## Report of Independent Auditors

To the Participants and Benefits Administrative Committee of the
LyondellBasell Retirement Plan:

We were engaged to audit the financial statements of LyondellBasell Retirement Plan (Formally Lyondell Chemical Company Retirement Plan) (the "Plan") at December 31, 2009 and December 31, 2008 and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 8 and 9, which was certified by Bank of New York Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and December 31, 2008 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**LYONDELLBASELL RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS**

## 1. Description of Plan

*General* – The LyondellBasell Retirement Plan ("Plan") is sponsored by Lyondell Chemical Company ("Lyondell" or "Company") and is a defined benefit plan for employees of Lyondell Chemical Company, Basell USA Inc., and Equistar Chemicals, LP. The Plan is subject to the provisions of ERISA. Effective January 1, 2009, the Lyondell Chemical Company Retirement Plan was amended, restated, and continued as the LyondellBasell Retirement Plan. At that time all active, non-represented employees of Equistar Chemicals, LP and Basell USA Inc. became participants in the restated plan. Participants should refer to the Plan document for a complete description of the Plan.

On January 6, 2009, Lyondell was included among the debtors who filed voluntary petitions for relief under Chapter 11 of the U.S. Bankruptcy Code ("Chapter 11") in the U.S. Bankruptcy Court. The bankruptcy cases were jointly administered in the U.S. Bankruptcy Court under the caption "In re Lyondell Chemical Company, et al." The Plan of Reorganization provided that Lyondell would continue to maintain the Plan. On April 30, 2010, the Company emerged from Chapter 11 bankruptcy protection.

*Pension Benefits* – Eligible employees become participants in the Plan immediately upon employment and are fully vested in their benefits upon the earlier of completion of three years of service, death or attainment of age 65. For Plan benefits accrued prior to January 1, 2009, participants who meet the years of service requirement are entitled to annual pension benefits upon attaining the normal retirement age of 65, as defined in the Plan documents and the Plan permits early retirement commencing at age 55 at a reduced benefit level for participants with ten or more years of service as defined in the Plan. Participants receive their accumulated plan benefits as a monthly benefit payable upon retirement or an actuarial equivalent optional form available under the Plan. Benefits accrued through December 31, 2008 were calculated using the Plan's final average pay benefit formula as defined in the Plan. Benefits accrued from and after January 1, 2009 are calculated using the Plan's cash balance benefit formula as defined in the Plan. The cash balance formula credits dollar amounts as a percentage of pay (pay credits) and as a stated interest rate (interest credits). Certain participants are entitled to additional pay credits under the cash balance formula based on age and benefit service on December 31, 2008. Vested Plan benefits accrued from January 1, 2009 are payable upon separation from service.

*Death Benefits* – If an active employee dies, death benefits, as described in the Plan document, are paid to the employee's beneficiary.

Voluntary contributions are not permitted under the terms of the Plan. A predecessor plan, the Atlantic Richfield Retirement Plan ("ARCO Plan"), allowed, but did not require, participants to make voluntary contributions through February 1993 (See Note 6).

The Plan is administered by the Benefits Administrative Committee ("BAC"). Mercer is the Plan's recordkeeper and actuary. Plan assets are maintained in the Lyondell Chemical Company Retirement Master Trust ("Master Trust") under the custody of The Bank of New York Mellon ("Trustee"). Management of portfolio assets is directed by external investment managers hired and monitored by the Benefits Finance Committee ("BFC"). Both the BAC and BFC consist of individuals appointed by the Lyondell Chemical Company Board of Directors.

On August 17, 2006, the Pension Protection Act of 2006 ("PPA"), a comprehensive pension reform legislation which revised many rules surrounding defined benefit plans was signed into law. The Plan was timely amended in 2009 as required under the PPA.

*Plan Receivables* – The Plan paid benefits on behalf of the Basell Retirement Income Plan, Basell Pension Plan and Basell Hourly Employees at Edison NJ participants.

**2. Summary of Significant Accounting Policies**

*Basis of Accounting* – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America using the accrual method of accounting.

*Reclassifications* – Certain reclassifications have been made to the fair value note to conform to current year presentation.

*Accounting and Reporting Changes* – On July 1, 2009, the Financial Accounting Standards Board (the "FASB") released the authoritative version of its new Accounting Standards Codification ("ASC") as the single source for Generally Accepted Accounting Principals ("GAAP"), which replaces all previous GAAP accounting standards. While not intended to change GAAP, the ASC significantly changes the way in which the accounting literature is organized. The Plan adopted the ASC to reference GAAP accounting standards in its December 31, 2009 financial statements. The adoption of ASC does not impact the Plan's financial statements except for references made to authoritative accounting literature in footnotes.

In September 2006, the FASB issued ASC 820, *Fair Value Measurements and Disclosures.* ASC 820 provides a common definition of fair value and a framework for measuring assets and liabilities at fair values when a particular standard prescribes and expands disclosures about fair value measurements. The Company adopted the new accounting standard for plan years beginning January 1, 2008. The adoption did not have a material impact on the Plan's financial statements.

On October 10, 2008, the FASB issued ASC 820-10-65-2, *Determining the Fair Value of a Financial Asset When the Market for that Asset is Not Active,* which clarifies the application of ASC 820 in a market that is not active. The update provides additional guidance regarding how the reporting entity's own assumptions should be considered when relevant observable inputs do not exist, how available observable inputs in a market that is not active should be considered when measuring fair value, and how the use of market quotes should be considered when assessing the relevance of inputs available to measure fair value. The guidance became effective immediately upon issuance. The additional guidance with respect to the valuation of its financial assets and liabilities and their corresponding designation within the fair value hierarchy was considered. The Company adopted this guidance on December 31, 2008. The adoption did not have a material impact on the Plan's financial statements.

On May 28, 2009, the FASB issued ASC 855, *Subsequent Events*, which establishes general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Although there is new terminology, the standard is based on the same principles as those that currently exist in the auditing standards. The Company adopted the standard, which includes a new required disclosure of the date through which an entity has evaluated subsequent events, on December 31, 2009. The adoption did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued additional guidance on improving disclosures regarding fair value measurements. The Accounting Standards Update 2010-06 amends ASC 820-10, *Fair Value Measurements and Disclosures.* This update requires entities to disclose the amounts of significant transfers between Level 1 and Level 2 of the fair value hierarchy and the reasons for these transfers, as well as the reasons for any transfer in or out of Level 3. The update further clarified the existing disclosure requirements in ASC 820-10 regarding: i) the level of disaggregation of fair value measurements; and ii) the disclosures regarding inputs and valuation techniques. This update will be effective January 1, 2010, except for the gross presentation of the Level 3 transfers in and transfers out information, which is effective for the current fiscal year. The Company is currently evaluating both the timing and the impact of the adoption of this amendment.

*Use of Estimates* – The preparation of the Plan's financial statements requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits at the date of the financial statements and the changes in net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

*Investment Valuation and Income Recognition* – A separate account for the Plan is maintained by the Master Trust reflecting the Plan's share of the Master Trust. Investments of the Master Trust traded on national or foreign securities exchanges are valued based upon quoted market prices on the last business day of the period presented. Short term and certain other investments are valued at cost, which approximates market value. Interest in the Master Trust is determined on a monthly basis and is based upon the beginning of the month value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and an allocation of administrative expenses. See Note 10 for discussion of fair value measurements.

From time to time the Master Trust's investment managers may use derivative financial instruments including forward exchange contracts and future contracts. Derivative instruments are used primarily to mitigate exposure to foreign exchange rate and interest rate fluctuations as well as manage the investment mix in the portfolio. The Master Trust's interest in funds which utilize such financial instruments is not considered significant to the Plan's financial statements.

Purchases and sales of securities by the Master Trust are accounted for on the trade date (the date the order to buy or sell is originated). Gains or losses on the sale or distribution of securities are computed on a first-in, first-out basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. The net appreciation or depreciation in the fair value of investments, which consist of the realized gains or losses and the unrealized appreciation or depreciation on those investments, is included in investment income (loss) in the Statement of Changes in Net Assets Available for Benefits.

Interest and dividends earned, net appreciation or depreciation in the fair value of investments, and expenses incurred under the collective investment accounts of the Master Trust are allocated to the Plan based upon each plan's average monthly investment balance in the Master Trust. See Note 10 for discussion of fair value measurements.

*Risks and Uncertainties* – The Master Trust invests in a combination of common stocks, mutual funds, corporate bonds, commingled funds, open ended real estate funds and short-term investments. Investment securities are exposed to various risks, such as market and credit risks. Changes in the values of investment securities will continue to occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

*Payment of Benefits* – Benefit payments to participants are recorded upon distribution and are paid by the Master Trust.

*Administrative Expenses* – Certain administrative expenses are paid by the Plan and Plan sponsor.

## 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that employees have rendered as of the beginning of the plan year. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan that were accrued prior to January 1, 2009 are based upon the employee's average of the

highest annual eligible earnings for any consecutive three-year period of the employee's service during the employee's last ten years of service. If the employee's total service is less than three years, the benefits are based upon the average annual eligible earnings for the employee's entire period of service. Benefits accrued under the plan from January 1, 2009 are based on a notional cash balance account. Benefits payable under all circumstances, including retirement, death, and termination of employment, are included to the extent that the circumstances are deemed attributable to employee services rendered up to the valuation date.

The 2008 actuarial present value of accumulated plan benefits was determined by the Plan's actuary, Mercer. The actuarial method used to determine the present value of accumulated plan benefits is the projected unit credit actuarial cost method. The more significant assumptions underlying the actuarial valuation are as follows:

| | December 31, 2008 |
|---|---|
| Investment return | 8.0% per year |
| Mortality table | RP-2000 Combined annuitant and nonannuitant healthy mortality table (sex distinct) projected 6 years with no collar adjustment |
| Assumed average retirement age | 61 years of age |

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based upon certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

In the Statement of Changes in Accumulated Plan Benefits the change in actuarial assumptions is $ 16,517,499 which represents changes since January 1, 2008. The bankruptcy of Lyondell triggered certain benefit restrictions which prevent the Plan from paying any accelerated benefits such as lump sums, as defined by the Plan.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

## 4. Funding Policy

The contributions by Lyondell are designed to fund an amount as required under applicable regulations as determined under the standard unit credit method, as adopted January 1, 2008, under the PPA. Fluctuations in the return (interest, dividends, and net appreciation or depreciation in fair value) on investments of the Plan from the assumed rate serve to reduce or increase future contributions required to provide for the benefits defined under the Plan.

Under the provisions of ERISA, the Plan's actuaries determined that no contributions were required for the years ended December 31, 2009 or 2008.

## 5. Plan Termination

Although it has not expressed any intention to do so, Lyondell has the right, under the terms of the Plan document, to discontinue its contributions at any time and to terminate the Plan, subject to provisions set forth under ERISA. Participants' retirement allowances under the Plan are insured to the extent required by law through the Pension Benefit Guaranty Corporation ("PBGC"). If the Plan were to be terminated, priorities of payment of benefits would be made in accordance with the requirements under ERISA.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

## 6. Voluntary Contributions

Until February 1993, the ARCO Plan allowed, but did not require, participants to make voluntary contributions. Such contributions are either distributed upon termination of employment or, in certain cases, may be converted into an annuity to supplement the regular retirement benefit. As of December 31, 2009 and 2008, voluntary contributions and the accumulated investment income thereon, held in the Master Trust, totaled $882,185 and $776,897, respectively. Interest earned on these funds is at a current market rate for government interest bearing obligations.

## 7. Tax Status

The Internal Revenue Service issued a determination letter dated May 16, 2003, stating that the Plan and related Master Trust are designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has been amended since receiving the determination letter. However, the BAC believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Accordingly, no provision is made for federal income taxes.

## 8. Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements are complete and accurate:

- Plan interest in the Master Trust, at fair value
- Investment income (loss) from the Master Trust
- Investment information as shown in Note 9 and Note 10

## 9. Interest in Lyondell Chemical Company Retirement Master Trust

The Master Trust is a pooled investment Master Trust composed of the beneficial interests of certain participating defined benefit plans ("Master Trust Plans") of Lyondell and certain of its subsidiaries and affiliates. The Master Trust consists of a portfolio of investments in a combination of common stocks, mutual funds, corporate bonds, commingled funds, open ended real estate funds and short-term investments; all of which are held by the Master Trust.

On April 1, 2009, the Basell Retirement Income Plan, Basell Pension Plan, and Basell Pension Plan for Hourly Employees at Edison, NJ merged into the Master Trust. The net assets of these plans, totaling $139,514,011, were transferred into the Master Trust.

Master Trust Plans do not own specific securities or other assets in the Master Trust but have an undivided interest in the Master Trust. At December 31, 2009 and 2008, the Plan's undivided interest in the investment holdings of the Master Trust, consisting of total investments, receivables from sales of securities, accrued interest, dividends and payables from purchases of securities, and other payables and receivables, was approximately 31% and 34% respectively. Investment income (loss) related to the Master Trust is allocated to the Master Trust Plans based upon each plan's average monthly investment balance in the Master Trust.

Net assets of the Master Trust as of December 31, 2009 and 2008 are as follows:

| | December 31, | |
|---|---|---|
| | 2009 | 2008 |
| Assets | | |
| Investments, at fair value: | | |
| Common stocks | $ 384,119,102 | $ 118,959,816 |
| Fixed income securities | 298,355,106 | 491,911,569 |
| Convertible securities | 1,846,813 | 979,500 |
| Comingled funds | 393,064,461 | 220,566,257 |
| Short term investments | 19,554,506 | 23,512,788 |
| Real estate | 36,372,346 | 54,473,905 |
| Total investments | 1,133,312,334 | 910,403,835 |
| Receivables: | | |
| Sales of securities | 7,755,311 | 103,740,061 |
| Accrued interest and dividends | 13,687,964 | 3,460,175 |
| Total receivables | 21,443,275 | 107,200,236 |
| Cash | 1,158 | 2,569,937 |
| Total assets | 1,154,756,767 | 1,020,174,008 |

| Purchase of securities | 11,292,755 | 155,325,102 |
| Total liabilities | 22,244,507 | 158,303,391 |
| Net assets | $ 1,132,512,260 | $ 861,870,617 |

The components of total investment income (loss) of the Master Trust for the years ended December 31, 2009 and 2008 are as follows:

| | 2009 | 2008 |
|---|---|---|
| Investment income (loss): | | |
| Net appreciation (depreciation) in fair value of investments: | | |
| Corporate stocks | $ 118,927,858 | $ (243,289,834) |
| Corporate bonds | 34,015,392 | (161,035,835) |
| Government bonds | 2,011,085 | (23,821,222) |

| Total investment income (loss) | $ 242,272,845 | $ (399,841,826) |

**10. Fair Value Measurements**

As discussed in Note 2, the Plan adopted ASC 820, *Fair Value Measurements and Disclosures*, as of January 1, 2008. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified under the following hierarchy:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Valuation methodologies used for major investment types measured at fair value include:

*Common stocks and fixed income securities* – Valued at the closing price reported on the active market on which the individual securities are traded.

*Comingled funds* – Valued based upon the unit values of such collective trust funds held by the Master Trust at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from, or corroborated by, observable market data by correlation or other means.

*Short term investments* – Valued at the quoted prices for similar assets or liabilities in active markets.

*Real estate* – Valued on the basis of a discounted cash flow approach, which includes the future rental receipts, expenses, and residual values as the highest and best use of the real estate from a market participant view as rental property.

*Convertible securities* – Valued at the quoted prices for similar assets or liabilities in active markets.

The following table sets forth by level, within the fair value hierarchy, the Master Trust assets at fair value as of December 31, 2009:

| | | Basis of Fair Value Measurement | | |
|---|---|---|---|---|
| | Balance at December 31, 2009 | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Common stocks | $ 384,119,102 | $ 384,119,102 | $ - | $ - |
| Fixed income securities | 298,355,106 | 40,728,371 | 257,626,735 | - |
| Comingled funds | 393,064,461 | 352,486,135 | 40,578,326 | - |
| Short term investments | 19,554,506 | 19,245,467 | 309,039 | - |
| Real estate | 36,372,346 | - | - | 36,372,346 |
| Convertible securities | 1,846,813 | - | 1,846,813 | - |
| Total investment in Master Trust | $ 1,133,312,334 | $ 796,579,075 | $ 300,360,913 | $ 36,372,346 |

The following table sets forth by level, within the fair value hierarchy, the Master Trust assets at fair value as of December 31, 2008:

| | | Basis of Fair Value Measurement | | |
|---|---|---|---|---|
| | Balance at December 31, 2008 | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Common stocks | $ 118,959,816 | $ 118,959,816 | $ - | $ - |
| Fixed income securities | 491,911,569 | 138,640,089 | 353,271,480 | - |
| Comingled funds | 220,566,257 | 212,249,000 | 8,317,257 | - |
| Short term investments | 23,512,788 | 23,212,797 | 299,991 | - |
| Real estate | 54,473,905 | - | - | 54,473,905 |
| Convertible securities | 979,500 | - | 979,500 | - |
| Total investment in Master Trust | $ 910,403,835 | $ 493,061,702 | $ 362,868,228 | $ 54,473,905 |

The following table sets forth a summary of changes in the fair value of the Master Trust level 3 assets for the year ended December 31, 2009:

| | Real estate |
|---|---|
| Balance, beginning of year | $ 54,473,905 |
| Realized gains | 2,082,388 |
| Unrealized losses relating to instruments | (26,489,004) |
| Purchases, sales, issuances, and settlements, net | 6,305,057 |
| Balance, end of year | $ 36,372,346 |

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable vale or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## 11. Subsequent Events

On January 1, 2010, the non-represented employees of Houston Refining LP and Equistar Chemicals, LP became eligible to participate in the Plan.

On April 30, 2010, the Company emerged from Chapter 11 bankruptcy protection.

The Company has evaluated subsequent events through October 14, 2010, the date the financial statements were issued.

### *Asset methods – effective January 1, 2009*

We used financial data submitted by the trustee as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an annual average of the adjusted market value over the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset valuation method is that over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than market.

### *Participant methods – effective January 1, 2009*

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** The liabilities for participants on long-term disability have been included with the liabilities for terminated vested participants if the disability occurred on or after July 1, 2002 and with the liabilities for actives otherwise. Participants who became disabled prior to July 1, 2002 and before retirement continue to earn credited service during their disability, but no later than December 31, 2008.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for active participants.

### *Benefits included or excluded – effective January 1, 2009*

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.

**Schedule SB, Part V – Statement of actuarial assumptions/methods** (continued)

- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement. The Plan distributes benefits to active participants who work beyond age 70 1/2.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increases. The Plan distributes benefits to all deferred vested participants upon attaining age 65.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **IRC Sections 401(a)(17) and 415(b):** The limitations of Internal Revenue Code Sections 401(a)(17) and 415(b) have been incorporated into our calculations, as applicable.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.

### *Plan sponsor elections*

**Funding interest rate – effective January 1, 2009:**

- Full yield curve
- 2 lookback months

**Asset valuation method – effective January 1, 2009:**

- Average adjusted market value
- Annual
- 25 months

**Mortality assumption – effective January 1, 2008:**

- PPA separate static annuitant and nonannuitant mortality tables

**Treatment of insurance contracts – effective January 1, 2008:**

- Not applicable

**Valuation of lump sums based on Section 417(e) – effective January 1, 2008:**

- Lump sum benefit based on annuity substitution liability
- Adjustment to reflect five-year phase-in of PPA rates was not used

**Schedule SB, Part V – Statement of actuarial assumptions/methods** (continued)

### *Minimum funding method*

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **accrued liability** is the present value of benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **normal cost** is the present value of the benefit deemed to accrue in the plan year. If multiple decrements are used, the accrued liability and the normal cost for an individual are the sum of the component accrued liabilities and normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual normal costs, and the plan's **funding target liability** is the sum of the accrued liabilities for all participants under the plan.

### *Maximum deductible contribution method*

Calculations of maximum deductible contributions include the excess of the accrued liability computed using the projected unit credit method over the minimum funding target liability. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected accrued liability** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the accrued liability for an individual is the sum of the component accrued liabilities associated with the various anticipated separation dates.
- The plan's **projected funding target liability** is the sum of the projected accrued liabilities for all participants under the plan.

## Schedule SB, Part V – Summary of plan provisions

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

| | |
|---|---|
| Effective date and plan year | April 1, 1989. The plan was amended and restated effective January 1, 2009. The plan year is the calendar year. |
| Status of plan | The plan has ongoing benefit accruals and new employees are eligible to participant in the plan once they satisfy the participation requirements. |
| Significant events that occurred during the year | LyondellBasell Industries filed for bankruptcy on January 6, 2009, triggering benefit restrictions on accelerated forms of payment. Employees of Equistar Chemicals, LP and Basell were added to the plan on January 1, 2009. |

Effective January 1, 2009, covered employees accrue benefits under a cash balance formula. Benefits accrued by salaried employees under the plan in effect prior to January 1, 2009 ("prior plan") were frozen.

Salaried employees (prior to January 1, 2009)

| | |
|---|---|
| Covered employees | All persons employed by the Company, both full and part time, except<br>(i) project and leased employees,<br>(ii) any division or group of employees excluded by the Board of Directors, and<br>(iii) Lake Charles and Beaver Valley hourly employees. |
| Participation date | The completion of two years of service, reduced to one year after June 30, 2002. Immediate participation is provided for:<br>(i) any salaried participant of the Retirement Plan for Former ARCO Chemical Employees (former ACC participants), and<br>(ii) any covered employee of Lyondell Chemical Company as of June 30, 2002.<br>After December 31, 2008, prior plan benefits were frozen. |

**Schedule SB, Part V – Summary of plan provisions** (continued)

| **Definitions** | |
|---|---|
| Membership service | All employment with the Company including:<br>(i) any service period recognized for benefit accrual and/or vesting under the terms of any prior plan, including previously excluded services due to minimum age or service requirements,<br>(ii) any period during military or other types of leave of absence granted by the Company, and<br>(iii) the period of layoff due to lack of work or economic or industrial reasons not to exceed one year.<br>Service while employed by Houston Refining LP or Equistar Chemicals, LP and their subsidiaries or affiliates shall also be included for purposes of vesting, participation, and eligibility for early retirement. This service shall not be included for purposes of benefit accrual. Membership service for prior plan benefit accruals were frozen as of December 31, 2008. |
| Vesting | For participants of the plan on or before June 30, 2002, participants were fully vested as of their participation date. On or after July 1, 2002, participants are fully vested after completion of five years of service. On or after January 1, 2009, participants are fully vested after completion of three years of service. |
| Transition participant | Both age 50 or older and at least five years of vesting service as of June 30, 2002. |
| Annual base pay | Base salary wages excluding all extra pay such as overtime, premiums, bonuses, or other allowances. Base wages deferred under the Company's Executive Salary Deferral Plan are also excluded. |
| Average final base pay | The average of the highest three consecutive calendar years of annual base pay during the member's last ten years of membership service ending December 31, 2008. For NOVA transferees, their average final base pay is calculated as their average base pay as of September 30, 1996 indexed at 3% per year. |
| Accumulated contributions | Voluntary contributions or contributions previously required for membership, with interest compounded annually. |
| Social Security integration level | Frozen at $28,600 in 2008. |

**Schedule SB, Part V – Summary of plan provisions** (continued)

| | |
|---|---|
| Part A benefit, not former ACC participants | The sum of:<br>(i) 1.18% of average final base pay, not exceeding Social Security integration level, times years of membership service prior to July 1, 2002 not in excess of 35 years; plus<br>(ii) 1.54% of average final base pay in excess of Social Security integration level, times years of membership service prior to July 1, 2002 not in excess of 35 years; plus<br>(iii) 1.45% of average final base pay times membership service prior to July 1, 2002 in excess of 35 years. |
| Part A benefit, former ACC participants | The sum of:<br>(i) 1.15% of average final base pay up to Social Security integration level, times membership service prior to July 1, 2002 not in excess of 15 years; plus<br>(ii) 1.5% of average final base pay in excess of Social Security integration level, times membership service prior to July 1, 2002 not in excess of 15 years; plus<br>(iii) 1.25% of average final base pay, up to Social Security integration level, times years of membership service prior to July 1, 2002 in excess of 15 years, but not in excess of 35 years; plus<br>(iv) 1.6% of average final base pay in excess of Social Security integration level, times membership service prior to July 1, 2002 in excess of 15 years, but not in excess of 35 years; plus<br>(v) 1.6% of average final base pay times membership service prior to July 1, 2002 in excess of 35 years. |
| Part A minimum benefit | Member's accrued benefit as of June 30, 2002. |
| Part B benefit | 1.45% of average final base pay times membership service accrued beginning July 1, 2002. |
| Monthly pension benefit | One-twelfth of the Part A benefit plus Part B benefit, not less than Part A minimum benefit. |

### *Benefits included or excluded – effective January 1, 2009*

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement. The Plan distributes benefits to active participants who work beyond age 70 1/2.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are not valued including the late retirement actuarial increases. The Plan distributes benefits to all deferred vested participants upon attaining age 65.
- **Shutdown benefits:** We are not aware of any corporate actions that would create shutdown benefits; therefore, they are excluded.
- **IRC Sections 401(a)(17) and 415(b):** The limitations of Internal Revenue Code Sections 401(a)(17) and 415(b) have been incorporated into our calculations, as applicable.
- **Benefit restrictions:** Benefit restrictions (if applicable) are ignored in this valuation.

## Schedule SB, Line 24 – Change in actuarial assumptions

- The salary increase assumption was changed from 4.5% per year to 0% for 2009 and 4.5% per year thereafter.
- The cash balance assumptions are new for 2009.

## Schedule SB, Line 25 – Change in method

- Beginning with the 2009 valuation, expected expenses are added to the normal cost.
- The asset method was changed from the fair market value to the average adjusted market value.
- The funding interest rate was changed from the segmented yield curve with no phase-in and 4 month lookback to the full yield curve with 2 month lookback.
