We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Kilgore 401(K) Plan

Notes to the Financial Statements
December 31, 2009 and 2008

NOTE A – DESCRIPTION OF PLAN

The following brief description of Kilgore 401(K) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan was established on December 31, 2002 as a defined contribution plan covering all full-time and part-time employees who have three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The employer who participates in the Plan is Kilgore Industries, L.P. (the Company).

Contributions

Each year, the Plan allows eligible employees to contribute a percentage of pretax annual compensation, up to IRS limits, to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are invested as directed by the participant. Any additional Company contributions are at the discretion of the Company. The Company did not make any discretionary contributions for 2009.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employers' contribution, (b) rollover contributions, if any, and (c) investment earnings and appreciation in the value of investments. Each participant's account is debited with (a) any withdrawals or distributions made, (b) investment losses and depreciation in the value of investments, and (c) administrative fees and expenses paid out of the Plan, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contribution portion of their accounts is based on periods of service. A participant is 100% vested after six years of credited service or if employed on or after the participant's normal retirement age.

Participant Loans

Participants may borrow from their fund accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% or their account balance. A participant may have no more than one loan outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through periodic payroll deductions.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of not more than participant's life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts
Non-vested employer contributions to employees who terminate are used to reduce future employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review
Subsequent events were evaluated through October 12, 2010, which is the date the financial statements were available to be issued.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Operating Expenses
All expenses of maintaining the Plan are paid by the Company.

NOTE C – INFORMATION PREPARED AND CERTIFIED BY THE AGENT ON BEHALF OF THE TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the agent of the trustee.

	2009	2008
Investments at fair value at year end	$ 389,036	$ 371,645

NOTE D – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements Using:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
Decmeber 31, 2009			
Mutual Funds	367,299	367,299	
Investment contract with insurance company	21,737	-	21,737
Participant Loans	24,096	-	24,096
Total	$ 413,132	$ 367,299	$ 45,833
Decmeber 31, 2008			
Mutual Funds	327,888	327,888	
Investment contract with insurance company	43,757	-	43,757
Participant Loans	24,127	-	24,127
Total	$ 395,772	$ 327,888	$ 67,884

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Investment Contract	Participant Loans	Total
December 31, 2009			
Beginning Balance	$ 43,757	$ 24,127	$ 67,884

NOTE E – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31, 2009	December 31, 2008
Franklin Income	93,913	99,979
American Funds Income Fund	24,357	24,794
Oppenheimer Gold & Spec Minerals	21,502	-
Ivy Global Natural Resources	20,763	-
Fixed Account	21,737	43,757
Janus Overseas	24,432	-
Janus Ad Income Gr	-	20,202
American Funds Bond Fund AM	18,228	-
Oppenheimer Main Street Opp	26,748	22,420
Oppenheimer Sm & Mid-Cap Value	38,198	21,562
	$ 289,878	$ 232,714
% of total investment	75%	63%
Total investments	$ 389,036	$ 371,645

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $108,395 as follows:

Mutual funds	$ 108,395
	$ 108,395

NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE G – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2005, the Plan entered into a benefit-responsive investment contract with The Hartford Life Insurance Company (The Hartford). The Hartford maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as

reported to the plan by The Hartford. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measure attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by The Hartford, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $389,036 and $371,645 respectively.

Certain events limit the Plan's ability to transact at contract value with The Hartford. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administer does not believe that any events that would limit the Plan's ability to transact a contract value with Plan participants are probable of occurring.

NOTE H – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	Decmeber 31,	
	2009	**2008**
Net assets available for benefits per the financial statements	$ 413,132	$ 395,772
Net assets available for benefits per Schedule H to the Form 5500	$ 413,132	$ 395,772

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2009 to Schedule H of Form 5500:

Benefits paid to participants per the financial statements	$ 136,827
Benefits paid to participants per Schedule H of Form 5500	$ 136,827

Amounts allocated to withdrawing participants are recorded on the Schedule H of Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not yet paid as of that date.

NOTE I – TAX STATUS

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the Internal Revenue Service. Plan management believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

NOTE J – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
