TOUCHSTONE MEDICAL IMAGING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Touchstone Medical Imaging 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan maintained under Section 401 of the Internal Revenue Code. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Management believes all requirements of ERISA for continuation as a qualified plan have been met.

On June 1, 2008, the Plan changed custodians to Hartford Life Insurance Company. The former custodian, Great West Life & Annuity Insurance Company (Great West), retained funds in their guaranteed investment contract for a one-year period, unless a rollover was requested by the participant. As of June 1, 2009, all remaining funds at Great West have been transferred to the new custodian.

Eligibility: The Plan is a defined contribution plan established January 1, 1998, and restated on June 1, 2008, covering substantially all full-time employees of Touchstone Medical Imaging, LLC, (the “Company”, “Plan Sponsor”) who have reached 18 years of age and have completed three months of service. This Plan restatement allowed employees of Centurion Tools, LLC, an entity with common ownership to the Company, to participate in the Plan under the same eligibility guidelines.

Contributions: Participants may contribute up to 20 percent of pretax annual compensation, as defined in the Plan and subject to certain limitations. Participants may also contribute Roth 401(k) after-tax amounts subject to certain limitations. Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participant contributions to the Plan are made by means of payroll deductions during each regular payroll period.

The Company matching contributions are discretionary and if declared by the board of directors will be a percentage of the participants’ contributions as set by the employer prior to the end of the Plan year. For the year ended December 31, 2009, Centurion Tools, LLC and the Company provided a matching contribution equal to 20% of the first 3% of compensation deferred into the Plan.

Participant Accounts: A separate account is maintained for each participant and is credited with the participant’s contributions and allocations of Company contributions and plan earnings, and charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Options: Each participant may direct contributions into any of the investment options available under the plan, including the underlying sub-accounts of the Plan’s pooled separate account, which holds various underlying investments which are generally pooled separate accounts.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Company contributions and earnings thereon is based on years of service with the Company in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 and more	100%

TOUCHSTONE MEDICAL IMAGING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Participant Loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or one-half of the participant's vested account balance, whichever is less. All loans are treated as a directed investment from the participant's account. All payments of principal and interest will be credited to the participant's account. The loans are secured by the participant's account balance and bear interest at rates ranging from 4.25% to 9.25% at December 31, 2009 and 2008. Principal and interest are paid through payroll deductions.

Payment of Benefits: Participants are eligible for payment of vested benefits upon retirement, death, permanent disability, or termination of employment. Payments may be in the form of a lump sum benefit or installment payments.

Active employees may make withdrawals of all or a portion of their account balances subject to certain withdrawal and contribution suspension rules as defined by the Plan. Withdrawals from the accounts are not allowed for participants who are less than 59 ½ years of age, except under hardship withdrawal and rollover contribution provisions.

Hardship Withdrawals: Participants may withdraw all or a part of their account balance attributable to elective deferrals and certain employer contributions to the extent vested, limited to the amount needed to meet the financial need, if they can prove financial hardship to the employer, as defined by the Plan. Financial hardship withdrawals are taxed as ordinary income and may be subject to certain IRS penalties. Salary deferral contributions will be suspended for six months following the hardship withdrawal.

Forfeitures: Forfeitures occurring during the Plan year are applied to first reduce administrative expenses under the Plan, as directed by the employer. Any remaining amounts are used to reduce future employer contributions payable. At December 31, 2009 and 2008, forfeited non-vested accounts available to offset future administrative expenses and matching contributions totaled \$7,053 and \$2,393, respectively.

Administrative Expenses: Administrative expenses are paid by the Company and by Plan participants. Expenses which are the responsibility of the Plan sponsor are first paid by forfeitures.

Plan Termination: Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the related provisions of ERISA. In the event of Plan termination, or permanent discontinuance of contributions, participants would become 100% vested in their accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Payment of Benefits: Benefit payments to participants are recorded when paid.

TOUCHSTONE MEDICAL IMAGING 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts: The fair values of participation units held in pooled separate account sub-accounts are based on their net asset values, as reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). Each of the pooled separate account sub-accounts invests in a single, open-ended mutual fund which is generally identified in the name of the sub-account. Each pooled separate account sub-account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Investment contracts: The fair value of the investment contract has been determined to approximate contract value, based upon the lack of a contractual maturity, the frequency of the re-setting of contractual interest rates to market rates, the credit quality of the issuer(s), and the liquidity of the contract (level 3 inputs).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Participant loans: Participant loans are reported at their outstanding balances, as the fair value of the loans is not practicable to estimate due to restrictions placed on the transferability of the loans.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2009 Using

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The table below presents a reconciliation of all investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2009, including the reporting classifications for the applicable gains and losses included in the 2009 statement of changes in net assets available for benefits:

	<u>Fair Value Measurements Using Significant Unobservable Inputs (Level 3)</u> Investment Contract
Beginning balance, January 1, 2009	\$ 49,989
Total realized and unrealized gains or losses Included in change in net assets available for benefits:	
Interest income	579
Purchases, sales, issuances and settlements (net)	(50,568)
Transfers in and/or out of Level 3	<u>-</u>
Ending balance, December 31, 2009	<u>\$ -</u>

Included in the Plan's 2009 statement of changes in net assets available for benefits is \$579 of interest income pertaining to level 3 investments that were not still held by the Plan as of December 31, 2009.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. At December 31, 2008, the Plan held a direct interest in a fully benefit-responsive contract. No adjustments from fair value to contract value are presented in the December 31, 2008 statement of net assets available for benefits, as the amounts of the adjustment has been determined to be immaterial.

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

Until June 1, 2009, the Plan held a fully benefit-responsive investment contract with Great West Life & Annuity Insurance Company ("Great West", "Issuer"), the custodian. Great West maintained the contributions in its general account. Great West's general account was credited with earnings on the underlying investments and was charged for participant withdrawals and administrative expenses. Participants ordinarily directed the withdrawal or transfer of all or a portion of their investments at contract value. There were no reserves against contract value for credit risk of the Issuer or otherwise.

The terms of Great West's contract required all permitted participant-initiated transactions with the fund to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions were those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans or transfers to other funds within the plan. Transactions would only occur at amounts less than contract value if Great West became insolvent. At December 31, 2008, management believed that the occurrence of an event that limited the ability of the fund to transact at contract value with Great West and the participants in the fund was not probable.

The contract had a crediting portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and with no set maturity. The effective credited interest rate was set monthly and effective on the first day of the month. Contract charges may have reduced this return.

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. At December 31, 2008, the Plan held a guaranteed investment contract managed by Great West Life & Annuity Company ("Great West"). The Plan holds units of pooled separate accounts managed by Hartford Life Insurance Company ("Hartford"). Great West and Hartford are the Plan custodians and, therefore, these transactions and the Plan's payment of custodian fees qualify as party-in-interest transactions. Participant loans held by the Plan are also considered party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 6 – TAX STATUS OF PLAN

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is designed and is currently being operated in accordance with the Internal Revenue Code.

NOTE 7 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 13, 2010, which is the date the financial statements were available to be issued.
