## 1. Description of the Plan

The following description of the Aleris International, Inc. 401(k) Plan for Sheet Metal Workers International Association, Local Union 5, AFL-CIO (Roxboro) (the "Plan") is provided for general information only. Participants should refer to the Plan document for a complete description of the Plan's provisions.

### General

The Plan is a defined contribution retirement plan established by ALSCO Metals Corporation, a subsidiary of Aleris International, Inc. (the "Company" or "Plan Sponsor") effective January 1, 2008, covering all collectively bargained employees of the Company's aluminum plant in Roxboro, North Carolina. An employee not covered by a collective bargaining agreement or covered by a collective bargaining agreement that does not provide for participation in the Plan is an excluded or non-eligible employee. Other excluded employees are leased employees or a nonresident alien with no U.S. source income. The Plan is designed to conform to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective January 1, 2008, the ALSCO Metals Corporation Hourly Savings Plan was restated and participant accounts and investments were transferred to the Plan, the Aleris International, Inc. 401(k) Plan for International Association of Machinists & Aerospace Workers Lodge 10 (Richmond), or the Aleris International, Inc. 401(k) Plan for United Steelworkers of America Local 7993 (Ashville).

### Plan Administration

Overall responsibility for administering the Plan rests with the Plan Sponsor's Benefits Committee, which is appointed by the Board of Directors of the Company. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company and Principal Life Insurance Company, on behalf of Union Bond and Trust Company, (collectively, the "Trustees"), are the trustees of the Plan and are responsible for the management and control of the Plan's assets.

### Contributions

An employee may contribute up to 50% of their total compensation to the Plan on a pretax basis but may not exceed certain Internal Revenue Service ("IRS") maximum amounts. The maximum amount was $16,500 in 2009 and $15,500 in 2008. Employees who were 50 years of age or older by the end of the Plan year, and were making the maximum elective contribution for the year, were eligible to make additional pretax contributions ("Catch-up Contributions") of up to $5,500 in 2009 and $5,000 in 2008. Catch-up Contributions are not matched by the Company. The Plan also provides that participants may roll over all or part of a qualified total distribution from another tax-qualified plan.

Matching contributions for participants is an amount equal to 50% of the first 10% of an employee's salary deferral contributions. The Company also contributes an amount equal to 2.5% of an employee's compensation, as defined in the Plan document. These contributions are determined each payroll period.

### Vesting Provision

Participants are immediately vested in their employee contributions and actual earnings thereon. Participants do not vest in employer contributions until completion of three years of service, at which time they are 100% vested.

**Participant Accounts**

Each participant's account is credited with the participant's contribution, employer contributions, rollover contributions, and allocations of actual earnings thereon. Participants direct their accounts into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Loans to Participants**

The Plan permits participants to borrow from their account a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. Loans must be paid through payroll deductions over a period of time not to exceed five years, unless used for the purchase of a primary residence. The interest rate for all loans is equal to a reasonable fixed rate as determined by the loan administrator. A loan is deemed to be in default if principal and interest are not paid in 90 days after the loan payment is due.

**Forfeited Accounts**

Forfeited balances are used: first, to restore participant's forfeitures; second, to reduce future Company contributions; and, third, to reduce expenses of the Company incurred in the operation of the Plan. There was $14,593 and $10,723 remaining in the forfeiture account as of December 31, 2009 and 2008, respectively. $825 of forfeited balances was used to reduce Company contributions and administrative expenses during the year ended December 31, 2009.

**Withdrawals During Employment**

A participant may withdraw any part of their vested account resulting from voluntary contributions or rollover contributions during the year. A participant who has attained age 59 ½ may withdraw any part of their vested account that results from elective deferral contributions or matching contributions at any time. A participant may make only two such withdrawals in any calendar year. A participant may withdraw any part of their vested account that results from elective deferral contributions in the event of financial hardship due to an immediate and heavy financial need. The hardship withdrawal shall be authorized only for an immediate and heavy financial need limited to medical expenses, educational expenses for the next 12 months of post-secondary education for the participant, purchase of, or prevention of foreclosure upon a participant's home or any other distribution that is deemed by the Commissioner of the IRS to be made on account of immediate and heavy financial need.

**Benefits Provision**

When a participant reaches normal retirement at the age of 65, becomes disabled or is deceased, the full value of the account balance is payable to the participant (or beneficiary, if the participant is deceased). The forms of payment available include annuities, installments and lump-sum payments.

**Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, all participant accounts shall be fully vested and nonforfeitable.

## 2. Significant Accounting Policies

### Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting. Subsequent events have been evaluated through October 11, 2010, which represents the date the financial statements were available to be issued.

### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

### Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

### Investment Valuation and Income Recognition

Investments held by the Plan are recorded at fair value under Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, using quoted market prices and significant other observable and unobservable inputs. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Pooled separate accounts and common trust fund: Valued at fair value estimated by the issuer, which has been determined based on the unit values of the fund which are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end based on quoted market prices.

Loans to participants: Valued at amortized cost, which approximates fair value.

The Plan invests in the Principal Stable Value Fund (the "Fund"). The Fund invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

The Plan invests in various pooled separate accounts (refer to Note 3 for a list of investments grouped by major investment strategy). A transfer of these investments is limited to one transfer per time period ranging from thirty to sixty days.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Benefit Payments**

Benefits are recorded when paid.

**New Accounting Pronouncements**

In April 2009, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly* ("FSP 157-4"). FSP 157-4 amended FASB Statement No. 157 (codified in ASC 820) to provide additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to its normal market activity. FSP 157-4 also provided additional guidance on circumstances that may indicate that a transaction is not orderly and on defining major categories of debt and equity securities to comply with the disclosure requirements of ASC 820. The Plan adopted the guidance in FSP 157-4 for the reporting period ended December 31, 2009. Adoption of FSP 157-4 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events,* which was codified in ASC 855, *Subsequent Events*, to provide general standards of accounting for and disclosure of events that occur after the balance sheet date, but before financial statements are issued or are available to be issued. ASC 855 was amended in February 2010. The Plan has adopted the amended accounting principles within ASC 855, as required.

In September 2009, the FASB issued Accounting Standards Update 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2009-12"). ASU 2009-12 amended ASC 820 to allow entities to use NAV per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the net asset value is calculated in a manner consistent with investment company accounting. The Plan adopted the guidance in ASU 2009-12 for the reporting period ended December 31, 2009, and has utilized the practical expedient to measure the fair value of investments within the scope of this guidance based on the investment's NAV. In addition, as a result of adopting ASU 2009-12, the Plan has provided additional disclosures regarding the nature and risks of investments within the scope of this guidance. Adoption of ASU 2009-12 did not have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In January 2010, the FASB issued ASU 2010-06, *Improving Disclosures about Fair Value Measurements* ("ASU 2010-06"). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Plan management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"), which is effective for plan years ending after December 15, 2010. The new standard will require that participant loans be classified as notes receivable for GAAP purposes and measured at unpaid principal balance plus accrued but unpaid interest. Currently these participant loans are classified as plan investments, and are subject to the fair value measurement and disclosure requirements of ASC 820. Adopting this new standard will eliminate the need to calculate fair values and present disclosures for these loans in accordance with ASC 820. Plan management is currently evaluating the effect that the provisions of ASU 2010-25 will have on the Plan's financial statements.

**3. Investments**

All investment information disclosed in the accompanying financial statements and supplemental schedules including investments held at December 31, 2009 and 2008, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2009, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by the Trustees.

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

| | December 31, 2009 | December 31, 2008 |
|---|---|---|
| Investments at estimated fair value: | | |
| Stable Value Fund | $ 1,539,364 * | $ 1,557,400 * |
| Bond and Mortgage Separate Account | 168,887 | 147,718 |

* This amount represents fair value for this investment. Contract value was $1,529,033 at December 31, 2009, and $1,633,671 at December 31, 2008.

During the year ended December 31, 2009, the Plan's investments appreciated in fair value as follows:

**5. Tax Status**

The IRS determined and informed the Company by a letter dated February 14, 2005, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The Plan was amended and restated since the date of the determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain qualification. The Plan administrator believes the Plan, in all material respects, is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

**6. Transactions with Parties in Interest**

Several investments of the Plan are investment funds managed by the Trustees. Purchases and sales of investment units of such funds qualify as party-in-interest transactions, as defined by ERISA. Loans to participants are also considered party-in-interest transactions as such participants are employed by the Plan Sponsor.
