Independent Auditor's Report

To the Trustees
Magid Glove and Safety Manufacturing Company, LLC 401(k) Profit Sharing Plan
Chicago, Illinois

We have audited the accompanying statements of net assets available for benefits of Magid Glove and Safety Manufacturing Company, LLC 401(k) Profit Sharing Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the year ended December 31, 2009, in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions as of and for the year ended December 31, 2009, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the United States Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Note 1. Description of the Plan

The following description of the Magid Glove and Safety Manufacturing Company, LLC 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan, as most recently amended and restated on January 1, 2009, is a defined contribution plan maintained for the benefit of all eligible employees of Magid Glove & Safety Manufacturing Co., L.L.C. (the Sponsor). The Sponsor is the Plan Administrator.

The Plan conforms to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and has been approved as being exempt by the Internal Revenue Service (IRS).

Charles Schwab Trust Company (CSTC) and Charles Schwab & Co., Inc. (CSC) are the custodians of the participant-directed and nonparticipant directed investments of the Plan, respectively. The third party administrator and recordkeeper of the Plan is Shore Tompkins Actuarial Services, LLC (Shore) and ASPire, Inc. (ASP), respectively.

Eligibility: Employees become eligible to participate in pre-tax contributions to the Plan on his or her date of hire provided the employee is not covered by a collective bargaining agreement, is not a nonresident alien, is not a leased employee or independent contractor, or is not employed by an affiliated employer.

Participants are eligible for Sponsor contributions following the completion of one year of service (at least 1,000 hours), as defined, and upon being actively employed on the last day of the plan year.

Contributions: The Plan provides for the following contributions which are to be maintained in separate accounts:

1. Participants:

   A. Salary deferrals: Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined by the Plan, up to the maximum amount allowed by the Internal Revenue Code (IRC).

   B. Catch-up deferrals: Participants who are at least 50 years of age may elect to make catch-up deferrals up to the maximum allowed by the IRC.

   C. Rollover and transfer contributions: Participants may also contribute amounts representing distributions from another qualified plan.

2. Sponsor:

   A. Matching contributions: The Plan provides for an employer discretionary matching contribution on behalf of each participant in an amount equal to a percentage, as determined annually by the Sponsor's board of directors, of the participants' deferral contributions during the plan year. The matching contribution percentage for the year ended December 31, 2009 was 25 percent of salary deferral contributions, not to exceed $500. Matching contributions for the year ended December 31, 2009 were $73,870.

Note 1. Description of the Plan (Continued)

B. Discretionary contributions: The Sponsor may, at the discretion of its Board of Directors, make discretionary contributions to be allocated to participants in proportion to the participant's compensation. There were no discretionary contributions for the year ended December 31, 2009.

C. Special contributions: The Sponsor shall make a nonelective contribution to selected non-highly compensated participants. Special contributions for the year ended December 31, 2009 were $214,931.

All sponsor contributions are subject to certain limitations imposed by the IRC.

Vesting: Participants are immediately vested in their salary deferral, sponsor matching and special, and rollover contribution accounts and earnings thereon. Participant balances in the Sponsor's discretionary contribution account and earnings thereon vest based on years of service according to a graduated vesting schedule ranging from a minimum of 20 percent for three years of service to full vesting after six years of service. Participant are immediately fully vested upon normal retirement (age 62), death or permanent disability.

Forfeitures: In the event of termination of employment before full vesting, the nonvested portion of a participant's account is treated as forfeitures. The amount of the participant's accounts forfeited will be reinstated provided the participant resumes employment prior to incurring a "break in service" (as defined). Amounts forfeited during the year are first used to restore any prior forfeitures in the event of a former participant's return to employment, and then can be used for payment of plan expenses, or allocated to participants eligible to share in the Employer discretionary profit sharing contribution in the same proportion that their compensation bears to the total compensation of all such participants. Forfeitures reallocated to participant accounts for the years ended December 31, 2009 and 2008 approximated $19,900 and $6,400, respectively. Unallocated forfeitures amounted to approximately $900 and $800, respectively, at December 31, 2009 and 2008.

Participant accounts: Each participant's account is credited with participant contributions, the Sponsor's matching, discretionary and special contributions, forfeitures, and plan earnings. Additionally, each participant's account is charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Participants' contributions are credited to their respective accounts, as directed, as soon as practicable, after receipt. Investment income is allocated daily.

Investment options: Upon enrollment in the Plan, participants may direct their contributions and the Sponsor's matching contributions into a variety of investment options held in the custody of CSTC. Participants may change their investment options on a daily basis. Sponsor special and discretionary contributions are not participant-directed and held in the custody of CSC.

Note 1. Description of the Plan (Continued)

Participant loans: Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000, minus their highest outstanding loan amount during the prior 12 months, but no more than 50 percent of their vested account balance. A participant may have two loans outstanding at any given time. Both vested participant-directed and vested nonparticipant-directed balances are eligible for participant loans. Loan proceeds are taken from the vested participant-directed balances first with any additional proceeds being supplemented by the vested nonparticipant-directed balances. Loans are considered a directed investment of the participant and, as such, all interest earned on the loan is credited to the participant's account. The loans are secured by the balance in the participant's account. The interest rate charged on loans is equal to the prime rate or a reasonable rate as determined by the Sponsor's review of interest rates charged for similar types of loans by other lenders. The interest rates on outstanding loans ranged from 3.25 percent to 9.25 percent and 4 percent to 10.5 percent at December 31, 2009 and 2008, respectively. Principal and interest are paid ratably over one to five years (except for loans used to acquire personal residences that may mature beyond five years) through periodic payroll deductions.

Payment of benefits: On termination of service due to death, disability, retirement or other reasons, the Plan provides for payment of vested benefits in the form of a lump-sum distribution or in the form of a life annuity contract. In addition, distributions may be made from the Plan in cases of financial hardship as determined by the Plan. Benefits owed to terminated participants are included in net assets available for benefits. At December 31, 2009 and 2008, there were no amounts owed to former participants whose employment had been terminated and who requested payouts of their account balances.

Cash: At times during the year, the Plan maintains cash balances in excess of Federal Deposit Insurance Corporation insured limits. The Sponsor does not believe the Plan is exposed to any significant credit risk.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting policies: The Plan follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of net assets available for benefits and changes in net assets available for benefits. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the *FASB Accounting Standards Codification*™, sometimes referred to as the Codification or ASC. The Codification is effective for periods ending on or after September 15, 2009.

Use of estimates: In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment valuation: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion regarding fair value measurements.

Income recognition: Purchases and sales of investments are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: Administrative expenses directly attributable to a participant such as loan fees and withdrawal fees are paid by the participant. Other administrative expenses are paid with forfeitures, plan assets or by the Sponsor.

Income taxes: The FASB issued new guidance on accounting for uncertainty in income taxes. The Plan adopted this new guidance for the year ended December 31, 2009. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements (Note 10). Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2006.

New accounting pronouncement: In September 2009, the FASB issued an amendment, *Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* (ASU 2009-12), which provides guidance on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) per share as a practical substitute, when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical substitute was used. This amendment was effective for periods ending after December 15, 2009. The adoption of the provisions did not have a material impact on the financial statements.

Pending accounting pronouncements: In January 2010, the FASB issued ASU 2010-6, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these charges. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. These amendments have not been adopted. Management is currently evaluating the potential impact of the guidance related to disclosures in the financial statements.

In September 2010, the FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment is effective for periods ending after December 15, 2010. This amendment requires retrospective application to all periods presented. This amendment has not yet been adopted. Management is currently evaluating the potential impact of the guidance related to disclosures in the financial statements.

Subsequent events: The Sponsor has evaluated subsequent events for potential recognition and/or disclosure through October 13, 2010, the date the financial statements were issued.

Note 3. Fair Value Measurements

Accounting guidance on fair value measurements and disclosures defines fair value, establishes a framework for measuring the fair value of assets and liabilities using a hierarchy system, and expands disclosures about fair value measurement. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts business.

The Plan's statement of net assets available for benefits contains plan investments and participant loans that are recorded at fair value on a recurring basis. The three-level valuation hierarchy for disclosure of fair value is as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

When available, quoted market prices are used to determine the fair value of investments held in the Plan, and such items are classified within Level 1 of the fair value hierarchy. An example is mutual funds with available market prices. A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. The level to which an asset or liability is classified is based upon the lowest level of input that is significant to the fair value measurements. There have been no changes in valuation methodologies at December 31, 2009, compared to December 31, 2008.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Reported at fair value based on the quoted market price of the fund which represents the NAV of the shares held by the Plan at year-end.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mortgage-backed securities, foreign bonds, and U.S. Government securities: Valued at the closing price reported on the appropriate market on which the individual securities are traded. Inputs to the valuation methodology may be unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access, quoted prices for similar assets in active markets or quoted prices for identical or similar assets in inactive markets at year-end.

Note 3. Fair Value Measurements (Continued)

Collective investment trusts: Valued at fair value, which represents the NAV of shares held by the Plan, as determined by the investment advisor using the audited financial statements of the collective trust funds at year-end.

Certificates of deposit: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer at year-end.

Money Market Funds: Valued at $1 per share owned at year-end.

Participant loans: Valued at amortized cost, which approximates fair value at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009:

Money market funds	3,050
Certificates of deposit	27,399
	$ 1,081,598

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participants accounts and distributed in such manner as the Sponsor may determine.

Note 6. Income Tax Status

The Sponsor maintains a Volume Submitter Cash or Deferred Profit Sharing Plan. The volume submitter cash plan has received an opinion from the IRS as to the Plan's qualified status on March 31, 2008 which stated that the Plan and related trust were designed in accordance with the applicable sections of the IRC. The opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. However, the Trustees of the Plan and the Sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt.

Note 7. Related-Party and Party-in-Interest Transactions

Plan investments are held by CSTC and CSC, the custodians of the Plan and, therefore, these transactions are considered to be party-in-interest transactions. Fees paid by the Plan for investment management and other administrative expenses aggregated $91,714 in 2009. The Sponsor pays certain investment and administrative expenses of the Plan. In addition, certain administrative functions are performed by trustees or employees of the Sponsor for which no compensation is received from the Plan.

Note 8. Risks and Uncertainties

The Plan provides for various investment options. These investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits at December 31, 2009.

Note 9. Prohibited Transactions

The Sponsor has concluded that during 2009, $140,176 of salary deferrals and loan repayments were not deposited within the period required under the U.S. Department of Labor's (DOL) regulations. The DOL considers late deposits to be nonexempt (prohibited) party-in-interest transactions. Lost earnings on the deposits will be calculated and deposited into the trust. The Sponsor will file Form 5330 and pay the applicable excise tax to the IRS. The excise tax payments will be made from the Sponsor's assets and not from the assets of the Plan.

The Sponsor has concluded that during 2008, $130,205 of salary deferrals and loan repayments were not deposited within the period required under the U.S. DOL regulations. Lost earnings on the deposits will be calculated and deposited into the trust. The Sponsor will file Form 5330 and pay the applicable excise tax to the IRS. The excise tax payments will be made from the Sponsor's assets and not from the assets of the Plan.

Note 10. Department of Labor Compliance

By letter dated May 24, 2010, the Plan Sponsor received communication from the U.S. DOL that based on review of the Plan's 2008 Form 5500 filing, it appears that the Plan's sponsor failed to remit participant contributions to the Plan within the time period proscribed by DOL Regulation 29 CFR 2510.3-102. In response to the letter, the Plan Sponsor has engaged a professional services firm to assist in the computation and restoration of lost earnings. Through self correction, by following DOL guidance, the Plan Sponsor believes the Plan will be brought into compliance. The Plan Sponsor is in the process of having lost earnings calculated. Upon completion, the Sponsor will remit such amount to the Plan from Plan Sponsor assets during 2010. The Plan Sponsor does not believe that this failure has jeopardized the tax exempt status of the Plan.
