As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 1 -DESCRIPTION OF PLAN

The following description of the Magnetech Bargaining Units 401(k) Plan & Trust ("Plan") provides only general information. Participants should refer to the plan document for more complete information.

GENERAL

The Plan is a defined contribution plan covering substantially all employees of Misor Group, Ltd. ("Company") who are covered by a collective bargaining agreement, have completed three months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

CONTRIBUTIONS

Each year, participants may contribute an amount not to exceed 75% of their eligible compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may rollover funds from another qualified plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and an allocation of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately vested in their contributions plus earnings thereon.

PAYMENT OF BENEFITS

Upon separation of service for any reason, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Withdrawals may also be made when a participant attains age 59 1/2 or demonstrates financial hardship.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in *Financial Services - Investment Companies Disclosure Topic of the Financial Accounting Standards Board Accounting Standards Codification* (ASC) 946, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the ASC 946, the statement of net assets available for benefits presents the fair value of the investment in a guaranteed investment contract, as well as the adjustment of the investment in the contract from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract-value basis. The investment contract held by the Plan is not considered fully benefit responsive, therefore no adjustment to contract value has been made in the financial statements.

In September 2006, the Financial Accounting Standards Board (FASB) issued the *Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board Accounting Standards Codification* (ASC) 820. ASC 820 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 applies to all assets and liabilities that are measured and reported on a fair value basis. The Plan adopted all provisions of ASC 820 effective January 1, 2008. The adoption of ASC 820 did not have a material impact on the financial statements of the Plan.

INVESTMENT VALUATION AND INCOME RECOGNITION

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The Plan includes pooled separate accounts, a traditional GIC and a money market fund. The valuation and income recognition for these types of investments are as follows:

Pooled Separate Accounts

The value of the units held in pooled separate accounts are based on quoted market prices of the underlying investments and are based on the net asset value of the shares held by the Plan at year end. Pooled separate accounts are stable value products that could include guaranteed investment contracts (GICs) issued by insurance companies and other financial institutions, synthetic GICs with similar characteristics, and, at times, a stable value collective investment fund.

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

Traditional GICs

Traditional GICs are investment contracts backed by the general account of the issuer. The Plan deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will occur at contract value (principal plus accrued interest). Accounting principles generally accepted in the United States of America require that fully benefit-responsive investment contracts be reported at fair value rather than contract value with an offsetting asset or liability in the Statement of Net Assets Available for Benefits and only affects the presentation of the investments within the Plan's Statements of Net Assets Available for Benefits. The contracts held by the Plan are not considered fully benefit-responsive.

Money Market Funds

Money market mutual funds are valued using the amortized cost method as permitted by Rule 2a-7 under the Investment Company Act of 1940, which approximates their fair value.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

ADMINISTRATIVE EXPENSES

Administrative expenses of the Plan are paid by the Company, to the extent not paid by the Plan.

NOTE 3 - INVESTMENTS (UNAUDITED)

John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), custodian of the Plan, held the Plan's investments and executed transactions during the plan year. In accordance with the method of compliance permitted by Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has obtained a certification from the custodian with respect to the completeness and accuracy of the investment information prepared and provided by the custodian. This investment information, which is included in the accompanying December 31, 2009 and 2008 financial statements and supplementary schedule is based on information provided by the custodian and has not been audited by the independent auditors of the Plan.

500 Index Fund	21,386	16,346

* less than 5% of net assets as of December 31, 2009

During the years ended December 31, 2009 and 2008, the Plan's investments in pooled separate accounts, including investments bought, sold, as well as held during the year, appreciated (depreciated) in value by \$54,215 and \$(115,569), respectively.

NOTE 4 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Company paid certain administrative costs associated with the Plan in 2009 and 2008. In addition, for the years ended December 31, 2009 and 2008, the Plan paid certain administrative expenses in the amount of \$3,293 and \$3,222, respectively. The Plan also holds investments with John Hancock which are considered a party-in-interest transactions.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 6 - INCOME TAX STATUS

The Plan adopted a volume submitter plan sponsored by Sungard Corbel LLC. This document is used for plans administered by Freedom Retirement Consultants, Inc., the TPA of the Plan. This standardized prototype plan has received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service stating that the form of the document is acceptable under applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax is included in the financial statements.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - PLAN TRANSFER

During 2008 certain employees transferred from union status to non union status. As a result of the status change, the participant account balances were transferred from the Plan to the MISCOR 401(k) Plan & Trust.

NOTE 9 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS

December 31, 2009 and 2008

NOTE 9 - FAIR VALUE MEASUREMENTS (Continued)

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

- *Pooled Separate Accounts.* Valued at net asset value of underlying investments held by plan at year-end.
- *Guaranteed interest contract.* Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer.
- *Participant loans, money market fund.* Valued at amortization cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets as of December 31, 2009 and 2008.

NOTE 10 - SUBSEQUENT EVENTS

The *Subsequent Events Topic of the Financial Accounting Standards Board Accounting Standards Codification* (ASC) 855 establishes general standards for non-public entities of accounting for and disclosing events that occur after the balance sheet date but before financial statements are available to be issued. Financial statements are considered available to be issued when they are complete in a form and format that complies with accounting principles generally accepted in the United States of America and all approvals necessary for issuance have been obtained. Accordingly, management has evaluated events or transactions that occurred after the most recent statement of net assets available for benefits date of December 31, 2009 through October 11, 2010, the date the financial statements were available to be issued. Plan management is not required to and has not evaluated events or transactions that occurred after October 11, 2010.

Subsequent to December 31, 2009, the Company sold various subsidiaries in order to focus more on their core business of industrial services. No other events or transactions occurred in the mandatory evaluation period requiring recognition or disclosure in the financial statements.
