Report of Independent Auditors

To the Participants and Administrator of
Rexam Retirement Savings Plan

We were engaged to audit the financial statements and supplemental schedule of the Rexam Retirement Savings Plan (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, (the "Trustee") of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee, as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report of Independent Auditors

To the Participants and Administrator of
Rexam Retirement Savings Plan

We were engaged to audit the financial statements and supplemental schedule of the Rexam Retirement Savings Plan (the "Plan") as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, (the "Trustee") of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee, as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Rexam Retirement Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008

1. Description of the Plan

The following description of the Rexam Retirement Savings Plan (the "Plan") is provided for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, effective January 1, 1977, as amended, is a voluntary defined contribution plan designed to encourage savings by participating employees of Rexam Inc. subsidiaries and to include the contributions to participating employees retirement benefits by Rexam Inc. (the "Company"), a wholly owned subsidiary of Rexam PLC. The Plan is administered by the Company. Employees are eligible to participate in the Plan when they are age 21 or older and are auto-enrolled in the Plan to promote participation in the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to make contributions up to 15% of their eligible compensation on a pretax and/or after-tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan provides for a Company matching contribution of 50% of the first 6% of an employee's contributions. Company matching contributions are made the month following the end of each quarter of the Plan year. There are limitations, under regulations issued pursuant to the Internal Revenue Code (the "IRC"), on the maximum amount of total annual additions that can be credited to the account of any one participant. In addition to the Company matching contributions, the Company makes a semi-monthly retirement contribution to every employee's retirement account based on their age as of January 1 of the Plan year ranging from one to eleven percent of eligible pay. An employee does not have to contribute to the Plan to be eligible to receive this retirement contribution. Additional employer contributions may be made to the Plan at the discretion of the Plan administrator.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) Plan investment results based on the investment options selected by each participant and (c) an allocation of administrative expenses. Allocations are based on participant account balances relative to the total for all account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. For Company contributions, vesting is based on a three-year schedule.

Forfeited Accounts

Forfeiture of non-vested accounts are used to reduce employer contributions and/or to pay Plan administrative expenses. The balances are included within the investment accounts. Forfeitures available at December 31, 2009 and 2008 were \$5,342 and \$21,562, respectively, whereas forfeiture amounts utilized for the years ended December 31, 2009 and 2008 were \$101,886 and \$72,663, respectively.

Notes to Financial Statements

December 31, 2009 and 2008

Participant Loans

Participants may borrow from their fully vested accounts up to the lesser of 50% of their vested account balance or \$50,000. Loans must be repaid over a period of no more than 5 years, or up to 15 years if the loan is used to purchase a primary residence. All loans become immediately due and payable upon termination of employment. The loans are collateralized by the balances in the participant's account and currently bear a minimum interest rate of 1% over the prime interest rate. Interest rates on outstanding participant loans at December 31, 2009 and 2008 ranged from 4.25% to 10%. Principal and interest are paid ratably through payroll deductions. Interest income to the Plan from participant loans was \$192,841 and \$240,372 for the years ended December 31, 2009 and 2008, respectively.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount or installment payments equal to the vested value of the participant's account. For termination of service due to other reasons, or if a participant's vested account balance is \$5,000 or less, a participant may receive the value of the vested interest in the participant's account as a lump-sum distribution. Withdrawal for qualified emergencies of vested Company contributions made is permitted.

Plan Mergers

On January 1, 2008, participants' balances in the Airspray 401(k) Retirement Plan were merged into the Plan. Assets in the Airspray plan totaled \$988,206. The assets were received by Vanguard Fiduciary Trust Company (the "Trustee") on January 24, 2008.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Financial Statements of the Plan are prepared on the accrual basis of accounting. Accordingly, income is recognized when earned and expenses are recognized when incurred. Distributions are recorded when paid.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are stated at fair value, which is described more fully in Note 4. The shares of registered investment companies (mutual funds) are valued by the Trustee based upon quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The Vanguard Retirement Savings Trust ("VRST") is a common/collective trust which invests in high-quality fixed income securities with financial backing from insurance companies and banks. Units of common/collective trusts are valued at net asset value of the units held by the Plan year-end. Participant loans are valued at their outstanding balances including accrued interest, which approximates fair value.

Net Appreciation (Depreciation) in Fair Value of Investments and Investment Income

Presented in the Statement of Changes in Net Assets Available for Benefits is the net appreciation (depreciation) in the fair value or losses in value of the Plan's investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) in value of those investments.

Purchases and sales of securities are recorded on a trade-date basis as reported by the Trustee. Investment income is recorded on the accrual basis as reported by the Trustee. Dividends are recorded on the ex-dividend date.

Administrative Expenses

Trustee fees and expenses and costs of administration of the Plan are shared by the Company and the participants.

Recent Accounting Pronouncements

The plan's financial statements have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"). On July 1, 2009, the Financial Accounting Standards Board ("FASB") released the authoritative version of its new Accounting Standards Codification ("ASC") as the single source for GAAP, which replaces all previous GAAP accounting standards. While not intended to change GAAP, the ASC significantly changes the way in which the accounting literature is organized. The Plan adopted the ASC reference to GAAP accounting standards in its December 31, 2009 financial statements. The adoption of the ASC does not impact the Plan's financial statements except for references made to authoritative accounting literature in the notes to the financial statements.

In September 2009, the FASB issued authoritative guidance requiring additional disclosures regarding the inputs and valuation techniques used to measure fair value. The guidance also requires that the Plan disclose debt and equity securities by major category, on a more disaggregated basis than had previously been required. The adoption of this guidance did not materially impact the Plan's financial statements. See Note 4, Fair Value Measurements, for discussion.

For the year ending December 31, 2009, the Plan adopted the FASB's update to general standards on accounting for disclosures of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. The adoption of this guidance did not materially impact the Plan's financial statements. See Note 10, Subsequent Events, for further discussion of subsequent events.

In September 2010, the Financial Accounting Standards Board issued Accounting Standards Update No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. This guidance requires that participant loans in a defined contribution plan be classified as notes

Rexam Retirement Savings Plan

Notes to Financial Statements

receivable from participants and measured at the unpaid principal balance plus any accrued but unpaid interest. As loans to participants will no longer be considered a plan investment, this guidance eliminates the disclosures currently required under ASC 820 for participant loans. The guidance is effective for years ending after December 15, 2010 and will be applied retrospectively upon adoption. The adoption of the provisions of this guidance is not expected to materially impact the Plan's financial statements.

4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

Common/collective trusts: The Plan's interest in collective trusts is valued based on information reported by the investment advisor using audited financial statements of the collective trust at year end. The fair value and contract value are based on the fair value and contract value of the underlying investments of the trust. Underlying securities for which quotations are readily available are valued at their most recent bid prices in the principal market in which such securities are

Rexam Retirement Savings Plan

Notes to Financial Statements

December 31, 2009 and 2008

normally traded. Underlying securities for which quotations are not readily available are valued at original cost plus accrued interest or at amortized cost, which approximates current value. Investments in underlying funds are valued at their closing net asset value.

Generally, under ordinary market conditions, all common collective trust positions provide daily market liquidity to Plan participants and the Plan. The common/collective trusts invest in alternative investment funds with AIG, Bank of America, N.A., IXIS Corporation, JPMorgan Chase, Rabobank, and State Street Bank & Trust, and also traditional investment contracts with Metropolitan Life Insurance, New York Life, Pacific Life, Principal Mutual Life and Travelers Insurance, in which participant transactions (issuances and redemptions) may occur daily. Were the common/collective trusts to initiate a full redemption of the collective trusts, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

5. Related Party Transactions

Certain Plan investments are shares of mutual funds managed by The Vanguard Group. Vanguard Fiduciary Trust Company is the Trustee as defined by the Plan and is paid administrative expenses in accordance with the Plan. Administrative expenses in 2009 and 2008 were \$32,476 and \$83,447, respectively. These transactions qualify as party-in-interest transactions that are allowable under ERISA.

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated June 3, 2002, that the Plan and related Trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become vested 100% in their accounts. Funds would be distributed to the participants based on individual account balances.

8. Risks and Uncertainties

The Plan provides for various investment options in a variety of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Market values of investments may decline for a number of reasons, including changes in prevailing market prices and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in values of investment securities in the near term could materially affect the participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

9. Reconciliation of Financial Statements to Form 5500

The Form 5500 is reported on a modified cash basis. This report is on accrual basis. The following is a reconciliation of net assets available for benefits per the Financial Statements to the Form 5500 at December 31:

	2009	2008
