1. Description of Plan:

The following description of the Park Management Group, LLC 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General
The Plan, which was implemented effective January 1, 1991, is a defined contribution plan sponsored by Park Management Group, LLC (the "Employer" and the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility
The Plan covers all eligible employees of the Company. Employees who have reached the age of twenty-one and have completed one year of service with 1,000 hours or more are eligible to participate in the Plan. Eligible employees may begin participating in the Plan on the first day of the first quarter following the quarter in which they became eligible.

Contributions
Participants may contribute up to but not exceed certain limits set by the Internal Revenue Code (the "Code"). The total maximum allowable tax deferred participants contribution to the Plan under the Code was $16,500 for 2009 and $15,500 for 2008. Participants, who are at least 50 years old, may contribute additional amounts (called "catch-up contributions") to the Plan. The maximum catch-up contribution was $5,500 for 2009 and $5,000 for 2008. The Company may, at its sole discretion, match a portion of participant contributions. During 2009 and 2008, the Company made matching contributions equal to 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation but do not exceed 5% of the participant's compensation.

The Company may also make a discretionary profit sharing contribution to participants employed on the last day of the Plan year. The Company did not make a profit sharing contribution during the 2009 and 2008 plan years.

Participant Accounts
Each participant's account is credited with the participant's contribution, company match contribution and profit sharing contribution, and the Plan earnings or losses based on the participant's account balance. Any profit sharing contribution is allocated to participants' accounts based on participants' annual compensation.

Participants may direct the investment of their accounts into investment funds provided by the Plan. Participants are allowed to change their investment options quarterly.

Vesting
Participants are immediately vested in their pre-tax and company contributions plus actual earnings thereon.

1. Description of Plan (continued):

Withdrawals and Payments of Benefits
Upon retirement, participants may elect to receive the value of their account in either a lump sum cash payment. Benefits are distributed upon normal or early retirement, death or termination of employment. Participants may request a hardship withdrawal of a portion of their account if certain conditions specified in the Plan are met. In-service withdrawals are available to participants who have attained the age of 59½ years. Benefits are recorded when paid.

Loans
Participants may request a loan of part of their vested account balance. Participant loans must be a minimum of $1,000 and are limited to the lesser of $50,000 or 50% of the participant's vested account balance. Loans must be fully repaid in not more than five years. Interest is charged on the loans at a rate equivalent to the rate paid on a comparable loan made by a commercial bank. Loan repayments, including interest, are credited to the participant's account.

Forfeitures
Forfeitures which occur during the year are used to reduce future employer matching contributions. At December 31, 2009 and 2008, forfeited nonvested accounts totaled $709 and $56.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Plan document as amended. In the event of termination of the Plan, all participants would become 100% vested in their account balances.

Plan Expenses
The Company paid substantially all administrative expenses as provided in the Plan document. Certain expenses for loan and fund transfer transactions are allocated to individual Plan participant's accounts.

2. Summary of Significant Accounting Policies:

Basis of Presentation
The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Transfer of Funds
During 2007 certain participants transferred funds between the Plan and another retirement plan sponsored by Park Management Group, LLC. Funds for such participants, aggregating $688,289, were transferred to the Plan from Sun Suites 401(k) Plan.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued):

Date of Management's Review
Subsequent events have been evaluated through October 12, 2010, which is the date the financial statements were available to be issued.

3. Information Certified by the Trustee:

The following information included in the accompanying financial statements as of, and for the years ended December 31, 2009 and 2008 and included in the supplemental information as of December 31, 2009, was provided and certified by Wilmington Trust Company, the trustee of the plan (the "Trustee") as complete and accurate:

4. Investments:

5. Fair Value Measurements

The Plan adopted FASB ASC 820 (Formerly FASB Statement No. 157), *Fair Value Measurements* ("ASC 820") effective January 1, 2009. The adoption of ASC 820 had no impact on the Plan's investment gains and/or losses. ASC 820 defines fair value, establishes a consistent framework for measuring fair value and establishes a fair value hierarchy based on the observability of inputs used to measure fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under ASC 820 are described as follows:

Level 1 Unadjusted quoted market prices in active markets for identical unrestricted assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2 Other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds, credit risk and others;

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Assets at Fair Value as of December 31, 2009			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 1,522,093	$ 1,395,220	$ -0-	$ 2,917,313
Participant loans	-0-	-0-	112,152	112,152
Total assets at fair value	$ 1,522,093	$ 1,395,220	$ 112,152	$ 3,029,465

5. Fair Value Measurements (continued):

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2009.

	Level 3 Assets Year Ended December 31, 2009
	Participant loans
Balance, beginning of year	$ 110,121
Issuances and repayments, net	2,031
Balance, end of year	$ 112,152

6. Income Tax Status:

The Plan obtained its latest determination letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable regulations of the Internal Revenue Code.

7. Party-In-Interest Transactions:

Certain Plan investments are shares of funds managed by the Trustee, and, therefore, these transactions qualify as party-in-interest transactions.

8. Risk and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
