The Plan is a defined contribution plan covering all employees of PRP Wine International, Inc. (the "Sponsor"), PRP Wines of Massachusetts, PRP Wine, Inc., and International Wine Market, Inc. who have at least 6 months of qualified service and are 21 years old or older. The Plan became effective on January 1, 2005 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions
Each year, participants may contribute up to 90% of eligible compensation, as defined by the Plan. For any calendar year, elective deferrals may not exceed a specific dollar amount determined under the Internal Revenue Code ("IRC"). The Sponsor may, at its sole discretion, contribute and allocate to each eligible participant's account a percentage of the participant's elective deferrals. For the year ended December 31, 2009, the Sponsor did not make a discretionary contribution. The Plan also allows participant rollover contributions.

Investment options
The Plan's assets were held by JP Morgan Chase Bank (the "Custodian") for the year ended December 31, 2009. Under an arrangement with the Custodian and upon enrollment in the Plan, a participant may direct employee contributions in any whole percentage increments in any of the available funds. Participants may change their allocation to the various investment options at any time via telephone or the internet.

Participant accounts
Individual accounts are maintained for each participant. Each participant designates the investment funds into which contributions are deposited. Each participant's account is credited with the contributions made on his or her behalf and the earnings and losses of the investments chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's discretionary contributions and actual earnings thereon is based on years of qualifying service. A participant is 100% vested after 3 years of credited service.

Forfeited accounts
Forfeited non-vested accounts can be used to reduce employer matching contributions to the Plan in the years following the Plan year in which the forfeiture occurs. There were no forfeitures for the year ended December 31, 2009.

Participant loans
Participants may borrow from their fund accounts a minimum of $500 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years, except for loans used to acquire a primary residence which can be paid back over a maximum of 30 years. The loans are secured by the balance in the participant's account and bear interest at a rate established by the Custodian based on an acceptable Internal Revenue Service ("IRS") rate at the time of the loan. Principal

and interest are paid ratably through periodic payroll deductions. At December 31, 2009 and 2008, the interest rates ranged between 5.0% and 10.25%. A participant may have a maximum of one loan outstanding at any time for a principal residence and one loan for other purposes.

Payment of benefits
Benefit payments are made to the participant either in a lump-sum payment or in equal installment payments over a period of years approximating the participant's remaining life expectancy. Distributions are not permitted before age 65 except for participant loans, or in the event of early retirement, death, disability, termination of employment, or reasons of proven financial hardship, as defined by the Plan. A terminated participant whose vested account balance does not exceed $1,000 will receive a lump sum distribution of the vested account balance immediately following termination.

Administrative expenses
The Sponsor absorbs the costs of Plan administration.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for plan benefits present the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of benefits
Benefits are recorded when paid.

Investment valuation and income recognition
Under the terms of a trust agreement between the Custodian and the Plan, the Custodian manages a trust fund on behalf of the Plan which includes all Plan investments. The information on the investments and changes in investments of the Plan was certified to be complete and accurate by the Custodian. The Plan's investments are stated at fair value. See Note 3 for further discussion of fair value. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at amortized cost, which approximates fair value. The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Interest is recorded when earned. Net appreciation/depreciation in the fair market value of mutual funds includes interest, dividends and net unrealized and realized gains and losses on investments bought, sold and held during the year.

Subsequent events

The Sponsor has evaluated subsequent events through October 7, 2010, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the year ended December 31, 2009.

- Collective trust: Valued at the net asset value ("NAV") of the underlying investments maintained in the Collective trust.
- Mutual funds: Valued at the NAV of shares held by the Plan at year end.
- Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Sponsor believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

4. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Custodian, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedule.

The following information included in the Plan's financial statements and supplemental schedule was prepared and certified to as complete and accurate by the Custodian as of December 31, 2009 and 2008, and for the year ended December 31, 2009:

The Custodian also certified all information included in Schedule H, line 4*i* – schedule of assets (held at end of year) except for participant loan information.

The fair values of investments that represent 5% or more of the Plan's net assets available for plan benefits as of December 31, 2009 or 2008 are as follows:

5. RELATED PARTY TRANSACTIONS

The Sponsor incurred costs on behalf of the Plan for insurance, custodial fees and accounting costs during the year ended December 31, 2009. The Sponsor also provides recordkeeping and administrative services to the Plan at no cost.

6. TAX STATUS

The Plan utilizes a prototype plan document sponsored by Automatic Data Processing ("ADP"). ADP received a letter from IRS, dated March 31, 2008, in which the IRS opined that the prototype plan is acceptable under the applicable sections of IRC.

The Plan has not obtained a determination from the IRS on its adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2002-6, the Sponsor has chosen to rely on the opinion letter of the prototype plan. Subsequent to this opinion letter, the prototype plan was amended, however, the Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, is qualified, and the related trust is tax exempt.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

9. RECONCILIATION OF FORM 5500 TO THE FINANCIAL STATEMENTS

The following is a reconciliation of net assets available for plan benefits per Form 5500 to the financial statements as of December 31, 2009 and 2008:

	2009	2008

10. SUBSEQUENT EVENTS

Effective January 1, 2010, the Sponsor entered into a new trust agreement with Fidelity Management Trust Company. The Plan assets were transferred to the new custodian on January 04, 2010.

Effective January 1, 2010, the Sponsor adopted a prototype plan sponsored by Fidelity. The new adoption agreement is substantially the same as the previous agreement except that the eligibility requirement was increased from 6 to 12 months of service.
