Notes to Financial Statements

1. Description of Plan:

The following description of Employees' Pension Plan of Armstrong Pumps, Inc. (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General:

The Plan is a defined contribution plan covering substantially all full-time employees of Armstrong Pumps, Inc. (the Company). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions:

Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 100 percent of the first 5 percent of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

C. Participant Accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Employer contributions vest over a six-year period.

E. Investment Options:

A participant may direct contributions into a variety of pooled separate accounts or an insurance company general account offered by The Guardian Insurance & Annuity Company, Inc. (Guardian), a trustee of the Plan.

F. Participant Loans:

Participants may borrow from their fund accounts up to the lesser of $50,000 or 50 percent of their account balance. Loan terms range from one to five years or up to 25 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably generally through monthly payroll deductions.

G. Payment of Benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over other allowed periods. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

H. Forfeited Accounts:

At December 31, 2009 and 2008, forfeited nonvested accounts totaled approximately $7,800 and $1,800. Approximately $4,000 and $1,400 was allocated to participants from forfeited nonvested accounts in 2009 and 2008.

2. Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition:

The units of pooled separate accounts and the insurance general account are stated at fair value, as determined by the issuer of the accounts based on the aggregate fair values of the underlying investments. Inputs to the valuation methodology are other significant observable inputs (including quoted prices for similar securities, interest rates, and credit risk). Participant loans are valued at cost which approximates fair value.

The funds held in the insurance company general account are stated at fair value, which approximates contract value. Contract value represents contributions made, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The insurance company may not terminate the contract at any amount less than contract value and is contractually obligated to pay the principal and specified guaranteed interest rate. The minimum guaranteed interest rate under the contract is 3%.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Unrealized appreciation or depreciation on investments is charged or credited to the net assets of the Plan.

Benefit Payments:

Benefits are recorded when paid.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Investments (Unaudited):

In accordance with the Department of Labor's Regulation 2520.103-8, certified "Statements of Account" for the Plan as of and for the years ended December 31, 2009 and 2008 have been provided by Guardian. The plan administrator has obtained certifications from the trustee that such information is complete and accurate at follows:

Statements of Net Assets Available for Benefits - Investments (excluding participant loans).

Statements of Changes in Net Assets Available for Benefits - Investment income (excluding interest on participant loans).

At the discretion of the plan administrator, the majority of administrative expenses have been borne by the Company.

6. Tax Status:

The Internal Revenue Service has issued a favorable determination letter regarding the tax-exempt status of the Plan. Accordingly, no provision has been made for income taxes. The plan believes it is no longer subject to examination by federal or state taxing authorities for years prior to 2006.

7. Subsequent Events:

The Plan has evaluated events and transactions for potential recognition or disclosure in the financial statements through October 8, 2010 (the date the financial statements were available to be issued).

8. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
