Idearc Savings Plan

Notes to Financial Statements

December 31, 2009

1. Plan Description

Idearc Inc. and its subsidiaries (collectively, “Idearc” or the “Company”), the Plan sponsor, became an independent public company on November 17, 2006, when Verizon Communications Inc. (“Verizon”) spun off the companies that comprised its domestic print yellow pages directories and Internet advertising operations. Effective as of the date of the spin-off, Idearc established three defined contribution plans for the benefit of certain Idearc employees, the Idearc Savings Plan for Management Employees (the “Management Plan”), the Idearc Savings and Security Plan for New York and New England Associates (the “North Plan”), and the Idearc Savings and Security Plan for Mid-Atlantic Associates (the “South Plan”), (collectively “the Plans”). Participants should refer to the Plan document for more detailed information.

On December 19, 2008, the Employee Benefits Committee (the “Committee”), which is responsible for the general administration of the Plans, approved the merging of the North and South Plans with and into the Management Plan. Legal control of the assets of the North and South Plans transferred to the Management Plan effective as of midnight on December 31, 2008, with the actual assets transferring in 2009. In addition, the Management Plan name changed to Idearc Savings Plan (the “Plan”) in conjunction with the merger.

In March of 2009, the Company filed for protection under the United States Bankruptcy Code (the “Bankruptcy Code”). On May 15, 2009, the Company submitted a joint plan of reorganization and disclosure statement for consideration by the Bankruptcy Court and affected creditors. On September 8, 2009, the Company filed its First Amended Joint Plan of Reorganization (the “Reorganization Plan”) with the Bankruptcy Court, which was later modified on November 19, 2009 and approved by the Bankruptcy Court on December 22, 2009. The Company emerged from bankruptcy on December 31, 2009 and changed its name to SuperMedia Inc. (“SuperMedia”), on January 4, 2010. As a result of the Company’s emergence from Chapter 11 of the Bankruptcy Code, SuperMedia Inc. is the successor registrant to Idearc Inc. pursuant to Rule 12-g3 under the Securities Exchange Act of 1934. No provisions of the Plan were changed in the Reorganization Plan.

JPMorgan Chase Bank, N.A. (the “Trustee”) serves as the trustee of the Plan, and JPMorgan Retirement Plan Services LLC serves as the Plan’s record keeper (“Record Keeper”).

1. Plan Description (continued)

Eligibility

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan provides eligible employees of the Company with a convenient way to save for retirement. Eligible employees enrolled in the Plan may make tax-deferred or after-tax contributions to the Plan and are eligible to receive employer matching contributions, as soon as practicable following the date of hire. A participant's active participation in the Plan shall terminate when the individual ceases to be an eligible employee. However, the individual shall remain a participant until his or her entire account balance under the Plan has been distributed or forfeited.

On October 4, 2009, the Company and the Communication Workers of America (the "CWA") agreed that, effective January 1, 2010 (the "effective date"), participants in Virginia, Maryland, and New Jersey with less than five years of service on the effective date will be frozen in the Idearc Pension Plan for Collectively Bargained Employees and will receive benefits in the Plan.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. A participant shall be fully vested in the employer contributions allocated to the participant's account and any income thereon, upon completing three years of vesting service or upon the participant's death, disability, retirement from the Company, attainment of normal retirement age, or involuntary termination.

A terminated employee's non-vested employer contributions are forfeited and may be used to reduce future employer contributions to the Plan. Non-vested forfeitures of \$3.5 million and \$3.2 million were available at December 31, 2009 and 2008, respectively, to reduce future employer contributions. In 2009, employer contributions were reduced by \$1,892,296 from forfeited non-vested accounts.

Contributions

The Plan is funded by employee contributions up to a maximum of 25% of compensation (16% for highly compensated employees) and by employer-matching contributions, which are paid in cash. Participants may also contribute amounts representing rollovers from other qualified defined benefit or defined contribution plans. Employer-matching contributions are credited to a

Idearc Savings Plan

Notes to Financial Statements (continued)

1. Plan Description (continued)

participant's account in accordance with the participant's current contribution investment selections. The employer-matching contribution for management employees and certain collectively bargained for employees is equal to 100% of the initial 6% of the participant's contributions of eligible compensation for each pay period. For other collectively bargained for employees, the employer-matching contribution is 100% of the initial 4% and 50% of the next 2% of the participant's contributions of eligible compensation for each pay period. Employees attaining the age of 50 or older can elect to make catch-up contributions to the Plan of up to 60% of eligible compensation, subject to certain limitations. Additionally, the Company may make a discretionary, performance-based contribution to management employees participating in the Plan in an amount up to 50% of the participant's matched contributions for the Plan year.

Participant contributions may be before tax ("Elective Contributions") or from currently taxed compensation ("After-Tax Contributions"). The total amount of participant and Employer contributions and certain forfeitures that may be allocated to a Plan participant is limited under Internal Revenue Service regulations. The elective deferral limit increases for participants eligible to make catch-up contributions.

Eligible employees hired on or after January 1, 2008, who do not affirmatively elect to participate or not participate in the Plan will be enrolled automatically in the Plan and will be deemed to have authorized a contribution of 3% of eligible compensation. Effective January 1, 2009, and January 1 of each Plan year thereafter, each participant who is automatically enrolled in the Plan will have his or her contributions automatically increased by 1% per year, not to exceed a maximum automatic contribution rate of 6%, unless such participant elects otherwise.

Investment Options

Participants may direct their contributions into various common/collective trusts or mutual funds offered by the Plan and can change their investment options on a daily basis. Under the self-directed brokerage window, participants may purchase any mutual fund offered by Chase Investment Services Corporation. Effective November 17, 2008, Idearc common stock became a frozen investment option and was maintained on an exit-only basis. Participants holding Idearc common stock could maintain their investments but could no longer make additional contributions. Participants could sell their Idearc common stock held in the Plan at any time.

Idearc Savings Plan

Notes to Financial Statements (continued)

1. Plan Description (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and rollovers, allocations of employer contributions, and net investment income, and is charged with an allocation of net investment loss and administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options.

Payment of Benefits

Benefits are payable in a lump-sum cash payment unless a participant elects, in writing annual, semiannual, quarterly, or monthly cash installments in equal amounts to be paid out for a period of two to 20 years, as selected by the participant.

Administrative Expenses

Account maintenance fees, audit expenses, and investment advisory fees are paid from Plan assets. The Company pays for all other expenses incurred in connection with the administration of the Plan. Investment fees are charged against the earnings of the funds and portfolios.

Participant Loans

The Plan includes an employee loan provision authorizing participants to borrow an amount of up to 50% of their vested account balances in the Plan, subject to certain limitations. Loans are generally repaid by payroll deductions. Loans are collateralized by the participant's remaining vested account balance. The term of repayment for loans generally will not be less than six months nor more than five years (15 years for a loan to purchase a principal residence). For loans up to five years, each new loan will bear interest at a rate based upon the prime rate as published in *The Wall Street Journal* on the last business day of the calendar quarter ending immediately prior to the first day of the loan cycle. Loans for a period of longer than five years shall bear interest at such rate plus one percent.

Idearc Savings Plan

Notes to Financial Statements (continued)

1. Plan Description (continued)

Master Trust

Subsequent to the merger of the Plans, the Master Trust was maintained and renamed the Idearc Savings Plan Trust with only one plan's assets on deposit. Effective January 1, 2009, this trust is no longer considered a Master Trust. At December 31, 2008, the Management Plan, North Plan, and South Plan participated in the Idearc Master Savings Trust (the "Master Trust"), and owned approximately 86%, 13%, and 1%, respectively, of the assets in the Master Trust at December 31, 2008.

Plan Modification

Idearc, by action of its Board of Directors or the Committee, reserves the right to modify, alter, or amend the Plan at any time, subject to collective bargaining requirements. The Company reserves the right to terminate the Plan at any time, subject to collective bargaining requirements. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting. Benefits paid to participants are recorded upon distribution.

Use of Estimates

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"), which require management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Subsequent Events Review

The Company has evaluated subsequent events through October 12, 2010, which is the date through which these financial statements were available for issuance.

Idearc Savings Plan

Notes to Financial Statements (continued)

2. Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Investment Income Recognition

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Realized gains and losses on sales of investments are determined on the basis of average cost. Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis. Purchases and sales of investments are reflected as of the trade date.

Investment Valuation

Investments held by the Plan and Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for further discussion and disclosures related to fair value measurements.

In accordance with the authoritative guidance on fully benefit-responsive investment contracts under GAAP, the Plan reports these assets at fair value. However, contract value is the relevant measurement of that portion of net assets attributable to fully benefit-responsive investment contracts, as that is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contracts, plus accrued interest, less withdrawals and administrative expenses. The statements of net assets available for benefits as of December 31, 2009 and 2008 include an investment in the JPMorgan Chase Stable Asset Income Fund (the "SAIF"), held within the Master Trust as of December 31, 2008, which holds fully benefit-responsive investment contracts as underlying assets. As required by GAAP, the SAIF is recorded at fair value, with an adjustment from fair value to contract value for fully benefit-responsive investment contracts, on the statement of net assets available for benefits.

Idearc Savings Plan

Notes to Financial Statements (continued)

2. Accounting Policies (continued)

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued FASB Accounting Standards Codification ("ASC") 105-10, *The Financial Accounting Standards Board Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles* (formerly Statement of Financial Accounting Standards (SFAS) 168). ASC 105-10 replaces SFAS 162, *The Hierarchy of Generally Accepted Accounting Principles*, and establishes the FASB Accounting Standards Codification ("the Codification") as the source of authoritative accounting principles recognized by the FASB to be applied by non-governmental entities in the preparation of financial statements in conformity with GAAP. The Codification became the exclusive authoritative reference at September 30, 2009. Updates to the Codification Standards are issued as Accounting Standard Updates ("ASU"s) by the FASB. The adoption of the Codification does not impact the Plan's financial statements except for references made to authoritative accounting literature in the footnotes.

Effective January 1, 2009, the Plan adopted the authoritative guidance under GAAP on determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. Accordingly, if the Plan determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. Valuation techniques such as an income approach might be appropriate to supplement or replace a market approach in those circumstances. The guidance also provides a list of factors to determine whether there has been a significant decrease in relation to normal market activity. Regardless, however, of the valuation technique and inputs used, the objective for the fair value measurement in those circumstances is unchanged from what it would be if markets were operating at normal activity levels and/or transactions were orderly, that is, to determine the current exit price. The adoption of this guidance did not have a material effect on the financial statements.

The Plan has adopted the authoritative guidance under GAAP for estimating the fair value of investments in investment companies that have calculated net asset value per share in accordance with the specialized accounting guidance for investment companies. Accordingly, in circumstances in which net asset value per share of an investment is not determinative of fair value, the Plan estimates the fair value of an investment in an investment company using the net asset value per share of the investment (or its equivalent) without further adjustment, if the net

Idearc Savings Plan

Notes to Financial Statements (continued)

2. Accounting Policies (continued)

asset value per share of the investment is determined in accordance with the specialized accounting guidance for investment companies as of the reporting entity's measurement date. The adoption of this guidance does not have a material effect on the financial statements. See Note 3 for additional information regarding investments valued using net asset value.

In 2009, the Plan adopted the FASB amendments to general standards on accounting for and disclosures of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. The adoption of this guidance did not materially affect the Plan's financial statements.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended ASC 820, *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2, and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

3. Fair Value Measurements and Investments

Other than the fair value of the SAIF and the adjustment from fair value to contract value for fully benefit-responsive investment contracts, as well as participant loans and related interest income, all investment information disclosed in the accompanying financial statements and notes and supplemental schedules, including investments held at December 31, 2009, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by JPMorgan Chase Bank, N.A., the trustee of the Plan. The contract value of the SAIF was certified as complete and accurate by the trustee. The value of participant loans at December 31, 2009, as well as the related interest income for the year ended December 31, 2009, was certified as complete and accurate by JPMorgan Retirement Plan Services LLC, as an agent for JPMorgan Chase Bank, N.A.

	December 31, 2009 <i>(In Thousands)</i>
Information not certified:	
Fair value of SAIF	\$ 55,090
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	\$ 2,358

In accordance with the authoritative guidance on fair value measurements and disclosures, the Plan discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 – Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, and inputs other than quoted prices that are observable for an asset or liability.

Idearc Savings Plan

Notes to Financial Statements (continued)

3. Fair Value Measurements and Investments (continued)

Level 3 – Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Committee. The Committee considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Following is a description of the valuation methodologies used for the Plan assets as of December 31, 2009, the Master Trust assets at December 31, 2008, and participant loans. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds: Shares of mutual funds are valued using published market prices, which represent the net asset value of shares held by the Plan at year-end.

Participant loans: Participant loans are valued at their outstanding balances, which approximate fair value.

Common collective trusts: Units of common collective trusts are valued by the issuer based on the fair values of the underlying investments, which represent the net asset value of units held by the Plan at year-end.

Idearc common stock: Investment in Idearc common stock is valued at the last reported sale price on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Committee believes the Plan's valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, the Plan assets and participant loans at fair value as of December 31, 2009 (dollars in thousands):

3. Fair Value Measurements and Investments (continued)

Investments Valued Using Net Asset Value

The Plan uses the Net Asset Value (the “NAV”) to determine the fair value of all the underlying investments which (a) do not have a readily determinable fair value, and (b) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principles of an investment company.

As of December 31, 2009, the Plan used NAV to value the investments in common/collective trusts. The fair value of these investments at December 31, 2009, was \$433,487. All common/collective trust investments are in open-ended funds with diversified investment strategies. The majority of the investments do not have any redemption restrictions; however, one fund, the T. Rowe Price High Yield Fund, imposes a 1% penalty on redemptions made within 90 days of the initial investment. The Plan has no unfunded commitments to these investments. The common/collective trusts consist of the following funds:

Index Funds: A fund with a portfolio constructed to match or track the components of a market index, such as the Standard & Poor’s 500 Index (S&P 500). An index fund is said to provide broad market exposure, low operating expenses, and low portfolio turnover.

LifePath Funds: A fund in the hybrid category that automatically resets the asset mix (stocks, bonds, cash equivalents) in its portfolio according to a selected time frame that is appropriate for a particular investor. A target-date fund is similar to a life-cycle fund except that a target-date fund is structured to address some date in the future, such as retirement.

Stable Value Fund: Stable value funds are comprised of mostly ‘synthetic GICs’ (known also as wrapped bonds) because of their inherent stability. These bonds can be short or intermediate term with longer maturities than other choices such as money market funds. They are paired (or wrapped) with insurance contracts to guarantee a specific minimum return. The fair value of this fund has been estimated based on the fair value of the underlying investment contracts in the fund as reported by the issuer. The primary goal of the fund is to seek current income while maintaining stability of invested principal.

4. Net Assets in Master Trust

The following schedule reflects the Master Trust's net assets by investment type (dollars in thousands):

	Net Assets in Master Trust at December 31, 2008	Plan's Percent Interest
Common/collective trusts at fair value	\$ 371,196	86%
Mutual funds	5,673	89%
Idearc common stock	208	94%
Master trust assets at fair value	377,077	86%
Adjustment to contract value	6,297	83%
Total adjusted net assets in Master Trust	<u>\$ 383,374</u>	86%

5. Income Tax Status

The Plan has not yet applied for an initial determination letter from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"). However, the Plan administrator believes that the Plan has been designed to comply with the requirements of the Code and has indicated that it will take the necessary steps, if any, to bring the Plan's operations and/or document into compliance with the Code.

6. Related-Party Transactions

Certain common/collective trust investments as of December 31, 2009 and certain Master Trust investments as of December 31, 2008, are units of common/collective trusts managed by the Trustee. Additionally, a portion of the Plan's assets at December 31, 2009 and 2008, was invested in Idearc common stock. Because Idearc is the Plan's sponsor, transactions involving Idearc common stock qualify as party-in-interest transactions. Each of the foregoing is exempt from the prohibited transaction rules.

7. Reconciliation of Financial Statements to Form 5500

Amounts related to the fully benefit-responsive investment contracts are recorded on the Form 5500 at fair value.

Effective at midnight on December 31, 2008, the North and South Plans were merged with and into the Plan. As of December 31, 2008, this merger was reflected on the Form 5500, but not on the financial statements. The assets were transferred at fair value on the 5500 and at contract value on the financial statements.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31

8. Commitments and Contingencies

On December 10, 2009, a former employee with a history of litigation against the Company filed a class action in the U.S. District Court for the Northern District of Texas, Dallas Division, against certain of the Company's current and former officers, directors and members of the Plan's Employee Benefits Committee. The complaint attempts to recover alleged losses to the various savings plans that were allegedly caused by the breach of fiduciary duties in violation of ERISA of the defendants in administering the plans from November 17, 2006 to March 31, 2009. The complaint alleges that the defendants wrongfully allowed all the plans to invest in Idearc common stock, alleges that the defendants made material misrepresentations regarding the Company's financial performance and condition, alleges the defendants had divided loyalties, alleges the defendants mismanaged the plan assets, and alleges certain defendants breached their duty to monitor and inform the committee members of required disclosures. The plaintiffs are seeking unspecified compensatory damages and reimbursement for litigation expenses. A class has not been certified. The plaintiffs have filed a consolidated complaint. The Company filed a motion to dismiss the entire complaint on June 22, 2010. The briefing on the motion is complete and the Company awaits the order of the Court. The Company plans to honor its indemnification obligations and vigorously defend the lawsuit on the defendants' behalf.

9. Subsequent Events

Effective January 1, 2010, the Idearc Savings Plan was renamed the SuperMedia Savings Plan.
