Bellefontaine, Ohio

We were engaged to audit the accompanying statements of assets available for benefits of the Daido Metal Bellefontaine, L.L.C. Hourly Pension Plan (the Plan) as of December 31, 2009 and 2008, the related statements of changes in assets available for benefits for the years then ended, the statements of accumulated plan benefits and of changes in accumulated plan benefits as of and for the year ended January 1, 2009, and the schedule of reportable transactions for the year ended December 31, 2009. These financial statements and this schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

As discussed in Note 1 to the financial statements, on July 31, 2009 the Board of Directors of Daido Metal Bellefontaine, L.L.C., the Plan Sponsor, decided to freeze the Plan with respect to further participation and credited service effective September 30, 2009 and to terminate the Plan as soon as possible thereafter. In accordance with accounting principles generally accepted in the United States of America and as disclosed in Note 2, the Plan has changed the basis of accounting used to prepare its statements of assets available for benefits and changes in assets available for benefits from the ongoing plan basis used in preparing the 2008 financial statements including the statements of accumulated plan benefits and changes in accumulated plan benefits as of and for the year ended January 1, 2009, to the liquidation basis used for the 2009 financial statements.

As more fully described in Note 2 and as permitted under the Department of Labor's Rules and Regulations, the Plan prepared the 2008 financial statements on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DAIDO METAL BELLEFONTAINE, L.L.C. HOURLY PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2009 (LIQUIDATION BASIS) AND
2008 (MODIFIED CASH BASIS)

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Daido Metal Bellefontaine, L.L.C. Hourly Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for further information.

General - The Plan is a defined benefit pension plan for hourly employees at the Bellefontaine, Ohio plant owned by Daido Metal Bellefontaine, L.L.C. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On February 7, 2009, the Company announced its intentions to discontinue manufacturing operations effective July 1, 2009. The Company's Board of Directors decided to freeze the Plan with respect to further participation and credited service effective September 30, 2009 and to terminate the Plan as soon as possible thereafter. In December 2009, after the payment of all other obligations of the Plan, assets in the amount of \$3,014,847 were paid to Massachusetts Mutual Life Insurance Company (Mass Mutual), who on January 1, 2010 assumed the obligation of making benefit payments to participants in accordance with the provisions of the Plan.

Administration - The Plan was administered by a committee of three or more employees appointed by the Company's Board of Directors.

Participation - Effective September 30, 2009, the Company closed the Plan to new participants and their accrued benefit was frozen. Anyone employed on that date received a full year of credited service for 2009. Prior to that date, hourly employees were generally eligible to participate in the Plan upon the completion of one year of service. Employees who were salaried, laid off, on leave of absence, on active military duty or covered by a collective bargaining agreement (unless the agreement provides for coverage under Plan) were not eligible. Leased employees were also not eligible to participate.

Vesting - Effective September 30, 2009, participants became fully vested. Prior to that date, participants were fully vested upon the completion of five years of service.

Pension Benefits - Effective September 30, 2009, benefits due to participants under all payment options will be based on their accrued benefit determined as of that date. Effective January 1, 2010, any benefits earned under the Plan that were not paid prior to that date will be provided by Mass Mutual. In accordance with Plan provisions, participants are entitled to monthly pension benefits beginning at normal retirement age (the later of age 65 or the fifth anniversary of Plan participation) which are equal to specified rates multiplied by total years of credited service. The benefit is typically in the form of a spousal annuity; however, participants can elect to waive the spousal annuity provision. A participant can also elect to receive either a lump sum benefit which is the actuarial equivalent of the participant's accrued benefit, or to have all or a portion of their distribution paid directly to a Roth IRA on an after-tax basis.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Pension Benefits (Continued)

Participants are eligible for early retirement upon attaining age 60 with 10 years of vested service. Early retirement benefits are equal to the accrued normal retirement benefit reduced for retirement prior to age 65.

Disability Benefits - Effective September 30, 2009, participants who had not been previously disabled while working for the Company are no longer eligible for disability benefits. Prior to that date, employees with 15 or more years of credited service who became totally and permanently disabled prior to age 65 were eligible for disability retirement benefits. The benefit provided was the accrued normal retirement benefit.

Death Benefits - If a vested participant dies before commencement of retirement benefits, a death benefit equal to 50% of the amount which would have been payable to the deceased if they had begun to receive benefits before death is paid to the participant's surviving spouse or designated beneficiary.

Plan Termination Priorities - Plan assets, after providing for expenses of administration, were allocated to pay benefits to retirees or their surviving spouses, participants and vested former participants pursuant to applicable law. Assets in the amount of \$54 in 2009 and \$3,202 in 2010 were distributed to the Company as a result of over funding the Plan during its termination.

Party-In-Interest Transactions - Certain Plan investments were managed by the affiliates of Vanguard Fiduciary Trust Company (Vanguard). Vanguard is the trustee of the Plan and, therefore, transactions related to these investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees allocated to the Plan for trust services amounted to \$19,039 in 2009 and \$25,798 in 2008. Other expenses, including audit fees and other professional services, are paid by the Company.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - As a result of the Company's decision to terminate the Plan, the Plan's 2009 statements of assets available for benefits and changes in assets available for benefits are prepared using the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The adoption of the liquidation basis of accounting had no impact on the Plan's financial statements as its assets available for benefits were already carried at fair value. The Plan's financial statements as of and for the year ended December 31, 2008, including the statements of accumulated plan benefits and changes in accumulated plan benefits as of and for the year ended January 1, 2009, were prepared on the modified cash basis of accounting; consequently, certain revenues and the related assets were recognized when received rather than when earned and expenses were recognized when paid rather than when the obligation was incurred.

Contributions - Contributions to the Plan were based upon valuations performed by an independent actuary. The amounts were calculated to provide for normal cost plus the amortization of unfunded prior service costs, at the minimum rate required for the Funding Standard Account (as defined by ERISA), and interest on such components. In 2009, contributions were made in amounts necessary to pay the benefits that had been earned under the Plan.

Benefit Payments - Benefit payments were recorded when paid.

Valuation of Investments and Income Recognition - The Plan's investments were stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan utilized fair value measurements to record fair value adjustments to investments and to determine fair value disclosures. Registered investment companies were recorded at fair value on a recurring basis. There were no other assets or liabilities measured at fair value at December 31, 2009 and 2008.

The Plan classified its investments at fair value in three levels based on the markets in which the investments were traded and the reliability of the assumptions used to determine fair value. Level 1 refers to securities valued using quoted prices in active markets for identical assets. Level 2 refers to securities not traded in an active market but for which observable market inputs were readily available. Level 3 refers to securities valued based on significant unobservable inputs. The Plan classified its investments in registered investment companies of \$5,882,752 at December 31, 2008 as Level 1, based on quoted net asset values of shares held by the Plan at year-end. There were no investments held at December 31, 2009.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation of Investments and Income Recognition (Continued)

Purchases and sales of investments were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date, and capital gain distributions were included in dividends. Net realized and unrealized gains (losses) on registered investment companies included the Plan's gains and losses on these investments bought and sold as well as held during the year.

Income Tax Status - The Plan obtained its latest determination letter on May 31, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan is qualified and that the related trust is tax exempt. The Internal Revenue Service also determined in a letter dated August 31, 2010 that the termination of the Plan does not adversely affect its qualification for federal tax purposes. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Subsequent Events - The plan administrator has evaluated subsequent events for recognition or disclosure in the financial statements through October 6, 2010, the date of the independent auditors' report.

Estimates and Assumptions - The preparation of financial statements in conformity with GAAP and the modified cash basis of accounting required the plan administrator to make estimates and assumptions that affected the recorded amounts of assets, and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements.

Plan contributions were made and the actuarial present value of accumulated plan benefits was reported based on certain actuarial assumptions pertaining to interest rates, inflation rates and employee demographics, all of which were subject to change.

NOTE 3 - INVESTMENTS AND NONINTEREST-BEARING CASH

The following investment information, included in the accompanying financial statements and the information included in the supplemental schedule of reportable transactions, was obtained or derived from information supplied to the plan administrator and certified to be complete and accurate by Vanguard in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. This information was not audited by independent auditors.

There were no investments held by the Plan as of December 31, 2009. The fair value of the Plan's investments in registered investment companies was as follows at December 31, 2008.

Vanguard Total Bond Market Index Fund	\$ 2,449,004
Vanguard Total Stock Market Index Fund	2,723,951
Vanguard Total International Index Fund	<u>709,797</u>
	<u>\$ 5,882,752</u>

Net realized and unrealized gains (losses) on registered investment companies amounted to \$39,468 in 2009 and \$(1,996,229) in 2008. Dividends earned on these investments amounted to \$59,198 in 2009 and \$230,857 in 2008.

The noninterest-bearing cash balance of \$24,061 at December 31, 2008, was also certified by Vanguard to be complete and accurate and was not audited by independent auditors.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS AND FUNDING POLICY

Accumulated plan benefits consist of those future benefit payments attributable, in accordance with the Plan provisions, to employees credited with service up to the benefit information date. These accumulated benefits are expected to be paid to retired or terminated vested employees or their surviving spouses, or presently eligible employees or their surviving spouses. Future estimated plan benefits used to measure accumulated plan benefits include amounts payable in the event of retirement, death, disability or termination of employment to the extent they are deemed attributable to credited service to the valuation date.

FOR THE YEARS ENDED DECEMBER 31, 2009 (LIQUIDATION BASIS) AND

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS AND FUNDING POLICY (Continued)

The Company utilized the services of an independent actuary to determine the actuarial present value of accumulated plan benefits and to determine funding levels. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the estimated date of payment. The Company's contributions were based upon the report of the actuary as to the amount which was estimated to provide for whatever benefits were not covered by the Plan's current assets and the estimated future earnings thereon.

The following are the significant actuarial methods and assumptions used in calculating the present value of accumulated Plan benefits as of and for the year ended January 1, 2009 (most recent information available):

Actuarial Methods - Projected unit credit actuarial cost method.

Rates of Mortality - 2009 PPA Small Plan Combined Mortality Table.

Rates of Termination - Based upon years of service and actual experience.

Rates of Disability - Based upon age and actual experience.

Retirement Age - Based upon age and actual experience.

Discount Rate - Monthly yield curve with lookback to October 2008, as issued by the IRS for valuations dated January 1, 2009. The effective rate is 8.34%.

The actuarial assumptions were the same in 2009 as in the prior year, except for the following: the 2009 PPA Small Plan Combined Mortality Table was used for the employees' rates of mortality versus 2008 PPA Small Plan Combined Mortality Table; the discount rate was updated from 8% to the monthly yield curve with lookback to October 2008.

NOTE 5 - UNION STRIKE

Nearly all participants in the Plan, prior to the discontinuance of operations, were members of the collective bargaining unit represented by Local 1224 of the U.A.W. (the Union). The contract between the Union and the Company expired on June 29, 2007. The members of the Union went on strike effective July 1, 2007.

On March 4, 2009, the Union members reached an agreement with the Company and ended their strike. Under the agreement, the Union members accepted a buyout settlement and did not return to work for the Company.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Retirement Sample annual retirement rates for eligible employees are as follows:

<u>Age</u>	<u>Annual Rate Per 1,000 Participants</u>
60 - 61	150.0
62	300.0
63 - 64	150.0
65	750.0
66 - 69	500.0
70	1000.0

Marital Characteristics 80% of participants are assumed to be married with female spouses assumed to be 3 years younger than male spouses.

Expense Loading Normal Cost is increased by the actual expenses from the prior year.

Normal Benefit Form Assume 100% of participants will elect a lump sum benefit.

Changes Since the Prior Valuation Funding target interest rates were changed from the 24 month average of the segment yield curve for November 2007 without phase in to the monthly yield curve with lookback to October 2008.

SFAS35 interest rate was changed from 8.00% to the same interest rate as used for the funding target.

SFAS87 Mortality was changed from the RP2000 Blue Collar combined mortality table to the PPA Small plan combined mortality table.

There have been no other changes in actuarial methods or assumptions since the prior valuation other than the required changes mandated by the Pension Protection Act of 2006 with respect to the mortality table and normal cost expense load.

ACTUARIAL METHODS FOR FUNDING, EXPENSE AND PRESENT VALUE OF ACCRUED BENEFITS

Liability Valuation Method

Funding Target and Target Normal Cost as Defined in PPA

The funding target is defined to be the present value of the benefits accrued or earned at valuation date. The earned benefits include retirement-type benefits and ancillary benefits (1.430(d)-1(c)(1)(i)). If the amount of a benefit that is expected to be paid is neither a function of the accrued benefit at the time the benefit is expected to be paid nor a function of the participant's service at that time, then the portion of the benefit taken into account for purposes of determining the funding target for a plan year is based on the proportion of a participant's service as of the first day of the plan year relative to the service the participant will have when the participant meets the age and service eligibility requirements for the benefit. The portion of the benefit that is taken into account in the target normal cost is the increase in the proportional benefit for the plan year (1.430(d)-1(c)(1)(ii)(C)). The determination of the funding target and target normal cost of a plan for a plan year is not permitted to take into account any limitations or anticipated limitations under section 436 (1.430(d)-1(c)(1)(iii)).

The target normal cost is the present value of all the benefits expected to accrue or to be earned during the year (benefits attributable to services performed in a prior year that are increased by reason of a compensation increase in the current year are treated as having accrued during the current year). Plan administrative expenses paid (or expected to be paid) from plan assets for a plan year are not reflected in the determination of a plan's funding target for that plan year (1.430(d)-1(c)(2)), but are reflected in the determination of a plan's target normal cost.

Generally if insurance contracts are held by the Plan, they are included in plan Assets and the related benefits are included in the liability. In the case of benefits that are funded through insurance contracts purchased from an insurance company licensed under the laws of a State, the Plan is permitted to exclude the benefits from the liability and the insurance policy from the assets, but only to the extent that the right to receive benefits is an irrevocable contractual right based on premiums paid prior to the valuation date (1.430(d)-1(c)(3)).

The determination of a plan's funding target and target normal cost for a plan year is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year. Section 412(d)(2) applies for purposes of determining whether a plan amendment is treated as having been adopted on the first day of the plan year (including a plan amendment adopted within 2 ½ months after the close of the plan year) (1.430(d)-1(d)).

For maximum deductible purposes, the cushion amount is equal to the sum of 50 percent of the funding target for the plan year and the amount the funding target for the plan year would increase if the Plan were to take into account increases in compensation which are expected to occur in succeeding plan years. If the Plan does not base benefits for service to date on compensation, increases in benefits which are expected to occur in succeeding plan years (determined on the basis of the average annual increase in benefits over the six immediately

ACTUARIAL METHODS FOR FUNDING, EXPENSE AND PRESENT VALUE OF ACCRUED BENEFITS

preceding plan years) are taken into account in lieu of expected increases in compensation. For plans that have less than 100 participants, increases in benefits for highly compensated employees as a result of plan amendments within the last two years are excluded from the calculation of the cushion amount.

Projected Unit Credit Method for determining the Net Periodic Pension Cost (Expense) under SFAS No. 87

SFAS No. 87 requires that the Projected Unit Credit actuarial cost method be used to determine the service cost and the projected benefit obligation. Under this method, the benefits expected to be paid to each participant are projected to retirement based on the applicable actuarial assumptions. The projected benefits are then divided on a pro-rata basis over the applicable years of service. For purposes of this funding method, the applicable years of service commence at the age at which the funding eligibility conditions are first met. The applicable years of service extend to the date each particular projected benefit is expected to be incurred, or, if earlier, the date at which the credited service requirements for each particular benefit are satisfied.

The Service Cost for the year is equal to the actuarial present value of the benefits allocated to the current year in accordance with the funding method and includes interest to the end of the fiscal year. The Projected Benefit Obligation is equal to the actuarial present value of all benefits allocated to years prior to the valuation date. Note, however, that as a participant ages, the normal cost can be expected to increase as a percentage of compensation. Therefore, to the extent the weighted average age of the active participants increases over time, the underlying level of costs (as a percentage of compensation) can be expected to increase.

Asset Valuation Method

Funding Purposes: Plan assets are equal to the market value of assets plus receivable contributions discounted with the appropriate interest rate to the valuation date.

Net Periodic Pension Cost (Expense) Purposes: The market-related value of assets is equal to the market value of assets.

Procedures

Financial and census data: Financial data was submitted by the Trustee and census data was submitted by the plan sponsor. Information provided was reviewed for internal consistency and we have no reason to doubt its substantial accuracy.

No benefits of materiality were excluded from the valuation of the liabilities.

The limitations of the Internal Revenue Code 415(b) and 401(a)(17) have been incorporated into our calculations.

No liability is included for participants who terminated without vesting in their benefit prior to the valuation date.

ACTUARIAL METHODS FOR FUNDING, EXPENSE AND PRESENT VALUE OF ACCRUED BENEFITS

The plan sponsor provided us with the data on its employees as of the valuation date, but only those employees who have completed the Plan's eligibility requirements are included in the valuation of liabilities.

Present Value of Accrued and Vested Benefits (SFAS No. 35)

For active participants, the accrued pension benefits as of the valuation date and payable from the assumed retirement age were determined based on actual plan compensation history for each participant. For inactive participants, accrued benefits were either supplied by the Company or estimated. The present value of accrued benefits was determined by multiplying the accrued pension benefits by single premium cost factors based on the applicable actuarial assumptions of accrued benefits.

SCHEDULE SB, PART V— SUMMARY OF PLAN PROVISIONS

This section highlights out understanding of the provisions of the Plan affecting the actuarial valuation.

<u>Postponed Retirement Benefit</u>	At the request of the employee, the Accrued Benefit at the date of Postponed Retirement.												
<u>Vested Termination</u>	An Employee becomes Vested after the completion of 5 or more years of Credited Service. Commencement of benefits is normally deferred to Normal Retirement Date, but may commence after attaining Early Retirement eligibility, reduced according to the above schedule.												
<u>Disability Benefit</u>	An Employee becomes eligible for a Disability Benefit after becoming Disabled and attaining 15 or more years of Credited Service. The benefit is the Accrued Benefit at Date of Disability.												
<u>Survivor Benefit Eligibility</u>	Former and Active Vested Employees and Retirees who have elected the Normal Form of the Survivor Benefit and have been married at least one year.												

PLAN PROVISIONS SUMMARY (CONTINUED)

Survivor Benefit

For Active Vested and Terminated Vested Employees eligible for Early or Normal Retirement the monthly Survivor Benefit shall be equal to 50% of the Accrued Benefit the employee would have received had he retired the day before his death. Benefit payments begins on the first day of the month following the date of death.

For Retired Employees the monthly Survivor Benefit shall be equal to 60% of the Benefit for which the Retiree was eligible. Benefit payments begin on the first day of the month following the date of death.

For Active Vested and Terminated Vested Employees not eligible for Early or Normal Retirement the monthly benefit shall be equal to 50% of the monthly benefit to which the employee would have been entitled to had he terminated on the earlier of his termination date or date of death, survived to Early Retirement Date and had begun receiving benefits that day and died the next day. Benefit payments begin on Early Retirement Date.

Survivors of Employees who have attained age 60 and completed at 10 years or more of Vesting Service shall be paid a special death benefit of \$6,000 in the form of a single payment.

Reduction of Benefits

The Benefit of a Retiree is reduced actuarially for the Survivor Benefit Option.
