401(K) PLAN

FINANCIAL STATEMENTS AND SUPPLEMENTAL SCHEDULE

DECEMBER 31, 2009 AND 2008

Independent Auditors' Report

To the Trustees
Group One Trading, L.P. 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Group One Trading, L.P. 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule, Schedule H, line 4i-Schedule of Assets Held (At End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by JPMorgan Chase Bank, N.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2009, and 2008 and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Group One Trading, L.P. 401(k) Plan
Notes to Financial Statements
December 31, 2009 and 2008

1. Plan Description

The following description of the Group One Trading, L.P. 401(K) Plan (the "Plan"), provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

Effective December 31, 2009, the Plan liquidated all investments (except the participant-directed brokerage accounts) due to a change in custodian. The cash received upon liquidation is reflected on the statement of net assets available for benefits at December 31, 2009 and was transferred to a new custodian on January 4, 2010 (see Note 9).

General

The Plan is a defined contribution plan covering substantially all employees of Group One Trading, L.P. (the "Firm"). Such employees are eligible to participate in the Plan on the first day of the month following the first day of their employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may defer up to 90 percent of their pretax annual compensation, as defined in the Plan Agreement, subject to Internal Revenue Code Section 415(d) limitations ($16,500 for 2009 and $15,500 for 2008). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. During each Plan year, the Firm may contribute a discretionary percentage of a participant's contributions to the Plan if the participant is employed with the Firm on the last day of the Plan year or if the participant has completed at least 500 hours of service that Plan year. During 2009, the employer did not make matching contributions.

Participants' Accounts

Each participant's account is credited with the participant's contribution, the Firm's contributions, if any, and Plan earnings. Plan earnings are allocated based on a participant's account balance in proportion to the balances of all participants' account balances in each investment. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants may elect to have their accounts invested in anyone or a combination of various shares of registered investment companies, common collective trusts, or participant-directed brokerage accounts. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. A participant's portion of the Firm's matching contribution plus actual earnings thereon is vested 20 percent for each year of credited service. A participant is fully vested after five years of credited service, or upon death, disability, or normal retirement.

1. Plan Description (continued)

Loans to Participants

Participants may borrow from their accounts a minimum of $500 up to the lesser of 50 percent of their vested account balance or $50,000 reduced by the highest outstanding loan balance during the prior twelve-month period. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a primary residence. A participant may only have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1 percent at loan inception (ranging from one percent to 9.25 percent during 2009). Principal and interest is paid ratably through monthly payroll deductions.

Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or installments over a period of not more than the participant's and/or beneficiary's life expectancies. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution or installment payments, or leave the funds in the Plan until a later date.

Forfeited Accounts

Forfeited nonvested accounts may be used to reduce employer matching contributions and pay costs related to Plan administration. The Firm applied forfeiture balances of $10,541 in 2009 towards the contributions for 2008.

Administrative Expenses

Investment advisory and portfolio management fees are paid by the Plan. Other significant costs are paid by the Firm.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

The Plan invested in investment contracts through some common collective trusts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan applicable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contact as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared in a contract value basis.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Investment Transactions

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The Plan reports its securities at fair value, which GAAP defines as the price, not adjusted for transaction costs, to exit a position in an orderly transaction between market participants in the principal or most advantageous market for the security at the measurement date. Management need not identify specific market participants in developing its assumptions about the fair value of a particular security. Accordingly, the determination of fair value is based on a hypothetical transaction at the measurement date.

GAAP establishes a hierarchy that prioritizes the inputs used to measure fair value. Observable inputs are independent market data such as an exchange quotation. Unobservable inputs are management's own assumptions, developed based on the best information available in the circumstances, used to price an investment in the absence of an observable input. Investments are categorized based on the lowest level of input significant to the fair value measurement, as follows:

Group One Trading, L.P. 401(k) Plan
Notes to Financial Statements
December 31, 2009 and 2008

3. Fair Value Measurements (continued)

Level 1 consists of investments that the Plan is able to sell at the measurement date and for which observable market quotations are readily available in active markets that it has the ability to access. A quoted price in an active market is used to measure fair value whenever available. An active market is a market in which transactions for the investment occur with sufficient frequency and volume to provide pricing information on an ongoing basis. The determination of which constitutes an active market is a matter of judgment.

Level 2 includes quoted prices for similar investments in active markets, quoted prices for identical or similar investments in markets that are not active, inputs other than quoted prices that are observable for the investment and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 consists of significant unobservable data used when there is little or no market activity and reflects management's own assumptions about how market participants would value an investment.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

Registered investment companies are valued at the net asset value of shares held by the Plan at year end and are categorized in level 1.

Common collective trusts are valued at the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value and are categorized in level 2.

Participant-directed brokerage accounts are valued at the closing price reported on the active market on which the individual securities are traded and are categorized in level 1.

Participant loans are valued at amortized cost and categorized in level 3.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The level of input used in valuation is not necessarily an indication of the risk associated with investing in those investments.

Notes to Financial Statements
December 31, 2009 and 2008

3. Fair Value Measurements (continued)

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the year ended December 31, 2009:

Loans to participants at beginning of year	$	48,490
Net issuances and settlements		(48,490)
Loans to participants at end of year	$	-

4. Information Certified by the Plan's Custodian

At December 31, 2009 and 2008, the Plan's investments were held by JPMorgan Chase Bank, N.A. (the "Custodian"). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian, as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

	December 31

4. Information Certified by the Plan's Custodian (continued)

Investments representing more than 5 percent of the Plan's net assets at December 31, 2009 and 2008 are as follows:

	December 31	
	2009	2008
Common collective trusts:		
Invesco Retirement Trust Stable Value Fund	$ -	$ 1,999,544
SSgA S&P 500 Index Fund	-	1,033,791
Registered investment companies:		
MFS Massachusetts Investors Growth Stock Fund	-	749,283
Oppenheimer Global Fund	-	614,456
Baron Growth Fund	-	492,680
Franklin Small-Medium Cap Growth Fund	-	508,708

5. Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

6. Income Tax

The Plan, through its adoption of a prototype plan from Automatic Data Processing ("ADP"), has obtained a determination letter issued to ADP from the Internal Revenue Service, dated May 3, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this Plan will be considered to have a plan qualified under the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since the receipt of the determination letter; however, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

7. Related Party Transactions

Certain employees of the Firm provide administrative service to the Plan. These employees are not compensated by the Plan for their service.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets per the financial statements at December 31, 2009 and 2008 to Form 5500:

	2009	2008
Net assets per the financial statements	$ 11,311,060	$ 8,898,774
Forfeited nonvested accounts	-	5,652
Interest in common collective trust relating to fully benefit-responsive investment contract	-	91,338
Adjustment from fair value to contract value for interest in common collective trust relating to fully benefit-responsive investment contracts	-	(91,338)
Net assets per the Form 5500	$ 11,311,060	$ 8,904,426

9. Subsequent Events

The Plan has evaluated subsequent events through October 14, 2010, the date the financial statements were available to be issued. With the exception of the matters listed below, there were no material subsequent events that required disclosure in these financial statements.

Effective January 4, 2010, Bank of America, N.A. became the Plan administrator and Merrill Lynch Trust Company became the custodian.

We were engaged to audit the accompanying statements of net assets available for benefits of Group One Trading, L.P. 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009 and the supplemental schedule, Schedule H, line 4i-Schedule of Assets Held (At End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by JPMorgan Chase Bank, N.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2009, and 2008 and for the year ended December 31, 2009, that the information provided to the Plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of the Group One Trading, L.P. 401(K) Plan (the "Plan"), provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

Effective December 31, 2009, the Plan liquidated all investments (except the participant-directed brokerage accounts) due to a change in custodian. The cash received upon liquidation is reflected on the statement of net assets available for benefits at December 31, 2009 and was transferred to a new custodian on January 4, 2010 (see Note 9).

General

The Plan is a defined contribution plan covering substantially all employees of Group One Trading, L.P. (the "Firm"). Such employees are eligible to participate in the Plan on the first day of the month following the first day of their employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may defer up to 90 percent of their pretax annual compensation, as defined in the Plan Agreement, subject to Internal Revenue Code Section 415(d) limitations ($16,500 for 2009 and $15,500 for 2008). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. During each Plan year, the Firm may contribute a discretionary percentage of a participant's contributions to the Plan if the participant is employed with the Firm on the last day of the Plan year or if the participant has completed at least 500 hours of service that Plan year. During 2009, the employer did not make matching contributions.

Participants' Accounts

Each participant's account is credited with the participant's contribution, the Firm's contributions, if any, and Plan earnings. Plan earnings are allocated based on a participant's account balance in proportion to the balances of all participants' account balances in each investment. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants may elect to have their accounts invested in anyone or a combination of various shares of registered investment companies, common collective trusts, or participant-directed brokerage accounts. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. A participant's portion of the Firm's matching contribution plus actual earnings thereon is vested 20 percent for each year of credited service. A participant is fully vested after five years of credited service, or upon death, disability, or normal retirement.

1. Plan Description (continued)

Loans to Participants

Participants may borrow from their accounts a minimum of $500 up to the lesser of 50 percent of their vested account balance or $50,000 reduced by the highest outstanding loan balance during the prior twelve-month period. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a primary residence. A participant may only have one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1 percent at loan inception (ranging from one percent to 9.25 percent during 2009). Principal and interest is paid ratably through monthly payroll deductions.

Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or installments over a period of not more than the participant's and/or beneficiary's life expectancies. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution or installment payments, or leave the funds in the Plan until a later date.

Forfeited Accounts

Forfeited nonvested accounts may be used to reduce employer matching contributions and pay costs related to Plan administration. The Firm applied forfeiture balances of $10,541 in 2009 towards the contributions for 2008.

Administrative Expenses

Investment advisory and portfolio management fees are paid by the Plan. Other significant costs are paid by the Firm.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

The Plan invested in investment contracts through some common collective trusts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan applicable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contact as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared in a contract value basis.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Investment Transactions

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The Plan reports its securities at fair value, which GAAP defines as the price, not adjusted for transaction costs, to exit a position in an orderly transaction between market participants in the principal or most advantageous market for the security at the measurement date. Management need not identify specific market participants in developing its assumptions about the fair value of a particular security. Accordingly, the determination of fair value is based on a hypothetical transaction at the measurement date.

GAAP establishes a hierarchy that prioritizes the inputs used to measure fair value. Observable inputs are independent market data such as an exchange quotation. Unobservable inputs are management's own assumptions, developed based on the best information available in the circumstances, used to price an investment in the absence of an observable input. Investments are categorized based on the lowest level of input significant to the fair value measurement, as follows:

Group One Trading, L.P. 401(k) Plan
Notes to Financial Statements
December 31, 2009 and 2008

3. Fair Value Measurements (continued)

Level 1 consists of investments that the Plan is able to sell at the measurement date and for which observable market quotations are readily available in active markets that it has the ability to access. A quoted price in an active market is used to measure fair value whenever available. An active market is a market in which transactions for the investment occur with sufficient frequency and volume to provide pricing information on an ongoing basis. The determination of which constitutes an active market is a matter of judgment.

Level 2 includes quoted prices for similar investments in active markets, quoted prices for identical or similar investments in markets that are not active, inputs other than quoted prices that are observable for the investment and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 consists of significant unobservable data used when there is little or no market activity and reflects management's own assumptions about how market participants would value an investment.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008:

Registered investment companies are valued at the net asset value of shares held by the Plan at year end and are categorized in level 1.

Common collective trusts are valued at the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value and are categorized in level 2.

Participant-directed brokerage accounts are valued at the closing price reported on the active market on which the individual securities are traded and are categorized in level 1.

Participant loans are valued at amortized cost and categorized in level 3.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The level of input used in valuation is not necessarily an indication of the risk associated with investing in those investments.

3. Fair Value Measurements (continued)

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The following table sets forth a summary of changes in fair value of the Plan's level 3 assets for the year ended December 31, 2009:

Loans to participants at beginning of year	$	48,490
Net issuances and settlements		(48,490)
Loans to participants at end of year	$	-

4. Information Certified by the Plan's Custodian

5. Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

6. Income Tax

The Plan, through its adoption of a prototype plan from Automatic Data Processing ("ADP"), has obtained a determination letter issued to ADP from the Internal Revenue Service, dated May 3, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this Plan will be considered to have a plan qualified under the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since the receipt of the determination letter; however, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.
