**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**NOTE 1 - DESCRIPTION OF THE PLAN**

The following brief description of the Crane Plumbing L.L.C. Bargaining Employees (Texas) Retirement Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan, established in 1986, is a defined benefit pension plan covering all glass, pottery, plastics, and allied workers at the Crane Plumbing L.L.C. ("the Company" or "the Employer") plant located in Hearne, Texas. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA"). Principal Life Insurance Company ("Principal") serves as custodian of the Plan's assets.

Eligibility: Employees are eligible as of one year after their date of employment and when represented for collective bargaining purposes by Glass, Pottery, Plastics and Allied Workers International Union at Hearne, Texas. Effective August 1, 2005, the Plan was frozen for future eligibility and future benefit accruals. Each participant who has satisfied the eligibility requirement as of August 1, 2005 shall continue to be a participant in the Plan subject to the terms and conditions of the Plan.

Pension Benefits: Upon normal retirement at age 65, participants are entitled to receive a monthly benefit based on years of service. Participants receive between \$14.00 and \$25.00 per month for every year of service.

Benefits Payments: A participant may elect to have the retirement benefit paid in accordance with any one of the optional methods of payment under the Plan's group annuity contract, which are as follows:

- A straight-life annuity for the lifetime of the participant without death benefits.
- A life annuity with a period certain (5, 10, or 15 years) for the lifetime of the participant, and if the death of the participant occurs prior to the end of the period certain, the balance of the remaining period certain are paid to the named beneficiary.
- A survivorship annuity for the lifetime of the participant and, upon death, a survivorship percentage of either 50%, 66 2/3%, or 100% of such annuity for the lifetime of the named beneficiary.

Death Benefits: If a vested participant dies before pension benefits have commenced, the participant's beneficiary shall receive a percentage of the monthly retirement benefit which would have been received if the participant had retired on the day coinciding with the date of his or her death with a qualified joint survivor pension.

Early Retirement: A participant may elect to receive early retirement benefits at the completion of 10 years of vesting service and attainment of age 55. The amount of early retirement benefit is determined using the participant's accrued benefit at the normal retirement date reduced by a percentage for each year the early retirement date precedes the participant's normal retirement date.

Vesting: Participants are fully vested after five years of continuous service. Participants who attain the age of 65 or meet the requirements for early retirement become fully vested as well. Vesting service is determined on an elapsed time basis.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are stated at estimated fair value as determined by the custodian. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

*Pooled separate accounts:* The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of, or close to, the financial statement date (level 2 inputs). With the exception of the Principal U.S. Property Separate Account (Property Account), each of the pooled separate accounts invests in stocks, fixed securities and mutual funds. With the exception of the Property Account, each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per share or per unit, as applicable. Due to illiquidity of the underlying assets of the Property Account, which consist primarily of commercial real estate, Principal Financial Group (Principal) has imposed a freeze upon all withdrawals from the Property Account other than distributions upon death and disability. The duration of the blackout period for such withdrawals is uncertain; however, Principal has reported that the backlog of withdrawal requests will eventually be processed, as funds become available, in accordance with the order in which the requests have been received. While the fair value of the Plan's interest in the Property Account has been determined based upon the net asset value of the Property Account, this fair value measurement is reported as including Level 3 inputs because of the nature of the redemption restrictions.

*Unallocated investment contract:* The fair value of the Plan's investment contract reflected in the Level 3 reconciliation was valued using a cash-out factor based on an associated pool of general account assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Use of Estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date; the changes in net assets available for benefits and actuarial present value of accumulated plan benefits during the reporting period; and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. The actuarial present value of accumulated plan benefits and the fair values of certain pooled separate accounts are particularly subject to change in the near term.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their accrued benefits as of the date of which the benefit information is presented (the valuation date). Benefits payable under all circumstances, such as retirement, death, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The effect of plan amendments on accumulated plan benefits is recognized during the year in which an amendment is approved, with the exception of plan mergers which are recorded as of the effective merger dates.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2009 has not yet been completed.

Contributions and Funding Policy: The Company's funding policy is to make quarterly contributions to the Plan to meet minimum funding requirements, as determined by the Plan's independent actuary. The Company's contributions to the Plan for the years ended December 31, 2009 and 2008 satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

Administrative Expenses: Plan fees are paid by the Plan to Principal for custodial and recordkeeping services. Expenses incurred for other services, such as lawyers, actuaries, and accountants, and premiums paid to the Pension Benefit Guaranty Corporation ("PBGC") are paid by the Company, which can elect to have such expenses paid by the Plan. The Company elected to have the Plan pay PBGC in the amounts of \$0 and \$1,148 in 2009 and 2008, respectively.

Risks and Uncertainties: Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term, and due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the financial statements.

The Plan provides for investment in various securities that are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

**NOTE 4 - TAX STATUS**

The Internal Revenue Service has determined and informed the Company, by a letter dated July 13, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receipt of the determination letters; however, the plan administrator believes that the Plan is currently designed and is being operated in compliance with applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan continues to qualify and that the related trust is tax-exempt.

**NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS**

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. All of the Plan's investments are issued by Principal Life Insurance Company, the custodian of the Plan. Accordingly, these investments qualify as party-in-interest investments.

During 2009 and 2008, the Plan paid \$4,733 and \$4,049, respectively, in administrative expenses to Principal, which qualifies as party-in-interest transactions

**NOTE 6 - PLAN TERMINATION**

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

**NOTE 7 - RESTRICTIONS ON AN INVESTMENT**

Principal Financial Group has announced that effective September 26, 2008 it has placed contractual limits on participant withdrawals from its U.S. Property Separate Account (Separate Account), managed by Principal Real Estate Investors, LLC, due to liquidity constraints of the Separate Account which invests primarily in commercial real estate. Outstanding withdrawal requests will be paid proportionately with other pending requests as sufficient cash becomes distributable, as determined by Principal Life Insurance Company. Payments will be based upon the unit value as of the date of the distribution. Regular processing of all withdrawal transactions will resume once the Principal U.S. Property Separate Account has adequate liquidity and all withdrawal requests that had been subject to the limitation have been satisfied. Death and disability benefits are not affected by this limitation and will be processed as usual. In addition, transfers and contributions into this Separate Account are being accepted as usual. The Plan holds approximately \$ 79,964 and \$116,882 in the U.S. Property Separate Account as of December 31, 2009 and 2008, respectively.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior year, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Trustee Expenses Included in Target Normal Cost

\$4,049 (Estimated 2009 expenses are equal to the actual administrative expenses paid in 2008).

Expected Return on Assets  
2008 Plan Year

6.43%

Actuarial Method

Standard Unit Credit Cost Method.

Valuation Date

January 1, 2009.

Amount of Benefits (continued)

Vested

Calculated in the same manner as the normal retirement benefit based on years of service at termination. Benefit is reduced on the same basis as an early retirement benefit.

Death

50% of the benefit the participant would have been entitled to receive if he/she had terminated on the date of his/her death and commenced receiving the benefit as a joint and 50% survivor annuity on the date he/she would have first been eligible to receive a retirement benefit had he/she lived to that date.

Participant must be vested at the time of his/her death and continuously married for the one-year period ending on the date of death.

Normal Form of Payment

- (a) Unmarried participants – single life annuity
- (b) Married participants – joint and 50% survivor annuity actuarially equivalent to single life annuity
- (c) Lumps sums less than \$1,000 are paid automatically to participants. Lumps sums greater than \$1,000 are not payable.

**Changes in Plan Provisions since Prior Year**

- An increase in the annual pay limit under IRC Section 401(a)(17) from \$230,000 in 2008 to \$245,000 in 2009.
- An increase in the annual maximum benefit limit under IRC Section 415 from \$185,000 in 2008 to \$195,000 in 2009.

**Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan**

The actuarial valuation was conducted on an ongoing (not termination) basis using personnel data furnished as of January 1, 2009 by American Standard Brands. Asset information and the dates and amounts of contributions are based on information supplied by American Standard Brands.

The funding valuation mortality assumption changed from the 2008 Static Mortality for Annuitants and Non-Annuitants Annuitants Per §1.430(h)(3)-1(e) to the 2009 Static Mortality Table for Annuitants and Non-Annuitants Per §1.430(h)(3)-1(e).

The target liability was calculated using the full yield curve based on corporate bond rates for October 2008. As such, "2" was entered on line 21b as the applicable lookback month.

The enrolled actuary changed from Howard Freidin at Deloitte Consulting LLP to Robert Eaker at Hewitt Associates LLC.

**Schedule SB, line 25—Change in Funding Method**

The funding valuation reflects the following changes:

- A change in the asset valuation method from a Market Value method to the 2-point, 1-year smoothed value method as of January 1, 2009.
- A change in the interest rate assumption from the full yield curve with no lookback (December 2007 yield curve) to the full yield curve with a two month lookback (October 2008 yield curve).
- The Target Normal Cost is loaded by the prior year's administrative expenses.

Note that these changes will affect the comparability of the funding valuation results for the 2009 plan year and the funding valuation results for prior plan years.

These changes have automatic approval under final regulations, Notice 2009-22 or other IRS guidance.
