one hundred (100) percent vested at all times. Employer contributions prior to January 1, 2001 vest twenty (20) percent per year after two years of service, with full vesting after six years of service.

Forfeitures – Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures of the employer's matching contributions shall be used to reduce future employer's matching contributions. No forfeitures were created in 2009 and 2008 to reduce employer contributions. There are no unallocated forfeitures available at December 31, 2009 and 2008 to reduce future employer contributions.

Payment of Benefits – On termination of service, a participant may elect to receive the full value of their nonforfeitable accrued benefit in cash. Benefits are recorded when paid.

Participant Loans – Participants are allowed to borrow from their nonforfeitable accrued benefit account a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50% of their nonforfeitable accrued benefit account. Loan terms range from one year to five years, and up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account, and bear interest at one percent above the prime interest rate as published in the Wall Street Journal. The interest rate at December 31, 2009 is 4.25% per annum (4.25% at December 31, 2008). Loans in default are treated as taxable distributions to the participants.

2. **Summary of Significant Accounting Policies**

Basis of Presentation – The accompanying financial statements have been prepared on an accrual basis, and present the net assets available for Plan benefits and changes in those net assets.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events – Subsequent events have been evaluated through October 8, 2010, which is the date the financial statements were available to be issued.

2. **Summary of Significant Accounting Policies** (cont'd)

Pervasiveness of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets, liabilities and changes in net assets at the date of the financial statements and during the reporting period. Actual results could differ from those estimates. A significant estimate used in the preparation of these financial statements includes investments recorded at fair value, for which the ultimate realization of the investments is based upon future economic factors related to the investments.

For the aforementioned estimate, it is reasonably possible that the recorded amounts or related disclosures could significantly change in the near future as new information is available.

3. **Funding Policy**

The Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

4. **Investments**

The assets of the guaranteed investment contract are invested in a Metropolitan Life Insurance (MetLife) separate account. MetLife guarantees the principal and accrued interest, based on credited interest rates, for participant initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. The interest rate resets quarterly. The average yield credited to participants for 2009 was 3.80% (5.11% in 2008), and the average yield earned for 2009 was 15.01% (negative 10.29% in 2008).

MetLife will reset the interest rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the underlying investments. Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investments, payments due to retirement, termination of employment, disability, death, and in-service withdrawals as permitted by the Plan.

The statement of net assets available for benefits presents the fair value of the guaranteed investment contract as well as the adjustment of the guaranteed investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

5. **Fair Value Measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," provides the framework for measuring fair value. That framework provides a three level valuation hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 – Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Valuations are based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations whose significant inputs are observable.

Level 3 – Valuations are based on unobservable inputs for the asset or liability that reflect the reporting entity's own data and assumptions that market participants would use in pricing the asset or liability. These unobservable inputs are significant to the fair value measurement.

Following is a description of valuation methodologies used for investments measured at fair value on the statement of net assets available for plan benefits, and the classification of such investments pursuant to the valuation hierarchy.

Mutual funds are valued using unadjusted quoted market prices, which represent the net asset value of shares held by the Plan at year end. These assets are categorized in Level 1 of the fair value hierarchy.

The guaranteed investment contract is valued at the amount at which units in the fund can be withdrawn, which approximates fair value. These assets are categorized in Level 2 of the fair value hierarchy.

Loans to participants are valued at amortized cost, which approximates fair value. These assets are categorized in Level 3 of the fair value hierarchy.

5. **Fair Value Measurements** (cont'd)

At December 31, the summary of changes in the fair value of the Level 3 assets is as follows:

6. **Party-in-Interest Transactions**

The Plan has investments in mutual funds managed by Fidelity Investments who is custodian of the Plan assets. Accordingly, these are party-in-interest transactions in 2009 and 2008. Participant loans qualify as party-in-interest transactions under ERISA.

7. **Federal Income Taxes**

The Internal Revenue Service has determined, and informed the Plan by letter dated November 27, 2001, that the Alliance Benefit Group Prototype Plan is a qualified plan under Section 401(a) of the Internal Revenue Code and is, therefore, exempt from federal income taxes.

8. **Administrative Expenses**

Administrative expenses for the Plan's investment broker and certain transaction fees are paid by the Plan. The Company paid administrative expenses to the Plan's administrator. Administrative expenses paid by the Company totaled $5,000 and $4,850, respectively, in 2009 and 2008.

9. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. **Reconciliation of Financial Statements to Schedule H of Form 5500**

The following is a reconciliation of the net increase (decrease) in net assets available for Plan benefits per the financial statements for the years ended December 31, to Schedule H of Form 5500:
