PROFESSIONAL AVIATION MANAGEMENT, INC.
PVG (401 K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

1. Description of Plan

The Plan is a defined contribution plan administered by Guardian Life Inc. as designated in the Plan. The plan covers substantially all employees and certain former employees and retirees of the following affiliates: Professional Aviation Management, Inc., International Resources Management Inc., Professional Management Recruiters Inc., and Professional Business Concepts Inc., (collectively, referred to as the Company) which merged their retirement plan investments under the name of PVG 401(k) Retirement Plan (the "Plan") made effective on May 1, 2007 by Guardian. The information enclosed is general in nature, plan participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company and of Professional Aviation Marketing Inc, affiliate. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The recordkeeper and Third Party Administrators of the Plan is Guardian Life, Inc. and Alliance Benefit Group, Carolinas, LLC respectively.

Contributions

Each year, participants may contribute from 2% up to 15% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty nine mutual funds as investment options for participants. The Company contributes an amount equal to a matching percentage the Company from time to time may deem advisable of each tier of the participant's salary reduction contributions for the plan year. The matching Company contribution is invested in the same manner as the participant directed contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan - Continued

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution plus earnings occurs after 1 year of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is smaller. The loans are secured by the balance in the participant's account and bear interest at rates that range from 6% to 10%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared using the modified cash basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds within the insurance company contract are valued at the net asset value of shares held at year-end (See Note 5). Participant notes receivable are valued at cost which approximates fair value.

2. Investment Valuation and Income Recognition - Continued

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payments of Benefits

Benefits are recorded when paid. Total benefits paid during 2009 totaled $365,501.

3. Investments in Separate Pooled Funds

The Plan custodian also certified to the completeness and accuracy of investment income within the accompanying Statements of Changes in Net Assets Available for Benefits. During 2009, the Plan investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $803,705 or 28.29% over 2008 levels.

4. Investment Contract with Insurance Company

In 1995, the Plan entered into a benefit-responsive investment contract with Guardian Insurance and Annuity Company, Inc. (Guardian). Guardian maintains the contributions in pooled separate accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Guardian. Contract value represents contributions made under the contract, plus earnings, less participants withdrawals and

4. Investment Contract with Insurance Company - Continued

Administrative expenses: Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The guarantee investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:		
Based on total actual earnings	28.29%	(21.41%)

5. Fair Value Measurements

Financial Accounting Standards Board Statement No. 157, Fair Value Measurements (FASB Statement No. 157) establishes a framework for measuring fair value. The framework provides a fair value hierarchy with three levels that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fir value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation

5. Fair Value Measurements - Continued

Techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for asset measured at fair value. There have been no changes in the methodologies used at December 31, 2009.

Mutual funds: Valued at the net assets value ("NAV") of shares held by the plan at year end.
Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriated and consistent with other market participants, the use of different methodologies or assumptions to determine that fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ASSETS AT FAIR VALUE AS OF DECEMBER 31, 2009

	Level 1	Level 2	Level 3	Level 4
Mutual Funds	$3,830,248	$ -	$ -	$ 3,830,248
Participant Loans	-	-	207,853	207,853
Total ssets at fair values	$3,830,248	$ -	$ 207,853	$ 4,038,101

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009

	Participant's Loans
Balance, beginning of year	$ 231,257
New Loans	150,000
less: principal remittances	(173,404)
Balance, end of year	$ 207,853

6. Plan Termination

Although it has not been expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Company adopted the Plan's third party administrator's ("TPA") prototype plan. The Internal Revenue Service determined and informed the TPA by a letter issued in August 28, 1997, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan's TPA and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schd H of form 5500:

	December 31 2009	December 31 2008

Amounts allocated to withdrawing participants, if any, are recorded on the Schd H of Form 5500 for benefit claims that have been processed and approved for payment prior to December 31but not yet paid as of that date.

10. ERISA Bond Requirement

The Employee Retirement Income Security Act (ERISA) requires the every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2009 the Plan's sponsor maintained bond coverage of $300,000.
