Independent Auditor's Report

To the Plan Committee
Terremark Worldwide 401(k) Plan
Miami, Florida

We were engaged to audit the statement of net assets available for benefits of Terremark Worldwide 401(k) Plan (the "Plan") as of December 31, 2009, and the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedule of delinquent participant contributions for the year ended December 31, 2009, and the schedule of assets as of December 31, 2009. These financial statements and supplemental schedules are the responsibility of the Plan's management. Other auditors were engaged to audit the financial statements of the Plan for the year ended December 31, 2008, whose report dated October 12, 2009, disclaimed an opinion on the 2008 financial statements for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified or provided by John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note 3, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodian as of and for the year ended December 31, 2009, and as of December 31, 2008.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2009 financial statements and schedules taken as a whole. The form and content of the information included in the 2009 financial statements and supplemental schedules, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Terremark Worldwide 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Terremark Worldwide 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Terremark Worldwide, Inc. (the "Company") on their date of hire, who are age 21 or older and are not a member of the following classes of employees: (a) those subject to a collective bargaining agreement; (b) leased employees; (c) independent contractors; and/or (d) non-residents who have no earned income from sources within the United States of America. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute a portion of their pretax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code (\$16,500 in 2009). Participants may also contribute amounts representing rollovers from other tax-qualified retirement plans.

Participants who have attained age 50, or are projected to attain age 50 before the close of the calendar year, may make pretax contributions up to an additional limit of \$5,500.

The Company may make a discretionary matching contribution equal to a specified percentage of each participant's deferred compensation, subject to certain limitations. Discretionary matching contributions are generally allocated to participant accounts based upon 50% of the participant's annual deferral up to 6% of their annual compensation. The exact percentage, if any, is determined each year by the Company. For the year ended December 31, 2009, the Company suspended its matching contribution.

On May 28, 2010, the Company reinstated the matching contribution to commence on October 1, 2010.

Participant accounts: Each participant's account is credited with the participant's contributions, allocations of the Company's discretionary matching contributions and Plan earnings and charged with allocations of Plan losses and administrative expenses. Allocations are based on participant compensation or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Vesting: Participants are immediately vested in their deferral and rollover contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service as follows:

Years of Service	Vested Percentage
Less than 2	0%
2 or more years	100%

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participants must provide a minimum of 1,000 hours of service to complete a year of vesting service. Participants accounts become fully vested upon death, disability, attainment of normal retirement age, or upon termination of the Plan.

Participant loans: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at fixed rates that are commensurate with local borrowing rates at the date of each loan. Current interest rates range from 4.25% to 9.25% at December 31, 2009. Loan repayments are made ratably through payroll deductions over a period generally not to exceed five years, unless the loans were used to purchase a primary residence in which case the loan terms may exceed five years.

Payment of benefits: Upon termination of service due to death, disability, retirement or separation from service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, unless they elect to receive their benefits in the form of installments. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan, in accordance with provisions specified in the Plan. The Plan offers an Early Retirement age provision, that allows plan participants to withdraw their balances beginning at age 59 ½.

Administrative expenses: The Company pays substantially all administrative expenses associated with the Plan. Fees paid by the Plan are for participant requested services.

Forfeitures: Forfeitures of the non-vested balances of participants are used by the employer to pay administrative expenses or reduce future contributions to the Plan. At December 31, 2009 and 2008, there were \$70,169 and \$55,296, respectively, of unapplied forfeitures. No employee forfeitures were used during the year ended December 31, 2009.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The guaranteed investment contracts are not fully benefit-responsive and are reported at fair value as determined by the insurance company.

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Gains and losses on investments that were purchased and sold during the Plan year are included in the net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 13, 2010, the date the financial statements were available to be issued.

Recent accounting pronouncements: The Financial Accounting Standards Board (FASB) issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

In April 2009, the FASB issued additional guidance on the disclosure requirements of fair value measurements including defining major categories of debt and equity securities. The Plan adopted the enhanced disclosure requirements of this guidance as of December 31, 2009.

In September 2009, the FASB issued an amendment that provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value ("NAV") per share as a practical expedient, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used. The Plan adopted this guidance as of December 31, 2009.

In January 2010, FASB issued Accounting Standards Update No. 2010-6, *Fair Value Measurements and Disclosures – Improving Disclosures About Fair Value Measurements*, which requires new disclosures and reasons for transfers between level 1 and level 2 measurements under the fair value hierarchy. This amendment also clarifies that disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. With the exception of the following sentences, the amendment is effective and not yet adopted for periods beginning on or after December 15, 2009. The amendment further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. This portion of the amendment is effective for periods beginning on or after December 15, 2010 and has not yet been adopted.

Notes to Financial Statements

Note 2. Summary of Accounting Policies (Continued)

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. This update requires that participant loans be reclassified from investments to notes receivable from participants. These notes receivable should be reported at their unpaid principal balance plus any accrued but unpaid interest. The amendments in this update should be applied retrospectively to all prior periods presented and are effective for fiscal years ending after December 15, 2010. Early adoption is permitted, however, the Plan has not yet adopted the amendments. The adoption of these amendments are not expected to have a material impact on net assets or the changes therein.

Note 3. Investment Information Certified and Provided by Custodian

The following is a summary of the investment information as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), the custodian under the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following investments and investment activity is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information, except for comparing such certified information to information included in the Plan's financial statements and supplemental schedules.

The following table presents the fair value of investments held by the Plan as of December 31, 2009 and 2008 that were certified by John Hancock. Investments that represent 5% or more of the Plan's net assets at either December 31, 2009 or 2008 are separately identified:

	2009	2008
Pooled separate accounts of John Hancock:		
Lifestyle Balanced	\$ 3,699,530	\$ 2,577,450

Notes to Financial Statements

Note 3. Investment Information Certified and Provided by Custodian (Continued)

John Hancock also certified to the completeness and accuracy of \$3,693,518 of net appreciation in fair value of investments and \$22,159 of interest related to the aforementioned investments for the year ended December 31, 2009.

During 2009, the Plan's investments appreciated in fair value, as follows:

Pooled separate accounts	\$	3,653,199
Insurance company guaranteed interest accounts		40,319
	\$	<u>3,693,518</u>

Note 4. Fair Value Measurements

The FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

The Plan's investments in insurance company pooled separate accounts are calculated based on the net asset value of the underlying investments. The investments in the guaranteed investment accounts are reported at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Participant loans receivable are valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

Note 4. Fair Value Measurements (Continued)

(b) The Growth funds seek to provide long-term growth of capital by investing approximately 80% of the portfolio's assets in underlying portfolios that invest primarily in equity securities and approximately 20% of its assets in portfolio's that invest primarily in fixed-income securities.

(c) The Growth & Income funds seek to provide a balance a high level of current income and growth of capital, with a greater emphasis on growth of capital, by investing approximately 40% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and approximately 60% of its assets in underlying portfolios that invest primarily in equity securities.

(d) The Income funds seek to provide a balance between a high level of current income and growth of capital, with a greater emphasis on income by investing approximately 60% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and 40% of its assets in portfolios that invest primarily in equity securities.

(e) The Conservative funds seek to provide a high level of current income with some consideration given to growth of capital by investing approximately 80% of the portfolio's assets in underlying portfolios that invest primarily in fixed-income securities and 20% of its assets in underlying portfolios that invest primarily in equity securities.

Note 5. Investment Contract with Insurance Company

The Plan has an investment contract with John Hancock. John Hancock maintains the contributions in pooled accounts. The accounts are credited with earnings on the underlying investments and charged for withdrawals and administrative expenses charged by John Hancock.

The Plan also offers guaranteed interest accounts that earn guaranteed interest at specified rates for specified contract periods of 10 years. Contributions to these accounts are invested in the general assets of John Hancock and are guaranteed by John Hancock. The average yield earned on the guaranteed interest accounts for the year ended December 31, 2009 was 2.30%. The contract rates for contributions to these accounts at December 31, 2009 and 2008 was 2.98% and 4.21%, respectively. Withdrawals and transfers are restricted and penalties incurred as per the contract, which has been determined to not be fully benefit-responsive.

Note 6. Related Party Transactions

Certain Plan investments are units in pooled separate accounts and guaranteed interest accounts managed John Hancock, which is the custodian of the Plan assets, and therefore, transactions with John Hancock qualify as party-in-interest. Fees paid to John Hancock by the Plan for investment services amounted to \$59,416 for the year ended December 31, 2009. The remaining administrative expenses for the year ended December 31, 2009 were paid to the Plan's recordkeeper.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 8. Tax Status

The Plan has adopted the Prototype Non-Standardized Profit Sharing Plan with CODA of Sentinel Benefits Group, Inc., the recordkeeper of the Plan, which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the prototype plan was designed in accordance with the provisions of the Internal Revenue Code ("Code"). The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets reported on the Form 5500 as of December 31, 2009 and 2008:

Current year other contribution receivable	(13,859)
Net income per the Form 5500	<u>\$ 5,695,020</u>

Note 10. Risks and Uncertainties

The Plan provides for investment options for participants to choose in various combinations. Investment securities are exposed to various risks, such as interest rate, market and credit volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the accompanying financial statements and supplemental schedules.
