REPORT OF INDEPENDENT AUDITORS

To the Trustees of the
Crane Plumbing L.L.C. Retirement Plan
Rosemont, Illinois

We were engaged to audit the statements of net assets available for benefits of Crane Plumbing L.L.C. Retirement Plan as of December 31, 2009 and 2008 and the related statements of changes in net assets available for benefits for the years then ended and the statements of accumulated plan benefits as of December 31, 2008 and 2007, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2008 and the 2009 supplemental schedules, as listed in the accompanying contents page. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008 that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CRANE PLUMBING L.L.C. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of certain provisions of Crane Plumbing L.L.C. Retirement Plan ("the Plan") is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan, established in 1984, is a defined benefit pension plan covering substantially all hourly employees at Crane Plumbing L.L.C. ("the Company" or "the Employer") plants located in Ferguson, Kentucky; Nevada, Missouri; Somerset, Pennsylvania; and Mansfield, Ohio pursuant to a collective bargaining agreement. Principal Life Insurance Company ("Principal") serves as custodian of the Plan's assets. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: Employees are eligible as of their date of employment if they are represented for collective bargaining purposes by the unions and locals stipulated in the Plan. Eligible employees also include employees previously covered under the Ferguson Salaried Bargaining Agreement. Artesian employees are eligible to participate at the later of their hire date or August 18, 1992. Effective July 1, 2006, the Plan was frozen for new plan participation and future benefit accruals for the Nevada, Missouri location participants included in the Plan. Effective February 1, 2008, the Plan was frozen for new plan participation and future benefit accruals for the Mansfield, Ohio location participants included in the Plan. Both the Ferguson, Kentucky and Somerset, Pennsylvania locations were closed on February 15, 2006, and September 23, 2005, respectively.

Pension Benefits: Upon normal retirement at age 65, participants are entitled to receive a monthly benefit based on years of service. Participants receive between \$15.00 and \$24.00 per month for every year of service, with a maximum of 35 years of service.

Benefits Payments: A participant may elect to have the retirement benefit paid in accordance with any one of the optional methods of payment under the Plan's group annuity contract, which are as follows:

- A straight-life annuity for the lifetime of the participant without death benefit.
- A life annuity with a period certain (5, 10, or 15 years) for the lifetime of the participant, and if the death of the participant occurs prior to the end of the period certain, the balance of the remaining period certain are paid to the named beneficiary.
- A survivorship annuity for the lifetime of the participant and, upon death, a survivorship percentage of either 50%, 66 2/3%, or 100% of such annuity for the lifetime of the named beneficiary.

Death, Disability Benefits, and Early Retirement: If a vested participant dies before pension benefits have commenced, the eligible employee's named beneficiary shall receive a percentage of the monthly retirement benefit that would have been received if the participant had retired on the day coinciding with the date of his or her death with a qualified joint survivor pension.

A participant who has completed 10 years of vesting service who becomes totally disabled before his/her normal retirement date is eligible for disability benefits for as long as he/she is disabled, and until his/her normal retirement date, at which time pension benefit payments will begin.

A participant may elect to receive early retirement benefits at the completion of 10 years of vesting service and attainment of age 60. The amount of early retirement benefit is determined using the participant's accrued benefit at the normal retirement date reduced by a percentage for each year the early retirement date precedes the participant's normal retirement date.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Vesting: Participants who have completed at least five years of vesting service or who attain the age of 65 become fully vested. Vesting service is determined on an elapsed time basis. Participant employees at Artesian on August 18, 1992 who have attained age 60 will have their prior service included in the calculation of their vested service. Active members of the employee retirement plan previously maintained by Crane Co. are active members of the Plan as of their entry date in the Crane Co. Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: All investments are reported at estimated fair value as determined by the custodian. Purchases and sales are recorded on a traded-date basis. Interest income is recorded as earned on an accrual basis.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts: The fair values of participation units held in pooled separate accounts are based on their net asset values, as reported by the managers of the pooled separate accounts and as supported by the unit prices of actual purchase and sale transactions occurring as of, or close to, the financial statement date (level 2 inputs). With the exception of the Principal U.S. Property Separate Account (Property Account), each of the pooled separate accounts invests in stocks, fixed securities and mutual funds. With the exception of the Property Account, each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per share or per unit, as applicable. Due to illiquidity of the

underlying assets of the Property Account, which consist primarily of commercial real estate, Principal Financial Group (Principal) has imposed a freeze upon all withdrawals from the Separate Account other than distributions upon death and disability. The duration of the blackout period for such withdrawals is uncertain; however, Principal has reported that the backlog of withdrawal requests will eventually be processed, as funds become available, in accordance with the order in which the requests have been received. While the fair value of the Plan's interest in the Property Account has been determined based upon the net asset value of the Property Account, this fair value measurement is reported as including Level 3 inputs because of the nature of the redemption restrictions.

Unallocated investment contract: The fair value of the Plan's investment contract reflected in the level 3 reconciliation was valued using a cash-out factor based on an associated pool of general account assets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Ending balance, December 31, 2008	<u>\$ 783,083</u>

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their accrued benefits as of the date of which the benefit information is presented (the valuation date). Benefits payable under all circumstances, such as retirement, death, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

December 31, 2009 and 2008

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The effect of plan amendments on accumulated plan benefits is recognized during the year in which an amendment is approved, with the exception of plan mergers which are recorded as of the effective merger dates.

The significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits at December 31, 2008 and 2007 are as follows:

- | | |
|--------------------------------------|--|
| A. Assumed settlement interest rate: | 6.5% for 2008 and 2007 |
| B. Average assumed retirement age: | Later of age 65 and 5 years of service |
| C. Mortality: | 2009 and 2008 Static Mortality Table |

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2009 has not yet been completed.

Contribution and Funding Policy: The Company's funding policy is to make quarterly contributions to the Plan to meet minimum funding requirements, as determined by the Plan's independent actuary. The Company's contributions to the Plan for the years ended December 31, 2009 and 2008 satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

Use of Estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date; the changes in net assets available for benefits and actuarial present value of accumulated plan benefits during the reporting period; and when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. The actuarial present value of accumulated plan benefits and the fair values of certain pooled separate accounts are particularly subject to change in the near term.

Risks and Uncertainties: Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing natures of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term, and due to the uncertainties inherent in setting assumptions, the effect of such changes could be material to the financial statements.

December 31, 2009 and 2008

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

The Plan provides for investment in various securities that are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses: Fees are paid by the Plan to Principal for custodial and record keeping services. Expenses incurred for other services, such as lawyers, actuaries, and accountants, and premiums paid to the Pension Benefit Guaranty Corporation ("PBGC") are paid by the Company, which can elect to have such expenses paid by the Plan. The Company elected to have the plan pay PBGC in the amounts of \$0 and \$41,444 in 2009 and 2008, respectively.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

NOTE 3 - INVESTMENTS – UNAUDITED INFORMATION

The plan administrator has elected the method of compliance as permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Principal Life Insurance Company, which holds investment assets and executes investment transactions therein, is responsible for the maintenance of all accounting records and the preparation of reports of activity relative to the Plan's investment assets. They have certified to the plan administrator the completeness and accuracy of substantially all investment information set forth in the financial statements. This information has not been audited by independent accountants.

The following table presents the fair values of investments, as well as individual investments that represent 5% or more of the Plan's net assets, at December 31, 2009 and 2008:

NOTE 3 - INVESTMENTS – UNAUDITED INFORMATION (Continued)

During the years ended December 31, 2009 and 2008, the Plan's investments (including investments bought, sold, as well as held during the year) appreciated (depreciated) in value as follows:

	For the Year Ended December 31, <u>2009</u>	For the Year Ended December 31, <u>2008</u>
Guaranteed Investment Contract	\$ -	\$ 6,464
Pooled Separate Account	<u>2,128,214</u>	<u>(5,347,410)</u>
Net appreciation (depreciation)	<u>\$ 2,128,214</u>	<u>\$ (5,340,946)</u>

During the years ended December 31, 2009 and 2008, the Plan's investments earned interest income of \$0 and \$2,743, respectively.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated July 13, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and is being operated in compliance with applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan continues to qualify and that the related trust is tax-exempt.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. All of the Plan's investments are issued by Principal Life Insurance Company, the custodian of the Plan. Accordingly, these investments qualify as party-in-interest investments.

Fees paid by the Plan for investment management and recordkeeping services amounted to \$18,657 and \$12,957 for the year ended December 31, 2009 and 2008, respectively, which qualifies as party-in-interest transactions.

NOTE 7 - RESTRICTIONS ON AN INVESTMENT

Principal Financial Group has announced that effective September 26, 2008 it has placed contractual limits on participant withdrawals from its U.S. Property Separate Account (Separate Account), managed by Principal Real Estate Investors, LLC, due to liquidity constraints of the Separate Account which invests primarily in commercial real estate. Outstanding withdrawal requests will be paid proportionately with other pending requests as sufficient cash becomes distributable, as determined by Principal Life Insurance Company. Payments will be based upon the unit value as of the date of the distribution. Regular processing of all withdrawal transactions will resume once the Principal U.S. Property Separate Account has adequate liquidity and all withdrawal requests that had been subject to the limitation have been satisfied. Death and disability benefits are not affected by this limitation and will be processed as usual. In addition, transfers and contributions into this Separate Account are being accepted as usual. The Plan holds approximately \$535,740 and \$783,083 in the U.S. Property Separate Account as of December 31, 2009 and 2008, respectively.

NOTE 8 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 14, 2010, which is the date the financial statements were available to be issued.

Effective January 1, 2010, the Plan was merged into the AS America, Inc. Hourly Pension Plan. All plan assets have been transferred as a result of the merger.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Trustee Expenses Included in Target Normal Cost

\$12,957 (Estimated 2009 expenses are equal to the actual administrative expenses paid in 2008).

Expected Return on Assets
2008 Plan Year

6.43%

Actuarial Method

Amount of Benefits (continued)

Early

Equal to the accrued benefit at normal retirement multiplied by the factor shown below:

Number of Years Early Retirement Precedes Normal Retirement	Early Retirement Factor
1	.9333
2	.8667
3	.8000
4	.7333
5	.6667

Postponed

Calculated in the same manner as the normal retirement benefit continuing to credit average monthly compensation through the postponed retirement date. If a participant's retirement date is after the calendar year in which he attains age 70½, his accrued benefit shall be actuarially increased to take into account the period after age 70½ in which he was not receiving any benefit under the plan.

Vested

Calculated in the same manner as the normal retirement benefit based on years of service at termination. Benefit is reduced on the same basis as an early retirement benefit.

Disability

Accrued benefit payable beginning the date of disability and continuing through the earlier of participant's date of retirement, date of death, or death participant is no longer totally and permanently disabled.

Death

50% of the benefit the participant would have been entitled to receive if he had terminated on the date of his death and commenced receiving the benefit as a joint and 50% survivor annuity on the date he would have first been eligible to receive a retirement benefit had he lived to that date.

Benefit commences on the later of participant's death or the participant's attainment of early retirement age and continues for the remaining lifetime of the surviving spouse.

Participant must be vested at the time of his death and continuously married for the one-year period ending on the date of death.

Normal Form of Payment

- (a) Unmarried participants—single life annuity
- (b) Married participants—joint and 50% survivor annuity actuarially equivalent to single life annuity
- (c) Lumps sums less than \$1,000 are paid automatically to participants. Lumps sums greater than \$1,000 are not payable.

Changes in Plan Provisions since Prior Year

- An increase in the annual pay limit under IRC Section 401(a)(17) from \$230,000 in 2008 to \$245,000 in 2009.
- An increase in the annual maximum benefit limit under IRC Section 415 from \$185,000 in 2008 to \$195,000 in 2009.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

The actuarial valuation was conducted on an ongoing (not termination) basis using personnel data furnished as of January 1, 2009 by American Standard Brands. Asset information and the dates and amounts of contributions are based on information supplied by American Standard Brands.

The funding valuation mortality assumption changed from the 2008 Static Mortality for Annuitants and Non-Annuitants Annuitants Per §1.430(h)(3)-1(e) to the 2009 Static Mortality Table for Annuitants and Non-Annuitants Per §1.430(h)(3)-1(e).

The target liability was calculated using the full yield curve based on corporate bond rates for October 2008. As such, "2" was entered on line 21b as the applicable lookback month.

The enrolled actuary changed from Howard Freidin at Deloitte Consulting LLP to Robert Eaker at Hewitt Associates LLC.

Schedule SB, line 25—Change in Funding Method

The funding valuation reflects the following changes:

- A change in the asset valuation method from a Market Value method to the 2-point, 1-year smoothed value method as of January 1, 2009.
- A change in the interest rate assumption from the full yield curve with no lookback (December 2007 yield curve) to the full yield curve with a two month lookback (October 2008 yield curve).
- The Target Normal Cost is loaded by the prior year's administrative expenses.

Note that these changes will affect the comparability of the funding valuation results for the 2009 plan year and the funding valuation results for prior plan years.

These changes have automatic approval under final regulations, Notice 2009-22 or other IRS guidance.
